U. S. SENATE SELECT COMMITTEE TO STUDY GOVERNMENTAL OPERATIONS WITH RESPECT TO INTELLIGENCE ACTIVITIES (SSC)

Reference is made to SSC requests contained in letter of Senator Frank Church dated November 7, 1975, for materials concerning Martin Luther King, Jr.

The purpose of this memorandum is to effect delivery to the SSC of information and materials in response to requests contained in the above SSC letter.

The attention of the SSC is invited to FBI memorandum dated November 11, 1975, which referred to a highly sensitive oral briefing furnished to Senator Church and selected members of the SSC Staff by FBI personnel on November 5, 1975. This briefing was intended, in part, to serve in lieu of any written information in response to SSC requests for communications documenting Stanley David Levison as a secret member of the Communist Party, USA (CPUSA).

Because of SSC insistence in requesting items to establish factual basis for Levison's secret CPUSA membership, as set forth in referenced SSC letter, our New York office was contacted for documents representing original recordings from Bureau informants concerning Levison. As a result our New York office provided the material which is now being delivered and which has served as a basis for statements in various FBI documents that Levison was a secret member of the CPUSA.

It is noted that referenced SSC letter requested unexcised copies of the February 22, and June 12, 1962, communications from New York which appear to have been the "articulated predicates for the 'cominfil' case." The SSC letter did not identify captions of these communications; nor identify any specific "cominfil case." Therefore, we were unable to locate any pertinent documents bearing these dates in our Headquarters files. At a meeting on November 12, 1975, between SSC Staff Member Michael Epstein and representatives of the Intelligence Division of the FBI, it was agreed that the two documents apparently referred to above are New York airtel dated February 12, 1962, captioned "Dr. Martin Luther King, Jr.; SM-C" and New York letter dated August 21, 1962, captioned "Communist Infiltration of the Southern Christian Leadership Conference; IS-C."

New York airtel dated February 12, 1962, is being delivered with this memorandum among those documents received from our New York office. Excisions in this document are fewer than those made in a copy previously provided the SSC. A copy bearing no or fewer excisions cannot be provided the SSC for reasons made clear during the oral briefing of Senator Church and selected SSC Staff members on November 5, 1975.

It is noted that New York letter dated August 21, 1962, which is being delivered with this memorandum, is not believed to have been previously provided the SSC.

Dear Mr. Shaheen:

I want you to know how much I appreciated the opportunity to meet with you and your associates the other day about the Martin Luther King, Jr. case. It was most helpful to have the benefit of the Bureau's knowledge concerning the background of the case, and I can assure you that we will do everything possible to avoid jeopardizing any sensitive FBI sources or ongoing operations.

I do want to reiterate our need for the specific items set forth in earlier document requests which would presumably establish the factual basis for your conclusion as of various dates in 1962, 1963 and 1964 that Stanley Levison was a "secret member of the Communist Party, USA." Of course in the event that there is no particular document in any of those years wherein Levison was so-identified to the FBI, I think it would be helpful for you to let us know so that we may consider our outstanding requests in that context. Finally, of course, we still need unexcised copies of the February 22 and June 12, 1962 communications from New York which appear to have been the articulated predicates for the "cominfil" case.

Once again, I want to thank you for your time and I look forward to hearing from you further on this subject.

Sincerely,

Frank Church

On 4/9/64, (NY 694-S* made the following observations with regard to the) CP status of STANLEY LEVISON:

LEVISON has been an important Party member for many years (and never at any time differed with the Party with respect to the Party line. His only difference with the Party has been with respect to the fact that in his opinion the Party was not sufficiently "militant" in defending Negro rights. In this respect, he has been to the "left" of the Party. LEVISON's differences with the Party are merely "tactical." He has never criticized the Party, except with respect to the Party's handling of the Negro question. The fact that he does not accept domination by the Party with regard to the MARTIN LUTHER KING movement should not be construed to mean that he has broken with the Party in all respects. The Party today is as anxious to reestablish friendly relations with LEVISON as it was in the past.) SFIO

(It should be noted that LEVISON never has been officially "drummed out" of the Party, nor has anyone ever criticized him for being opposed to the Party's general principles. It further should be noted that according to the CP Constitution, it would require formal expulsion of LEVISON to state that he is officially out of the Party. SFIO

LEVISON never has said anything reflecting that he does not continue to be a CP member. It should be noted that it would be in the interests of the MARTIN LUTHER KING movement, with which he is associated, if he would publicly repudiate the Party, which he has never done. It should be further noted that in an effort to renew friendly relations)

with LEVISON, the Party designated BEN DAVIS to contact LEVISON. LEVISON had always expressed the opinion that BEN DAVIS was the only CP functionary who had a sufficiently "militant attitude" as regards CP activities in behalf of the Negro movement. The fact that DAVIS and LEVISON as yet have not met should not be construed to mean that LEVISON has refused to confer with DAVIS. As NY 694-S* understands the situation, DAVIS has been awaiting contact by LEVISON, and LEVISON similarly has been awaiting contact by DAVIS. Each of these individuals is sufficiently egotistical to expect that the other would make the first move in an effort to establish contact. NY 694-S* believes that probably the reason why DAVIS and LEVISON have not met is that arrangements for their meeting were to be made by LEM HARRIS and that HARRIS has not made the proper efforts to effect a meeting between LEVISON and DAVIS.

SF10

NY 694-S* has never obtained any information reflecting that LEVISON has changed his thinking with regard to Marxism. Even though his present estrangement from the Party might be construed as reflecting he is no longer a CP member, there is no reason to come to the conclusion that LEVISON is no longer an ideological Communist.

JACK talked to LEM HARRIS yesterday who said he contacted STAN LEVENSON by phone and was given a cordial hello which was a change from the past when he was cool.

LEM said he had not seen LEVENSON, tried to call him and would like to see him immediately to which LEVENSON said, "I would like very much to see you but I don't have the time now. I'm leaving and packing for a trip. I will be glad to see you in six weeks."

LEVENSON implied that he was going to Ecuador but LEM doesn't know why. There was no anger shown, and LEVENSON will see LEM when he returns in six weeks.

On 6/13/63, NY 694-S* furnished the following information to SA ALEXANDER C. BURLINSON:

On 6/12/63, LEMENT HARRIS, CPUSA Reserve Fund functionary, told NY 694-S* that in a recent meeting with STANLEY LEVISON, the latter furnished him the following information:

The LEVISONS, particularly STANLEY, are still MARTIN LUTHER KING's "brain trust"--now more than ever before. This is so despite the fact that at a meeting of STANLEY LEVISON, ROY LEVISON, HUNTER PITTS O'DELL, MARTIN LUTHER KING and "the Attorney General's chief assistant", the Attorney General's assistant, pointing to the LEVISONS and HUNTER PITTS O'DELL, stated to MARTIN LUTHER KING, "These men are Party members; watch out for them."

MARTIN LUTHER KING did not "bat an eyelash" upon hearing the Assistant Attorney General's remark, and after the latter left the meeting, those in the group smiled at each other. STANLEY LEVISON said to KING, at this time, "I congratulate you on the way you acted regarding his warning. You are a real Marxist-Leninist. This is how a true Marxist-Leninist acts."

Everything that KING does he first discusses with STANLEY LEVISON and he accepts LEVISON's advice wholeheartedly. KING also wholeheartedly accepts the advice of HUNTER PITTS O'DELL as regards matters within the latter's local jurisdiction.

MARTIN LUTHER KING was asked by a group of newspaper reporters whether he takes orders from "the Communists", and also, whether he took "orders from STANLEY LEVISON." KING's response was that he took orders only from God.

By reason of the fact that the LEVISONS feel that the Party has done little, if anything, to assist the fight

for civil rights for Negroes, and further, since they feel that the Party, as a result of this "do nothing" attitude, has lost prestige, they will no longer permit the Party to dominate or control their activities in the MARTIN LUTHER KING movement. They are severing themselves, financially and in a disciplinary way, from the Party. The LEVISONS and O'DELL are still Party members, but do not desire to be openly "linked up" with the Party. Although they are "disenchanted" with the Party, they are not quitting the Party. With respect to the MARTIN LUTHER KING movement, they will act on their own initiative, and will not accept instructions from the Party.

SF10

LEM HARRIS then advised that the Party, however, still would like to control the MARTIN LUTHER KING movement. BEN DAVIS has been assigned to be "liaison or intermediary" with the LEVISONS and HUNTER PITTS O'DELL. Whether or not the LEVISONS and O'DELL will maintain liaison regarding matters concerning the MARTIN LUTHER KING movement is a matter for them to decide. In view of LEVISON's statement with respect to advising MARTIN LUTHER KING independently of Party instructions, it would seem that DAVIS may not have any success in maintaining liaison with the LEVISONS and HUNTER PITTS O'DELL. The LEVISONS and O'DELL are aware of the fact that BEN DAVIS has been given this assignment by the Party.

SF10

MARTIN LUTHER KING, according to LEM HARRIS, is referred to by such top Party functionaries as GUS HALL, BEN DAVIS, JIM JACKSON and CLAUDE LIGHTFOOT as a "true, genuine, Marxist-Leninist from the top of his head to the tips of his toes." In the Party, the report is that MARTIN LUTHER KING is following a Marxist-Leninist line.

NY 694-S* advised that he asked LEM HARRIS whether or not, to the latter's knowledge, MARTIN LUTHER KING was a member of the CPUSA. LEM HARRIS replied that he did not know.

(When Dr. MARTIN LUTHER KING was invited to address the AFL-CIO convention some time ago, KING, on LEVISON's advice, first obtained approval to do so from A. PHILLIP RANDOLPH, negro labor leader, who, if he had not been consulted in the matter, might have felt that KING's making a speech at the aforesaid convention was a blow to RANDOLPH's prestige.

KING delivered a remarkably effective speech at the AFL-CIO convention, and, as a result, received invitations from numerous labor leaders, including "MC DONALD of Steel," to address their respective unions. As the outstanding champion of negro rights in the country, KING is a powerful political influence, recognized as such by the higher echelons of the Democratic Party. He has access to Attorney General ROBERT KENNEDY and President KENNEDY, who, politically, need KING, particularly in the South, where in cities like Atlanta and New Orleans the negro vote now constitutes the balance of power, and where KING controls the negro vote.

JAMES HOFFA, Teamsters Union "boss" appreciates the political power of KING, particularly the fact that KING can influence the 90,000 negro members of the Teamsters Union. HOFFA invited KING to address the Teamsters Union, and KING accepted the invitation. Knowing that KING is being deferred to by Attorney General KENNEDY, and President KENNEDY, HOFFA requested KING to contact the Attorney General in an effort to influence the latter "to lay off" HOFFA. KING was inclined to do as HOFFA requested, but LEVISON convinced him that to do so would be politically unwise, inexpedient, and likely to be a "boomerang," since the Attorney General would never accede to such a request, particularly in the case of HOFFA.

LEVISON had to steer KING away from another politically hazardous situation. Some months ago OTTO PREMINGER, Hollywood movie director, entered into negotiations with a KING representative for KING to play a part in a picture which PREMINGER would direct. Although PREMINGER's offer was "tempting," since it meant "fast, easy money" for KING's organization, LEVISON realized that for KING to accept the offer would lower the latter's prestige. After convincing KING of this fact, LEVISON personally telephoned to PREMINGER, telling him that "the deal was off.")

NY 100-136585

What LEVISON particularly wanted GUS HALL to knew is that "KING is a wholehearted Marxist, who has studied it (Marxism), believes in it, and agrees with it, but because of his being a minister of religion, does not dare to espouse it publicly."

GUS HALL, according to HARRIS, was "elated" to receive LEVISON's report on LUTHER KING.

BA 969-S advised on 11/22/60, (BA 134-13A-615) that at a National Negro Commission meeting held on 11/19, 20/60, at CP Headquarters, 23 West 26th Street, NYC, TED BASSETT, a representative of "The Worker", stated that the CP is now in the process of placing members of the Party in key positions in the SCLC. BASSETT continued by saying that a Western Conference of the Christian Leadership is now being formed and a CP member is the leader in this conference.

informant

NY 694-S* advised on 5/1/62, that on 4/30/62, ISADORE WOFSY, CP, USA fund functionary, said that according to LEM HARRIS, he was told by STANLEY LEVISON that the CP, USA had sent "an experienced, professional, secret organizer" to New Orleans, who would assist the MARTIN LUTHER KING group there in its fight for political equality of Negroes. LEVISON allegedly told HARRIS that he personally, and not the Party, was financing this organizer. SF10

informant Hosea?

NY 694-S* advised on 5/2/62, that according to LEM HARRIS, the secret CP organizer, whom the CP, USA had sent to New Orleans, was JOSE HUDSON. HARRIS said that HUDSON would be associated with SERGEANT CAULFIELD in Baton Rouge. SF10

Informant

On 7/2/62, NO 1084-S advised that SERGEANT CAULFIELD returned to Baton Rouge, Louisiana, from Atlanta, Georgia, on 5/31/62. Informant said that CAULFIELD stated that he and JOSE HUDSON met HUNTER O'DELL in Atlanta, O'DELL having flown there from NYC.

informant

NO 1084-S stated that CAULFIELD paid CP dues to O'DELL for several CP members from Louisiana. O'DELL had come to Atlanta regarding organization of the MARTIN LUTHER KING movement. O'DELL thought that if an active

MARTIN LUTHER KING movement could be organized in Louisiana, the State Senatorial District where CAULFIELD resides permanently (Lettsworth, Louisiana), CAULFIELD might be furnished as much as $1,000.00 per month to promote this movement. The funds are to come from the MARTIN LUTHER KING movement and the object is to get every eligible Negro to register to vote. CAULFIELD reportedly met MARTIN LUTHER KING, JR., while in Atlanta, and discussed with him the voter registration matter in Louisiana.

On 4/27/62, a pretext telephone call was made to UN 6-2000, which is the NYC listing for the Committee to Defend MARTIN LUTHER KING and also the listing for the SCLC at 312 West 125th Street, NYC. The pretext used was that of a person interested in contributing money to the KING committee. The person answering the phone during the conversation identified himself as JACK O'DELL, and furnished the following information:

His office is the Northern Branch of the SCLC. The Committee to Defend MARTIN LUTHER KING, at 312 West 125th Street, was organized as an "ad hoc" committee to assist in the KING defense, when he was the subject of court action. When the reason for this committee's being in existence was removed, it was formally dissolved. The same personalities them formed the Committee to Aid the Southern Freedom Struggle, which is now operated at 312 West 125th Street.

O'DELL stated that it would make no difference as to whether a person contributing money makes out checks payable to the Committee to Defend MARTIN LUTHER KING, the SCLC or the Committee to Aid the Southern Freedom Struggle, because they are all one and the same.

informant

On 6/1/61, (CG 5824-S*) advised that HUNTER PITTS O'DELL, who was (a secret) member of the National Committee, CP, USA, has quit the CP and is officially considered by the CP as being out. However, there are no hard feelings existing between O'DELL and the Party and he is still on good terms with the CP and will work with them. SF10

EXTREME CAUTION MUST BE EXERCISED WITH RESPECT TO DISSEMINATION OF THE INFORMATION HEREIN, SINCE BY ITS NATURE IT TENDS TO IDENTIFY (NY 694-S*,) A VALUABLE INFORMANT, AS THE SOURCE THEREOF. UNLESS THIS INFORMATION IS OBTAINED FROM A SOURCE OTHER THAN (NY 694-S*,) IT SHOULD NOT BE INCORPORATED, EVEN IN PARAPHRASED FORM, IN THE INVESTIGATIVE SECTION OF A REPORT.

INFORMANT

Informant

On 7/23/62, (NY 694-S*) stated during a personal contact with GUS HALL, General Secretary of the CP, USA, on that date, HALL advised that HUNTER PITTS O'DELL is still representing the CP, USA and that he is still on the National Committee of the CP, USA. HALL further remarked that O'DELL is a "brain-trust" for LUTHER KING and is doing an excellent job.) SF10

Current investigation in NYC reflects that O'DELL is spending most of his time in the Atlanta area working with the SCLC. He was last reported in the NY area in June, 1962.

INFORMANT

On 2/11/62, (NY 1300-S) made available photographs of material maintained in the office of STANLEY LEVISON, 6 East 39th Street, NYC. Included in these photographs were the following:

1. Two checks, both dated 12/19/61, bearing the printed name of the "Southern Christian Leadership Conference", 312 West 125th Street, NY, NY. These checks

~~SECRET~~

are numbered 397 and 399, one in the amount of $251.90 and one in the amount of $150.00, are marked payable to J. O'DELL, and are signed by STANLEY D. LEVISON.

2. Copy "C" of a Withholding Tax form for 1961, in the name of JOHN HUNTER O'DELL, 312 West 125th Street, NY, NY, Social Security Number 386-14-3707, indicating that he was paid $3,050.00 in 1961 by the SCLC, 312 West 125th Street, NYC.

ELSUR
(NY 3575-S*) advised on 6/20/62, that STANLEY LEVISON stated that in a recent conversation with MARTIN LUTHER KING, KING said he was thinking of getting another administrative assistant. LEVISON stated that in the past LEVISON had not considered it wise for O'DELL to take on such a position, but he is the only one who could do the job and should be considered for it. LEVISON stated as long as O'DELL did not have the title of Executive Director, there would not be "as much lightening flashing around him". O'DELL could be called a coordinator and still fulfill all the duties of Executive Director.

LEVISON stated, according to (ELSUR NY 3575-S*) that KING liked LEVISON's suggestion with respect to O'DELL taking this position, because KING felt that O'DELL must face it sooner or later, stating "that no matter what a man was, if he could stand up now and say he is not connected, then as far as I am concerned, he is eligible to work for me".

INFORMANT
(NY 2783-S) advised on 7/11/61, (INFORMANT FILE # (NY 134-4268A-378)), that HAZEL GRAY is working again at the SCLC, 312 West 125th Street, NYC.

INFORMANT
On 7/8/61, NY 1212-S stated that it had come to his attention that CLAUDE LIGHTFOOT had mentioned that he wanted

to use HAZEL GRAY and her husband, JOHN GRAY, in the Kings County CP organization. The informant stated that LIGHTFOOT highly recommended the GRAYs.

On 3/10/61, MILTON BIRON, Senior Accountant, Comtroller's Office, New York City, Bureau of Excise Taxes, 120 West 32nd Street, made available an application for exemption from the New York City amusement tax, dated 1/23/61, and signed by STANLEY D. LEVISON. The exemption was requested for a "concert" to be given at Carnegie Hall on 1/27/61, for one evening performance.

The name of the applicant was given as the "Committee to Aid the Southern Freedom Struggle", 312 West 125th Street, an unincorporated association. It is stated that the applicant is a non-profit educational committee which has registered with the Charities Registration Bureau in Albany and the Department of Welfare in NYC. It says that it employs no professional fund raisers and that neither its officers nor executive directors are paid either salaries or expenses.

The, "Purposes for which applicant was organized", are listed as:

"To provide funds for the Southern Christian Leadership Conference to be used for establishment of constitutional rights in the South utilizing voting registration drives, educational meetings, church and synagogue conferences, sit-in techniques, legal actions etc."

The, "Activities of the Applicant", are listed as:

"Mail solicitations, benefits, meetings, educational conferences, church collections."

~~SECRET~~

The, "Source and Disposition of Income", is listed as:

"All income less expenses is transmitted to the Southern Christian Leadership Conference or directly paid out to sources indicated by the Southern Christian Leadership Conference. Dr. MARTIN LUTHER KING is President of the Southern Christian Leadership Conference."

A "note" attached to the application stated that the committee was created by resolution as an unincorporated association at an organizing meeting held at the home of HARRY BELAFONTE, 300 West End Avenue, in June, 1960.

The application for exemption from the New York City amusement tax was denied by letter 1/31/61, sent to the Committee to Aid the Southern Freedom Struggle, 312 West 125th Street, attention of STANLEY D. LEVISON.

NY has considered the above facts and is of the opinion that a Cominfil investigation of the NY Chapter of the SCLC is warranted, due to the dominant CP influence on the executives of the NY Chapter of the SCLC.

NY will conduct no further investigation without prior Bureau authority.

Special Counsel for Intelligence Coordination

Washington, D.C. 20530

Dear Mike:

As a follow-up to our briefing of Assistant Director Wannall on November 6 concerning our proposed format and witnesses for public hearings on December 4-5 on the FBI's use of intelligence informants and sources, we would like to make the following requests.

As discussed in our meeting with Mr. Wannall, we invite the Bureau to submit a memorandum on its intelligence informant and source program that could be inserted in the record of the testimony of Bureau representatives at the hearing. This memorandum would enable the Bureau to present to the Select Committee a complete description of its program and to discuss the issues of particular interest to the Committee members. These include, for example, 1) the size, scope and purpose of the program, including an assessment of the program's cost and effectiveness, and the distinctions and relationships between the intelligence informant program and the Bureau's criminal informant activity; 2) the criteria that determine when an informant may be used in an organization or group; and 3) the program's command and control system, including the limits that are placed on the activities of informants and the type of information an informant or source is permitted to report to his handling agent and the Bureau. In addition, the memorandum would discuss possible legislation in the informant area, such as the imposition of a warrant requirement or additional administrative review. To permit the Select Committee members to study this memorandum in advance of the hearing and to discuss it with FBI representatives during their testimony at the public hearing, we request that the memorandum be submitted by November 24.

Reference is further made to our memoranda dated July 17, 1975, and September 25, 1975, which provided background information and documents pertaining to the SI, ADEX, and RI.

As you are aware, a computerized ADEX listing is prepared monthly at FBIHQ. The SI list was prepared in the same manner and, as with the former SI, when a new monthly ADEX list is prepared copies of the old list are destroyed inasmuch as they are outdated and no longer serve a useful purpose. As you have been previously advised, names appearing on the former SI and the ADEX have been printed on 5 X 8 cards with a single name printed on each card. Background information, file numbers, and type of activity in which the individual is engaged are also placed on these cards. As you are aware, approximately 15,000 of these cards, all outdated, have been located as FBIHQ. These cards include some which contain the identity of individuals who were maintained on the Priority III level of the former SI and all ADEX cards deleted or cancelled since its inception.

During the initial period of establishing the ADEX, in order to obviate the need for conducting massive file reviews, the ADEX consisted primarily of the identity of those individuals who had been maintained on the former SI. Although these names were originally placed in this manner on the new ADEX, as cases were reviewed under our then existing reporting procedures, each case was to be reviewed on its own merits utilizing the then current criteria for ADEX to determine whether continued inclusion on the ADEX was warranted. If not, the individual's

name was deleted. As previously indicated, during 1972 the ADEX was evaluated and revised. Following this revision, the number of individuals who were included on the ADEX began to decline and thus the high number of cancelled cards. In accordance with Bureau policy, which was instituted during the SI program, these cancelled cards are maintained at FBIHQ for a period of three years and there is no way to reconstuct a former SI or ADEX list for a particular time period by reviewing these cancelled cards. These cards, however, will reflect the identity of those individuals who have been placed on the SI and the ADEX for the period for which these cards were maintained.

Per your request, these outdated SI and ADEX cards are available for review by appropriate SSC representives at FBIHQ. In this regard, SSC Staff Members Martha Talley and John T. Elliff have had access to these cards on October 30, 1975, and November 7, 1975, respectively.

During Mr. Elliff's review of these cards, the names Shelley Blum, Emanuel James Brisker, Jr., and Gregory Allan Calvert were selected by Mr. Elliff in connection with request number two of your October 28, 1975, letter. Documents requested regarding these individuals are enclosed.

A review of pertinent files at FBIHQ regarding the SI and the RI indicates there are no other versions of the former SI or RI at FBIHQ. Contact was also made with knowledgeable individuals of our New York City Field Office and it was determined these programs had been handled in accordance with then existing FBIHQ policy and no other versions of these programs were compiled by that office.

Materials requested for delivery under item number four of your October 28, 1975, letter are enclosed. In this regard, it is noted the correct FBIHQ file number for the Emma Lazarus Federation of Jewish Women's Clubs is 100-400394 and the correct file number for the file regarding Communist Infiltration of the National Association for the Advancement of Colored People is 61-3176. In order to be responsive to your request, pertinent documents of the type desired are being furnished regarding these organizations from these files.

NOTE:

During Mr. Elliff's review of the cancelled SI and ADEX cards, he indicated additional access to the cards would be requested to obtain the identity of other individuals besides the three selected by him 11/7/75.

SA James Graham, IS-1 Section, handled the request for documents listed under items 4u through 4ee, all of which pertained to the IS-1 Section.

The matter relating to other versions of the SI and RI compiled by our New York Office were discussed with New York personnel SAC James O. Ingram and Field Supervisor Raymond Ruckel on 11/10/75, and 11/11/75, respectively.

Reference is made to my letter dated July 1, 1975, which enclosed a memorandum of the same date relating to a request for documentary materials made by the Senate Select Committee (SSC) under the date of May 14, 1975.

The referenced memorandum, on page 1, paragraph 4, refers to a briefing by FBI Director J. Edgar Hoover to the National Security Council, presided over by the President, on November 6, 1958. A further review of our records has determined this briefing by Mr. Hoover was actually furnished to the President and members of his Cabinet on November 6, 1958. Although it is likely members of the National Security Council were present, technically it was a briefing of the President and his Cabinet.

Attached for your approval and forwarding to the Committee is the original of a memorandum correcting this technical error and requesting the Committee appropriately change its records.

Reference is made to memorandum dated July 1, 1975, which responded to a SSC request under the date of May 14, 1975, for documents relating to this Bureau's former Counterintelligence Programs (Cointelpros).

Page 1, paragraph 4, of referenced memorandum refers to a briefing by FBI Director J. Edgar Hoover to the National Security Council, presided over by the President, November 6, 1958. Enclosed with the memorandum was a document with a cover page alluding to this briefing of the National Security Council.

A current review of the records of this Bureau has determined the briefing by FBI Director J. Edgar Hoover on November 6, 1958, was actually furnished to the President and members of his Cabinet. Although it may be presumed that some members of the Cabinet were also members of the National Security Council, it is requested you correct your records to more accurately indicate the true nature of the briefing.

This is also to confirm information orally furnished by Supervisor David Ryan of the FBI to SSC staff member Barbara Banoff on November 13, 1975, at SSC offices. At that time,

Reference is made to a memorandum dated 11/12/75 from Legal Counsel to Mr. J. B. Adams, Deputy Associate Director, in which a recommendation was made that the Intelligence Division determine whether there is a memorandum describing a briefing of former Attorney General Ramsey Clark by Mr. Cartha DeLoach, former Assistant to the Director, concerning the Counterintelligence Program.

Mr. DeLoach, during an interview under oath by staff members of the Senate Select Committee on 11/11/75, advised that he had briefed Ramsey Clark regarding the Counterintelligence Program and, when asked whether he had written a memorandum regarding that briefing, advised that he could not specifically recall whether a memorandum was prepared. During the interview by Committee staff members, they advised Mr. DeLoach that they had asked for such documentation from the Bureau, but a memorandum indicating Mr. DeLoach had briefed Ramsey Clark regarding the Counterintelligence Program was not received among the documents furnished by the Bureau.

ST-110 REC-7 62-116395-1160 DEC ~~2~~ 17 1975

This will advise that additional review of Bureau files by personnel of the Analytical Research Unit has failed to disclose any memorandum which describes a briefing of Clark by Mr. DeLoach regarding the Counterintelligence Program.

On page 3, the last remaining paragraph which begins "Through our security..." and ends "...aware of its plans" should be excised. On page 4 in the last paragraph, the sentence beginning with "In one phase..." and ending with "...monolithic unity" should be excised.

In the Director's letter to the Attorney General dated September 2, 1965, paragraph 2, the following words or numbers should be excised: "two thousand," "774," and "two each day." These same excisions should be made in the Director's letter to the Honorable Marvin Watson dated September 2, 1965.

With regard to the declassification of item number 1 identified in the SSC letter of November 4, 1975, it should be noted that the briefing by former Director Hoover on November 6, 1958, was afforded the President and his Cabinet rather than the President and the National Security Council.

S. intelligence activities. Mr. Aaron was briefed on the overall role and mission of the FBI's Legal Attaches (Legats), and specifically on the activities and functions of the Legats at Brasilia and Buenos Aires. He was advised that Legat, Brasilia, utilized two confidential sources in order to facilitate the prompt coverage of leads in Brazil. He was also told that Legat, Mexico City, and Legat, Brasilia, were the only Legat offices that utilized paid confidential sources. (S)

Legat, Buenos Aires, informed FBIHQ that the U. S. Embassy at Buenos Aires received instructions, classified "Secret," from the U. S. Department of State with regard to the visit of David Aaron, a former U. S. Department of State Foreign Service Officer, and William Truehart, a former U. S. Ambassador, to the U. S. RE: VISITS OF SSC STAFF

Department of State advised that the primary objective of the visitors was to discuss with the Ambassador and members of his staff the relationships and exercise of authority by the Ambassador of the intelligence activities in the field. The Department of State further advised that operational details, sources and methods were not construed to be legitimate avenues of inquiry by the SSC Staff Members.

Legat, Brasilia, was interviewed on September 22, 1975, by Messrs. Aaron and Truehart, with Aaron being dominant in the interviewing process. The interview was directed mainly toward attempts to elicit examples whereby Central Intelligence Agency (CIA) had withheld dissemination of information of interest to other agencies. Inquiries were made concerning CIA activities inside and outside the Embassy. Specific questions were placed with Legat to ascertain if the FBI was involved in Soviet Embassy "walk-ins" as well as recruitment of double agents and CIA-oriented operations. Discussion concerning Legat's role and functions in Brasilia appeared to be routine, with few, if any, pointed questions directed at FBI operations overseas. The subject of two paid confidential sources in Brasilia was briefly discussed and both SSC investigators appeared understanding and in agreement with the necessity of each confidential source to serve FBI's and U. S. Government's best interests in Brazil. The question seemingly bearing the most weight during the interview concerned possible unauthorized activities of CIA and its lack of cooperation and coordination with FBI and the Defense Attache's Office. The duration of the interview was approximately forty-five minutes. (S)

Legat, Buenos Aires, was interviewed by the two SSC Staff Members on September 26, 1975. Again Aaron played the dominant role during interview. He commenced

the interview by stating that the operations of Legats, Brasilia, and Buenos Aires, were not the type of Legat operations he desired to review, indicating that Mexico City Legat's operations were more of the type of interest to them. Aaron asked pointed questions concerning the mechanics of Legat reporting on intelligence information developed locally to FBIHQ and the local coordination of this information with the Embassy components. Aaron requested the Legat provide him with the general nature of intelligence developed and reported by the Legat to the Embassy and FBIHQ. He was told that generally international and local terrorism were the prime topics of Legat reporting. Inquiry was also made into the reason for FBI expansion of foreign liaison activities in 1970. He was told that the Legat was not personally aware of any special reason other than that the FBI liaison operations required additional personnel and Aaron was referred to FBIHQ for any additional information in this regard. [Legat was asked whether the CIA Station had ever requested Legat to secure data from FBI computer banks on Argentine residents of CIA interest who had previously resided in the U. S. Legat's reply was in the negative. Other questions mainly dealt with cooperation and coordination activities between the FBI and the CIA at the Embassy.] (S) Inquiry was also made into the relationship of the Drug Enforcement Agency and FBI overseas. The interview lasted approximately thirty-five minutes.

Upon arrival in Buenos Aires, Mr. Aaron was suffering from an intestinal problem and remained in his Buenos Aires hotel on September 25, 1975. The Charge D'Affaires hosted a small luncheon for former Ambassador Truchart on that date which Legat, Buenos Aires, attended. Truchart was very open regarding the operations of the SSC

and stated that he felt the Committee had lost its perspective and that he believed that various Senators were engaging in a game of "one-upmanship" in revealing so-called sensational disclosures of CIA activities. Truchart stated he personally felt that the original purpose of the Committee to afford an objective review of U. S. intelligence operations had been lost.

The details of the interviews are located in Legat, Brasilia, teletype to the Bureau 9/23/75 and Legat, Buenos Aires, teletype to the Bureau 9/26/75, both classified "Secret" and both captioned "Senstudy-75."

Mr. Aaron was briefed at FBIHQ by Section Chief Vadja V. Kolombatovic, Harvey C. Flemister and Robert A. Bermingham of the Liaison Section, Intelligence Division.

Memorandum advises concerning proposed SSC hearing on FBI foreign counterintelligence (CI) matters.

On 10/30/75 Mr. John Elliff, SSC Staff Member, met with Assistant Director W. R. Wannall, Intelligence Division (INTD). Also present were Section Chiefs W. A. Branigan (CI-1) and W. O. Cregar (CI-2) and Acting Section Chief F. J. Cassidy (IS-3) and Unit Chief E. W. Larson, Training Unit (IS-3). Mr. Elliff advised that the Committee proposed to have an executive session tentatively scheduled for the morning of Friday, 11/14/75, which would deal with foreign CI operations. In addition to representatives from the FBI they envisioned also having present representatives from CIA and the United States military intelligence services. He stated that the session would be scheduled for approximately 2 and one-half hours.

During the conference the following three themes were outlined by Mr. Elliff as the probable areas of discussion:

1. Changes in CI operations during recent years

Items discussed as probably worthy of attention were physical surveillances, the walk-in operations, defection (recruitment-in-place), CI training programs. Also suggested as a prime topic was the future projections concerning administration of foreign CI operations in the United States, i.e., new division for CI work within FBI; separate CI service; or other modifications.

2. Counter-subversion

In this category Mr. Elliff indicated a particular interest in foreign influence in domestic groups and the assessment of danger/risk in investigations undertaken to detect such influence. He brought up the disclosures of surveillances by CIA of Americans abroad at the request of the FBI. He also indicated an interest in borderline cases, such as those in which domestic counter-subversion investigations develop a CI aspect, and was particularly interested in the policies and coordinating mechanisms affecting such instances.

3. Positive intelligence collection

In this category Mr. Elliff was interested in the responsibility for collection of positive intelligence within the United States and the apparent gap which existed in this field. He was also interested in situations under which the FBI might target friendly foreign intelligence services in the United States for CI attention.

Considerable discussion was held during the conference during which INTD representatives set forth the FBI's position and experience in the many areas noted. They are being set forth here to illustrate the probable scope and nature of the executive session which is being planned. Further discussions will be held with the SSC staff to clarify these matters and a firmer agenda for the proposed 11/14/75 hearing will be developed.

With respect to the proposed plan to include representatives of CIA and the military intelligence services along with the FBI in the proposed session of 2 and one half hours, it was pointed out to Mr. Elliff that this would not appear to be a very productive procedure. The CI perspectives and responsibilities of CIA and the military services are much more narrow and generally in a completely different context than the CI perspectives and responsibilities of the FBI. These differences, particularly in the short

CONTINUED - OVER

time allotted, appear to represent a disadvantage to all parties concerned, including the Committee. It was pointed out that the FBI, in particular, would have considerable difficulty in presenting a comprehensive and valid picture of its own CI operations under the conditions imposed by such a session. Mr. Elliff, after considering these objections, stated that he could understand the FBI position but was somewhat doubtful considering the pressures under which the Committee was operating that he would be able to alter this situation.

BUDED 1/30/76

Enclosed is a self-explanatory letter from the Attorney General dated 1/12/76.

Joseph Kraft, the subject of the inquiry, is the well-known newspaper columnist and a Washington, D. C. resident. During the past year, information contained in FBI Headquarters files relating to Kraft has been furnished to the U. S. Senate Select Committee on Intelligence Activities (SSC) pursuant to SSC requests. Kraft and his attorneys have reviewed the material furnished to the SSC regarding him in accordance with an agreement between Kraft and the Attorney General, referred to in paragraph one of the enclosure. As noted in the enclosure, Kraft, as a result of a review of information regarding the burglary of his residence on 9/3/69, raised certain questions.

UNRECORDED COPY FILED IN

WFO should furnish FBIHQ with Xeroxes of all serials in its files which relate to the 9/3/69 burglary except WFO airtel and letter to the Bureau dated 9/4/69 and 10/17/69, respectively, captioned "UNSUB; Burglary of residence of Joseph Kraft, 3021 N. Street N. W., Washington, D. C., Loss of silverware, 9/3/69 in excess of $5,000.00 ITSP (OO:WFO)" file number 87-17564. This material should of course include any serials which would indicate the manner in which the burglary was reported to WFO and how the conversation about the burglary took place.

In addition to the review of all files pertinent to this inquiry, WFO should review the newspaper morgues of daily newspapers published in Washington, D. C., at such time for articles concerning the burglary and which may shed some additional light on this matter.

This matter must be given expeditious attention and results submitted by airtel to reach Bureau by c.o.b. 1/30/76.

NOTE:

Bureau memorandum dated July 23, 1973, referred to in enclosure and to which Kraft raised a question sets forth the information that Kraft advised WFO on 9/4/69 of the burglary of his residence 9/3/69. Kraft now has no recollection of having spoken to the FBI about the burglary. Pertinent FBIHQ main case files on Kraft (62-115682, 65-75629, 87-107157 and 105-68548) were reviewed by Supervisor T. E. Attorney General

SUBJECT: Joseph Kraft burglary

Among the documents from Federal Bureau of Investigation files provided to my office under a cover memorandum dated October 7, 1975, there was a memorandum dated July 18, 1973 and titled "Joseph Kraft." This document, along with the others, was provided to Mr. Kraft's attorneys pursuant to the agreement of August 5, 1975, for review before the department furnished it to the Senate Select Committee.

When Mr. Kraft and his attorneys reviewed the July 18, 1973, document they raised a question about a reference on page two of the document which stated:

> "On September 4, 1969, Joseph Kraft advised the Washington Field Office of the FBI that he left his home (3021 N Street, N. W., Washington D. C.) at approximately 9:20 P.M. on September 3, 1969, to visit with former Governor Averell Harriman who resided a few doors from the Kraft residence. At approximately 9:45 P.M. Mrs. Kraft, who was in the second floor bedroom of the residence, came down the stairs and found the door open.
>
> "Subsequently, it was discovered by Mr. and Mrs. Kraft several items of sterling silver were missing from the dining room and the pantry which items, according to the Krafts, had an estimated value of approximately $10,000.
>
> "A crime scene search and processing of the crime scene by the Metropolitan Police Department produced negative results. No forcible entry was noted and Mr. Kraft advised investigative officers of the Metropolitan Police Department that he had probably left the front door ajar when he departed the residence.

> "On the morning of September 4, 1969, the Metropolitan Police Department was advised by the Washington National Airport Police that some silverware had been found near one of the entrances to the terminal at the Washington National Airport. The silverware was recovered by the Metropolitan Police Department and processed for latent fingerprints without success and the items were returned to Mrs. Kraft upon her identification of the silverware. No suspects were developed by either the FBI or the Metropolitan Police Department in the investigation of the matter."

Mr. Kraft does not recall having spoken to the FBI about the burglary. Documents provided more recently to Mr. Kraft pursuant to the August 5, 1975, agreement do not shed any light on this question.

The incident is curious in that the only reference to it comes in the memorandum of July 18, 1973, discussing a press report about the activities of John D. Erlichman. Could you have someone look into this matter for me? The obvious questions are: What other documents in FBI files say about the September 3, 1969, burglary? What files of the Bureau or its Washington field office indicate about how the conversation about the burglary took place?

SUBJECT: DEMCON

As the Bureau is aware, I am gravely concerned over the potential for serious violence occurring in Chicago during the period of the Democratic Convention, which commences August 26, 1968 and the days immediately preceding this convention. Had the convention occurred within 30 days after the President made his announcement that he was not going to run for reelection and after the Viet Nam peace talks started in Paris, I feel that we might not have had serious violence as these two occurrences took much of the steam out of many of the organizations comprising the "New Left". Their direction at that time was primarily against President JOHNSON and against Viet Nam and much of the steam went out of their programs following these two announcements.

It is our observation, however, that these "New Left" organizations have now had time to redirect their programs and are now concentrating primarily on demonstrations and activities against Vice President HUMPHREY, characterized by them as the "Dump Humphrey Campaign". The fact that the war still continues in Viet Nam, has again given emphasis to the organizations which exist on the basic theme of anti-Viet Nam. I am thinking particularly of such organizations as the National Mobilization Committee to End the War in Viet Nam, Students for Democratic Society, Student Mobilization Committee to End the War in Viet Nam and the Youth International Party (Yippies).

SUBJECT: DEMCON

On August 12, 1968, USA THOMAS A. FORAN contacted SAC, Chicago, advising that WARREN CHRISTOPHER, Deputy U.S. Attorney General, desired to meet with the SAC, Chicago.

As a result of the above request, SAC, Chicago, and Supervisor RICHARD L. STRAIN met briefly with Mr. WARREN CHRISTOPHER and Mr. WES POMEROY of the U.S. Department of Justice, Washington, D.C., in the presence of USA FORAN in his offices.

Mr. CHRISTOPHER was most congenial and expressed his high regard for the FBI and asked for a current evaluation of activities in the Chicago area which could possibly affect the Democratic National Convention (DNC) being held the last week of August, 1968. Mr. CHRISTOPHER was advised that all information has been previously furnished to him by letterhead memoranda and was in his possession and he was assured all information coming to our attention would be immediately furnished to the Department and to the USA in Chicago. A brief discussion of current trends followed relative to current intelligence regarding the activities of anti-war and Negro militant organizations which have proposed disruptive tactics at the DNC.

At one point in the discussion mention was made of the fact that the Youth International Party, aka Yippies, was currently holding talks with the city administration in an effort to obtain necessary park permits to have their followers live and sleep in one of the Chicago area parks during the week of the convention and hold a "happening" which the Yippies referred to as the "Festival of Life." During this discussion USA FORAN confidentially advised that when he had received the FBI's notification of the anticipated plans on the part of the Yippies, he had contacted certain city officials known to him and attempted to persuade them against the issuance of such a permit in view of the known moral conduct of such groups. USA FORAN advised he had been assured that such permits would not be granted. He stated these permits have as yet not been granted and that his sources have indicated no serious consideration has been given to the request by responsible Chicago city officials.

This document is prepared in response to your request and is not for dissemination outside your Committee. Its use is limited to official proceedings by your Committee and the content may not be disclosed to unauthorized personnel without the express approval of the FBI.

For the Bureau's information, Sgt. JOSEPH GRUBISIC, Intelligence Section, Chicago PD, advised previously that he had learned from DAVID STAHL of the Mayor's Office, Chicago, that they had received a telephone call, a couple of days ago, from one WES POMEROY of the U.S. Attorney General's Office, to the effect that the Attorney General wanted the Chicago city officials to give every consideration to the granting of the permits requested by the Yippies.

Sgt. GRUBISIC was unable to comment on the feeling of the city administration to this request but was of the opinion that such permits would not be granted as requested. Sgt. GRUBISIC based his opinion on the fact that four representatives of the Yippies, from New York City, had gone to the office of the Deputy Superintendent of the Chicago PD and had requested immunity from arrest for all Yippies during the convention for crimes around the possession of narcotics. The Yippies stated that any arrest would cause the Yippie community to cause large scale riots, and the blame of any riots resulting from such arrests would fall on the Chicago PD.

These representatives of the Yippies were advised in no uncertain terms that the laws of the City of Chicago would be strictly enforced fairly on all persons and that no one would be granted any immunity during this period.

The Bureau's attention is invited to the August 9, 1968, issue of the "Daily World," daily publication of the Communist Party, USA (CP), wherein an article appeared on page one captioned "Rallies Will Ring Demo Convention" written by CARYL DAVIAU, current member, CP of Illinois, in which the reporter indicates that the National Mobilization Committee to End the War in Vietnam,which is working around the clock to mobilize demonstrations against the convention,has petitioned the Justice Department to investigate the Chicago Police to determine if there is any conspiracy to deprive "us" of our full civil liberties.

Chicago will continue to follow these matters closely and immediately advise the Bureau, and continue to disseminate all information of intelligence collected to interested agencies.

No recommendation is being made nor is Chicago involving itself in any plans affecting the issuance of the abovementioned park permit.

ENCLOSURE

As the Bureau is aware, Chicago is in receipt of information from confidential sources indicating a potential for demonstration arising out of the "New Left" calling for direct confrontation with the Chicago Police Department as a diversionary tactic for a "crash-in" at the convention site. Sources have also reported independent action on the part of individuals to cause some form of "sabotage" activity inside the convention itself. Information received from confidential informants in other divisions indicates attempts on the part of dissident young people not organizationally affiliated with the "New Left", to hire 50 buses out of New York to bring demonstrators to Chicago and a caravan of militant Latin Americans to come from the Miami, Florida area to Chicago for the specific purpose of disrupting the Democratic National Convention.

The Chicago area activists in the Youth International Party are currently planning a "Festival of Lights" in one of the parks on Chicago's lakefront during the period of the Democratic National Convention. This "Festival of Lights" characterized by Chicago area Yippie leadership as being peaceful to show America that there is an alternative to the "festival of death", or the Democratic National Convention. However, sources report that there are elements within the Youth International Party which are calling for direct confrontation with the Chicago Police Department during the "Festival of Lights".

There is a very definite indication that more and more plans are being made by these groups to cause violence and trouble and undoubtedly this will increase even more as we approach the time of the convention. I strongly feel that we must use every possible means at our command to insure that the Director, the President of the United States and other pertinent officials are furnished every possible piece of intelligence information which we can gather from any source.

I am specifically asking for the services of two Special Agents who proved during their assignment in Chicago that they are expecially well qualified to handle informants and make contacts in the "New Left" area. They proved during their assignments in Chicago that they have the knowhow, the interest, the dedication and the personality to be highly successful in

this area. I would like to utilize them specifically to work cases in the "New Left" area, make contacts and would also request authority where necessary to utilize them in undercover work under my personal supervision and guidance. They would be specifically assigned fulltime to solicit information from the leadership of the "New Left" concerning their plans for demonstrations, confrontations and disruptions of the Democratic Convention and matters relating thereto.

I am, therefore, urgently requesting that SA WILLIAM J. DILLON, III, presently assigned to Los Angeles and SA WAYNE F. MANIS, under transer to Anniston, Alabama Resident Agency, be assigned on a temporary basis in Chicago for the above stated purpose from August 15, 1968 through August 31, 1968. Both men, while young in years in the Bureau, demonstrated outstanding judgment and I am convinced that their assignments, as recommended above, would prove to be most beneficial in carrying out our responsibilities in connection with the Democratic Convention.

SUBJECT: DEMCON

This will confirm telephonic contact between SAC, Chicago, and Assistant Director N. P. CALLAHAN on August 13, 1968.

As the Bureau is aware, the Democratic National Convention will be held in Chicago from August 26 - 28, 1968. Voluminous information is being received from all offices which requires immediate handling. In addition, tension is growing in the ghetto areas of Chicago particularly the west side, the south side and the near north side. Also, tension has been growing in such Chicago suburban areas as Harvey, Chicago Heights, East Chicago Heights and Maywood. Incidents are occurring every night and throughout the night requiring immediate preparation of teletypes, letterhead memoranda and other communications. It is, therefore, necessary as approved by Mr. CALLAHAN for one and on some shifts two stenographers to be on duty from 4:00 PM to midnight and from midnight to 8:00 AM, seven days a week through August 30, 1968. These stenographers have been selected on a purely voluntary basis. The authority for these special shifts will be considered to expire close of business August 30, 1968, and thereafter we will revert back to the regularly approved stenographic shifts.

At 9:15 AM today, the Director telephonically contacted me to advise that he had just been in touch with the Vice President of the United States and had just gotten off the phone with the Vice President's Executive Assistant, Mr. WILLIAM CONNELL. Mr. HOOVER stated that the Vice President has requested that we furnish the same type of service in connection with the Democratic National Convention in Chicago as was furnished to the President during the Atlantic City Convention four years ago. This, of course, refers to intelligence information which will be of value to the Vice President and specifically relates to the possibility of demonstrations, violence and related matters. Mr. HOOVER stated that he had advised the Vice President and Mr. CONNELL that this service would be performed and that Mr. CONNELL should contact me for the necessary arrangements.

Mr. HOOVER advised me that Mr. CONNELL is presently in New York and it is not known when he will arrive in Chicago. I advised Mr. HOOVER that his instructions would be followed, that we had set up appropriate arrangements so that we would be in a position to furnish valuable intelligence and that upon Mr. CONNELL's arrival in Chicago, I would immediately contact him and perfect the necessary arrangements.

My secretary has been instructed to notify all switchboard operators, complaint agents and supervisors that any call from Mr. CONNELL should be immediately referred to me when I am in the office or if I am not in the office to determine where I can contact Mr. CONNELL immediately.

The following is a summary of a four page report, dated 11/20/73, furnished by Mary Jo Cook, a former FBI informant.

Report concerns a meeting of the VVAW/WSO Steering Committee held 11/10/73. Five identified individuals were present. There was a discussion of finances and some displeasure at the financial record system. Plans for a benefit at a bar were discussed. Information was presented concerning a newsletter to be mailed out which will discuss the VVAW/WSO's position on amnesty, the upgrading of discharges, information about the Women's group and about a strike at a Buffalo firm.

Some objections were raised concerning the wording of some VVAW/WSO objectives.

Plans for a future coalition meeting organized by two individuals were discussed, the same coalition that worked on the Impeach Nixon rally.

Matters concerning possible new members and/or attendees at future meetings were discussed. Plans for a VVAW/WSO team on a television sports quiz show were discussed.

One member raised four criticisms of the VVAW/WSO, all listed.

One member wrote a regional newsletter.

The following is a summary of a 17-page report dated 12/17/73 furnished by Mary Jo Cook, former FBI informant.

A regional conference of the New York/Northern New Jersey Region, VVAW/WSO, was held at a college on 12/8-9/73. 20 listed people attended.

A member reported another individual had supposedly run guns to Cuba.

A member requested information attesting to the bad conditions in a Vietnamese jail.

A member said he had 2600 names on a mailing list.

Old business was discussed.

Changes in one VVAW/WSO objective were turned down.

In other matters, the following was discussed:

Correspondence with prisoners.

Plans for selling the organization's newspaper.

Support for a prison fast.

Approval of amnesty for war resisters.

Impeach Nixon campaign.

U.S. involvement in Korea.

Organization and communication.

Coalition with other groups.

Possible underground VVAW group.

Possible sponsorship of a college lecture.

The VVAW's connection with the Revolutionary Union with some displeasure voiced.

A recent military alert and the possibility of a mail opening and telephone tap alleged.

The general feeling of a future military takeover in the U.S.

Proposed delegates to the National Steering Committee Meeting.

Disapproval of a workshop introduction as "Red-baiting."

Buffalo chapter was considered one of the five strongest chapters in the organization.

Possible VVAW Summer Camp over Labor Day.

Information about members contacting members of other chapters.

Reports were presented from other chapters.

The following is a summary of a five page report, dated 7/19/74, furnished by Mary Jo Cook, former FBI informant.

A meeting of the National Defense Committee of the VVAW/WSO was held on 6/7-9/74 at St. Louis, Missouri. Eleven identified individuals attended.

The purpose was to ascertain the feasibility of setting up a National Defense Committee which would be operational throughout the United States. As concerns VVAW/WSO, the meeting sought to advise members that the organization's Defense Committee will take steps to secure the release or acquittals of any members arrested.

A representative from the National Collective in Chicago talked about the Gainesville 8 in a derogatory manner, implying the Government did not try the Gainesville 8 for purely political reasons, but that the leader and some others planned some kind of illegal activity. He also said if there had been no Agent provocateur there would never have been a trial and that the National Collective would not have permitted violent activity. 17 items were handed out, a large portion of which were reprints from national and "movement" publications covering such topics as how to avoid being questioned by the FBI. One of these, on jury selection, is attached.

Jury selection

The jury element is the people's component in the existing system of criminal justice; it is only quasi-organized and partially managed. The use of systematic jury selection can be an important tool in the practice of people's law, but at present it is being developed and used selectively as a successful foil in cases of overt political attack. The minimal program in jury selection defense work is to secure a group of twelve people who will take their function as jurors seriously and assume that the defendants are innocent until proven guilty. The maximal program is to secure a jury which will acquit the defendants.

Since 1970, serious inroads have been made on the jury system: proposed abolition of 12 - person juries, non-unanimous verdicts, abolition of voir dire of prospective jurors by lawyers, disciplining of 'disruptive' lawyers and other 'reforms' to 'speed up' decision-making. Juries are under attack by the narrow, elite group who seek to rule this country only because this vehicle of the people's power cannot be relied upon to make political prisoners of us all.

Challenging jury composition

18 U.S.C. Sec. 1861 is a federal statute which places an obligation on the courts to assure the right to a jury selected at random from a fair cross-section of the community. Data, gathered from observing juries, which suggests an imbalance can be used as grounds for access to jury selection records. Through a sample of the qualification questionnaires comprising the master Jury Wheel, a demography (the study of the characteristics of a population) of the voter registration list can be determined.

These findings, compared with census demography, will reveal areas of underrepresentation. In the case of the Attica Fair Jury Project, a systematic analysis of jury selection records obtained by court order revealed that third world people are underrepresented by 34.3%, women by 68 %, and people between the ages 21-29 by 83.6%. This study yielded concrete evidence that the Erie County jury system is illegal and unconstitutional, and the system has been challenged on those grounds.

There are four practical advantages to be gained from a jury challenge even if it does not result in the immediate modification of the composition of the master jury wheel which might provide a larger proportion of people from the less authoritarian sectors of the population.

1. pursuing a challenge can gain time for the defense.
2. examination of the jury questionaire and the jury process raises the defenses's consciousness of what the problems are likely to be in jury selection.
3. a challenge introduces some accountability to the jury process and may change the behavior of the jury clerk and/or judge.
4. a verdict for conviction can be overturned and a new trial obtained on the basis of an objection to jury composition and selection, if a later court upholds the jury challenge.

Demographic model of jury selection.

There are three separate elements to the demographic model of jury selection.

1. a survey must be taken of a representative cross-section of the population that may be called for jury service; this is most easily done by telephone.
2. a system for rating prospective jurors on the basis of voir

dire must be established.

3. a net-work of people must be set up to gather outside third-party information to corroborate the results of the survey and voir dire.

The demographic-attitudinal survey is used to obtain precise information on the range of attitudinal patterns prevalent in a given judicial district. At a minimum, the following must be covered: demographic information, (age, sex, race, education, etc.) organizational affiliations, media contact, knowledge of the case, political ideology and attitudes toward core American values, social change, divergent life styles and alternative institutions, and toward the type of defendants and the charges specific to the case. A random sample of any of three groups will give the defense committee the demographic information necessary: 1) those who have already been called for jury duty, 2) the voter registration list, or 3) 1% of a cross-section of the population.

The voir dire ratings are constructed by combining observations of behavior and attitudes expressed during the voir dire. This procedure is still being developed but there seems to be a high correlation between ratings of individual authoritarianism and types composed of demographic variables. For example, in the Rap Brown case, the attitudinal study pin-pointed the most "dangerous" defense juror as a male manager, engineer, government employee, or real estate broker, who was tied into the local establishment, Methodist or [illegible], over 45, and who lived in a rural area or small,

quiet town. His independent authoritarianism rating was very high, just as you would expect from a juror whose values embraced authority, patriotism, conformity, government right or wrong, etc. The authoritarianism ratings can further be used as a reference point to make sense of the body language, costume and verbal ratings. These ratings become even more essential when faced with a limited voir dire.

Schulman stresses that voir dire ratings should be done collectively. Defendants and trial lawyers should participate, but past trials have shown them to have definite problems with objective judgments in this area.

A core of people from a cross-section of the community should be established to obtain information about the people on the venire list so that any inconsistencies between the voir dire ratings and the demographic ratings can be resolved. This can be done by asking 10 people to contact 3 friends, who in turn will contact 3 friends, who in turn etc. This should be done with a clear presentation of the kind of information needed and a clear understanding of what constitutes jury tampering.

The following is a summary of a two-page report dated 7/31/74 furnished by Mary Jo Cook, a former FBI informant.

The report covers the following matters:

It appears as if the Revolutionary Union is making its move and focusing on the upcoming National Conference. An issue of "Winter Soldier" was received and its editorial was an RU editorial.

The VVAW/WSO newsletter arrived from the National Office and listed three possible directions VVAW/WSO can take:

1) Anti-imperialist veteran's organization with the supporters.

2) A veteran's organization for veteran's only.

3) A mass anti-imperialist organization with no base.

A discussion concerning the National Office supporting or becoming aligned with the RU.

The following is a summary of a two page report, dated 10/2/74, furnished by Mary Jo Cook, former FBI informant.

The report is entirely concerned with a demonstration held 9/11/74 in Buffalo protesting the policies of the American Government regarding the overthrow of the Allende Regime in Chile. Eight members of the VVAW/WSO attended, two from the Attica Brothers Legal Defense, one from Youth Against War and Fascism, two from Revolutionary Union, two from Anti-Monopoly Committee, three from Committee for Chilean Democracy, and four from a University in Buffalo.

All of the above attendees were named, either by first or full name. One name was phonetic.

SUMMARY OF INFORMATION SUPPLIED BY GARY THOMAS ROWE WHO WAS AN INFORMANT OF THE FBI FROM MAY, 1960, UNTIL JANUARY, 1966.

I. INFORMANT REPORTS SUBMITTED BY GARY THOMAS ROWE

1. On 5/14/61 Rowe advised that the burning of a bus and the beating of individuals at a bus depot in Alabama during May, 1961, was instituted by a local Ku Klux Klan unit.

2. On 5/17/61 Rowe stated that the Klan would try to intercept a bus which was due to arrive in Birmingham, Alabama, at 11 P.M. on 5/17/61. He further stated that Klansmen should intercept the bus on the highway and give all persons present, whether black or white, an opportunity to get off. They would be allowed to enter privately owned automobiles and have a safe journey to the nearest town. Rowe was advised by another Klansman that those who refused to leave the bus would be beaten.

Klansmen were present. The meeting centered around a Klansman's plan to run for a high state office. Also discussed was another candidate for this office.

5. During July, 1962, Rowe advised that a Klansman told a select group of other Klansmen that "it looks as if the Negroes should be stopped now." This group of Klansmen was told that police officials had promised them protection and that a high state official would pardon them if arrested. This Klansman further advised that if a particular "militant Negro Integrationist" would appear at a certain restaurant with other Negroes he should be attacked and killed. Instructions were also issued by this Klansman that if this "militant Negro Integrationist" did not appear at this restaurant but sent other Negroes to stage a sit-in, then there would be no killing. He stated that these Negroes should be beaten with chains and clubs instead.

6. During October, 1964, Rowe reported on Klan discussions regarding a plan to handle alleged "race mixing" at a local night club. Also discussed was a plan by Klansmen to bomb this night club.

II. BUREAU HANDLING OF INFORMANT

On 4/17/64, the Bureau advised SAC, Birmingham, to immediately instruct Rowe to withdraw from his position as squad leader of an "action squad." SAC, Birmingham, was further advised that in the event Rowe does not desire to withdraw from this leadership position, he should be discontinued as an informant. On 4/18/64, Rowe was advised by the Birmingham Office that he must remove himself as a squad leader of an "action squad." On 5/4/64, the Bureau advised SAC, Birmingham, that "in those cases where you have an informant who is a member of a violent squad...you should insure that the informant understands he is not to direct, lead, or instigate any acts of violence." It was also pointed out that informant should be instructed to avoid participation in any act of violence.

III. KLAN VIOLENCE AT THE BIRMINGHAM BUS DEPOT 5/14/61

By letter from the Bureau to 23 field offices, it was stated that a civil rights organization intended to make a nonviolent attempt to complete integration of bus service and related public accommodations in the South during the month of May.

By internal Bureau memorandum dated 5/13/61, it was noted that information from a confidential informant (Rowe) was received concerning the possibility that local authorities may allow disturbances to generate against above civil rights group on 5/14/61, when they were due to arrive in Birmingham, Alabama. This memorandum shows that appropriate local law enforcement authorities were advised of the potential for violence in Birmingham prior to 5/14/61.

ReSFairtel furnished information concerning outstanding indebtedness of Gary Thomas Rowe, Jr. The financial obligations he has incurred with the banking institutions and with the State of Alabama regarding unpaid sales tax appear to be dormant debts which would not necessarily have to be paid on a current basis as part of his living expenses. Following completion of the trials in this case, consideration will be given by the Bureau to a recommendation of a lump-sum payment which informant might use to help liquidate these obligations.

With reference to the sums owed the power, gas, telephone and realty companies, it is not clear whether these are current monthly expenses to the informant or rather dormant bills. Advise Bureau if these are present expenses to the informant and, if not paid or services discontinued, what parties would be affected.

intentions to continue to maintain this residence inasmuch as both he and his ex-wife are residing elsewhere.

Informant's ex-wife has obtained employment at a salary of approximately $223 per month. She has fixed obligations that will amount to approximately $424 a month and feels she could better meet her obligations if she were receiving her alimony payments. Mrs. Rowe has stated she is to receive alimony of $115 a month and that her ex-husband is in arrears for a total of $690. The Bureau desires to know what informant's thoughts are as to meeting this obligation to his ex-wife. Also advise if informant considers these payments as necessary monthly obligations that he would meet under normal circumstances.

The Birmingham Office is to give this your immediate attention and promptly advise the Bureau.

NOTE:

The Birmingham Office has pointed out that Rowe has performed an invaluable service to the Bureau and has saved an untold amount of man power and various expenses in connection with the shooting of Mrs. Viola Liuzzo. Informant has been in protective custody of the Bureau since 4/1/65 and not had opportunity to be gainfully employed to meet various obligations. The Birmingham Office has recommended that the Bureau pay informant's outstanding bills in order to continue the excellent relationship developed. We are presently paying him $16 per day subsistence in lieu of expenses which figure was decided upon after discussion with the Department. It is not desired to make a large payment at this time which could be construed as a payment to Rowe for his testimony in the up-coming trials. Birmingham previously requested to submit a detailed accounting of Rowe's debts showing their basis, when contracted and schedule of payments. The information received from the field needs to be further clarified after which time this matter will be discussed with the Department and its views obtained as to whether or not payment of these debts would be judicious at this time.

The Birmingham Office has advised that our informant Gary Thomas Rowe has current outstanding debts in the Birmingham, Alabama, area totaling $2350.08, and the SAC, Birmingham recommends that these debts be paid by the Bureau in full.

Birmingham points out that Rowe has performed invaluable service to the Bureau in connection with the case involving the shooting of Mrs. Viola Liuzzo, and his services have saved the Bureau an untold amount of Agent manpower and various expenses connected with an extended major investigation. They point out that informant has been in protective custody of the Bureau since 4-1-65, and as such, has not had an opportunity to be gainfully employed in order to meet various financial obligations that he has been meeting in the past. Birmingham points out that it is absolutely imperative to insure the possible success of the next trial tentatively scheduled for September, 1965, that the excellent relationship developed with Rowe must be retained, and to accomplish this Rowe should be free as much as possible from the receipt of bills from various creditors when he is not in a position to make payment.

Birmingham listed outstanding bills of informant Rowe as follows:

Alabama Power Company	$69.16
Southern Bell Telephone Company	38.78
Boothby Realty Company (Apartment)	297.50
State of Alabama (Sales Tax)	266.11
Birmingham Trust National Bank	1,062.00

Memorandum to Mr. Belmont
RE: EUGENE THOMAS, ET AL

OBSERVATIONS OF GENERAL INVESTIGATIVE DIVISION

The Bureau is currently paying Gary Thomas Rowe $16.00 per day subsistence in lieu of expenses. This figure was initially decided upon after discussion with the Department, and with the Department's approval, as it was recognized that the informant had to be removed from the Birmingham area for his protection and safety. The Department pointed out that it would not be desirable to make any lump sum or large payment to the informant so long as he might be called upon to testify, as any such large payments might be construed in court as a payment for his testimony, whereas payment of his living expenses can readily be justified as a necessity.

In the trial of subject Collie Leroy Wilkins which began 5-3-65 and resulted in a hung jury, the Bureau was called upon to produce a record of payments to the informant. In a future trial, it is reasonable to expect that we will again be called upon to produce such a record. The payment of Rowe's debts at this time amounting to over two thousand dollars would appear in this record of payments to Rowe, and we certainly could not agree to pay such a large amount at this time without the Department's approval.

With regard to the debts themselves, it would not appear from information furnished by Birmingham that they are all due and payable immediately, as the larger debts to the two banks would probably be payable in monthly installments. We could, with Department's approval, agree to payment of his smaller debts and monthly installments on these larger debts as they come due.

RECOMMENDATION

In view of the above, it is recommended that Birmingham be instructed to submit a detailed accounting of Rowe's debts showing their basis, when they were contracted, due dates and a full breakdown of any installment contracts showing detailed schedule of payments. Upon receipt of this information, the matter will be discussed with the Department and their views as to whether or not payment of these debts at this time would be judicious, will be obtained. Airtel attached.

In response to the Director's inquiry concerning correspondence relating to the demands made by Gary Thomas Rowe, prior to his testifying in the Federal trial of the three subjects responsible for the shooting of Mrs. Viola Liuzzo, the following items are attached:

(1) The teletype from Inspector J. L. McGovern dated 11-28-65, setting forth the substance of the discussion of John Doar, Assistant Attorney General, Civil Rights Division with Gary Thomas Rowe concerning demands made by Rowe. The teletype indicates that McGovern was present during Doar's discussion with Rowe and on page six of the teletype McGovern states that although Bureau personnel were present throughout the interviews between Doar and Rowe, Bureau personnel made no assurance, promises, nor commitments to him.

(2) A copy of the teletype from Mr. McGovern dated 11-23-65, which sets forth in detail the demands made by Rowe. Because of the urgency of relaying Rowe's demands to the Department, a Xerox copy of the teletype was prepared deleting the transmittal data at the top of page one and the last paragraph on page one continuing to the top of page two wherein Rowe expressed his confidence in Bureau personnel and felt he had been let down by the Department and does not trust its representatives.

originals deleted, retained, still copies attached

(3) A copy of the memorandum as prepared from McGovern's teletype of 11-23-65 as actually furnished to Mr. John Doar on 11-24-65.

(4) Attached is a memorandum from Mr. Rosen to Mr. Belmont dated 11-24-65 recording the discussion of Supervisor J. William Hines with Mr. Doar wherein he was furnished the memorandum (Item 3) and the demands were discussed.

ALSO INDICATED THAT THE FEDERAL GOVERNMENT DID NOT CONSIDER ROWE'S INABILITY TO IDENTIFY LEROY MOTON AS THE OCCUPANT OF THE CAR WITH MRS. LIUZZO AS BEING HARMFUL TO THE GOVERNMENT'S CASE; IF ROWE FELT MOTON WAS NOT THE NEGRO OCCUPANT, HE SHOULD SO TESTIFY.

MR. REBUTEL CALL TO BIRMINGHAM NOVEMBER 19 LAST.

GARY THOMAS ROWE HAS BEEN INTERVIEWED ALMOST CONTINUOUSLY SINCE LATE EVENING NOVEMBER 20 BY INSPECTOR J. L. MC GOVERN, SA NEIL P. SHANAHAN, AND FREQUENTLY IN PRESENCE OF SAC LYNUM AND SA JAMES G. CARLISLE.

AT OUTSET AND THROUGHOUT INTERVIEWS ROWE HAS BEEN ADAMANT IN HIS REFUSAL TO FURTHER TESTIFY IN THE STATE OF ALABAMA CONCERNING CAPTIONED CASE OR OTHER MATTERS. DURING INTERVIEW ROWE WAS HIGHLY EMOTIONAL, DISTRAUGHT, TEARFUL AND INDICATED THAT HE DOES NOT FEEL THAT HE IS PHYSICALLY CAPABLE OF GOING THROUGH WITH ANOTHER TRIAL. HE EXPRESSED DEEP CONCERN FOR THE SECURITY OF HIS CHILDREN, AS WELL AS HIMSELF, AND COMMENTED THAT HE WOULD NEVER RETURN TO ALABAMA. HE INDICATED THAT SO LONG AS THE THREAT OF FURTHER TESTIMONY HANGS OVER HIM HE CANNOT SECURE REGULAR EMPLOYMENT.

WHILE EXPRESSING A DEEP SENSE OF OBLIGATION TO THE BUREAU AND CONFIDENCE OF BUREAU PERSONNEL, HE INDICATED THAT HE FEELS THAT HE HAS BEEN "LET DOWN" BY THE DEPARTMENT AND DOES NOT TRUST ITS REPRESENTATIVES. HE COMMENTED THAT HE QUESTIONS THE

IN TAKING THE POSITION THAT HE WOULD NOT VOLUNTARILY RETURN TO ALABAMA TO TESTIFY, HE RECOGNIZED THAT A SUBPOENA COULD BE ISSUED FOR HIM BUT THAT IF ONE WERE ISSUED HE STATED THAT HE WOULD RETURN ONLY IF FORCE WERE USED TO TRANSPORT HIM TO ALABAMA. IF SUCH FORCE WERE USED HE WOULD REFUSE TO ANSWER QUESTIONS, EVEN THOUGH HE MAY BE HELD IN CONTEMPT AND CONFINED TO JAIL.

SHOULD HE BE FORCED TO TESTIFY HE SAID THAT HE WOULD INSURE THAT HIS TESTIMONY WOULD INCLUDE THE FACT THAT HE DOES NOT BELIEVE WITNESS LEROY MOTON IS THE SAME NEGRO WHO OCCUPIED THE CAR WITH THE VICTIM AT THE TIME OF HER SLAYING.

HE ALSO RECOGNIZES THAT SHOULD HE REFUSE TO TESTIFY THAT HIS SERVICES OVER THE PAST SIX YEARS AND HIS PRIOR TESTIMONY IN THE STATE PROSECUTIONS WOULD BE DISCREDITED.

AFTER DISCUSSION WITH ROWE THIS MORNING, HE INDICATED THAT HE WOULD TESTIFY UNDER THE FOLLOWING CONDITIONS:

1. THAT THE UNITED STATES ATTORNEY GENERAL GIVE HIM AN AGREEMENT IN WRITING PRIOR TO HIS ENTERING THE STATE OF ALABAMA, WHICH AGREEMENT WOULD PROVIDE THAT HE, ROWE, WOULD NOT BE REQUIRED TO TESTIFY IN ANY FURTHER PROCEEDINGS FOLLOWING THE TRIAL AT MONTGOMERY, ALABAMA, TO BE HELD NOVEMBER 29 NEXT, REGARDLESS OF THE OUTCOME OF THAT TRIAL, NAMELY, ACQUITTAL,

Inspector James McGovern, San Francisco, has advised that Gary Thomas Rowe, our informant whose testimony is needed in the Federal civil rights trial of the Liuzzo shooting in Montgomery, Alabama, beginning 11/29/65, had exhibited feelings of reluctance to testify for the Government and set forth certain conditions under which he would agree to testify.

These conditions consist of an agreement from the Attorney General that his testimony would not be required in any future proceedings, that he be assisted in obtaining employment and that some assurances be given him for the future security of his ex-wife and children and parents. He also expressed a desire to visit his wife and children in the Tampa, Florida, area over the Thanksgiving holiday.

Rowe's conditions were discussed in detail with Assistant Attorney General John Doar. Mr. Doar advised that he would discuss these conditions immediately with the Attorney General and requested that we arrange for Rowe to visit with his family in Tampa over Thanksgiving, 11/25/65, and that he would then personally meet with Rowe in Tampa on Saturday morning, 11/27/65. He said that he is planning to try the case personally in Montgomery and that Rowe's testimony is vital to a successful trial. He will make every effort to build Rowe's confidence, resolve the conditions set forth by Rowe and obtain his testimony.

This will confirm a discussion of Mr. J. William Hines of this Bureau with Mr. St. John Barrett of the Department on July 7, 1965, concerning outstanding personal debts of Gary Thomas Rowe, Jr., who furnished the initial information identifying and leading to the indictment of three subjects on charges of shooting Mrs. Viola Liuzzo on March 25, 1965.

Rowe's debts totaling approximately $2,350 consist primarily of personal loans at two banks in Birmingham amounting to about $1,500 and an assessment for Alabama State sales taxes in the amount of $263.50 which resulted from Rowe's operation of a tavern and restaurant from September, 1964, through March, 1965. The business was a losing enterprise and has reverted to its original proprietor. The balance of the debts are to local utility companies and for apartment rental. The utilities have been disconnected and the apartment reclaimed.

MAILED 20
JUL 9 1965
COMM-FBI

On July 7, 1965, Departmental Attorney St. John Barrett advised Mr. Hines that the Department was of the opinion that the Bureau should not assume responsibility for payment of Rowe's personal debts. He stated that if any payment is made to Rowe, it should be for personal services. Any large payment for personal services should not be made until after Rowe has testified at the upcoming trials of the subjects charged with the shooting of Mrs. Liuzzo scheduled for September and October, 1965.

✓

Mr. Barrett's attention was called to the fact that the Alabama State tax authorities had an outstanding assessment against Rowe for State sales taxes in the amount of $263.50. Mr. Barrett stated he was aware of this and that Mr. Paul Johnston, the attorney representing Rowe in the action for legal fees brought against Rowe by Attorney Matt Murphy, had brought this assessment to the Department's attention.

SUBJECT: TESTIMONY BY THE ATTORNEY GENERAL BEFORE THE SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES

On 11/21/75, Inspector John B. Hotis met with Doug Marvin, Counselor to the Attorney General; Mark Wolf, Special Assistant to the Attorney General, and Michael E. Shaheen, Jr., Special Counsel for Intelligence Coordination, concerning Mr. Levi's forthcoming appearance before the Senate Select Committee on Intelligence Activities. The Attorney General will have a prepared statement which will probably deal with the future relationship between the Bureau and the Department and the kinds of contacts needed to prevent abuse of authority. Mr. Marvin asked that the Bureau provide the following materials, which will be used in the preparation of a briefing book for Mr. Levi's testimony:

(1) A general synopsis of major areas of the Bureau's activities that have been investigated by the Senate and House Select Committees. Mr. Marvin gave as examples, the "Official and Confidential" files, COINTELPRO, use of informants, and interception of mails. He said the purpose is to identify those topics which have been of primary concern to the Committees. Mr. Marvin asked that the synopses contain a brief statement of the Bureau's position on each of the subjects.

EX-115 REC-9 62-116395-1155

(2) A general statement concerning the organizational structure and functions of the FBI, with particular emphasis on the responsibilities of the Inspection Division. This should include a description of how complaints are received, the review process, and any recent changes in the operations of that Division. In addition, the Attorney General wants a write-up of all investigations of alleged misconduct presently being conducted by the Bureau. He is particularly concerned about any incidents that may have occurred during Mr. Levi's tenure as Attorney General, such as those in Richmond, Detroit, and Houston.

RE: TESTIMONY BY THE ATTORNEY GENERAL BEFORE THE

(3) A history of Congressional oversight of the Bureau. Mr. Marvin asked that we identify those Subcommittees of Congress which have exercised some oversight responsibilities over the Bureau. In particular, he asked that we review appropriations testimony going back to 1955 to determine whether we discussed topics which are presently of concern to the Select Committees. This will be very useful in demonstrating Congressional awareness of these matters. He also asked that we furnish a statement of the Director's position concerning Congressional oversight which he has previously expressed in speeches or testimony before Congress.

(4) A list of major investigative techniques employed by the Bureau, specifying in each case whether we seek Departmental approval. The more obvious examples are electronic surveillance, use of body recorders, pen registers, informants, and photographic surveillances.

(5) A list of any formal or informal proposals which have been made concerning organizational changes of the FBI. Examples are the creation of an Inspector General's Office in the Department or elsewhere having review authority over the FBI, transfer of counterintelligence functions to another agency or the creation of a separate Division within the Bureau for that function, transfer of drug enforcement responsibilities to the Bureau, and the proposed statutory limitation on the term of the office for the Director.

It should be noted that several position papers concerning such topics were prepared at the request of former Acting Director L. Patrick Gray which might be useful in responding to this request.

Although no date has been set for the Attorney General's testimony, it is expected that he will testify after Mr. Kelley's appearance on 12/9/75. In view of the limited time available, Mr. Marvin asked that we expedite the preparation of these materials and furnish them to his office as soon as they are completed. It is requested that these materials be submitted to the Office of Congressional Affairs, when completed, but no later than cob, Friday, 11/28/75. They should be submitted in insert form suitable for inclusion in a letterhead memorandum.

U. S. SENATE SELECT COMMITTEE TO
STUDY GOVERNMENTAL OPERATIONS WITH
RESPECT TO INTELLIGENCE ACTIVITIES (SSC)

Reference is made to SSC letter dated November 7, 1975, and specifically to Item 1 of an accompanying Document Request of same date which requested all materials contained in the files of William C. Sullivan pertaining to Martin Luther King, Jr., and/or the Southern Christian Leadership Conference (SCLC) which have not previously been made available to the Committee. Excluded from consideration in connection with this request were any portions containing transcripts or summaries or tapes of electronic surveillances of King.

The purpose of this memorandum is to effect delivery to the SSC of materials in response to Item 1 of the Document Request.

With respect to the excisions in materials being delivered herewith, where no notation appears as to reason for excision, the excision was made for the reason that the information actually summarizes or quotes from conversations monitored during electronic surveillances of King. In some cases it can be ascertained precisely what information in these materials came from electronic surveillances of King; however, there exist areas where documentation of the information is not precise and no accurate determination can be made. Therefore, no assurances can be given that portions of the materials being furnished do not contain information developed as a result of electronic surveillances of King.

In addition to materials not being furnished the SSC as stipulated by the SSC is a folder classified "Top Secret" bearing a label captioned "Communications Concerning Martin Luther King, Jr., Volume 1" which was located in the files of Mr. Sullivan. A review of that document indicates it contains information which could result in the identification of confidential sources of this Bureau; data obtained in connection with

Dear Mike:

As a follow-up to our briefing of Assistant Director Wannall on November 6 concerning our proposed format and witnesses for public hearings on December 4-5 on the FBI's use of intelligence informants and sources, we would like to make the following requests.

As discussed in our meeting with Mr. Wannall, we invite the Bureau to submit a memorandum on its intelligence informant and source program that could be inserted in the record of the testimony of Bureau representatives at the hearing. This memorandum would enable the Bureau to present to the Select Committee a complete description of its program and to discuss the issues of particular interest to the Committee members. These include, for example, 1) the size, scope and purpose of the program, including an assessment of the program's cost and effectiveness, and the distinctions and relationships between the intelligence informant program and the Bureau's criminal informant activity; 2) the criteria that determine when an informant may be used in an organization or group; and 3) the program's command and control system, including the limits that are placed on the activities of informants and the type of information an informant or source is permitted to report to his handling agent and the Bureau. In addition, the memorandum would discuss possible legislation in the informant area, such as the imposition of a warrant requirement or additional administrative review. To permit the Select Committee members to study this memorandum in advance of the hearing and to discuss it with FBI representatives during their testimony at the public hearing, we request that the memorandum be submitted by November 24.

SUBJECT: SENSTUDY 75

On 11/25/75, John T. Elliff, Task Force Director of the Domestic Intelligence Task Force for the Senate Select Committee, requested the Bureau designate a witness to appear in executive session before the Senate Select Committee on 12/3 or 12/4 in the afternoon to discuss counterintelligence investigations by the Bureau. Elliff stated because of Chairman Frank Church's interest in a study as to whether counterintelligence investigations should be taken out of the FBI and placed in another agency or a separate component of the Justice Department, this particular topic would be the main focal point of the hearing. Elliff stated that the questions asked of the Bureau's witness would deal primarily with the feasibility of removal of counterintelligence out of the FBI including problems of a logistical and practical nature resulting from such a change. Elliff asked that he be advised as to the identity of the Bureau witness as soon as possible.

Inasmuch as the aforementioned topic is a question of policy, the Director may desire to appear or designate a Bureau witness to appear before the Committee in this matter. Michael E. Shaheen, Jr., Special Counsel for Intelligence Coordination in the Department, is aware of the aforementioned testimony and the possibility exists that the Department may make a decision with regards to the Bureau's providing a witness concerning this matter.

SUBJECT: SENSTUDY 75

John T. Elliff, Domestic Task Force Director of the Senate Select Committee, advised at 9:15 a.m. on 12/3/75 that the following is a statement to be read by Senator Frank Church of that Committee on 12/3/75.

Attorney General Kennedy authorized wiretaps in 1962 on New York Times reporter Hanson Baldwin and his secretary and that lasted for about one month. In addition to the wiretap on New York Times reporter Hanson Baldwin in 1962, the Committee has received materials from the FBI reflecting authorization by Attorney General Kennedy of a wiretap on a reporter for Newsweek Magazine in 1961 during the investigation of another leak of classified information. Further materials reflected authorization by Attorney General Nicholas Katzenbach for a wiretap on the editor of an anti-Communist newsletter in 1965, also during the investigation of a leak of classified information. The Committee has received materials from the FBI reflecting authorization by Attorney General Robert F. Kennedy of wiretaps on at least six American citizens, including three Executive Branch officials, a Congressional Staff Member, and two registered lobbying agents for foreign interests. The materials also reflect that these wiretaps relate to an investigation of agents by foreign interests to influence United States economic policies.

Elliff was advised by SA Paul V. Daly of this Division that an impression would be created by the aforementioned statement that this Bureau may have conducted an electronic surveillance on Capitol Hill and that this, of course, was inaccurate. The electronic surveillance concerning the Congressional Staff Member was not located on Congressional property. Elliff agreed with this observation and indicated that he would check the material to insure the electronic surveillance in ~~question was~~ not on Congressional property and as agreed, make a change in the aforementioned statement.

U. S. SENATE SELECT COMMITTEE TO STUDY GOVERNMENTAL OPERATIONS WITH RESPECT TO INTELLIGENCE ACTIVITIES (SSC)

Reference is made to SSC requests contained in letter of Senator Frank Church dated November 7, 1975, for materials concerning Martin Luther King, Jr.

The purpose of this memorandum is to effect delivery to the SSC of information and materials in response to requests contained in the above SSC letter.

The attention of the SSC is invited to FBI memorandum dated November 11, 1975, which referred to a highly sensitive oral briefing furnished to Senator Church and selected members of the SSC Staff by FBI personnel on November 5, 1975. This briefing was intended, in part, to serve in lieu of any written information in response to SSC requests for communications documenting Stanley David Levison as a secret member of the Communist Party, USA (CPUSA).

Because of SSC insistence in requesting items to establish factual basis for Levison's secret CPUSA membership, as set forth in referenced SSC letter, our New York office was contacted for documents representing original recordings from Bureau informants concerning Levison. As a result our New York office provided the material which is now being delivered and which has served as a basis for statements in various FBI documents that Levison was a secret member of the CPUSA.

ENCLOSURE

It is noted that referenced SSC letter requested unexcised copies of the February 22, and June 12, 1962, communications from New York which appear to have been the "articulated predicates for the 'cominfil' case." The SSC letter did not identify captions of these communications; nor identify any specific "cominfil case." Therefore, we were unable to locate any pertinent documents bearing these dates in our Headquarters files. At a meeting on November 12, 1975, between SSC Staff Member Michael Epstein and representatives of the Intelligence Division of the FBI, it was agreed that the two documents apparently referred to above are New York airtel dated February 12, 1962, captioned "Dr. Martin Luther King, Jr.; SM-C" and New York letter dated August 21, 1962, captioned "Communist Infiltration of the Southern Christian Leadership Conference; IS-C."

New York airtel dated February 12, 1962, is being delivered with this memorandum among those documents received from our New York office. Excisions in this document are fewer than those made in a copy previously provided the SSC. A copy bearing no or fewer excisions cannot be provided the SSC for reasons made clear during the oral briefing of Senator Church and selected SSC Staff members on November 5, 1975.

It is noted that New York letter dated August 21, 1962, which is being delivered with this memorandum, is not believed to have been previously provided the SSC.

Dear Mr. Shaheen:

I want you to know how much I appreciated the opportunity to meet with you and your associates the other day about the Martin Luther King, Jr. case. It was most helpful to have the benefit of the Bureau's knowledge concerning the background of the case, and I can assure you that we will do everything possible to avoid jeopardizing any sensitive FBI sources or ongoing operations.

I do want to reiterate our need for the specific items set forth in earlier document requests which would presumably establish the factual basis for your conclusion as of various dates in 1962, 1963 and 1964 that Stanley Levison was a "secret member of the Communist Party, USA." Of course in the event that there is no particular document in any of those years wherein Levison was so-identified to the FBI, I think it would be helpful for you to let us know so that we may consider our outstanding requests in that context. Finally, of course, we still need unexcised copies of the February 22 and June 12, 1962 communications from New York which appear to have been the articulated predicates for the "cominfil" case.

Once again, I want to thank you for your time and I look forward to hearing from you further on this subject.

Sincerely,

Frank Church

SENSITIVE FOREIGN INTELLIGENCE OPERATION (SF10)

On 4/9/64, (NY 694-S* made the following observations with regard to the) CP status of STANLEY LEVISON:

LEVISON has been an important Party member for many years (and never at any time differed with the Party with respect to the Party line. His only difference with the Party has been with respect to the fact that in his opinion the Party was not sufficiently "militant" in defending Negro rights. In this respect, he has been to the "left" of the Party. LEVISON's differences with the Party are merely "tactical." He has never criticized the Party, except with respect to the Party's handling of the Negro question. The fact that he does not accept domination by the Party with regard to the MARTIN LUTHER KING movement should not be construed to mean that he has broken with the Party in all respects. The Party today is as anxious to reestablish friendly relations with LEVISON as it was in the past.)

SF10

(It should be noted that LEVISON never has been officially "drummed out" of the Party, nor has anyone ever criticized him for being opposed to the Party's general principles. It further should be noted that according to the CP Constitution, it would require formal expulsion of LEVISON to state that he is officially out of the Party.

SF10

LEVISON never has said anything reflecting that he does not continue to be a CP member. It should be noted that it would be in the interests of the MARTIN LUTHER KING movement, with which he is associated, if he would publicly repudiate the Party, which he has never done. It should be further noted that in an effort to renew friendly relations)

with LEVISON, the Party designated BEN DAVIS to contact LEVISON. LEVISON had always expressed the opinion that BEN DAVIS was the only CP functionary who had a sufficiently "militant attitude" as regards CP activities in behalf of the Negro movement. The fact that DAVIS and LEVISON as yet have not met should not be construed to mean that LEVISON has refused to confer with DAVIS. As NY 694-S* understands the situation, DAVIS has been awaiting contact by LEVISON, and LEVISON similarly has been awaiting contact by DAVIS. Each of these individuals is sufficiently egotistical to expect that the other would make the first move in an effort to establish contact. NY 694-S* believes that probably the reason why DAVIS and LEVISON have not met is that arrangements for their meeting were to be made by LEM HARRIS and that HARRIS has not made the proper efforts to effect a meeting between LEVISON and DAVIS.

SF10

NY 694-S* has never obtained any information reflecting that LEVISON has changed his thinking with regard to Marxism. Even though his present estrangement from the Party might be construed as reflecting he is no longer a CP member, there is no reason to come to the conclusion that LEVISON is no longer an ideological Communist.

JACK talked to LEM HARRIS yesterday who said he contacted STAN LEVENSON by phone and was given a cordial hello which was a change from the past when he was cool.

LEM said he had not seen LEVENSON, tried to call him and would like to see him immediately to which LEVENSON said, "I would like very much to see you but I don't have the time now. I'm leaving and packing for a trip. I will be glad to see you in six weeks."

LEVENSON implied that he was going to Ecuador but LEM doesn't know why. There was no anger shown, and LEVENSON will see LEM when he returns in six weeks.

On 6/13/63, NY 694-S* furnished the following information to SA ALEXANDER C. BURLINSON:

On 6/12/63, LEMENT HARRIS, CPUSA Reserve Fund functionary, told NY 694-S* that in a recent meeting with STANLEY LEVISON, the latter furnished him the following information:

The LEVISONS, particularly STANLEY, are still MARTIN LUTHER KING's "brain trust"--now more than ever before. This is so despite the fact that at a meeting of STANLEY LEVISON, ROY LEVISON, HUNTER PITTS O'DELL, MARTIN LUTHER KING and "the Attorney General's chief assistant", the Attorney General's assistant, pointing to the LEVISONS and HUNTER PITTS O'DELL, stated to MARTIN LUTHER KING, "These men are Party members; watch out for them."

MARTIN LUTHER KING did not "bat an eyelash" upon hearing the Assistant Attorney General's remark, and after the latter left the meeting, those in the group smiled at each other. STANLEY LEVISON said to KING, at this time, "I congratulate you on the way you acted regarding his warning. You are a real Marxist-Leninist. This is how a true Marxist-Leninist acts."

Everything that KING does he first discusses with STANLEY LEVISON and he accepts LEVISON's advice wholeheartedly. KING also wholeheartedly accepts the advice of HUNTER PITTS O'DELL as regards matters within the latter's local jurisdiction.

MARTIN LUTHER KING was asked by a group of newspaper reporters whether he takes orders from "the Communists", and also, whether he took "orders from STANLEY LEVISON." KING's response was that he took orders only from God.

By reason of the fact that the LEVISONS feel that the Party has done little, if anything, to assist the fight

for civil rights for Negroes, and further, since they feel that the Party, as a result of this "do nothing" attitude, has lost prestige, they will no longer permit the Party to dominate or control their activities in the MARTIN LUTHER KING movement. They are severing themselves, financially and in a disciplinary way, from the Party. The LEVISONS and O'DELL are still Party members, but do not desire to be openly "linked up" with the Party. Although they are "disenchanted" with the Party, they are not quitting the Party. With respect to the MARTIN LUTHER KING movement, they will act on their own initiative, and will not accept instructions from the Party.

SF10

LEM HARRIS then advised that the Party, however, still would like to control the MARTIN LUTHER KING movement. BEN DAVIS has been assigned to be "liaison or intermediary" with the LEVISONS and HUNTER PITTS O'DELL. Whether or not the LEVISONS and O'DELL will maintain liaison regarding matters concerning the MARTIN LUTHER KING movement is a matter for them to decide. In view of LEVISON's statement with respect to advising MARTIN LUTHER KING independently of Party instructions, it would seem that DAVIS may not have any success in maintaining liaison with the LEVISONS and HUNTER PITTS O'DELL. The LEVISONS and O'DELL are aware of the fact that BEN DAVIS has been given this assignment by the Party.

SF10

MARTIN LUTHER KING, according to LEM HARRIS, is referred to by such top Party functionaries as GUS HALL, BEN DAVIS, JIM JACKSON and CLAUDE LIGHTFOOT as a "true, genuine, Marxist-Leninist from the top of his head to the tips of his toes." In the Party, the report is that MARTIN LUTHER KING is following a Marxist-Leninist line.

NY 694-S* advised that he asked LEM HARRIS whether or not, to the latter's knowledge, MARTIN LUTHER KING was a member of the CPUSA. LEM HARRIS replied that he did not know.

(When Dr. MARTIN LUTHER KING was invited to address the AFL-CIO convention some time ago, KING, on LEVISON's advice, first obtained approval to do so from A. PHILLIP RANDOLPH, negro labor leader, who, if he had not been consulted in the matter, might have felt that KING's making a speech at the aforesaid convention was a blow to RANDOLPH's prestige.

KING delivered a remarkably effective speech at the AFL-CIO convention, and, as a result, received invitations from numerous labor leaders, including "MC DONALD of Steel," to address their respective unions. As the outstanding champion of negro rights in the country, KING is a powerful political influence, recognized as such by the higher echelons of the Democratic Party. He has access to Attorney General ROBERT KENNEDY and President KENNEDY, who, politically, need KING, particularly in the South, where in cities like Atlanta and New Orleans the negro vote now constitutes the balance of power, and where KING controls the negro vote.

JAMES HOFFA, Teamsters Union "boss" appreciates the political power of KING, particularly the fact that KING can influence the 90,000 negro members of the Teamsters Union. HOFFA invited KING to address the Teamsters Union, and KING accepted the invitation. Knowing that KING is being deferred to by Attorney General KENNEDY, and President KENNEDY, HOFFA requested KING to contact the Attorney General in an effort to influence the latter "to lay off" HOFFA. KING was inclined to do as HOFFA requested, but LEVISON convinced him that to do so would be politically unwise, inexpedient, and likely to be a "boomerang," since the Attorney General would never accede to such a request, particularly in the case of HOFFA.

LEVISON had to steer KING away from another politically hazardous situation. Some months ago OTTO PREMINGER, Hollywood movie director, entered into negotiations with a KING representative for KING to play a part in a picture which PREMINGER would direct. Although PREMINGER's offer was "tempting," since it meant "fast, easy money" for KING's organization, LEVISON realized that for KING to accept the offer would lower the latter's prestige. After convincing KING of this fact, LEVISON personally telephoned to PREMINGER, telling him that "the deal was off.")

What LEVISON particularly wanted GUS HALL to know is that "KING is a wholehearted Marxist, who has studied it (Marxism), believes in it, and agrees with it, but because of his being a minister of religion, does not dare to espouse it publicly."

GUS HALL, according to HARRIS, was "elated" to receive LEVISON's report on LUTHER KING.

BA 969-S advised on 11/22/60, (BA 134-13A-615) that at a National Negro Commission meeting held on 11/19, 20/60, at CP Headquarters, 23 West 26th Street, NYC, TED BASSETT, a representative of "The Worker", stated that the CP is now in the process of placing members of the Party in key positions in the SCLC. BASSETT continued by saying that a Western Conference of the Christian Leadership is now being formed and a CP member is the leader in this conference.

informant

NY 694-S* advised on 5/1/62, that on 4/30/62, ISADORE WOFSY, CP, USA fund functionary, said that according to LEM HARRIS, he was told by STANLEY LEVISON that the CP, USA had sent "an experienced, professional, secret organizer" to New Orleans, who would assist the MARTIN LUTHER KING group there in its fight for political equality of Negroes. LEVISON allegedly told HARRIS that he personally, and not the Party, was financing this organizer. SF10

informant — Hosea?

NY 694-S* advised on 5/2/62, that according to LEM HARRIS, the secret CP organizer, whom the CP, USA had sent to New Orleans, was JOSE HUDSON. HARRIS said that HUDSON would be associated with SERGEANT CAULFIELD in Baton Rouge. SF10

informant

On 7/2/62, NO 1084-S advised that SERGEANT CAULFIELD returned to Baton Rouge, Louisiana, from Atlanta, Georgia, on 5/31/62. Informant said that CAULFIELD stated that he and JOSE HUDSON met HUNTER O'DELL in Atlanta, O'DELL having flown there from NYC.

informant

NO 1084-S stated that CAULFIELD paid CP dues to O'DELL for several CP members from Louisiana. O'DELL had come to Atlanta regarding organization of the MARTIN LUTHER KING movement. O'DELL thought that if an active

~~SECRET~~

MARTIN LUTHER KING movement could be organized in Louisiana, the State Senatorial District where CAULFIELD resides permanently (Lettsworth, Louisiana), CAULFIELD might be furnished as much as $1,000.00 per month to promote this movement. The funds are to come from the MARTIN LUTHER KING movement and the object is to get every eligible Negro to register to vote. CAULFIELD reportedly met MARTIN LUTHER KING, JR., while in Atlanta, and discussed with him the voter registration matter in Louisiana.

On 4/27/62, a pretext telephone call was made to UN 6-2000, which is the NYC listing for the Committee to Defend MARTIN LUTHER KING and also the listing for the SCLC at 312 West 125th Street, NYC. The pretext used was that of a person interested in contributing money to the KING committee. The person answering the phone during the conversation identified himself as JACK O'DELL, and furnished the following information:

His office is the Northern Branch of the SCLC. The Committee to Defend MARTIN LUTHER KING, at 312 West 125th Street, was organized as an "ad hoc" committee to assist in the KING defense, when he was the subject of court action. When the reason for this committee's being in existence was removed, it was formally dissolved. The same personalities them formed the Committee to Aid the Southern Freedom Struggle, which is now operated at 312 West 125th Street.

O'DELL stated that it would make no difference as to whether a person contributing money makes out checks payable to the Committee to Defend MARTIN LUTHER KING, the SCLC or the Committee to Aid the Southern Freedom Struggle, because they are all one and the same.

NY 100-149194

On 6/1/61, informant (CG 5824-S*) advised that HUNTER PITTS O'DELL, who was a secret member of the National Committee, CP, USA, has quit the CP and is officially considered by the CP as being out. However, there are no hard feelings existing between O'DELL and the Party and he is still on good terms with the CP and will work with them. SF10

UNLESS THIS INFORMATION IS OBTAINED FROM A SOURCE OTHER THAN (NY 694-S*,) IT SHOULD NOT BE INCORPORATED, EVEN IN PARAPHRASED FORM, IN THE INVESTIGATIVE SECTION OF A REPORT.
INFORMANT

On 7/23/62, Informant (NY 694-S*) stated during a personal contact with GUS HALL, General Secretary of the CP, USA, on that date, HALL advised that HUNTER PITTS O'DELL is still representing the CP, USA and that he is still on the National Committee of the CP, USA. HALL further remarked that O'DELL is a "brain-trust" for LUTHER KING and is doing an excellent job.) SF10

Current investigation in NYC reflects that O'DELL is spending most of his time in the Atlanta area working with the SCLC. He was last reported in the NY area in June, 1962.

On 2/11/62, INFORMANT (NY 1300-S) made available photographs of material maintained in the office of STANLEY LEVISON, 6 East 39th Street, NYC. Included in these photographs were the following:

1. Two checks, both dated 12/19/61, bearing the printed name of the "Southern Christian Leadership Conference", 312 West 125th Street, NY, NY. These checks

are numbered 397 and 399, one in the amount of $251.90 and one in the amount of $150.00, are marked payable to J. O'DELL, and are signed by STANLEY D. LEVISON.

2. Copy "C" of a Withholding Tax form for 1961, in the name of JOHN HUNTER O'DELL, 312 West 125th Street, NY, NY, Social Security Number 386-14-3707, indicating that he was paid $3,050.00 in 1961 by the SCLC, 312 West 125th Street, NYC.

X

(ELSUR NY 3575-S*) advised on 6/20/62, that STANLEY LEVISON stated that in a recent conversation with MARTIN LUTHER KING, KING said he was thinking of getting another administrative assistant. LEVISON stated that in the past LEVISON had not considered it wise for O'DELL to take on such a position, but he is the only one who could do the job and should be considered for it. LEVISON stated as long as O'DELL did not have the title of Executive Director, there would not be "as much lightening flashing around him". O'DELL could be called a coordinator and still fulfill all the duties of Executive Director.

LEVISON stated, according to (ELSUR NY 3575-S*) that KING liked LEVISON's suggestion with respect to O'DELL taking this position, because KING felt that O'DELL must face it sooner or later, stating "that no matter what a man was, if he could stand up now and say he is not connected, then as far as I am concerned, he is eligible to work for me".

(INFORMANT NY 2783-S) advised on 7/11/61, (INFORMANT FILE # (NY 134-4268A-378),) that HAZEL GRAY is working again at the SCLC, 312 West 125th Street, NYC.

On 7/8/61, INFORMANT NY 1212-S stated that it had come to his attention that CLAUDE LIGHTFOOT had mentioned that he wanted

to use HAZEL GRAY and her husband, JOHN GRAY, in the Kings County CP organization. The informant stated that LIGHTFOOT highly recommended the GRAYs.

On 3/10/61, MILTON BIRON, Senior Accountant, Comtroller's Office, New York City, Bureau of Excise Taxes, 120 West 32nd Street, made available an application for exemption from the New York City amusement tax, dated 1/23/61, and signed by STANLEY D. LEVISON. The exemption was requested for a "concert" to be given at Carnegie Hall on 1/27/61, for one evening performance.

The name of the applicant was given as the "Committee to Aid the Southern Freedom Struggle", 312 West 125th Street, an unincorporated association. It is stated that the applicant is a non-profit educational committee which has registered with the Charities Registration Bureau in Albany and the Department of Welfare in NYC. It says that it employs no professional fund raisers and that neither its officers nor executive directors are paid either salaries or expenses.

The, "Purposes for which applicant was organized", are listed as:

"To provide funds for the Southern Christian Leadership Conference to be used for establishment of constitutional rights in the South utilizing voting registration drives, educational meetings, church and synagogue conferences, sit-in techniques, legal actions etc."

The, "Activities of the Applicant", are listed as:

"Mail solicitations, benefits, meetings, educational conferences, church collections."

The, "Source and Disposition of Income", is listed as:

"All income less expenses is transmitted to the Southern Christian Leadership Conference or directly paid out to sources indicated by the Southern Christian Leadership Conference. Dr. MARTIN LUTHER KING is President of the Southern Christian Leadership Conference."

A "note" attached to the application stated that the committee was created by resolution as an unincorporated association at an organizing meeting held at the home of HARRY BELAFONTE, 300 West End Avenue, in June, 1960.

The application for exemption from the New York City amusement tax was denied by letter 1/31/61, sent to the Committee to Aid the Southern Freedom Struggle, 312 West 125th Street, attention of STANLEY D. LEVISON.

NY has considered the above facts and is of the opinion that a Cominfil investigation of the NY Chapter of the SCLC is warranted, due to the dominant CP influence on the executives of the NY Chapter of the SCLC.

NY will conduct no further investigation without prior Bureau authority.

Dear Mike:

As a follow-up to our briefing of Assistant Director Wannall on November 6 concerning our proposed format and witnesses for public hearings on December 4-5 on the FBI's use of intelligence informants and sources, we would like to make the following requests.

As discussed in our meeting with Mr. Wannall, we invite the Bureau to submit a memorandum on its intelligence informant and source program that could be inserted in the record of the testimony of Bureau representatives at the hearing. This memorandum would enable the Bureau to present to the Select Committee a complete description of its program and to discuss the issues of particular interest to the Committee members. These include, for example, 1) the size, scope and purpose of the program, including an assessment of the program's cost and effectiveness, and the distinctions and relationships between the intelligence informant program and the Bureau's criminal informant activity; 2) the criteria that determine when an informant may be used in an organization or group; and 3) the program's command and control system, including the limits that are placed on the activities of informants and the type of information an informant or source is permitted to report to his handling agent and the Bureau. In addition, the memorandum would discuss possible legislation in the informant area, such as the imposition of a warrant requirement or additional administrative review. To permit the Select Committee members to study this memorandum in advance of the hearing and to discuss it with FBI representatives during their testimony at the public hearing, we request that the memorandum be submitted by November 24.

Also I am enclosing requests for documents relating to two of the three former FBI informants who are scheduled to testify on December 4. These requests supplement our document request of August 20, 1975 pertaining to informants (Part IV-4).

Because of the limited time remaining before the scheduled hearings, we request that the Special Agents be made available for interviews and depositions as soon as possible.

Reference is further made to our memoranda dated July 17, 1975, and September 25, 1975, which provided background information and documents pertaining to the SI, ADEX, and RI.

As you are aware, a computerized ADEX listing is prepared monthly at FBIHQ. The SI list was prepared in the same manner and, as with the former SI, when a new monthly ADEX list is prepared copies of the old list are destroyed inasmuch as they are outdated and no longer serve a useful purpose. As you have been previously advised, names appearing on the former SI and the ADEX have been printed on 5 X 8 cards with a single name printed on each card. Background information, file numbers, and type of activity in which the individual is engaged are also placed on these cards. As you are aware, approximately 15,000 of these cards, all outdated, have been located as FBIHQ. These cards include some which contain the identity of individuals who were maintained on the Priority III level of the former SI and all ADEX cards deleted or cancelled since its inception.

During the initial period of establishing the ADEX, in order to obviate the need for conducting massive file reviews, the ADEX consisted primarily of the identity of those individuals who had been maintained on the former SI. Although these names were originally placed in this manner on the new ADEX, as cases were reviewed under our then existing reporting procedures, each case was to be reviewed on its own merits utilizing the then current criteria for ADEX to determine whether continued inclusion on the ADEX was warranted. If not, the individual's

RE: UNITED STATES SENATE SELECT COMMITTEE TO STUDY GOVERNMENTAL OPERATIONS WITH RESPECT TO INTELLIGENCE ACTIVITIES (SSC)

name was deleted. As previously indicated, during 1972 the ADEX was evaluated and revised. Following this revision, the number of individuals who were included on the ADEX began to decline and thus the high number of cancelled cards. In accordance with Bureau policy, which was instituted during the SI program, these cancelled cards are maintained at FBIHQ for a period of three years and there is no way to reconstuct a former SI or ADEX list for a particular time period by reviewing these cancelled cards. These cards, however, will reflect the identity of those individuals who have been placed on the SI and the ADEX for the period for which these cards were maintained.

Per your request, these outdated SI and ADEX cards are available for review by appropriate SSC representives at FBIHQ. In this regard, SSC Staff Members Martha Talley and John T. Elliff have had access to these cards on October 30, 1975, and November 7, 1975, respectively.

During Mr. Elliff's review of these cards, the names Shelley Blum, Emanuel James Brisker, Jr., and Gregory Allan Calvert were selected by Mr. Elliff in connection with request number two of your October 28, 1975, letter. Documents requested regarding these individuals are enclosed.

A review of pertinent files at FBIHQ regarding the SI and the RI indicates there are no other versions of the former SI or RI at FBIHQ. Contact was also made with knowledgeable individuals of our New York City Field Office and it was determined these programs had been handled in accordance with then existing FBIHQ policy and no other versions of these programs were compiled by that office.

Materials requested for delivery under item number four of your October 28, 1975, letter are enclosed. In this regard, it is noted the correct FBIHQ file number for the Emma Lazarus Federation of Jewish Women's Clubs is 100-400394 and the correct file number for the file regarding Communist Infiltration of the National Association for the Advancement of Colored People is 61-3176. In order to be responsive to your request, pertinent documents of the type desired are being furnished regarding these organizations from these files.

NOTE:

During Mr. Elliff's review of the cancelled SI and ADEX cards, he indicated additional access to the cards would be requested to obtain the identity of other individuals besides the three selected by him 11/7/75.

SA James Graham, IS-1 Section, handled the request for documents listed under items 4u through 4ee, all of which pertained to the IS-1 Section.

The matter relating to other versions of the SI and RI compiled by our New York Office were discussed with New York personnel SAC James O. Ingram and Field Supervisor Raymond Ruckel on 11/10/75, and 11/11/75, respectively.

Reference is made to my letter dated July 1, 1975, which enclosed a memorandum of the same date relating to a request for documentary materials made by the Senate Select Committee (SSC) under the date of May 14, 1975.

The referenced memorandum, on page 1, paragraph 4, refers to a briefing by FBI Director J. Edgar Hoover to the National Security Council, presided over by the President, on November 6, 1958. A further review of our records has determined this briefing by Mr. Hoover was actually furnished to the President and members of his Cabinet on November 6, 1958. Although it is likely members of the National Security Council were present, technically it was a briefing of the President and his Cabinet.

Attached for your approval and forwarding to the Committee is the original of a memorandum correcting this technical error and requesting the Committee appropriately change its records.

A copy of the memorandum is provided for your records.

Reference is made to memorandum dated July 1, 1975, which responded to a SSC request under the date of May 14, 1975, for documents relating to this Bureau's former Counterintelligence Programs (Cointelpros).

Page 1, paragraph 4, of referenced memorandum refers to a briefing by FBI Director J. Edgar Hoover to the National Security Council, presided over by the President, November 6, 1958. Enclosed with the memorandum was a document with a cover page alluding to this briefing of the National Security Council.

A current review of the records of this Bureau has determined the briefing by FBI Director J. Edgar Hoover on November 6, 1958, was actually furnished to the President and members of his Cabinet. Although it may be presumed that some members of the Cabinet were also members of the National Security Council, it is requested you correct your records to more accurately indicate the true nature of the briefing.

This is also to confirm information orally furnished by Supervisor David Ryan of the FBI to SSC staff member Barbara Banoff on November 13, 1975, at SSC offices. At that time,

Reference is made to a memorandum dated 11/12/75 from Legal Counsel to Mr. J. B. Adams, Deputy Associate Director, in which a recommendation was made that the Intelligence Division determine whether there is a memorandum describing a briefing of former Attorney General Ramsey Clark by Mr. Cartha DeLoach, former Assistant to the Director, concerning the Counterintelligence Program.

Mr. DeLoach, during an interview under oath by staff members of the Senate Select Committee on 11/11/75, advised that he had briefed Ramsey Clark regarding the Counterintelligence Program and, when asked whether he had written a memorandum regarding that briefing, advised that he could not specifically recall whether a memorandum was prepared. During the interview by Committee staff members, they advised Mr. DeLoach that they had asked for such documentation from the Bureau, but a memorandum indicating Mr. DeLoach had briefed Ramsey Clark regarding the Counterintelligence Program was not received among the documents furnished by the Bureau.

ST-110 REC-7 62-116395-1160 17 1975

This will advise that additional review of Bureau files by personnel of the Analytical Research Unit has failed to disclose any memorandum which describes a briefing of Clark by Mr. DeLoach regarding the Counterintelligence Program.

On September 19, 1975, Mr. David Aaron, an investigator for SSC was briefed at FBI Headquarters (FBIHQ) in preparation for his planned visit to Brasilia, Brazil, on September 22, 1975, and Buenos Aires, Argentina, on September 25, 1975, in connection with the Committee's inquiry into U. S. intelligence activities. Mr. Aaron was briefed on the overall role and mission of the FBI's Legal Attaches (Legats), and specifically on the activities and functions of the Legats at Brasilia and Buenos Aires. He was advised that Legat, Brasilia, utilized two confidential sources in order to facilitate the prompt coverage of leads in Brazil. He was also told that Legat, Mexico City, and Legat, Brasilia, were the only Legat offices that utilized paid confidential sources. (S)

Legat, Buenos Aires, informed FBIHQ that the U. S. Embassy at Buenos Aires received instructions, classified "Secret," from the U. S. Department of State with regard to the visit of David Aaron, a former U. S. Department of State Foreign Service Officer, and William Truehart, a former U. S. Ambassador, to the U. S. Embassies at Brasilia, Buenos Aires, and Montevideo and the U. S. Consul General in Rio de Janeiro. The

RE: VISITS OF SSC STAFF
MEMBERS TO FBI
LEGAL ATTACHES

Department of State advised that the primary objective of the visitors was to discuss with the Ambassador and members of his staff the relationships and exercise of authority by the Ambassador of the intelligence activities in the field. The Department of State further advised that operational details, sources and methods were not construed to be legitimate avenues of inquiry by the SSC Staff Members.

Legat, Brasilia, was interviewed on September 22, 1975, by Messrs. Aaron and Truehart, with Aaron being dominant in the interviewing process. The interview was directed mainly toward attempts to elicit examples whereby Central Intelligence Agency (CIA) had withheld dissemination of information of interest to other agencies. Inquiries were made concerning CIA activities inside and outside the Embassy. Specific questions were placed with Legat to ascertain if the FBI was involved in Soviet Embassy "walk-ins" as well as recruitment of double agents and CIA-oriented operations. Discussion concerning Legat's role and functions in Brasilia appeared to be routine, with few, if any, pointed questions directed at FBI operations overseas. The subject of two paid confidential sources in Brasilia was briefly discussed and both SSC investigators appeared understanding and in agreement with the necessity of each confidential source to serve FBI's and U. S. Government's best interests in Brazil. The question seemingly bearing the most weight during the interview concerned possible unauthorized activities of CIA and its lack of cooperation and coordination with FBI and the Defense Attache's Office. The duration of the interview was approximately forty-five minutes.(S)

Legat, Buenos Aires, was interviewed by the two SSC Staff Members on September 26, 1975. Again Aaron played the dominant role during interview. He commenced

the interview by stating that the operations of Legats, Brasilia, and Buenos Aires, were not the type of Legat operations he desired to review, indicating that Mexico City Legat's operations were more of the type of interest to them. Aaron asked pointed questions concerning the mechanics of Legat reporting on intelligence information developed locally to FBIHQ and the local coordination of this information with the Embassy components. Aaron requested the Legat provide him with the general nature of intelligence developed and reported by the Legat to the Embassy and FBIHQ. He was told that generally international and local terrorism were the prime topics of Legat reporting. Inquiry was also made into the reason for FBI expansion of foreign liaison activities in 1970. He was told that the Legat was not personally aware of any special reason other than that the FBI liaison operations required additional personnel and Aaron was referred to FBIHQ for any additional information in this regard. [Legat was asked whether the CIA Station had ever requested Legat to secure data from FBI computer banks on Argentine residents of CIA interest who had previously resided in the U. S. Legat's reply was in the negative. Other questions mainly dealt with cooperation and coordination activities between the FBI and the CIA at the Embassy.] Inquiry was also made into the relationship of the Drug Enforcement Agency and FBI overseas. The interview lasted approximately thirty-five minutes. (S)

Upon arrival in Buenos Aires, Mr. Aaron was suffering from an intestinal problem and remained in his Buenos Aires hotel on September 25, 1975. The Charge D' Affaires hosted a small luncheon for former Ambassador Truchart on that date which Legat, Buenos Aires, attended. Truchart was very open regarding the operations of the SSC

and stated that he felt the Committee had lost its perspective and that he believed that various Senators were engaging in a game of "one-upmanship" in revealing so-called sensational disclosures of CIA activities. Truchart stated he personally felt that the original purpose of the Committee to afford an objective review of U. S. intelligence operations had been lost.

NOTE:

Classified "Secret" in conformance with the classification applied to information furnished to the U. S. Embassies at Brasilia, Buenos Aires, Montevideo and the U. S. Consul General in Rio de Janerio, by the U. S. Department of State. The information was transmitted by the U. S. Department of State via its Secret Roger Channel. (S)

The details of the interviews are located in Legat, Brasilia, teletype to the Bureau 9/23/75 and Legat, Buenos Aires, teletype to the Bureau 9/26/75, both classified "Secret" and both captioned "Senstudy-75."

Mr. Aaron was briefed at FBIHQ by Section Chief Vadja V. Kolombatovic, Harvey C. Flemister and Robert A. Bermingham of the Liaison Section, Intelligence Division.

Memorandum advises concerning proposed SSC hearing on FBI foreign counterintelligence (CI) matters.

On 10/30/75 Mr. John Elliff, SSC Staff Member, met with Assistant Director W. R. Wannall, Intelligence Division (INTD). Also present were Section Chiefs W. A. Branigan (CI-1) and W. O. Cregar (CI-2) and Acting Section Chief F. J. Cassidy (IS-3) and Unit Chief E. W. Larson, Training Unit (IS-3). Mr. Elliff advised that the Committee proposed to have an executive session tentatively scheduled for the morning of Friday, 11/14/75, which would deal with foreign CI operations. In addition to representatives from the FBI they envisioned also having present representatives from CIA and the United States military intelligence services. He stated that the session would be scheduled for approximately 2 and one-half hours.

During the conference the following three themes were outlined by Mr. Elliff as the probable areas of discussion:

1. Changes in CI operations during recent years

Items discussed as probably worthy of attention were physical surveillances, the walk-in operations, defection (recruitment-in-place), CI training programs. Also suggested as a prime topic was the future projections concerning administration of foreign CI operations in the United States, i.e., new division for CI work within FBI; separate CI service; or other modifications.

2. Counter-subversion

In this category Mr. Elliff indicated a particular interest in foreign influence in domestic groups and the assessment of danger/risk in investigations undertaken to detect such influence. He brought up the disclosures of surveillances by CIA of Americans abroad at the request of the FBI. He also indicated an interest in borderline cases, such as those in which domestic counter-subversion investigations develop a CI aspect, and was particularly interested in the policies and coordinating mechanisms affecting such instances.

3. Positive intelligence collection

In this category Mr. Elliff was interested in the responsibility for collection of positive intelligence within the United States and the apparent gap which existed in this field. He was also interested in situations under which the FBI might target friendly foreign intelligence services in the United States for CI attention.

Considerable discussion was held during the conference during which INTD representatives set forth the FBI's position and experience in the many areas noted. They are being set forth here to illustrate the probable scope and nature of the executive session which is being planned. Further discussions will be held with the SSC staff to clarify these matters and a firmer agenda for the proposed 11/14/75 hearing will be developed.

With respect to the proposed plan to include representatives of CIA and the military intelligence services along with the FBI in the proposed session of 2 and one half hours, it was pointed out to Mr. Elliff that this would not appear to be a very productive procedure. The CI perspectives and responsibilities of CIA and the military services are much more narrow and generally in a completely different context than the CI perspectives and responsibilities of the FBI. These differences, particularly in the short

time allotted, appear to represent a disadvantage to all parties concerned, including the Committee. It was pointed out that the FBI, in particular, would have considerable difficulty in presenting a comprehensive and valid picture of its own CI operations under the conditions imposed by such a session. Mr. Elliff, after considering these objections, stated that he could understand the FBI position but was somewhat doubtful considering the pressures under which the Committee was operating that he would be able to alter this situation.

SENSTUDY 75
BUDED 1/30/76

Enclosed is a self-explanatory letter from the Attorney General dated 1/12/76.

Joseph Kraft, the subject of the inquiry, is the well-known newspaper columnist and a Washington, D. C. resident. During the past year, information contained in FBI Headquarters files relating to Kraft has been furnished to the U. S. Senate Select Committee on Intelligence Activities (SSC) pursuant to SSC requests. Kraft and his attorneys have reviewed the material furnished to the SSC regarding him in accordance with an agreement between Kraft and the Attorney General, referred to in paragraph one of the enclosure. As noted in the enclosure, Kraft, as a result of a review of information regarding the burglary of his residence on 9/3/69, raised certain questions.

WFO should furnish FBIHQ with Xeroxes of all serials in its files which relate to the 9/3/69 burglary except WFO airtel and letter to the Bureau dated 9/4/69 and 10/17/69, respectively, captioned "UNSUB; Burglary of residence of Joseph Kraft, 3021 N. Street N. W., Washington, D. C., Loss of silverware, 9/3/69 in excess of $5,000.00 ITSP (OO:WFO)" file number 87-17564. This material should of course include any serials which would indicate the manner in which the burglary was reported to WFO and how the conversation about the burglary took place.

In addition to the review of all files pertinent to this inquiry, WFO should review the newspaper morgues of daily newspapers published in Washington, D. C., at such time for articles concerning the burglary and which may shed some additional light on this matter.

This matter must be given expeditious attention and results submitted by airtel to reach Bureau by c.o.b. 1/30/76.

NOTE:

Bureau memorandum dated July 23, 1973, referred to in enclosure and to which Kraft raised a question sets forth the information that Kraft advised WFO on 9/4/69 of the burglary of his residence 9/3/69. Kraft now has no recollection of having spoken to the FBI about the burglary. Pertinent FBIHQ main case files on Kraft (62-115682, 65-75629, 87-107157 and 105-68548) were reviewed by Supervisor T. E. Burns in connection with this inquiry. Such review failed to develop required information. Review by WFO as directed within should develop appropriate information necessary to resolve this matter.

SUBJECT: Joseph Kraft burglary

Among the documents from Federal Bureau of Investigation files provided to my office under a cover memorandum dated October 7, 1975, there was a memorandum dated July 18, 1973 and titled "Joseph Kraft." This document, along with the others, was provided to Mr. Kraft's attorneys pursuant to the agreement of August 5, 1975, for review before the department furnished it to the Senate Select Committee.

When Mr. Kraft and his attorneys reviewed the July 18, 1973, document they raised a question about a reference on page two of the document which stated:

> "On September 4, 1969, Joseph Kraft advised the Washington Field Office of the FBI that he left his home (3021 N Street, N. W., Washington D. C.) at approximately 9:20 P.M. on September 3, 1969, to visit with former Governor Averell Harriman who resided a few doors from the Kraft residence. At approximately 9:45 P.M. Mrs. Kraft, who was in the second floor bedroom of the residence, came down the stairs and found the door open.
>
> "Subsequently, it was discovered by Mr. and Mrs. Kraft several items of sterling silver were missing from the dining room and the pantry which items, according to the Krafts, had an estimated value of approximately $10,000.
>
> "A crime scene search and processing of the crime scene by the Metropolitan Police Department produced negative results. No forcible entry was noted and Mr. Kraft advised investigative officers of the Metropolitan Police Department that he had probably left the front door ajar when he departed the residence.

> "On the morning of September 4, 1969, the Metropolitan Police Department was advised by the Washington National Airport Police that some silverware had been found near one of the entrances to the terminal at the Washington National Airport. The silverware was recovered by the Metropolitan Police Department and processed for latent fingerprints without success and the items were returned to Mrs. Kraft upon her identification of the silverware. No suspects were developed by either the FBI or the Metropolitan Police Department in the investigation of the matter."

Mr. Kraft does not recall having spoken to the FBI about the burglary. Documents provided more recently to Mr. Kraft pursuant to the August 5, 1975, agreement do not shed any light on this question.

The incident is curious in that the only reference to it comes in the memorandum of July 18, 1973, discussing a press report about the activities of John D. Erlichman. Could you have someone look into this matter for me? The obvious questions are: What other documents in FBI files say about the September 3, 1969, burglary? What files of the Bureau or its Washington field office indicate about how the conversation about the burglary took place?

SUBJECT: DEMCON

As the Bureau is aware, I am gravely concerned over the potential for serious violence occurring in Chicago during the period of the Democratic Convention, which commences August 26, 1968 and the days immediately preceding this convention. Had the convention occurred within 30 days after the President made his announcement that he was not going to run for reelection and after the Viet Nam peace talks started in Paris, I feel that we might not have had serious violence as these two occurrences took much of the steam out of many of the organizations comprising the "New Left". Their direction at that time was primarily against President JOHNSON and against Viet Nam and much of the steam went out of their programs following these two announcements.

It is our observation, however, that these "New Left" organizations have now had time to redirect their programs and are now concentrating primarily on demonstrations and activities against Vice President HUMPHREY, characterized by them as the "Dump Humphrey Campaign". The fact that the war still continues in Viet Nam, has again given emphasis to the organizations which exist on the basic theme of anti-Viet Nam. I am thinking particularly of such organizations as the National Mobilization Committee to End the War in Viet Nam, Students for Democratic Society, Student Mobilization Committee to End the War in Viet Nam and the Youth International Party (Yippies).

Memorandum

TO : DIRECTOR, FBI (157-8589)   DATE: 8/13/68

FROM : SAC, CHICAGO (100-44963)

SUBJECT: DEMCON

On August 12, 1968, USA THOMAS A. FORAN contacted SAC, Chicago, advising that WARREN CHRISTOPHER, Deputy U.S. Attorney General, desired to meet with the SAC, Chicago.

As a result of the above request, SAC, Chicago, and Supervisor RICHARD L. STRAIN met briefly with Mr. WARREN CHRISTOPHER and Mr. WES POMEROY of the U.S. Department of Justice, Washington, D.C., in the presence of USA FORAN in his offices.

Mr. CHRISTOPHER was most congenial and expressed his high regard for the FBI and asked for a current evaluation of activities in the Chicago area which could possibly affect the Democratic National Convention (DNC) being held the last week of August, 1968. Mr. CHRISTOPHER was advised that all information has been previously furnished to him by letterhead memoranda and was in his possession and he was assured all information coming to our attention would be immediately furnished to the Department and to the USA in Chicago. A brief discussion of current trends followed relative to current intelligence regarding the activities of anti-war and Negro militant organizations which have proposed disruptive tactics at the DNC.

At one point in the discussion mention was made of the fact that the Youth International Party, aka Yippies, was currently holding talks with the city administration in an effort to obtain necessary park permits to have their followers live and sleep in one of the Chicago area parks during the week of the convention and hold a "happening" which the Yippies referred to as the "Festival of Life." During this discussion USA FORAN confidentially advised that when he had received the FBI's notification of the anticipated plans on the part of the Yippies, he had contacted certain city officials known to him and attempted to persuade them against the issuance of such a permit in view of the known moral conduct of such groups. USA FORAN advised he had been assured that such permits would not be granted. He stated these permits have as yet not been granted and that his sources have indicated no serious consideration has been given to the request by responsible Chicago city officials.

This document is prepared in response to your request and is not for dissemination outside your Committee. Its use is limited to official proceedings by your Committee and the content may not be disclosed to unauthorized personnel without the express approval of the FBI.

For the Bureau's information, Sgt. JOSEPH GRUBISIC, Intelligence Section, Chicago PD, advised previously that he had learned from DAVID STAHL of the Mayor's Office, Chicago, that they had received a telephone call, a couple of days ago, from one WES POMEROY of the U.S. Attorney General's Office, to the effect that the Attorney General wanted the Chicago city officials to give every consideration to the granting of the permits requested by the Yippies.

Sgt. GRUBISIC was unable to comment on the feeling of the city administration to this request but was of the opinion that such permits would not be granted as requested. Sgt. GRUBISIC based his opinion on the fact that four representatives of the Yippies, from New York City, had gone to the office of the Deputy Superintendent of the Chicago PD and had requested immunity from arrest for all Yippies during the convention for crimes around the possession of narcotics. The Yippies stated that any arrest would cause the Yippie community to cause large scale riots, and the blame of any riots resulting from such arrests would fall on the Chicago PD.

These representatives of the Yippies were advised in no uncertain terms that the laws of the City of Chicago would be strictly enforced fairly on all persons and that no one would be granted any immunity during this period.

The Bureau's attention is invited to the August 9, 1968, issue of the "Daily World," daily publication of the Communist Party, USA (CP), wherein an article appeared on page one captioned "Rallies Will Ring Demo Convention" written by CARYL DAVIAU, current member, CP of Illinois, in which the reporter indicates that the National Mobilization Committee to End the War in Vietnam, which is working around the clock to mobilize demonstrations against the convention, has petitioned the Justice Department to investigate the Chicago Police to determine if there is any conspiracy to deprive "us" of our full civil liberties.

Chicago will continue to follow these matters closely and immediately advise the Bureau, and continue to disseminate all information of intelligence collected to interested agencies.

No recommendation is being made nor is Chicago involving itself in any plans affecting the issuance of the abovementioned park permit.

ENCLOSURE

As the Bureau is aware, Chicago is in receipt of information from confidential sources indicating a potential for demonstration arising out of the "New Left" calling for direct confrontation with the Chicago Police Department as a diversionary tactic for a "crash-in" at the convention site. Sources have also reported independent action on the part of individuals to cause some form of "sabotage" activity inside the convention itself. Information received from confidential informants in other divisions indicates attempts on the part of dissident young people not organizationally affiliated with the "New Left", to hire 50 buses out of New York to bring demonstrators to Chicago and a caravan of militant Latin Americans to come from the Miami, Florida area to Chicago for the specific purpose of disrupting the Democratic National Convention.

The Chicago area activists in the Youth International Party are currently planning a "Festival of Lights" in one of the parks on Chicago's lakefront during the period of the Democratic National Convention. This "Festival of Lights" characterized by Chicago area Yippie leadership as being peaceful to show America that there is an alternative to the "festival of death", or the Democratic National Convention. However, sources report that there are elements within the Youth International Party which are calling for direct confrontation with the Chicago Police Department during the "Festival of Lights".

There is a very definite indication that more and more plans are being made by these groups to cause violence and trouble and undoubtedly this will increase even more as we approach the time of the convention. I strongly feel that we must use every possible means at our command to insure that the Director, the President of the United States and other pertinent officials are furnished every possible piece of intelligence information which we can gather from any source.

I am specifically asking for the services of two Special Agents who proved during their assignment in Chicago that they are expecially well qualified to handle informants and make contacts in the "New Left" area. They proved during their assignments in Chicago that they have the knowhow, the interest, the dedication and the personality to be highly successful in

this area. I would like to utilize them specifically to work cases in the "New Left" area, make contacts and would also request authority where necessary to utilize them in undercover work under my personal supervision and guidance. They would be specifically assigned fulltime to solicit information from the leadership of the "New Left" concerning their plans for demonstrations, confrontations and disruptions of the Democratic Convention and matters relating thereto.

I am, therefore, urgently requesting that SA WILLIAM J. DILLON, III, presently assigned to Los Angeles and SA WAYNE F. MANIS, under transer to Anniston, Alabama Resident Agency, be assigned on a temporary basis in Chicago for the above stated purpose from August 15, 1968 through August 31, 1968. Both men, while young in years in the Bureau, demonstrated outstanding judgment and I am convinced that their assignments, as recommended above, would prove to be most beneficial in carrying out our responsibilities in connection with the Democratic Convention.

SUBJECT: DEMCON

This will confirm telephonic contact between SAC, Chicago, and Assistant Director N. P. CALLAHAN on August 13, 1968.

As the Bureau is aware, the Democratic National Convention will be held in Chicago from August 26 - 28, 1968. Voluminous information is being received from all offices which requires immediate handling. In addition, tension is growing in the ghetto areas of Chicago particularly the west side, the south side and the near north side. Also, tension has been growing in such Chicago suburban areas as Harvey, Chicago Heights, East Chicago Heights and Maywood. Incidents are occurring every night and throughout the night requiring immediate preparation of teletypes, letterhead memoranda and other communications. It is, therefore, necessary as approved by Mr. CALLAHAN for one and on some shifts two stenographers to be on duty from 4:00 PM to midnight and from midnight to 8:00 AM, seven days a week through August 30, 1968. These stenographers have been selected on a purely voluntary basis. The authority for these special shifts will be considered to expire close of business August 30, 1968, and thereafter we will revert back to the regularly approved stenographic shifts.

At 9:15 AM today, the Director telephonically contacted me to advise that he had just been in touch with the Vice President of the United States and had just gotten off the phone with the Vice President's Executive Assistant, Mr. WILLIAM CONNELL. Mr. HOOVER stated that the Vice President has requested that we furnish the same type of service in connection with the Democratic National Convention in Chicago as was furnished to the President during the Atlantic City Convention four years ago. This, of course, refers to intelligence information which will be of value to the Vice President and specifically relates to the possibility of demonstrations, violence and related matters. Mr. HOOVER stated that he had advised the Vice President and Mr. CONNELL that this service would be performed and that Mr. CONNELL should contact me for the necessary arrangements.

Mr. HOOVER advised me that Mr. CONNELL is presently in New York and it is not known when he will arrive in Chicago. I advised Mr. HOOVER that his instructions would be followed, that we had set up appropriate arrangements so that we would be in a position to furnish valuable intelligence and that upon Mr. CONNELL's arrival in Chicago, I would immediately contact him and perfect the necessary arrangements.

My secretary has been instructed to notify all switchboard operators, complaint agents and supervisors that any call from Mr. CONNELL should be immediately referred to me when I am in the office or if I am not in the office to determine where I can contact Mr. CONNELL immediately.

The following is a summary of a four page report, dated 11/20/73, furnished by Mary Jo Cook, a former FBI informant.

Report concerns a meeting of the VVAW/WSO Steering Committee held 11/10/73. Five identified individuals were present. There was a discussion of finances and some displeasure at the financial record system. Plans for a benefit at a bar were discussed. Information was presented concerning a newsletter to be mailed out which will discuss the VVAW/WSO's position on amnesty, the upgrading of discharges, information about the Women's group and about a strike at a Buffalo firm.

Some objections were raised concerning the wording of some VVAW/WSO objectives.

Plans for a future coalition meeting organized by two individuals were discussed, the same coalition that worked on the Impeach Nixon rally.

Matters concerning possible new members and/or attendees at future meetings were discussed. Plans for a VVAW/WSO team on a television sports quiz show were discussed.

One member raised four criticisms of the VVAW/WSO, all listed.

One member wrote a regional newsletter.

A regional conference of the New York/Northern New Jersey Region, VVAW/WSO, was held at a college on 12/8-9/73. 20 listed people attended.

A member reported another individual had supposedly run guns to Cuba.

A member requested information attesting to the bad conditions in a Vietnamese jail.

A member said he had 2600 names on a mailing list.

Old business was discussed.

Changes in one VVAW/WSO objective were turned down.

In other matters, the following was discussed:

Correspondence with prisoners.

Plans for selling the organization's newspaper.

Support for a prison fast.

Approval of amnesty for war resisters.

Impeach Nixon campaign.

U.S. involvement in Korea.

Organization and communication.

Coalition with other groups.

Possible underground VVAW group.

Buffalo chapter was considered one of the five strongest chapters in the organization.

Possible VVAW Summer Camp over Labor Day.

Information about members contacting members of other chapters.

Reports were presented from other chapters.

The following is a summary of a five page report, dated 7/19/74, furnished by Mary Jo Cook, former FBI informant.

A meeting of the National Defense Committee of the VVAW/WSO was held on 6/7-9/74 at St. Louis, Missouri. Eleven identified individuals attended.

The purpose was to ascertain the feasibility of setting up a National Defense Committee which would be operational throughout the United States. As concerns VVAW/WSO, the meeting sought to advise members that the organization's Defense Committee will take steps to secure the release or acquittals of any members arrested.

A representative from the National Collective in Chicago talked about the Gainesville 8 in a derogatory manner, implying the Government did not try the Gainesville 8 for purely political reasons, but that the leader and some others planned some kind of illegal activity. He also said if there had been no Agent provocateur there would never have been a trial and that the National Collective would not have permitted violent activity. 17 items were handed out, a large portion of which were reprints from national and "movement" publications covering such topics as how to avoid being questioned by the FBI. One of these, on jury selection, is attached.

Jury selection

The jury element is the people's component in the existing system of criminal justice; it is only quasi-organized and partially managed. The use of systematic jury selection can be an important tool in the practice of people's law, but at present it is being developed and used selectively as a successful foil in cases of overt political attack. The minimal program in jury selection defense work is to secure a group of twelve people who will take their function as jurors seriously and assume that the defendants are innocent until proven guilty. The maximal program is to secure a jury which will acquit the defendants.

Since 1970, serious inroads have been made on the jury system: proposed abolition of 12 - person juries, non-unanimous verdicts, abolition of voir dire of prospective jurors by lawyers, disciplining of 'disruptive' lawyers and other 'reforms' to 'speed up' decision-making. Juries are under attack by the narrow, elite group who seek to rule this country only because this vehicle of the people's power cannot be relied upon to make political prisoners of us all.

Challenging jury composition

18 U.S.C. Sec. 1861 is a federal statute which places an obligation on the courts to assure the right to a jury selected at random from a fair cross-section of the community. Data, gathered from observing juries, which suggests an imbalance can be used as grounds for access to jury selection records. Through a sample of the qualification questionnaires comprising the master Jury Wheel, a demography (the study of the characteristics of a population) of the voter registration list can be determined.

These findings, compared with census demography, will reveal areas of underrepresentation. In the case of the Attica Fair Jury Project, a systematic analysis of jury selection records obtained by court order revealed that third world people are underrepresented by 34.3%, women by 68 %, and people between the ages 21-29 by 83.6%. This study yielded concrete evidence that the Erie County jury system is illegal and unconstitutional, and the system has been challenged on those grounds.

There are four practical advantages to be gained from a jury challenge even if it does not result in the immediate modification of the composition of the master jury wheel which might provide a larger proportion of people from the less authoritarian sectors of the population.

1. pursuing a challenge can gain time for the defense.
2. examination of the jury questionaire and the jury process raises the defenses's consciousness of what the problems are likely to be in jury selection.
3. a challenge introduces some accountability to the jury process and may change the behavior of the jury clerk and/or judge.
4. a verdict for conviction can be overturned and a new trial obtained on the basis of an objection to jury composition and selection, if a later court upholds the jury challenge.

Demographic model of jury selection.

There are three separate elements to the demographic model of jury selection.

1. a survey must be taken of a representative cross-section of the population that may be called for jury service; this is most easily done by telephone.
2. a system for rating prospective jurors on the basis of voir

dire must be established.

3. a net-work of people must be set up to gather outside third-party information to corroborate the results of the survey and voir dire.

The demographic-attitudinal survey is used to obtain precise information on the range of attitudinal patterns prevalent in a given judicial district. At a minimum, the following must be covered: demographic information, (age, sex, race, education, etc.) organizational affiliations, media contact, knowledge of the case, political ideology and attitudes toward core American values, social change, divergent life styles and alternative institutions, and toward the type of defendants and the charges specific to the case. A random sample of any of three groups will give the defense committee the demographic information necessary: 1) those who have already been called for jury duty, 2) the voter registration list, or 3) 1% of a cross-section of the population.

The voir dire ratings are constructed by combining observations of behavior and attitudes expressed during the voir dire. This procedure is still being developed but there seems to be a high correlation between ratings of individual authoritarianism and types composed of demographic variables. For example, in the Rap Brown case, the attitudinal study pin-pointed the most "dangerous" defense juror as a male manager, engineer, government employee, or real estate broker, who [illegible] tied into the local establishment, Methodist or [illegible]al, over 45, and who lived in a rural area or small,

quiet town. His independent authoritarianism rating was very high, just as you would expect from a juror whose values embraced authority, patriotism, conformity, government right or wrong, etc. The authoritarianism ratings can further be used as a reference point to make sense of the body language, costume and verbal ratings. These ratings become even more essential when faced with a limited voir dire.

Schulman stresses that voir dire ratings should be done collectively. Defendants and trial lawyers should participate, but past trials have shown them to have definite problems with objective judgments in this area.

A core of people from a cross-section of the community should be established to obtain information about the people on the venire list so that any inconsistencies between the voir dire ratings and the demographic ratings can be resolved. This can be done by asking 10 people to contact 3 friends, who in turn will contact 3 friends, who in turn etc. This should be done with a clear presentation of the kind of information needed and a clear understanding of what constitutes jury tampering.

The following is a summary of a two-page report dated 7/31/74 furnished by Mary Jo Cook, a former FBI informant.

The report covers the following matters:

It appears as if the Revolutionary Union is making its move and focusing on the upcoming National Conference. An issue of "Winter Soldier" was received and its editorial was an RU editorial.

The VVAW/WSO newsletter arrived from the National Office and listed three possible directions VVAW/WSO can take:

1) Anti-imperialist veteran's organization with the supporters.

2) A veteran's organization for veteran's only.

3) A mass anti-imperialist organization with no base.

A discussion concerning the National Office supporting or becoming aligned with the RU.

The following is a summary of a two page report, dated 10/2/74, furnished by Mary Jo Cook, former FBI informant.

The report is entirely concerned with a demonstration held 9/11/74 in Buffalo protesting the policies of the American Government regarding the overthrow of the Allende Regime in Chile. Eight members of the VVAW/WSO attended, two from the Attica Brothers Legal Defense, one from Youth Against War and Fascism, two from Revolutionary Union, two from Anti-Monopoly Committee, three from Committee for Chilean Democracy, and four from a University in Buffalo.

All of the above attendees were named, either by first or full name. One name was phonetic.

I. INFORMANT REPORTS SUBMITTED BY GARY THOMAS ROWE

MDR-16

ALL INFORMATION CONTAINED

DATE 10/23/00 BY 5P2ALM/EHC

1. On 5/14/61 Rowe advised that the burning of a bus and the beating of individuals at a bus depot in Alabama during May, 1961, was instituted by a local Ku Klux Klan unit.

2. On 5/17/61 Rowe stated that the Klan would try to intercept a bus which was due to arrive in Birmingham, Alabama, at 11 P.M. on 5/17/61. He further stated that Klansmen should intercept the bus on the highway and give all persons present, whether black or white, an opportunity to get off. They would be allowed to enter privately owned automobiles and have a safe journey to the nearest town. Rowe was advised by another Klansman that those who refused to leave the bus would be beaten.

3. On June 4, 1962, Rowe furnished copies of five documents expected to be distributed by Klansmen in order to discourage voters from voting for certain candidates who allegedly supported various civil rights groups.

4. During March, 1962, Rowe furnished information regarding a local Klan meeting at which 23

Klansmen were present. The meeting centered around a Klansman's plan to run for a high state office. Also discussed was another candidate for this office.

5. During July, 1962, Rowe advised that a Klansman told a select group of other Klansmen that "it looks as if the Negroes should be stopped now." This group of Klansmen was told that police officials had promised them protection and that a high state official would pardon them if arrested. This Klansman further advised that if a particular "militant Negro Integrationist" would appear at a certain restaurant with other Negroes he should be attacked and killed. Instructions were also issued by this Klansman that if this "militant Negro Integrationist" did not appear at this restaurant but sent other Negroes to stage a sit-in, then there would be no killing. He stated that these Negroes should be beaten with chains and clubs instead.

6. During October, 1964, Rowe reported on Klan discussions regarding a plan to handle alleged "race mixing" at a local night club. Also discussed was a plan by Klansmen to bomb this night club.

II. BUREAU HANDLING OF INFORMANT

On 4/17/64, the Bureau advised SAC, Birmingham, to immediately instruct Rowe to withdraw from his position as squad leader of an "action squad." SAC, Birmingham, was further advised that in the event Rowe does not desire to withdraw from this leadership position, he should be discontinued as an informant. On 4/18/64, Rowe was advised by the Birmingham Office that he must remove himself as a squad leader of an "action squad." On 5/4/64, the Bureau advised SAC, Birmingham, that "in those cases where you have an informant who is a member of a violent squad...you should insure that the informant understands he is not to direct, lead, or instigate any acts of violence." It was also pointed out that informant should be instructed to avoid participation in any act of violence.

III. KLAN VIOLENCE AT THE BIRMINGHAM BUS DEPOT 5/14/61

By letter from the Bureau to 23 field offices, it was stated that a civil rights organization intended to make a nonviolent attempt to complete integration of bus service and related public accommodations in the South during the month of May.

By internal Bureau memorandum dated 5/13/61, it was noted that information from a confidential informant (Rowe) was received concerning the possibility that local authorities may allow disturbances to generate against above civil rights group on 5/14/61, when they were due to arrive in Birmingham, Alabama. This memorandum shows that appropriate local law enforcement authorities were advised of the potential for violence in Birmingham prior to 5/14/61.

ReSFairtel furnished information concerning outstanding indebtedness of Gary Thomas Rowe, Jr. The financial obligations he has incurred with the banking institutions and with the State of Alabama regarding unpaid sales tax appear to be dormant debts which would not necessarily have to be paid on a current basis as part of his living expenses. Following completion of the trials in this case, consideration will be given by the Bureau to a recommendation of a lump-sum payment which informant might use to help liquidate these obligations.

With reference to the sums owed the power, gas, telephone and realty companies, it is not clear whether these are current monthly expenses to the informant or rather dormant bills. Advise Bureau if these are present expenses to the informant and, if not paid or services discontinued, what parties would be affected.

intentions to continue to maintain this residence inasmuch as both he and his ex-wife are residing elsewhere.

Informant's ex-wife has obtained employment at a salary of approximately $228 per month. She has fixed obligations that will amount to approximately $424 a month and feels she could better meet her obligations if she were receiving her alimony payments. Mrs. Rowe has stated she is to receive alimony of $115 a month and that her ex-husband is in arrears for a total of $690. The Bureau desires to know what informant's thoughts are as to meeting this obligation to his ex-wife. Also advise if informant considers these payments as necessary monthly obligations that he would meet under normal circumstances.

The Birmingham Office is to give this your immediate attention and promptly advise the Bureau.

NOTE:

The Birmingham Office has pointed out that Rowe has performed an invaluable service to the Bureau and has saved an untold amount of man power and various expenses in connection with the shooting of Mrs. Viola Liuzzo. Informant has been in protective custody of the Bureau since 4/1/65 and not had opportunity to be gainfully employed to meet various obligations. The Birmingham Office has recommended that the Bureau pay informant's outstanding bills in order to continue the excellent relationship developed. We are presently paying him $16 per day subsistence in lieu of expenses which figure was decided upon after discussion with the Department. It is not desired to make a large payment at this time which could be construed as a payment to Rowe for his testimony in the up-coming trials. Birmingham previously requested to submit a detailed accounting of Rowe's debts showing their basis, when contracted and schedule of payments. The information received from the field needs to be further clarified after which time this matter will be discussed with the Department and its views obtained as to whether or not payment of these debts would be judicious at this time.

The Birmingham Office has advised that our informant Gary Thomas Rowe has current outstanding debts in the Birmingham, Alabama, area totaling $2350.08, and the SAC, Birmingham recommends that these debts be paid by the Bureau in full.

Birmingham points out that Rowe has performed invaluable service to the Bureau in connection with the case involving the shooting of Mrs. Viola Liuzzo, and his services have saved the Bureau an untold amount of Agent manpower and various expenses connected with an extended major investigation. They point out that informant has been in protective custody of the Bureau since 4-1-65, and as such, has not had an opportunity to be gainfully employed in order to meet various financial obligations that he has been meeting in the past. Birmingham points out that it is absolutely imperative to insure the possible success of the next trial tentatively scheduled for September, 1965, that the excellent relationship developed with Rowe must be retained, and to accomplish this Rowe should be free as much as possible from the receipt of bills from various creditors when he is not in a position to make payment.

Birmingham listed outstanding bills of informant Rowe as follows:

Alabama Power Company	$69.16
Southern Bell Telephone Company	38.78
Boothby Realty Company (Apartment)	297.50
State of Alabama (Sales Tax)	266.11
Birmingham Trust National Bank	1,062.00
Sears-Roebuck (Toys)	75.00

OBSERVATIONS OF GENERAL INVESTIGATIVE DIVISION

The Bureau is currently paying Gary Thomas Rowe $16.00 per day subsistence in lieu of expenses. This figure was initially decided upon after discussion with the Department, and with the Department's approval, as it was recognized that the informant had to be removed from the Birmingham area for his protection and safety. The Department pointed out that it would not be desirable to make any lump sum or large payment to the informant so long as he might be called upon to testify, as any such large payments might be construed in court as a payment for his testimony, whereas payment of his living expenses can readily be justified as a necessity.

In the trial of subject Collie Leroy Wilkins which began 5-3-65 and resulted in a hung jury, the Bureau was called upon to produce a record of payments to the informant. In a future trial, it is reasonable to expect that we will again be called upon to produce such a record. The payment of Rowe's debts at this time amounting to over two thousand dollars would appear in this record of payments to Rowe, and we certainly could not agree to pay such a large amount at this time without the Department's approval.

With regard to the debts themselves, it would not appear from information furnished by Birmingham that they are all due and payable immediately, as the larger debts to the two banks would probably be payable in monthly installments. We could, with Department's approval, agree to payment of his smaller debts and monthly installments on these larger debts as they come due.

RECOMMENDATION

In view of the above, it is recommended that Birmingham be instructed to submit a detailed accounting of Rowe's debts showing their basis, when they were contracted, due dates and a full breakdown of any installment contracts showing detailed schedule of payments. Upon receipt of this information, the matter will be discussed with the Department and their views as to whether or not payment of these debts at this time would be judicious, will be obtained. Airtel attached.

In response to the Director's inquiry concerning correspondence relating to the demands made by Gary Thomas Rowe, prior to his testifying in the Federal trial of the three subjects responsible for the shooting of Mrs. Viola Liuzzo, the following items are attached:

(1) The teletype from Inspector J. L. McGovern dated 11-23-65, setting forth the substance of the discussion of John Doar, Assistant Attorney General, Civil Rights Division with Gary Thomas Rowe concerning demands made by Rowe. The teletype indicates that McGovern was present during Doar's discussion with Rowe and on page six of the teletype McGovern states that although Bureau personnel were present throughout the interviews between Doar and Rowe, Bureau personnel made no assurance, promises, nor commitments to him.

(2) A copy of the teletype from Mr. McGovern dated 11-23-65, which sets forth in detail the demands made by Rowe. Because of the urgency of relaying Rowe's demands to the Department, a Xerox copy of the teletype was prepared deleting the transmittal data at the top of page one and the last paragraph on page one continuing to the top of page two wherein Rowe expressed his confidence in Bureau personnel and felt he had been let down by the Department and does not trust its representatives.

(3) A copy of the memorandum as prepared from McGovern's teletype of 11-23-65 as actually furnished to Mr. John Doar on 11-24-65.

REC-108 44-25601-

(4) Attached is a memorandum from Mr. Rosen to Mr. Belmont dated 11-24-65 recording the discussion of Supervisor J. William Hines with Mr. Doar wherein he was furnished the memorandum (Item 3) and the demands were discussed.

MR. DOAR POINTED OUT TO ROWE THAT THE CONDITIONS PREVIOUSLY OUTLINED BY ROWE WERE NOT CONSIDERED UNREASONABLE. ALSO INDICATED THAT THE FEDERAL GOVERNMENT DID NOT CONSIDER ROWE'S INABILITY TO IDENTIFY LEROY MOTON AS THE OCCUPANT OF THE CAR WITH MRS. LIUZZO AS BEING HARMFUL TO THE GOVERNMENT'S CASE; IF ROWE FELT MOTON WAS NOT THE NEGRO OCCUPANT, HE SHOULD SO TESTIFY.

MR. MR. DOAR POINTED OUT THAT SUCH AN AGREEMENT, IF GIVEN, WOULD BE OF NO VALUE TO ROWE AS IT WOULD BE A WORTHLESS COMMITMENT RELATING TO EVENTS WHICH MIGHT OCCUR IN THE FUTURE AND NOT UNDER THE CONTROL OF PRESENT GOVERNMENT OFFICIALS.

GARY THOMAS ROWE HAS BEEN INTERVIEWED ALMOST CONTINUOUSLY SINCE LATE EVENING NOVEMBER 20 BY INSPECTOR J. L. MC GOVERN, SA NEIL P. SHANAHAN, AND FREQUENTLY IN PRESENCE OF SAC LYNUM AND SA JAMES G. CARLISLE.

AT OUTSET AND THROUGHOUT INTERVIEWS ROWE HAS BEEN ADAMANT IN HIS REFUSAL TO FURTHER TESTIFY IN THE STATE OF ALABAMA CONCERNING CAPTIONED CASE OR OTHER MATTERS. DURING INTERVIEW ROWE WAS HIGHLY EMOTIONAL, DISTRAUGHT, TEARFUL AND INDICATED THAT HE DOES NOT FEEL THAT HE IS PHYSICALLY CAPABLE OF GOING THROUGH WITH ANOTHER TRIAL. HE INDICATED THAT SO LONG AS THE THREAT OF FURTHER TESTIMONY HANGS OVER HIM HE CANNOT SECURE REGULAR EMPLOYMENT.

MOTIVES OF THE DEPARTMENT, AS WELL AS THE STATE PROSECUTORS, EXPRESSING THE OPINION THAT THE MOTIVES ARE POLITICALLY INSPIRED. ALSO INDICATED THAT HE DOES NOT FEEL HIS TESTIMONY WOULD BE OF VALUE, AS HE CANNOT FORESEE ANY POSSIBILITY OF CONVICTION.

IN TAKING THE POSITION THAT HE WOULD NOT VOLUNTARILY RETURN TO ALABAMA TO TESTIFY, HE RECOGNIZED THAT A SUBPOENA COULD BE ISSUED FOR HIM BUT THAT IF ONE WERE ISSUED HE STATED THAT HE WOULD RETURN ONLY IF FORCE WERE USED TO TRANSPORT HIM TO ALABAMA. IF SUCH FORCE WERE USED HE WOULD REFUSE TO ANSWER QUESTIONS, EVEN THOUGH HE MAY BE HELD IN CONTEMPT AND CONFINED TO JAIL.

SHOULD HE BE FORCED TO TESTIFY HE SAID THAT HE WOULD INSURE THAT HIS TESTIMONY WOULD INCLUDE THE FACT THAT HE DOES NOT BELIEVE WITNESS LEROY MOTON IS THE SAME NEGRO WHO OCCUPIED THE CAR WITH THE VICTIM AT THE TIME OF HER SLAYING.

HE ALSO RECOGNIZES THAT SHOULD HE REFUSE TO TESTIFY THAT HIS SERVICES OVER THE PAST SIX YEARS AND HIS PRIOR TESTIMONY IN THE STATE PROSECUTIONS WOULD BE DISCREDITED.

AFTER DISCUSSION WITH ROWE THIS MORNING, HE INDICATED THAT HE WOULD TESTIFY UNDER THE FOLLOWING CONDITIONS:

1. THAT THE UNITED STATES ATTORNEY GENERAL GIVE HIM AN AGREEMENT IN WRITING PRIOR TO HIS ENTERING THE STATE OF ALABAMA, WHICH AGREEMENT WOULD PROVIDE THAT HE, ROWE, WOULD NOT BE REQUIRED TO TESTIFY IN ANY FURTHER PROCEEDINGS FOLLOWING THE TRIAL AT MONTGOMERY, ALABAMA, TO BE HELD NOVEMBER 29 NEXT, REGARDLESS OF THE OUTCOME OF THAT TRIAL, NAMELY, ACQUITTAL,

SUBJECT: EUGENE THOMAS, ET AL;

CIVIL RIGHTS - ELECTION LAWS

Inspector James McGovern, San Francisco, has advised that Gary Thomas Rowe, our informant whose testimony is needed in the Federal civil rights trial of the Liuzzo shooting in Montgomery, Alabama, beginning 11/29/65, had exhibited feelings of reluctance to testify for the Government and set forth certain conditions under which he would agree to testify.

These conditions consist of an agreement from the Attorney General that his testimony would not be required in any future proceedings, that he be assisted in obtaining employment and that some assurances be given him for the future security of his ex-wife and children and parents. He also expressed a desire to visit his wife and children in the Tampa, Florida, area over the Thanksgiving holiday.

Rowe's conditions were discussed in detail with Assistant Attorney General John Doar. Mr. Doar advised that he would discuss these conditions immediately with the Attorney General and requested that we arrange for Rowe to visit with his family in Tampa over Thanksgiving, 11/25/65, and that he would then personally meet with Rowe in Tampa on Saturday morning, 11/27/65. He said that he is planning to try the case personally in Montgomery and that Rowe's testimony is vital to a successful trial. He will make every effort to build Rowe's confidence, resolve the conditions set forth by Rowe and obtain his testimony.

This will confirm a discussion of Mr. J. William Hines of this Bureau with Mr. St. John Barrett of the Department on July 7, 1965, concerning outstanding personal debts of Gary Thomas Rowe, Jr., who furnished the initial information identifying and leading to the indictment of three subjects on charges of shooting Mrs. Viola Liuzzo on March 25, 1965.

Rowe's debts totaling approximately $2,350 consist primarily of personal loans at two banks in Birmingham amounting to about $1,500 and an assessment for Alabama State sales taxes in the amount of $268.50 which resulted from Rowe's operation of a tavern and restaurant from September, 1964, through March, 1965. The business was a losing enterprise and has reverted to its original proprietor. The balance of the debts are to local utility companies and for apartment rental. The utilities have been disconnected and the apartment reclaimed.

MAILED 20
JUL 9 1965
COMM-FBI

On July 7, 1965, Departmental Attorney St. John Barrett advised Mr. Hines that the Department was of the opinion that the Bureau should not assume responsibility for payment of Rowe's personal debts. He stated that if any payment is made to Rowe, it should be for personal services. Any large payment for personal services should not be made until after Rowe has testified at the upcoming trials of the subjects charged with the shooting of Mrs. Liuzzo scheduled for September and October, 1965.

Mr. Barrett's attention was called to the fact that the Alabama State tax authorities had an outstanding assessment against Rowe for State sales taxes in the amount of $268.50. Mr. Barrett stated he was aware of this and that Mr. Paul Johnston, the attorney representing Rowe in the action for legal fees brought against Rowe by Attorney Matt Murphy, had brought this assessment to the Department's attention.

SUBJECT: TESTIMONY BY THE ATTORNEY GENERAL BEFORE THE SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES

On 11/21/75, Inspector John B. Hotis met with Doug Marvin, Counselor to the Attorney General; Mark Wolf, Special Assistant to the Attorney General, and Michael E. Shaheen, Jr., Special Counsel for Intelligence Coordination, concerning Mr. Levi's forthcoming appearance before the Senate Select Committee on Intelligence Activities. The Attorney General will have a prepared statement which will probably deal with the future relationship between the Bureau and the Department and the kinds of contacts needed to prevent abuse of authority. Mr. Marvin asked that the Bureau provide the following materials, which will be used in the preparation of a briefing book for Mr. Levi's testimony:

(1) A general synopsis of major areas of the Bureau's activities that have been investigated by the Senate and House Select Committees. Mr. Marvin gave as examples, the "Official and Confidential" files, COINTELPRO, use of informants, and interception of mails. He said the purpose is to identify those topics which have been of primary concern to the Committees. Mr. Marvin asked that the synopses contain a brief statement of the Bureau's position on each of the subjects.

EX-115 REC-9 62-116395-1155

(2) A general statement concerning the organizational structure and functions of the FBI, with particular emphasis on the responsibilities of the Inspection Division. This should include a description of how complaints are received, the review process, and any recent changes in the operations of that Division. In addition, the Attorney General wants a write-up of all investigations of alleged misconduct presently being conducted by the Bureau. He is particularly concerned about any incidents that may have occurred during Mr. Levi's tenure as Attorney General, such as those in Richmond, Detroit, and Houston.

(3) A history of Congressional oversight of the Bureau. Mr. Marvin asked that we identify those Subcommittees of Congress which have exercised some oversight responsibilities over the Bureau. In particular, he asked that we review appropriations testimony going back to 1955 to determine whether we discussed topics which are presently of concern to the Select Committees. This will be very useful in demonstrating Congressional awareness of these matters. He also asked that we furnish a statement of the Director's position concerning Congressional oversight which he has previously expressed in speeches or testimony before Congress.

(4) A list of major investigative techniques employed by the Bureau, specifying in each case whether we seek Departmental approval. The more obvious examples are electronic surveillance, use of body recorders, pen registers, informants, and photographic surveillances.

(5) A list of any formal or informal proposals which have been made concerning organizational changes of the FBI. Examples are the creation of an Inspector General's Office in the Department or elsewhere having review authority over the FBI, transfer of counterintelligence functions to another agency or the creation of a separate Division within the Bureau for that function, transfer of drug enforcement responsibilities to the Bureau, and the proposed statutory limitation on the term of the office for the Director.

It should be noted that several position papers concerning such topics were prepared at the request of former Acting Director L. Patrick Gray which might be useful in responding to this request.

Although no date has been set for the Attorney General's testimony, it is expected that he will testify after Mr. Kelley's appearance on 12/9/75. In view of the limited time available, Mr. Marvin asked that we expedite the preparation of these materials and furnish them to his office as soon as they are completed. It is requested that these materials be submitted to the Office of Congressional Affairs, when completed, but no later than cob, Friday, 11/28/75. They should be submitted in insert form suitable for inclusion in a letterhead memorandum.

CONTINUED - OVER

RECOMMENDATIONS:

(1) That the Intelligence Division prepare a synopsis of the major topics concerning the Bureau which have been investigated by the Senate and House Select Committees.

(2) That the Administrative Division and the Inspection Division prepare materials concerning the organizational structure and function of the Bureau.

(3) That the Administrative Division in conjunction with the Legal Counsel Division prepare materials concerning Congressional oversight of the Bureau.

(4) That the Intelligence Division and the General and Special Investigative Divisions prepare materials concerning major investigative techniques.

(5) That the Office of Planning and Evaluation prepare materials concerning proposals for organizational changes of the FBI.

(6) In addition to the above specified assignments, it is recommended that every Division review this request and make appropriate recommendations or submit any other materials that might be useful in the preparation of the Attorney General's briefing book.

RESPECT TO INTELLIGENCE ACTIVITIES (SSC)

Reference is made to SSC letter dated November 7, 1975, and specifically to Item 1 of an accompanying Document Request of same date which requested all materials contained in the files of William C. Sullivan pertaining to Martin Luther King, Jr., and/or the Southern Christian Leadership Conference (SCLC) which have not previously been made available to the Committee. Excluded from consideration in connection with this request were any portions containing transcripts or summaries or tapes of electronic surveillances of King.

The purpose of this memorandum is to effect delivery to the SSC of materials in response to Item 1 of the Document Request.

With respect to the excisions in materials being delivered herewith, where no notation appears as to reason for excision, the excision was made for the reason that the information actually summarizes or quotes from conversations monitored during electronic surveillances of King. In some cases it can be ascertained precisely what information in these materials came from electronic surveillances of King; however, there exist areas where documentation of the information is not precise and no accurate determination can be made. Therefore, no assurances can be given that portions of the materials being furnished do not contain information developed as a result of electronic surveillances of King.

In addition to materials not being furnished the SSC as stipulated by the SSC is a folder classified "Top Secret" bearing a label captioned "Communications Concerning Martin Luther King, Jr., Volume 1" which was located in the files of Mr. Sullivan. A review of that document indicates it contains information which could result in the identification of confidential sources of this Bureau; data obtained in connection with

Dear Mike:

As a follow-up to our briefing of Assistant Director Wannall on November 6 concerning our proposed format and witnesses for public hearings on December 4-5 on the FBI's use of intelligence informants and sources, we would like to make the following requests.

As discussed in our meeting with Mr. Wannall, we invite the Bureau to submit a memorandum on its intelligence informant and source program that could be inserted in the record of the testimony of Bureau representatives at the hearing. This memorandum would enable the Bureau to present to the Select Committee a complete description of its program and to discuss the issues of particular interest to the Committee members. These include, for example, 1) the size, scope and purpose of the program, including an assessment of the program's cost and effectiveness, and the distinctions and relationships between the intelligence informant program and the Bureau's criminal informant activity; 2) the criteria that determine when an informant may be used in an organization or group; and 3) the program's command and control system, including the limits that are placed on the activities of informants and the type of information an informant or source is permitted to report to his handling agent and the Bureau. In addition, the memorandum would discuss possible legislation in the informant area, such as the imposition of a warrant requirement or additional administrative review. To permit the Select Committee members to study this memorandum in advance of the hearing and to discuss it with FBI representatives during their testimony at the public hearing, we request that the memorandum be submitted by November 24.

On 11/25/75, John T. Elliff, Task Force Director of the Domestic Intelligence Task Force for the Senate Select Committee, requested the Bureau designate a witness to appear in executive session before the Senate Select Committee on 12/3 or 12/4 in the afternoon to discuss counterintelligence investigations by the Bureau. Elliff stated because of Chairman Frank Church's interest in a study as to whether counterintelligence investigations should be taken out of the FBI and placed in another agency or a separate component of the Justice Department, this particular topic would be the main focal point of the hearing. Elliff stated that the questions asked of the Bureau's witness would deal primarily with the feasibility of removal of counterintelligence out of the FBI including problems of a logistical and practical nature resulting from such a change. Elliff asked that he be advised as to the identity of the Bureau witness as soon as possible.

Inasmuch as the aforementioned topic is a question of policy, the Director may desire to appear or designate a Bureau witness to appear before the Committee in this matter. Michael E. Shaheen, Jr., Special Counsel for Intelligence Coordination in the Department, is aware of the aforementioned testimony and the possibility exists that the Department may make a decision with regards to the Bureau's providing a witness concerning this matter.

John T. Elliff, Domestic Task Force Director of the Senate Select Committee, advised at 9:15 a.m. on 12/3/75 that the following is a statement to be read by Senator Frank Church of that Committee on 12/3/75.

Attorney General Kennedy authorized wiretaps in 1962 on New York Times reporter Hanson Baldwin and his secretary and that lasted for about one month. In addition to the wiretap on New York Times reporter Hanson Baldwin in 1962, the Committee has received materials from the FBI reflecting authorization by Attorney General Kennedy of a wiretap on a reporter for Newsweek Magazine in 1961 during the investigation of another leak of classified information. Further materials reflected authorization by Attorney General Nicholas Katzenbach for a wiretap on the editor of an anti-Communist newsletter in 1965, also during the investigation of a leak of classified information. The Committee has received materials from the FBI reflecting authorization by Attorney General Robert F. Kennedy of wiretaps on at least six American citizens, including three Executive Branch officials, a Congressional Staff Member, and two registered lobbying agents for foreign interests. The materials also reflect that these wiretaps relate to an investigation of agents by foreign interests to influence United States economic policies.

Elliff was advised by SA Paul V. Daly of this Division that an impression would be created by the aforementioned statement that this Bureau may have conducted an electronic surveillance on Capitol Hill and that this, of course, was inaccurate. The electronic surveillance concerning the Congressional Staff Member was not located on Congressional property. Elliff agreed with this observation and indicated that he would check the material to insure the electronic surveillance in question was not on Congressional property and as agreed, make a change in the aforementioned statement.

U. S. SENATE SELECT COMMITTEE TO STUDY GOVERNMENTAL OPERATIONS WITH RESPECT TO INTELLIGENCE ACTIVITIES (SSC)

Reference is made to SSC requests contained in letter of Senator Frank Church dated November 7, 1975, for materials concerning Martin Luther King, Jr.

The purpose of this memorandum is to effect delivery to the SSC of information and materials in response to requests contained in the above SSC letter.

The attention of the SSC is invited to FBI memorandum dated November 11, 1975, which referred to a highly sensitive oral briefing furnished to Senator Church and selected members of the SSC Staff by FBI personnel on November 5, 1975. This briefing was intended, in part, to serve in lieu of any written information in response to SSC requests for communications documenting Stanley David Levison as a secret member of the Communist Party, USA (CPUSA).

Because of SSC insistence in requesting items to establish factual basis for Levison's secret CPUSA membership, as set forth in referenced SSC letter, our New York office was contacted for documents representing original recordings from Bureau informants concerning Levison. As a result our New York office provided the material which is now being delivered and which has served as a basis for statements in various FBI documents that Levison was a secret member of the CPUSA.

ENCLOSURE

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES

It is noted that referenced SSC letter requested unexcised copies of the February 22, and June 12, 1962, communications from New York which appear to have been the "articulated predicates for the 'cominfil' case." The SSC letter did not identify captions of these communications; nor identify any specific "cominfil case." Therefore, we were unable to locate any pertinent documents bearing these dates in our Headquarters files. At a meeting on November 12, 1975, between SSC Staff Member Michael Epstein and representatives of the Intelligence Division of the FBI, it was agreed that the two documents apparently referred to above are New York airtel dated February 12, 1962, captioned "Dr. Martin Luther King, Jr.; SM-C" and New York letter dated August 21, 1962, captioned "Communist Infiltration of the Southern Christian Leadership Conference; IS-C."

New York airtel dated February 12, 1962, is being delivered with this memorandum among those documents received from our New York office. Excisions in this document are fewer than those made in a copy previously provided the SSC. A copy bearing no or fewer excisions cannot be provided the SSC for reasons made clear during the oral briefing of Senator Church and selected SSC Staff members on November 5, 1975.

It is noted that New York letter dated August 21, 1962, which is being delivered with this memorandum, is not believed to have been previously provided the SSC.

Dear Mr. Shaheen:

I want you to know how much I appreciated the opportunity to meet with you and your associates the other day about the Martin Luther King, Jr. case. It was most helpful to have the benefit of the Bureau's knowledge concerning the background of the case, and I can assure you that we will do everything possible to avoid joepardizing any sensitive FBI sources or ongoing operations.

I do want to reiterate our need for the specific items set forth in earlier document requests which would presumably establish the factual basis for your conclusion as of various dates in 1962, 1963 and 1964 that Stanley Levison was a "secret member of the Communist Party, USA." Of course in the event that there is no particular document in any of those years wherein Levison was so-identified to the FBI, I think it would be helpful for you to let us know so that we may consider our outstanding requests in that context. Finally, of course, we still need unexcised copies of the February 22 and June 12, 1962 communications from New York which appear to have been the articulated predicates for the "cominfil" case.

Once again, I want to thank you for your time and I look forward to hearing from you further on this subject.

Sincerely,

Frank Church

SUBJECT: STANLEY LEVISON
IS-C

On 4/9/64, (SENSITIVE FOREIGN INTELLIGENCE OPERATION (SFIO) ~~NY 694-S*~~ made the following observations with regard to the) CP status of STANLEY LEVISON:

SFIO

LEVISON has been an important Party member for many years (and never at any time differed with the Party with respect to the Party line. His only difference with the Party has been with respect to the fact that in his opinion the Party was not sufficiently "militant" in defending Negro rights. In this respect, he has been to the "left" of the Party. LEVISON's differences with the Party are merely "tactical." He has never criticized the Party, except with respect to the Party's handling of the Negro question. The fact that he does not accept domination by the Party with regard to the MARTIN LUTHER KING movement should not be construed to mean that he has broken with the Party in all respects. The Party today is as anxious to reestablish friendly relations with LEVISON as it was in the past.)

SFIO

(It should be noted that LEVISON never has been officially "drummed out" of the Party, nor has anyone ever criticized him for being opposed to the Party's general principles. It further should be noted that according to the CP Constitution, it would require formal expulsion of LEVISON to state that he is officially out of the Party.

LEVISON never has said anything reflecting that he does not continue to be a CP member. It should be noted that it would be in the interests of the MARTIN LUTHER KING movement, with which he is associated, if he would publicly repudiate the Party, which he has never done. It should be further noted that in an effort to renew friendly relations)

with LEVISON, the Party designated BEN DAVIS to contact LEVISON. LEVISON had always expressed the opinion that BEN DAVIS was the only CP functionary who had a sufficiently "militant attitude" as regards CP activities in behalf of the Negro movement. The fact that DAVIS and LEVISON as yet have not met should not be construed to mean that LEVISON has refused to confer with DAVIS. As NY 694-S* understands the situation, DAVIS has been awaiting contact by LEVISON, and LEVISON similarly has been awaiting contact by DAVIS. Each of these individuals is sufficiently egotistical to expect that the other would make the first move in an effort to establish contact. NY 694-S* believes that probably the reason why DAVIS and LEVISON have not met is that arrangements for their meeting were to be made by LEM HARRIS and that HARRIS has not made the proper efforts to effect a meeting between LEVISON and DAVIS.

SF10

NY 694-S* has never obtained any information reflecting that LEVISON has changed his thinking with regard to Marxism. Even though his present estrangement from the Party might be construed as reflecting he is no longer a CP member, there is no reason to come to the conclusion that LEVISON is no longer an ideological Communist.

JACK talked to LEM HARRIS yesterday who said he contacted STAN LEVENSON by phone and was given a cordial hello which was a change from the past when he was cool.

LEM said he had not seen LEVENSON, tried to call him and would like to see him immediately to which LEVENSON said, "I would like very much to see you but I don't have the time now. I'm leaving and packing for a trip. I will be glad to see you in six weeks."

LEVENSON implied that he was going to Ecuador but LEM doesn't know why. There was no anger shown, and LEVENSON will see LEM when he returns in six weeks.

On 6/13/63, NY 694-S* furnished the following information to SA ALEXANDER C. BURLINSON:

On 6/12/63, LEMENT HARRIS, CPUSA Reserve Fund functionary, told NY 694-S* that in a recent meeting with STANLEY LEVISON, the latter furnished him the following information:

The LEVISONS, particularly STANLEY, are still MARTIN LUTHER KING's "brain trust"--now more than ever before. This is so despite the fact that at a meeting of STANLEY LEVISON, ROY LEVISON, HUNTER PITTS O'DELL, MARTIN LUTHER KING and "the Attorney General's chief assistant", the Attorney General's assistant, pointing to the LEVISONS and HUNTER PITTS O'DELL, stated to MARTIN LUTHER KING, "These men are Party members; watch out for them."

MARTIN LUTHER KING did not "bat an eyelash" upon hearing the Assistant Attorney General's remark, and after the latter left the meeting, those in the group smiled at each other. STANLEY LEVISON said to KING, at this time, "I congratulate you on the way you acted regarding his warning. You are a real Marxist-Leninist. This is how a true Marxist-Leninist acts."

Everything that KING does he first discusses with STANLEY LEVISON and he accepts LEVISON's advice wholeheartedly. KING also wholeheartedly accepts the advice of HUNTER PITTS O'DELL as regards matters within the latter's local jurisdiction.

MARTIN LUTHER KING was asked by a group of newspaper reporters whether he takes orders from "the Communists", and also, whether he took "orders from STANLEY LEVISON." KING's response was that he took orders only from God.

By reason of the fact that the LEVISONS feel that the Party has done little, if anything, to assist the fight

SF10 for civil rights for Negroes, and further, since they feel that the Party, as a result of this "do nothing" attitude, has lost prestige, they will no longer permit the Party to dominate or control their activities in the MARTIN LUTHER KING movement. They are severing themselves, financially and in a disciplinary way, from the Party. The LEVISONS and O'DELL are still Party members, but do not desire to be openly "linked up" with the Party. Although they are "disenchanted" with the Party, they are not quitting the Party. With respect to the MARTIN LUTHER KING movement, they will act on their own initiative, and will not accept instructions from the Party.

LEM HARRIS then advised that the Party, however, still would like to control the MARTIN LUTHER KING movement. BEN DAVIS has been assigned to be "liaison or intermediary" with the LEVISONS and HUNTER PITTS O'DELL. Whether or not the LEVISONS and O'DELL will maintain liaison regarding matters concerning the MARTIN LUTHER KING movement is a matter for them to decide. In view of LEVISON's statement with respect to advising MARTIN LUTHER KING independently of Party instructions, it would seem that DAVIS may not have any success in maintaining liaison with the LEVISONS and HUNTER PITTS O'DELL. The LEVISONS and O'DELL are aware of the fact that BEN DAVIS has been given this assignment by the Party. SF10

MARTIN LUTHER KING, according to LEM HARRIS, is referred to by such top Party functionaries as GUS HALL, BEN DAVIS, JIM JACKSON and CLAUDE LIGHTFOOT as a "true, genuine, Marxist-Leninist from the top of his head to the tips of his toes." In the Party, the report is that MARTIN LUTHER KING is following a Marxist-Leninist line.

NY 694-S* advised that he asked LEM HARRIS whether or not, to the latter's knowledge, MARTIN LUTHER KING was a member of the CPUSA. LEM HARRIS replied that he did not know.

(When Dr. MARTIN LUTHER KING was invited to address the AFL-CIO convention some time ago, KING, on LEVISON's advice, first obtained approval to do so from A. PHILLIP RANDOLPH, negro labor leader, who, if he had not been consulted in the matter, might have felt that KING's making a speech at the aforesaid convention was a blow to RANDOLPH's prestige.

KING delivered a remarkably effective speech at the AFL-CIO convention, and, as a result, received invitations from numerous labor leaders, including "MC DONALD of Steel," to address their respective unions. As the outstanding champion of negro rights in the country, KING is a powerful political influence, recognized as such by the higher echelons of the Democratic Party. He has access to Attorney General ROBERT KENNEDY and President KENNEDY, who, politically, need KING, particularly in the South, where in cities like Atlanta and New Orleans the negro vote now constitutes the balance of power, and where KING controls the negro vote.

JAMES HOFFA, Teamsters Union "boss" appreciates the political power of KING, particularly the fact that KING can influence the 90,000 negro members of the Teamsters Union. HOFFA invited KING to address the Teamsters Union, and KING accepted the invitation. Knowing that KING is being deferred to by Attorney General KENNEDY, and President KENNEDY, HOFFA requested KING to contact the Attorney General in an effort to influence the latter "to lay off" HOFFA. KING was inclined to do as HOFFA requested, but LEVISON convinced him that to do so would be politically unwise, inexpedient, and likely to be a "boomerang," since the Attorney General would never accede to such a request, particularly in the case of HOFFA.

LEVISON had to steer KING away from another politically hazardous situation. Some months ago OTTO PREMINGER, Hollywood movie director, entered into negotiations with a KING representative for KING to play a part in a picture which PREMINGER would direct. Although PREMINGER's offer was "tempting," since it meant "fast, easy money" for KING's organization, LEVISON realized that for KING to accept the offer would lower the latter's prestige. After convincing KING of this fact, LEVISON personally telephoned to PREMINGER, telling him that "the deal was off.")

(What LEVISON particularly wanted GUS HALL to knew is that "KING is a wholehearted Marxist, who has studied it (Marxism), believes in it, and agrees with it, but because of his being a minister of religion, does not dare to espouse it publicly."

GUS HALL, according to HARRIS, was "elated" to receive LEVISON's report on LUTHER KING.)

(BA 969-S) advised on 11/22/60, ((BA 134-13A-615)) that at a National Negro Commission meeting held on 11/19, 20/60, at CP Headquarters, 23 West 26th Street, NYC, TED BASSETT, a representative of "The Worker", stated that the CP is now in the process of placing members of the Party in key positions in the SCLC. BASSETT continued by saying that a Western Conference of the Christian Leadership is now being formed and a CP member is the leader in this conference.

informant

(NY 694-S*) advised on 5/1/62, that on 4/30/62, (ISADORE WOFSY, CP, USA fund functionary, said that according to LEM HARRIS, he was told by STANLEY LEVISON that the CP, USA had sent "an experienced, professional, secret organizer" to New Orleans, who would assist the MARTIN LUTHER KING group there in its fight for political equality of Negroes. LEVISON allegedly told HARRIS that he personally, and not the Party, was financing this organizer.) SF10

informant — Hosea?

(NY 694-S*) advised on 5/2/62, that according to (LEM HARRIS, the secret CP organizer, whom the CP, USA had sent to New Orleans, was JOSE HUDSON. HARRIS said that HUDSON would be associated with SERGEANT CAULFIELD in Baton Rouge.) SF10

Informant

On 7/2/62, (NO 1084-S) advised that SERGEANT CAULFIELD returned to Baton Rouge, Louisiana, from Atlanta, Georgia, on 5/31/62. Informant said that CAULFIELD stated that he and JOSE HUDSON met HUNTER O'DELL in Atlanta, O'DELL having flown there from NYC.

informant

(NO 1084-S) stated that CAULFIELD paid CP dues to O'DELL for several CP members from Louisiana. O'DELL had come to Atlanta regarding organization of the MARTIN LUTHER KING movement. O'DELL thought that if an active

MARTIN LUTHER KING movement could be organized in Louisiana, the State Senatorial District where CAULFIELD resides permanently (Lettsworth, Louisiana), CAULFIELD might be furnished as much as $1,000.00 per month to promote this movement. The funds are to come from the MARTIN LUTHER KING movement and the object is to get every eligible Negro to register to vote. CAULFIELD reportedly met MARTIN LUTHER KING, JR., while in Atlanta, and discussed with him the voter registration matter in Louisiana.

On 4/27/62, a pretext telephone call was made to UN 6-2000, which is the NYC listing for the Committee to Defend MARTIN LUTHER KING and also the listing for the SCLC at 312 West 125th Street, NYC. The pretext used was that of a person interested in contributing money to the KING committee. The person answering the phone during the conversation identified himself as JACK O'DELL, and furnished the following information:

His office is the Northern Branch of the SCLC. The Committee to Defend MARTIN LUTHER KING, at 312 West 125th Street, was organized as an "ad hoc" committee to assist in the KING defense, when he was the subject of court action. When the reason for this committee's being in existence was removed, it was formally dissolved. The same personalities them formed the Committee to Aid the Southern Freedom Struggle, which is now operated at 312 West 125th Street.

O'DELL stated that it would make no difference as to whether a person contributing money makes out checks payable to the Committee to Defend MARTIN LUTHER KING, the SCLC or the Committee to Aid the Southern Freedom Struggle, because they are all one and the same.

NY 100-149194

informant

On 6/1/61, CG 5824-S* advised that HUNTER PITTS O'DELL, who was a secret member of the National Committee, CP, USA, has quit the CP and is officially considered by the CP as being out. However, there are no hard feelings existing between O'DELL and the Party and he is still on good terms with the CP and will work with them. SF10

EXTREME CAUTION MUST BE EXERCISED WITH RESPECT TO DISSEMINATION OF THE INFORMATION HEREIN, SINCE BY ITS NATURE IT TENDS TO IDENTIFY NY 694-S*, A VALUABLE INFORMANT, AS THE SOURCE THEREOF. UNLESS THIS INFORMATION IS OBTAINED FROM A SOURCE OTHER THAN NY 694-S*, IT SHOULD NOT BE INCORPORATED, EVEN IN PARAPHRASED FORM, IN THE INVESTIGATIVE SECTION OF A REPORT.

INFORMANT

Informant

On 7/23/62, NY 694-S* stated during a personal contact with GUS HALL, General Secretary of the CP, USA, on that date, HALL advised that HUNTER PITTS O'DELL is still representing the CP, USA and that he is still on the National Committee of the CP, USA. HALL further remarked that O'DELL is a "brain-trust" for LUTHER KING and is doing an excellent job. SF10

Current investigation in NYC reflects that O'DELL is spending most of his time in the Atlanta area working with the SCLC. He was last reported in the NY area in June, 1962.

INFORMANT

On 2/11/62, NY 1300-S made available photographs of material maintained in the office of STANLEY LEVISON, 6 East 39th Street, NYC. Included in these photographs were the following:

1. Two checks, both dated 12/19/61, bearing the printed name of the "Southern Christian Leadership Conference", 312 West 125th Street, NY, NY. These checks

are numbered 397 and 399, one in the amount of $251.90 and one in the amount of $150.00, are marked payable to J. O'DELL, and are signed by STANLEY D. LEVISON.

2. Copy "C" of a Withholding Tax form for 1961, in the name of JOHN HUNTER O'DELL, 312 West 125th Street, NY, NY, Social Security Number 386-14-3707, indicating that he was paid $3,050.00 in 1961 by the SCLC, 312 West 125th Street, NYC.

ELSUR
(NY 3575-S*) advised on 6/20/62, that STANLEY LEVISON stated that in a recent conversation with MARTIN LUTHER KING, KING said he was thinking of getting another administrative assistant. LEVISON stated that in the past LEVISON had not considered it wise for O'DELL to take on such a position, but he is the only one who could do the job and should be considered for it. LEVISON stated as long as O'DELL did not have the title of Executive Director, there would not be "as much lightening flashing around him". O'DELL could be called a coordinator and still fulfill all the duties of Executive Director.

ELSUR
LEVISON stated, according to (NY 3575-S*) that KING liked LEVISON's suggestion with respect to O'DELL taking this position, because KING felt that O'DELL must face it sooner or later, stating "that no matter what a man was, if he could stand up now and say he is not connected, then as far as I am concerned, he is eligible to work for me".

INFORMANT | IN INFORMANT FILE #
(NY 2783-S) advised on 7/11/61, ((NY 134-4268A-378)), that HAZEL GRAY is working again at the SCLC, 312 West 125th Street, NYC.

INFORMANT
On 7/8/61, NY 1212-S stated that it had come to his attention that CLAUDE LIGHTFOOT had mentioned that he wanted

to use HAZEL GRAY and her husband, JOHN GRAY, in the Kings County CP organization. The informant stated that LIGHTFOOT highly recommended the GRAYs.

On 3/10/61, MILTON BIRON, Senior Accountant, Comtroller's Office, New York City, Bureau of Excise Taxes, 120 West 32nd Street, made available an application for exemption from the New York City amusement tax, dated 1/23/61, and signed by STANLEY D. LEVISON. The exemption was requested for a "concert" to be given at Carnegie Hall on 1/27/61, for one evening performance.

The name of the applicant was given as the "Committee to Aid the Southern Freedom Struggle", 312 West 125th Street, an unincorporated association. It is stated that the applicant is a non-profit educational committee which has registered with the Charities Registration Bureau in Albany and the Department of Welfare in NYC. It says that it employs no professional fund raisers and that neither its officers nor executive directors are paid either salaries or expenses.

The, "Purposes for which applicant was organized", are listed as:

"To provide funds for the Southern Christian Leadership Conference to be used for establishment of constitutional rights in the South utilizing voting registration drives, educational meetings, church and synagogue conferences, sit-in techniques, legal actions etc."

The, "Activities of the Applicant", are listed as:

"Mail solicitations, benefits, meetings, educational conferences, church collections."

The, "Source and Disposition of Income", is listed as:

"All income less expenses is transmitted to the Southern Christian Leadership Conference or directly paid out to sources indicated by the Southern Christian Leadership Conference. Dr. MARTIN LUTHER KING is President of the Southern Christian Leadership Conference."

A "note" attached to the application stated that the committee was created by resolution as an unincorporated association at an organizing meeting held at the home of HARRY BELAFONTE, 300 West End Avenue, in June, 1960.

The application for exemption from the New York City amusement tax was denied by letter 1/31/61, sent to the Committee to Aid the Southern Freedom Struggle, 312 West 125th Street, attention of STANLEY D. LEVISON.

NY has considered the above facts and is of the opinion that a Cominfil investigation of the NY Chapter of the SCLC is warranted, due to the dominant CP influence on the executives of the NY Chapter of the SCLC.

NY will conduct no further investigation without prior Bureau authority.

Dear Mike:

As a follow-up to our briefing of Assistant Director Wannall on November 6 concerning our proposed format and witnesses for public hearings on December 4-5 on the FBI's use of intelligence informants and sources, we would like to make the following requests.

As discussed in our meeting with Mr. Wannall, we invite the Bureau to submit a memorandum on its intelligence informant and source program that could be inserted in the record of the testimony of Bureau representatives at the hearing. This memorandum would enable the Bureau to present to the Select Committee a complete description of its program and to discuss the issues of particular interest to the Committee members. These include, for example, 1) the size, scope and purpose of the program, including an assessment of the program's cost and effectiveness, and the distinctions and relationships between the intelligence informant program and the Bureau's criminal informant activity; 2) the criteria that determine when an informant may be used in an organization or group; and 3) the program's command and control system, including the limits that are placed on the activities of informants and the type of information an informant or source is permitted to report to his handling agent and the Bureau. In addition, the memorandum would discuss possible legislation in the informant area, such as the imposition of a warrant requirement or additional administrative review. To permit the Select Committee members to study this memorandum in advance of the hearing and to discuss it with FBI representatives during their testimony at the public hearing, we request that the memorandum be submitted by November 24.

ENCLOSURE

Also I am enclosing requests for documents relating to two of the three former FBI informants who are scheduled to testify on December 4. These requests supplement our document request of August 20, 1975 pertaining to informants (Part IV-4).

In addition, we wish to interview and possibly depose the Special Agents who handled the three former informants (Rowe, Hardy and Cook) who are scheduled to testify at the public hearing on December 4. Because of the limited time remaining before the scheduled hearings, we request that the Special Agents be made available for interviews and depositions as soon as possible.

Sincerely,

John Elliff

Reference is further made to our memoranda dated July 17, 1975, and September 25, 1975, which provided background information and documents pertaining to the SI, ADEX, and RI.

As you are aware, a computerized ADEX listing is prepared monthly at FBIHQ. The SI list was prepared in the same manner and, as with the former SI, when a new monthly ADEX list is prepared copies of the old list are destroyed inasmuch as they are outdated and no longer serve a useful purpose. As you have been previously advised, names appearing on the former SI and the ADEX have been printed on 5 X 8 cards with a single name printed on each card. Background information, file numbers, and type of activity in which the individual is engaged are also placed on these cards. As you are aware, approximately 15,000 of these cards, all outdated, have been located as FBIHQ. These cards include some which contain the identity of individuals who were maintained on the Priority III level of the former SI and all ADEX cards deleted or cancelled since its inception.

During the initial period of establishing the ADEX, in order to obviate the need for conducting massive file reviews, the ADEX consisted primarily of the identity of those individuals who had been maintained on the former SI. Although these names were originally placed in this manner on the new ADEX, as cases were reviewed under our then existing reporting procedures, each case was to be reviewed on its own merits utilizing the then current criteria for ADEX to determine whether continued inclusion on the ADEX was warranted. If not, the individual's

name was deleted. As previously indicated, during 1972 the ADEX was evaluated and revised. Following this revision, the number of individuals who were included on the ADEX began to decline and thus the high number of cancelled cards. In accordance with Bureau policy, which was instituted during the SI program, these cancelled cards are maintained at FBIHQ for a period of three years and there is no way to reconstuct a former SI or ADEX list for a particular time period by reviewing these cancelled cards. These cards, however, will reflect the identity of those individuals who have been placed on the SI and the ADEX for the period for which these cards were maintained.

Per your request, these outdated SI and ADEX cards are available for review by appropriate SSC representives at FBIHQ. In this regard, SSC Staff Members Martha Talley and John T. Elliff have had access to these cards on October 30, 1975, and November 7, 1975, respectively.

During Mr. Elliff's review of these cards, the names Shelley Blum, Emanuel James Brisker, Jr., and Gregory Allan Calvert were selected by Mr. Elliff in connection with request number two of your October 28, 1975, letter. Documents requested regarding these individuals are enclosed.

A review of pertinent files at FBIHQ regarding the SI and the RI indicates there are no other versions of the former SI or RI at FBIHQ. Contact was also made with knowledgeable individuals of our New York City Field Office and it was determined these programs had been handled in accordance with then existing FBIHQ policy and no other versions of these programs were compiled by that office.

Materials requested for delivery under item number four of your October 28, 1975, letter are enclosed. In this regard, it is noted the correct FBIHQ file number for the Emma Lazarus Federation of Jewish Women's Clubs is 100-400394 and the correct file number for the file regarding Communist Infiltration of the National Association for the Advancement of Colored People is 61-3176. In order to be responsive to your request, pertinent documents of the type desired are being furnished regarding these organizations from these files.

NOTE:

The matter relating to other versions of the SI and RI compiled by our New York Office were discussed with New York personnel SAC James O. Ingram and Field Supervisor Raymond Ruckel on 11/10/75, and 11/11/75, respectively.

Reference is made to my letter dated July 1, 1975, which enclosed a memorandum of the same date relating to a request for documentary materials made by the Senate Select Committee (SSC) under the date of May 14, 1975.

The referenced memorandum, on page 1, paragraph 4, refers to a briefing by FBI Director J. Edgar Hoover to the National Security Council, presided over by the President, on November 6, 1958. A further review of our records has determined this briefing by Mr. Hoover was actually furnished to the President and members of his Cabinet on November 6, 1958. Although it is likely members of the National Security Council were present, technically it was a briefing of the President and his Cabinet.

Attached for your approval and forwarding to the Committee is the original of a memorandum correcting this technical error and requesting the Committee appropriately change its records.

A copy of the memorandum is provided for your records.

Reference is made to memorandum dated July 1, 1975, which responded to a SSC request under the date of May 14, 1975, for documents relating to this Bureau's former Counterintelligence Programs (Cointelpros).

Page 1, paragraph 4, of referenced memorandum refers to a briefing by FBI Director J. Edgar Hoover to the National Security Council, presided over by the President, November 6, 1958. Enclosed with the memorandum was a document with a cover page alluding to this briefing of the National Security Council.

A current review of the records of this Bureau has determined the briefing by FBI Director J. Edgar Hoover on November 6, 1958, was actually furnished to the President and members of his Cabinet. Although it may be presumed that some members of the Cabinet were also members of the National Security Council, it is requested you correct your records to more accurately indicate the true nature of the briefing.

This is also to confirm information orally furnished by Supervisor David Ryan of the FBI to SSC staff member Barbara Banoff on November 13, 1975, at SSC offices. At that time,

Reference is made to a memorandum dated 11/12/75 from Legal Counsel to Mr. J. B. Adams, Deputy Associate Director, in which a recommendation was made that the Intelligence Division determine whether there is a memorandum describing a briefing of former Attorney General Ramsey Clark by Mr. Cartha DeLoach, former Assistant to the Director, concerning the Counterintelligence Program.

Mr. DeLoach, during an interview under oath by staff members of the Senate Select Committee on 11/11/75, advised that he had briefed Ramsey Clark regarding the Counterintelligence Program and, when asked whether he had written a memorandum regarding that briefing, advised that he could not specifically recall whether a memorandum was prepared. During the interview by Committee staff members, they advised Mr. DeLoach that they had asked for such documentation from the Bureau, but a memorandum indicating Mr. DeLoach had briefed Ramsey Clark regarding the Counterintelligence Program was not received among the documents furnished by the Bureau.

ST-110 REC-7 62-116395-[illegible] 1975

This will advise that additional review of Bureau files by personnel of the Analytical Research Unit has failed to disclose any memorandum which describes a briefing of Clark by Mr. DeLoach regarding the Counterintelligence Program.

S. intelligence activities. Mr. Aaron was briefed on the overall role and mission of the FBI's Legal Attaches (Legats), and specifically on the activities and functions of the Legats at Brasilia and Buenos Aires. He was advised that Legat, Brasilia, utilized two confidential sources in order to facilitate the prompt coverage of leads in Brazil. He was also told that Legat, Mexico City, and Legat, Brasilia, were the only Legat offices that utilized paid confidential sources. (S)

Legat, Buenos Aires, informed FBIHQ that the U. S. Embassy at Buenos Aires received instructions, classified "Secret," from the U. S. RE: VISITS OF SSC STAFF

Department of State advised that the primary objective of the visitors was to discuss with the Ambassador and members of his staff the relationships and exercise of authority by the Ambassador of the intelligence activities in the field. The Department of State further advised that operational details, sources and methods were not construed to be legitimate avenues of inquiry by the SSC Staff Members.

Legat, Brasilia, was interviewed on September 22, 1975, by Messrs. Aaron and Truehart, with Aaron being dominant in the interviewing process. The interview was directed mainly toward attempts to elicit examples whereby Central Intelligence Agency (CIA) had withheld dissemination of information of interest to other agencies. Inquiries were made concerning CIA activities inside and outside the Embassy. Specific questions were placed with Legat to ascertain if the FBI was involved in Soviet Embassy "walk-ins" as well as recruitment of double agents and CIA-oriented operations. Discussion concerning Legat's role and functions in Brasilia appeared to be routine, with few, if any, pointed questions directed at FBI operations overseas. The subject of two paid confidential sources in Brasilia was briefly discussed and both SSC investigators appeared understanding and in agreement with the necessity of each confidential source to serve FBI's and U. S. Government's best interests in Brazil. The question seemingly bearing the most weight during the interview concerned possible unauthorized activities of CIA and its lack of cooperation and coordination with FBI and the Defense Attache's Office. The duration of the interview was approximately forty-five minutes. (S)

Legat, Buenos Aires, was interviewed by the two SSC Staff Members on September 26, 1975. Again Aaron played the dominant role during interview. He commenced

the interview by stating that the operations of Legats, Brasilia, and Buenos Aires, were not the type of Legat operations he desired to review, indicating that Mexico City Legat's operations were more of the type of interest to them. Aaron asked pointed questions concerning the mechanics of Legat reporting on intelligence information developed locally to FBIHQ and the local coordination of this information with the Embassy components. Aaron requested the Legat provide him with the general nature of intelligence developed and reported by the Legat to the Embassy and FBIHQ. He was told that generally international and local terrorism were the prime topics of Legat reporting. Inquiry was also made into the reason for FBI expansion of foreign liaison activities in 1970. He was told that the Legat was not personally aware of any special reason other than that the FBI liaison operations required additional personnel and Aaron was referred to FBIHQ for any additional information in this regard. [Legat was asked whether the CIA Station had ever requested Legat to secure data from FBI computer banks on Argentine residents of CIA interest who had previously resided in the U. S. Legat's reply was in the negative. Other questions mainly dealt with cooperation and coordination activities between the FBI and the CIA at the Embassy.] Inquiry was also made (S) into the relationship of the Drug Enforcement Agency and FBI overseas. The interview lasted approximately thirty-five minutes.

Upon arrival in Buenos Aires, Mr. Aaron was suffering from an intestinal problem and remained in his Buenos Aires hotel on September 25, 1975. The Charge D' Affaires hosted a small luncheon for former Ambassador Truchart on that date which Legat, Buenos Aires, attended. Truchart was very open regarding the operations of the SSC

and stated that he felt the Committee had lost its perspective and that he believed that various Senators were engaging in a game of "one-upmanship" in revealing so-called sensational disclosures of CIA activities. Truchart stated he personally felt that the original purpose of the Committee to afford an objective review of U. S. intelligence operations had been lost.

Memorandum advises concerning proposed SSC hearing on FBI foreign counterintelligence (CI) matters.

On 10/30/75 Mr. John Elliff, SSC Staff Member, met with Assistant Director W. R. Wannall, Intelligence Division (INTD). Also present were Section Chiefs W. A. Branigan (CI-1) and W. O. Cregar (CI-2) and Acting Section Chief F. J. Cassidy (IS-3) and Unit Chief E. W. Larson, Training Unit (IS-3). Mr. Elliff advised that the Committee proposed to have an executive session tentatively scheduled for the morning of Friday, 11/14/75, which would deal with foreign CI operations. In addition to representatives from the FBI they envisioned also having present representatives from CIA and the United States military intelligence services. He stated that the session would be scheduled for approximately 2 and one-half hours.

During the conference the following three themes were outlined by Mr. Elliff as the probable areas of discussion:

1. Changes in CI operations during recent years

Items discussed as probably worthy of attention were physical surveillances, the walk-in operations, defection (recruitment-in-place), CI training programs. Also suggested as a prime topic was the future projections concerning administration of foreign CI operations in the United States, i.e., new division for CI work within FBI; separate CI service; or other modifications.

2. Counter-subversion

In this category Mr. Elliff indicated a particular interest in foreign influence in domestic groups and the assessment of danger/risk in investigations undertaken to detect such influence. He brought up the disclosures of surveillances by CIA of Americans abroad at the request of the FBI. He also indicated an interest in borderline cases, such as those in which domestic counter-subversion investigations develop a CI aspect, and was particularly interested in the policies and coordinating mechanisms affecting such instances.

3. Positive intelligence collection

In this category Mr. Elliff was interested in the responsibility for collection of positive intelligence within the United States and the apparent gap which existed in this field. He was also interested in situations under which the FBI might target friendly foreign intelligence services in the United States for CI attention.

Considerable discussion was held during the conference during which INTD representatives set forth the FBI's position and experience in the many areas noted. They are being set forth here to illustrate the probable scope and nature of the executive session which is being planned. Further discussions will be held with the SSC staff to clarify these matters and a firmer agenda for the proposed 11/14/75 hearing will be developed.

With respect to the proposed plan to include representatives of CIA and the military intelligence services along with the FBI in the proposed session of 2 and one half hours, it was pointed out to Mr. Elliff that this would not appear to be a very productive procedure. The CI perspectives and responsibilities of CIA and the military services are much more narrow and generally in a completely different context than the CI perspectives and responsibilities of the FBI. These differences, particularly in the short

time allotted, appear to represent a disadvantage to all parties concerned, including the Committee. It was pointed out that the FBI, in particular, would have considerable difficulty in presenting a comprehensive and valid picture of its own CI operations under the conditions imposed by such a session. Mr. Elliff, after considering these objections, stated that he could understand the FBI position but was somewhat doubtful considering the pressures under which the Committee was operating that he would be able to alter this situation.

BUDED 1/30/76

Enclosed is a self-explanatory letter from the Attorney General dated 1/12/76.

Joseph Kraft, the subject of the inquiry, is the well-known newspaper columnist and a Washington, D. C. resident. During the past year, information contained in FBI Headquarters files relating to Kraft has been furnished to the U. S. Senate Select Committee on Intelligence Activities (SSC) pursuant to SSC requests. Kraft and his attorneys have reviewed the material furnished to the SSC regarding him in accordance with an agreement between Kraft and the Attorney General, referred to in paragraph one of the enclosure. As noted in the enclosure, Kraft, as a result of a review of information regarding the burglary of his residence on 9/3/69, raised certain questions.

WFO should furnish FBIHQ with Xeroxes of all serials in its files which relate to the 9/3/69 burglary except WFO airtel and letter to the Bureau dated 9/4/69 and 10/17/69, respectively, captioned "UNSUB; Burglary of residence of Joseph Kraft, 3021 N. Street N. W., Washington, D. C., Loss of silverware, 9/3/69 in excess of $5,000.00 ITSP (OO:WFO)" file number 87-17564. This material should of course include any serials which would indicate the manner in which the burglary was reported to WFO and how the conversation about the burglary took place.

In addition to the review of all files pertinent to this inquiry, WFO should review the newspaper morgues of daily newspapers published in Washington, D. C., at such time for articles concerning the burglary and which may shed some additional light on this matter.

This matter must be given expeditious attention and results submitted by airtel to reach Bureau by c.o.b. 1/30/76.

NOTE:

Bureau memorandum dated July 23, 1973, referred to in enclosure and to which Kraft raised a question sets forth the information that Kraft advised WFO on 9/4/69 of the burglary of his residence 9/3/69. Kraft now has no recollection of having spoken to the FBI about the burglary. Pertinent FBIHQ main case files on Kraft (62-115682, 65-75629, 87-107157 and 105-68548) were reviewed by Supervisor T. E. Burns in connection with this inquiry. Such review failed to develop required information. Review by WFO as directed within should develop appropriate information necessary to resolve this matter.

SUBJECT: Joseph Kraft burglary

Among the documents from Federal Bureau of Investigation files provided to my office under a cover memorandum dated October 7, 1975, there was a memorandum dated July 18, 1973 and titled "Joseph Kraft." This document, along with the others, was provided to Mr. Kraft's attorneys pursuant to the agreement of August 5, 1975, for review before the department furnished it to the Senate Select Committee.

When Mr. Kraft and his attorneys reviewed the July 18, 1973, document they raised a question about a reference on page two of the document which stated:

> "On September 4, 1969, Joseph Kraft advised the Washington Field Office of the FBI that he left his home (3021 N Street, N. W., Washington D. C.) at approximately 9:20 P.M. on September 3, 1969, to visit with former Governor Averell Harriman who resided a few doors from the Kraft "residence. At approximately 9:45 P.M. Mrs. Kraft, who was in the second floor bedroom of the residence, came down the stairs and found the door open.
>
> "Subsequently, it was discovered by Mr. and Mrs. Kraft several items of sterling silver were missing from the dining room and the pantry which items, according to the Krafts, had an estimated value of approximately $10,000.
>
> "A crime scene search and processing of the crime scene by the Metropolitan Police Department produced negative results. No forcible entry was noted and Mr. Kraft advised investigative officers of the Metropolitan Police Department that he had probably left the front door ajar when he departed the residence.

> "On the morning of September 4, 1969, the Metropolitan Police Department was advised by the Washington National Airport Police that some silverware had been found near one of the entrances to the terminal at the Washington National Airport. The silverware was recovered by the Metropolitan Police Department and processed for latent fingerprints without success and the items were returned to Mrs. Kraft upon her identification of the silverware. No suspects were developed by either the FBI or the Metropolitan Police Department in the investigation of the matter."

Mr. Kraft does not recall having spoken to the FBI about the burglary. Documents provided more recently to Mr. Kraft pursuant to the August 5, 1975, agreement do not shed any light on this question.

The incident is curious in that the only reference to it comes in the memorandum of July 18, 1973, discussing a press report about the activities of John D. Erlichman. Could you have someone look into this matter for me? The obvious questions are: What other documents in FBI files say about the September 3, 1969, burglary? What files of the Bureau or its Washington field office indicate about how the conversation about the burglary took place?

As the Bureau is aware, I am gravely concerned over the potential for serious violence occurring in Chicago during the period of the Democratic Convention, which commences August 26, 1968 and the days immediately preceding this convention. Had the convention occurred within 30 days after the President made his announcement that he was not going to run for reelection and after the Viet Nam peace talks started in Paris, I feel that we might not have had serious violence as these two occurrences took much of the steam out of many of the organizations comprising the "New Left". Their direction at that time was primarily against President JOHNSON and against Viet Nam and much of the steam went out of their programs following these two announcements.

It is our observation, however, that these "New Left" organizations have now had time to redirect their programs and are now concentrating primarily on demonstrations and activities against Vice President HUMPHREY, characterized by them as the "Dump Humphrey Campaign". The fact that the war still continues in Viet Nam, has again given emphasis to the organizations which exist on the basic theme of anti-Viet Nam. I am thinking particularly of such organizations as the National Mobilization Committee to End the War in Viet Nam, Students for Democratic Society, Student Mobilization Committee to End the War in Viet Nam and the Youth International Party (Yippies).

SUBJECT: DEMCON

On August 12, 1968, USA THOMAS A. FORAN contacted SAC, Chicago, advising that WARREN CHRISTOPHER, Deputy U.S. Attorney General, desired to meet with the SAC, Chicago.

As a result of the above request, SAC, Chicago, and Supervisor RICHARD L. STRAIN met briefly with Mr. WARREN CHRISTOPHER and Mr. WES POMEROY of the U.S. Department of Justice, Washington, D.C., in the presence of USA FORAN in his offices.

Mr. CHRISTOPHER was most congenial and expressed his high regard for the FBI and asked for a current evaluation of activities in the Chicago area which could possibly affect the Democratic National Convention (DNC) being held the last week of August, 1968. Mr. CHRISTOPHER was advised that all information has been previously furnished to him by letterhead memoranda and was in his possession and he was assured all information coming to our attention would be immediately furnished to the Department and to the USA in Chicago. A brief discussion of current trends followed relative to current intelligence regarding the activities of anti-war and Negro militant organizations which have proposed disruptive tactics at the DNC.

At one point in the discussion mention was made of the fact that the Youth International Party, aka Yippies, was currently holding talks with the city administration in an effort to obtain necessary park permits to have their followers live and sleep in one of the Chicago area parks during the week of the convention and hold a "happening" which the Yippies referred to as the "Festival of Life." During this discussion USA FORAN confidentially advised that when he had received the FBI's notification of the anticipated plans on the part of the Yippies, he had contacted certain city officials known to him and attempted to persuade them against the issuance of such a permit in view of the known moral conduct of such groups. USA FORAN advised he had been assured that such permits would not be granted. He stated these permits have as yet not been granted and that his sources have indicated no serious consideration has been given to the request by responsible Chicago city officials.

For the Bureau's information, Sgt. JOSEPH GRUBISIC, Intelligence Section, Chicago PD, advised previously that he had learned from DAVID STAHL of the Mayor's Office, Chicago, that they had received a telephone call, a couple of days ago, from one WES POMEROY of the U.S. Attorney General's Office, to the effect that the Attorney General wanted the Chicago city officials to give every consideration to the granting of the permits requested by the Yippies.

Sgt. GRUBISIC was unable to comment on the feeling of the city administration to this request but was of the opinion that such permits would not be granted as requested. Sgt. GRUBISIC based his opinion on the fact that four representatives of the Yippies, from New York City, had gone to the office of the Deputy Superintendent of the Chicago PD and had requested immunity from arrest for all Yippies during the convention for crimes around the possession of narcotics. The Yippies stated that any arrest would cause the Yippie community to cause large scale riots, and the blame of any riots resulting from such arrests would fall on the Chicago PD.

These representatives of the Yippies were advised in no uncertain terms that the laws of the City of Chicago would be strictly enforced fairly on all persons and that no one would be granted any immunity during this period.

The Bureau's attention is invited to the August 9, 1968, issue of the "Daily World," daily publication of the Communist Party, USA (CP), wherein an article appeared on page one captioned "Rallies Will Ring Demo Convention" written by CARYL DAVIAU, current member, CP of Illinois, in which the reporter indicates that the National Mobilization Committee to End the War in Vietnam, which is working around the clock to mobilize demonstrations against the convention, has petitioned the Justice Department to investigate the Chicago Police to determine if there is any conspiracy to deprive "us" of our full civil liberties.

Chicago will continue to follow these matters closely and immediately advise the Bureau, and continue to disseminate all information of intelligence collected to interested agencies.

No recommendation is being made nor is Chicago involving itself in any plans affecting the issuance of the abovementioned park permit.

ENCLOSURE

As the Bureau is aware, Chicago is in receipt of information from confidential sources indicating a potential for demonstration arising out of the "New Left" calling for direct confrontation with the Chicago Police Department as a diversionary tactic for a "crash-in" at the convention site. Sources have also reported independent action on the part of individuals to cause some form of "sabotage" activity inside the convention itself. Information received from confidential informants in other divisions indicates attempts on the part of dissident young people not organizationally affiliated with the "New Left", to hire 50 buses out of New York to bring demonstrators to Chicago and a caravan of militant Latin Americans to come from the Miami, Florida area to Chicago for the specific purpose of disrupting the Democratic National Convention.

The Chicago area activists in the Youth International Party are currently planning a "Festival of Lights" in one of the parks on Chicago's lakefront during the period of the Democratic National Convention. This "Festival of Lights" characterized by Chicago area Yippie leadership as being peaceful to show America that there is an alternative to the "festival of death", or the Democratic National Convention. However, sources report that there are elements within the Youth International Party which are calling for direct confrontation with the Chicago Police Department during the "Festival of Lights".

There is a very definite indication that more and more plans are being made by these groups to cause violence and trouble and undoubtedly this will increase even more as we approach the time of the convention. I strongly feel that we must use every possible means at our command to insure that the Director, the President of the United States and other pertinent officials are furnished every possible piece of intelligence information which we can gather from any source.

I am specifically asking for the services of two Special Agents who proved during their assignment in Chicago that they are expecially well qualified to handle informants and make contacts in the "New Left" area. They proved during their assignments in Chicago that they have the knowhow, the interest, the dedication and the personality to be highly successful in

this area. I would like to utilize them specifically to work cases in the "New Left" area, make contacts and would also request authority where necessary to utilize them in under-cover work under my personal supervision and guidance. They would be specifically assigned fulltime to solicit information from the leadership of the "New Left" concerning their plans for demonstrations, confrontations and disruptions of the Democratic Convention and matters relating thereto.

I am, therefore, urgently requesting that SA WILLIAM J. DILLON, III, presently assigned to Los Angeles and SA WAYNE F. MANIS, under transer to Anniston, Alabama Resident Agency, be assigned on a temporary basis in Chicago for the above stated purpose from August 15, 1968 through August 31, 1968. Both men, while young in years in the Bureau, demonstrated outstanding judgment and I am convinced that their assignments, as recommended above, would prove to be most beneficial in carrying out our responsibilities in connection with the Democratic Convention.

SUBJECT: DEMCON

This will confirm telephonic contact between SAC, Chicago, and Assistant Director N. P. CALLAHAN on August 13, 1968.

As the Bureau is aware, the Democratic National Convention will be held in Chicago from August 26 - 28, 1968. Voluminous information is being received from all offices which requires immediate handling. In addition, tension is growing in the ghetto areas of Chicago particularly the west side, the south side and the near north side. Also, tension has been growing i such Chicago suburban areas as Harvey, Chicago Heights, East Chicago Heights and Maywood. Incidents are occurring every night and throughout the night requiring immediate preparation of teletypes, letterhead memoranda and other communications. It is, therefore, necessary as approved by Mr. CALLAHAN for one and on some shifts two stenographers to be on duty from 4:00 PM to midnight and from midnight to 8:00 AM, seven days a week through August 30, 1968. These stenographers have been selected on a purely voluntary basis. The authority for these special shifts will be considered to expire close of business August 30, 1968, and thereafter we will revert back to the regularly approved stenographic shifts.

SUBJECT: DEMCON

At 9:15 AM today, the Director telephonically contacted me to advise that he had just been in touch with the Vice President of the United States and had just gotten off the phone with the Vice President's Executive Assistant, Mr. WILLIAM CONNELL. Mr. HOOVER stated that the Vice President has requested that we furnish the same type of service in connection with the Democratic National Convention in Chicago as was furnished to the President during the Atlantic City Convention four years ago. This, of course, refers to intelligence information which will be of value to the Vice President and specifically relates to the possibility of demonstrations, violence and related matters. Mr. HOOVER stated that he had advised the Vice President and Mr. CONNELL that this service would be performed and that Mr. CONNELL should contact me for the necessary arrangements.

Mr. HOOVER advised me that Mr. CONNELL is presently in New York and it is not known when he will arrive in Chicago. I advised Mr. HOOVER that his instructions would be followed, that we had set up appropriate arrangements so that we would be in a position to furnish valuable intelligence and that upon Mr. CONNELL's arrival in Chicago, I would immediately contact him and perfect the necessary arrangements.

My secretary has been instructed to notify all switchboard operators, complaint agents and supervisors that any call from Mr. CONNELL should be immediately referred to me when I am in the office or if I am not in the office to determine where I can contact Mr. CONNELL immediately.

The following is a summary of a four page report, dated 11/20/73, furnished by Mary Jo Cook, a former FBI informant.

Report concerns a meeting of the VVAW/WSO Steering Committee held 11/10/73. Five identified individuals were present. There was a discussion of finances and some displeasure at the financial record system. Plans for a benefit at a bar were discussed. Information was presented concerning a newsletter to be mailed out which will discuss the VVAW/WSO's position on amnesty, the upgrading of discharges, information about the Women's group and about a strike at a Buffalo firm.

Some objections were raised concerning the wording of some VVAW/WSO objectives.

Plans for a future coalition meeting organized by two individuals were discussed, the same coalition that worked on the Impeach Nixon rally.

Matters concerning possible new members and/or attendees at future meetings were discussed. Plans for a VVAW/WSO team on a television sports quiz show were discussed.

One member raised four criticisms of the VVAW/WSO, all listed.

One member wrote a regional newsletter.

A member reported another individual had supposedly run guns to Cuba.

A member requested information attesting to the bad conditions in a Vietnamese jail.

A member said he had 2600 names on a mailing list.

Old business was discussed.

Changes in one VVAW/WSO objective were turned down.

In other matters, the following was discussed:

Correspondence with prisoners.

Plans for selling the organization's newspaper.

Support for a prison fast.

Approval of amnesty for war resisters.

Impeach Nixon campaign.

U.S. involvement in Korea.

Organization and communication.

Coalition with other groups.

Reports were presented from other chapters.

The following is a summary of a five page report, dated 7/19/74, furnished by Mary Jo Cook, former FBI informant.

A meeting of the National Defense Committee of the VVAW/WSO was held on 6/7-9/74 at St. Louis, Missouri. Eleven identified individuals attended.

The purpose was to ascertain the feasibility of setting up a National Defense Committee which would be operational throughout the United States. As concerns VVAW/WSO, the meeting sought to advise members that the organization's Defense Committee will take steps to secure the release or acquittals of any members arrested.

A representative from the National Collective in Chicago talked about the Gainesville 8 in a derogatory manner, implying the Government did not try the Gainesville 8 for purely political reasons, but that the leader and some others planned some kind of illegal activity. He also said if there had been no Agent provocateur there would never have been a trial and that the National Collective would not have permitted violent activity. 17 items were handed out, a large portion of which were reprints from national and "movement" publications covering such topics as how to avoid being questioned by the FBI. One of these, on jury selection, is attached.

Jury selection

The jury e[illegible]ment is the people's comp[illegible]ent in the existing system of criminal justice; it is only quasi-organized and partially managed. The use of systematic jury selection can be an important tool in the practice of people's law, but at present it is being developed and used selectively as a successful foil in cases of overt political attack. The minimal program in jury selection defense work is to secure a group of twelve people who will take their function as jurors seriously and assume that the defendants are innocent until proven guilty. The maximal program is to secure a jury which will acquit the defendants.

Since 1970, serious inroads have been made on the jury system: proposed abolition of 12 - person juries, non-unanimous verdicts, abolition of voir dire of prospective jurors by lawyers, disciplining of 'disruptive' lawyers and other 'reforms' to 'speed up' decision-making. Juries are under attack by the narrow, elite group who seek to rule this country only because this vehicle of the people's power cannot be relied upon to make political prisoners of us all.

Challenging jury composition

18 U.S.C. Sec. 1861 is a federal statute which places an obligation on the courts to assure the right to a jury selected at random from a fair cross-section of the community. Data, gathered from observing juries, which suggests an imbalance can be used as grounds for access to jury selection records. Through [illegible]ample of the qualification questionnaires comprising the Master Jury Wheel, a demography (the study of the characteristics of a population) of the voter registration list can be determined.

These findings, compared with census demography, will reveal areas of underrepresentation. In the case of the Attica Fair Jury Project, a systematic analysis of jury selection records obtained by court order revealed that third world people are underrepresented by 34.3%, women by 68 %, and people between the ages 21-29 by 83.6%. This study yielded concrete evidence that the Erie County jury system is illegal and unconstitutional, and the system has been challenged on those grounds.

There are four practical advantages to be gained from a jury challenge even if it does not result in the immediate modification of the composition of the master jury wheel which might provide a larger proportion of people from the less authoritarian sectors of the population.

1. pursuing a challenge can gain time for the defense.
2. examination of the jury questionaire and the jury process raises the defenses's consciousness of what the problems are likely to be in jury selection.
3. a challenge introduces some accountability to the jury process and may change the behavior of the jury clerk and/or judge.
4. a verdict for conviction can be overturned and a new trial obtained on the basis of an objection to jury composition and selection, if a later court upholds the jury challenge.

Demographic model of jury selection.

There are three separate elements to the demographic model of jury selection.

1. a survey must be taken of a representative cross-section of the population that may be called for jury service; this is most easily done by telephone.
2. a system for rating prospective jurors on the basis of voir

dire must be established.

3. a net-work of people must be set up to gather outside third-party information to corroborate the results of the survey and voir dire.

The demographic-attitudinal survey is used to obtain precise information on the range of attitudinal patterns prevalent in a given judicial district. At a minimum, the following must be covered: demographic information, (age, sex, race, education, etc.) organizational affiliations, media contact, knowledge of the case, political ideology and attitudes toward core American values, social change, divergent life styles and alternative institutions, and toward the type of defendants and the charges specific to the case. A random sample of any of three groups will give the defense committee the demographic information necessary: 1) those who have already been called for jury duty, 2) the voter registration list, or 3) 1% of a cross-section of the population.

The voir dire ratings are constructed by combining observations of behavior and attitudes expressed during the voir dire. This procedure is still being developed but there seems to be a high correlation between ratings of individual authoritarianism and types composed of demographic variables. For example, in the Rap Brown case, the attitudinal study pin-pointed the most "dangerous" defense juror as a male manager, engineer, government employee, or real estate broker, [illegible] into the local establishment, Methodist or [illegible], over 45, and who lived in a rural area or small,

quiet town. His Independent authoritarianism rating was very high, just as you would expect from a juror whose values embraced authority, patriotism, conformity, government right or wrong, etc. The authoritarianism ratings can further be used as a reference point to make sense of the body language, costume and verbal ratings. These ratings become even more essential when faced with a limited voir dire.

Schulman stresses that voir dire ratings should be done collectively. Defendants and trial lawyers should participate, but past trials have shown them to have definite problems with objective judgments in this area.

A core of people from a cross-section of the community should be established to obtain information about the people on the venire list so that any inconsistencies between the voir dire ratings and the demographic ratings can be resolved. This can be done by asking 10 people to contact 3 friends, who in turn will contact 3 friends, who in turn etc. This should be done with a clear presentation of the kind of information needed and a clear understanding of what constitutes jury tampering.

The following is a summary of a two-page report dated 7/31/74 furnished by Mary Jo Cook, a former FBI informant.

The report covers the following matters:

It appears as if the Revolutionary Union is making its move and focusing on the upcoming National Conference. An issue of "Winter Soldier" was received and its editorial was an RU editorial.

The VVAW/WSO newsletter arrived from the National Office and listed three possible directions VVAW/WSO can take:

1) Anti-imperialist veteran's organization with the supporters.

2) A veteran's organization for veteran's only.

3) A mass anti-imperialist organization with no base.

A discussion concerning the National Office supporting or becoming aligned with the RU.

The following is a summary of a two page report, dated 10/2/74, furnished by Mary Jo Cook, former FBI informant.

The report is entirely concerned with a demonstration held 9/11/74 in Buffalo protesting the policies of the American Government regarding the overthrow of the Allende Regime in Chile. Eight members of the VVAW/WSO attended, two from the Attica Brothers Legal Defense, one from Youth Against War and Fascism, two from Revolutionary Union, two from Anti-Monopoly Committee, three from Committee for Chilean Democracy, and four from a University in Buffalo.

All of the above attendees were named, either by first or full name. One name was phonetic.

I. INFORMANT REPORTS SUBMITTED BY GARY THOMAS ROWE

1. On 5/14/61 Rowe advised that the burning of a bus and the beating of individuals at a bus depot in Alabama during May, 1961, was instituted by a local Ku Klux Klan unit.
2. On 5/17/61 Rowe stated that the Klan would try to intercept a bus which was due to arrive in Birmingham, Alabama, at 11 P.M. on 5/17/61. He further stated that Klansmen should intercept the bus on the highway and give all persons present, whether black or white, an opportunity to get off. They would be allowed to enter privately owned automobiles and have a safe journey to the nearest town. Rowe was advised by another Klansman that those who refused to leave the bus would be beaten.
3. On June 4, 1962, Rowe furnished copies of five documents expected to be distributed by Klansmen in order to discourage voters from voting for certain candidates who allegedly supported various civil rights groups.
4. During March, 1962, Rowe furnished information regarding a local Klan meeting at which 23

Klansmen were present. The meeting centered around a Klansman's plan to run for a high state office. Also discussed was another candidate for this office.

5. During July, 1962, Rowe advised that a Klansman told a select group of other Klansmen that "it looks as if the Negroes should be stopped now." This group of Klansmen was told that police officials had promised them protection and that a high state official would pardon them if arrested. This Klansman further advised that if a particular "militant Negro Integrationist" would appear at a certain restaurant with other Negroes he should be attacked and killed. Instructions were also issued by this Klansman that if this "militant Negro Integrationist" did not appear at this restaurant but sent other Negroes to stage a sit-in, then there would be no killing. He stated that these Negroes should be beaten with chains and clubs instead.

6. During October, 1964, Rowe reported on Klan discussions regarding a plan to handle alleged "race mixing" at a local night club. Also discussed was a plan by Klansmen to bomb this night club.

II. BUREAU HANDLING OF INFORMANT

On 4/17/64, the Bureau advised SAC, Birmingham, to immediately instruct Rowe to withdraw from his position as squad leader of an "action squad." SAC, Birmingham, was further advised that in the event Rowe does not desire to withdraw from this leadership position, he should be discontinued as an informant. On 4/18/64, Rowe was advised by the Birmingham Office that he must remove himself as a squad leader of an "action squad." On 5/4/64, the Bureau advised SAC, Birmingham, that "in those cases where you have an informant who is a member of a violent squad...you should insure that the informant understands he is not to direct, lead, or instigate any acts of violence." It was also pointed out that informant should be instructed to avoid participation in any act of violence.

III. KLAN VIOLENCE AT THE BIRMINGHAM BUS DEPOT 5/14/61

By letter from the Bureau to 23 field offices, it was stated that a civil rights organization intended to make a nonviolent attempt to complete integration of bus service and related public accommodations in the South during the month of May.

By internal Bureau memorandum dated 5/13/61, it was noted that information from a confidential informant (Rowe) was received concerning the possibility that local authorities may allow disturbances to generate against above civil rights group on 5/14/61, when they were due to arrive in Birmingham, Alabama. This memorandum shows that appropriate local law enforcement authorities were advised of the potential for violence in Birmingham prior to 5/14/61.

ReBuairtel to Birmingham 5/21/65 and SFairtel to Director 5/22/65 captioned "BH 248-R."

ReSFairtel furnished information concerning outstanding indebtedness of Gary Thomas Rowe, Jr. The financial obligations he has incurred with the banking institutions and with the State of Alabama regarding unpaid sales tax appear to be dormant debts which would not necessarily have to be paid on a current basis as part of his living expenses. Following completion of the trials in this case, consideration will be given by the Bureau to a recommendation of a lump-sum payment which informant might use to help liquidate these obligations.

With reference to the sums owed the power, gas, telephone and realty companies, it is not clear whether these are current monthly expenses to the informant or rather dormant bills. Advise Bureau if these are present expenses to the informant and, if not paid or services discontinued, what parties would be affected.

intentions to continue to maintain this residence inasmuch as both he and his ex-wife are residing elsewhere.

Informant's ex-wife has obtained employment at a salary of approximately $223 per month. She has fixed obligations that will amount to approximately $424 a month and feels she could better meet her obligations if she were receiving her alimony payments. Mrs. Rowe has stated she is to receive alimony of $115 a month and that her ex-husband is in arrears for a total of $690. The Bureau desires to know what informant's thoughts are as to meeting this obligation to his ex-wife. Also advise if informant considers these payments as necessary monthly obligations that he would meet under normal circumstances.

The Birmingham Office is to give this your immediate attention and promptly advise the Bureau.

NOTE:

The Birmingham Office has pointed out that Rowe has performed an invaluable service to the Bureau and has saved an untold amount of man power and various expenses in connection with the shooting of Mrs. Viola Liuzzo. Informant has been in protective custody of the Bureau since 4/1/65 and not had opportunity to be gainfully employed to meet various obligations. The Birmingham Office has recommended that the Bureau pay informant's outstanding bills in order to continue the excellent relationship developed. We are presently paying him $16 per day subsistence in lieu of expenses which figure was decided upon after discussion with the Department. It is not desired to make a large payment at this time which could be construed as a payment to Rowe for his testimony in the up-coming trials. Birmingham previously requested to submit a detailed accounting of Rowe's debts showing their basis, when contracted and schedule of payments. The information received from the field needs to be further clarified after which time this matter will be discussed with the Department and its views obtained as to whether or not payment of these debts would be judicious at this time.

The Birmingham Office has advised that our informant Gary Thomas Rowe has current outstanding debts in the Birmingham, Alabama, area totaling $2350.08, and the SAC, Birmingham recommends that these debts be paid by the Bureau in full.

Birmingham points out that Rowe has performed invaluable service to the Bureau in connection with the case involving the shooting of Mrs. Viola Liuzzo, and his services have saved the Bureau an untold amount of Agent manpower and various expenses connected with an extended major investigation. They point out that informant has been in protective custody of the Bureau since 4-1-65, and as such, has not had an opportunity to be gainfully employed in order to meet various financial obligations that he has been meeting in the past. Birmingham points out that it is absolutely imperative to insure the possible success of the next trial tentatively scheduled for September, 1965, that the excellent relationship developed with Rowe must be retained, and to accomplish this Rowe should be free as much as possible from the receipt of bills from various creditors when he is not in a position to make payment.

Birmingham listed outstanding bills of informant Rowe as follows:

Alabama Power Company	$69.16
Southern Bell Telephone Company	38.78
Boothby Realty Company (Apartment)	297.50
State of Alabama (Sales Tax)	266.11
Birmingham Trust National Bank	1,062.00
Sears-Roebuck (Toys)	75.00
Alabama Gas Corporation	29.58
Cousin Joe's Loan Company	60.00

RE: EUGENE THOMAS, ET AL

OBSERVATIONS OF GENERAL INVESTIGATIVE DIVISION

The Bureau is currently paying Gary Thomas Rowe $16.00 per day subsistence in lieu of expenses. This figure was initially decided upon after discussion with the Department, and with the Department's approval, as it was recognized that the informant had to be removed from the Birmingham area for his protection and safety. The Department pointed out that it would not be desirable to make any lump sum or large payment to the informant so long as he might be called upon to testify, as any such large payments might be construed in court as a payment for his testimony, whereas payment of his living expenses can readily be justified as a necessity.

In the trial of subject Collie Leroy Wilkins which began 5-3-65 and resulted in a hung jury, the Bureau was called upon to produce a record of payments to the informant. In a future trial, it is reasonable to expect that we will again be called upon to produce such a record. The payment of Rowe's debts at this time amounting to over two thousand dollars would appear in this record of payments to Rowe, and we certainly could not agree to pay such a large amount at this time without the Department's approval.

With regard to the debts themselves, it would not appear from information furnished by Birmingham that they are all due and payable immediately, as the larger debts to the two banks would probably be payable in monthly installments. We could, with Department's approval, agree to payment of his smaller debts and monthly installments on these larger debts as they come due.

RECOMMENDATION

In view of the above, it is recommended that Birmingham be instructed to submit a detailed accounting of Rowe's debts showing their basis, when they were contracted, due dates and a full breakdown of any installment contracts showing detailed schedule of payments. Upon receipt of this information, the matter will be discussed with the Department and their views as to whether or not payment of these debts at this time would be judicious, will be obtained. Airtel attached.

In response to the Director's inquiry concerning correspondence relating to the demands made by Gary Thomas Rowe, prior to his testifying in the Federal trial of the three subjects responsible for the shooting of Mrs. Viola Liuzzo, the following items are attached:

(1) The teletype from Inspector J. L. McGovern dated 11-28-65, setting forth the substance of the discussion of John Doar, Assistant Attorney General, Civil Rights Division with Gary Thomas Rowe concerning demands made by Rowe. The teletype indicates that McGovern was present during Doar's discussion with Rowe and on page six of the teletype McGovern states that although Bureau personnel were present throughout the interviews between Doar and Rowe, Bureau personnel made no assurance, promises, nor commitments to him.

(2) A copy of the teletype from Mr. McGovern dated 11-23-65, which sets forth in detail the demands made by Rowe. Because of the urgency of relaying Rowe's demands to the Department, a Xerox copy of the teletype was prepared deleting the transmittal data at the top of page one and the last paragraph on page one continuing to the top of page two wherein Rowe expressed his confidence in Bureau personnel and felt he had been let down by the Department and does not trust its representatives.

(3) A copy of the memorandum as prepared from McGovern's teletype of 11-23-65 as actually furnished to Mr. John Doar on 11-24-65.

REC-108 44-25601-

(4) Attached is a memorandum from Mr. Rosen to Mr. Belmont dated 11-24-65 recording the discussion of Supervisor J. William Hines with Mr. Doar wherein he was furnished the memorandum (Item 3) and the demands were discussed.

MR. DOAR POINTED OUT TO ROWE THAT THE CONDITIONS PREVIOUSLY OUTLINED BY ROWE WERE NOT CONSIDERED UNREASONABLE. ALSO INDICATED THAT THE FEDERAL GOVERNMENT DID NOT CONSIDER ROWE'S INABILITY TO IDENTIFY LEROY MOTON AS THE OCCUPANT OF THE CAR WITH MRS. LIUZZO AS BEING HARMFUL TO THE GOVERNMENT'S CASE; IF ROWE FELT MOTON WAS NOT THE NEGRO OCCUPANT, HE SHOULD SO TESTIFY.

MR. DOAR ADVISED ROWE THAT THE GOVERNMENT COULD NOT IN GOOD CONSCIENCE GIVE HIM AN AGREEMENT IN WRITING WHEREBY HE WOULD BE ASSURED THAT HE WOULD NOT BE REQUIRED TO TESTIFY IN ANY FUTURE PROCEEDINGS REGARDLESS OF THE OUTCOME OF THE TRIAL TO COMMENCE NOVEMBER 29. MR. DOAR POINTED OUT THAT SUCH AN AGREEMENT, IF GIVEN, WOULD BE OF NO VALUE TO ROWE AS IT WOULD BE A WORTHLESS COMMITMENT RELATING TO EVENTS WHICH MIGHT OCCUR IN THE FUTURE AND NOT UNDER THE CONTROL OF PRESENT GOVERNMENT OFFICIALS.

THROUGHOUT THE INTERVIEW, ROWE APPEARED TO BE AWARE OF THE POSITION OF THE GOVERNMENT; AND WHILE NOT ANTAGONISTIC, REMAINED ADAMANT IN REFUSING TO CHANGE THE POSITION HE HAD PREVIOUSLY TAKEN IN REFUSING TO TESTIFY UNLESS THE CONDITIONS OUTLINED WERE MET.

AT THE CONCLUSION OF THE INTERVIEW BY MR. DOAR, AT WHICH TIME ROWE HAD NOT CHANGED HIS POSITION, HE WAS FURTHER INTERVIEWED AT GREAT LENGTH BY BUREAU PERSONNEL. ROWE FINALLY INDICATED THAT IF IT WERE AGREEABLE TO HIS WIFE, HE WOULD TESTIFY WITHOUT RECEIVING A WRITTEN AGREEMENT RELATING TO FUTURE TESTIMONY PROVIDED HE DID RECEIVE WRITTEN ASSURANCE RELATING TO HIS TESTIMONY WHICH MIGHT INVOLVE LEROY MOTON.

GARY THOMAS ROWE HAS BEEN INTERVIEWED ALMOST CONTINUOUSLY SINCE LATE EVENING NOVEMBER 20 BY INSPECTOR J. L. MC GOVERN, SA NEIL P. SHANAHAN, AND FREQUENTLY IN PRESENCE OF SAC LYNUM AND SA JAMES G. CARLISLE.

AT OUTSET AND THROUGHOUT INTERVIEWS ROWE HAS BEEN ADAMANT IN HIS REFUSAL TO FURTHER TESTIFY IN THE STATE OF ALABAMA CONCERNING CAPTIONED CASE OR OTHER MATTERS. DURING INTERVIEW ROWE WAS HIGHLY EMOTIONAL, DISTRAUGHT, TEARFUL AND INDICATED THAT HE DOES NOT FEEL THAT HE IS PHYSICALLY CAPABLE OF GOING THROUGH WITH ANOTHER TRIAL. HE EXPRESSED DEEP CONCERN FOR THE SECURITY OF HIS CHILDREN, AS WELL AS HIMSELF, AND COMMENTED THAT HE WOULD NEVER RETURN TO ALABAMA. HE INDICATED THAT SO LONG AS THE THREAT OF FURTHER TESTIMONY HANGS OVER HIM HE CANNOT SECURE REGULAR EMPLOYMENT.

IN TAKING THE POSITION THAT HE WOULD NOT VOLUNTARILY RETURN TO ALABAMA TO TESTIFY, HE RECOGNIZED THAT A SUBPOENA COULD BE ISSUED FOR HIM BUT THAT IF ONE WERE ISSUED HE STATED THAT HE WOULD RETURN ONLY IF FORCE WERE USED TO TRANSPORT HIM TO ALABAMA. AFTER DISCUSSION WITH ROWE THIS MORNING, HE INDICATED THAT HE WOULD TESTIFY UNDER THE FOLLOWING CONDITIONS:

1. THAT THE UNITED STATES ATTORNEY GENERAL GIVE HIM AN AGREEMENT IN WRITING PRIOR TO HIS ENTERING THE STATE OF ALABAMA, WHICH AGREEMENT WOULD PROVIDE THAT HE, ROWE, WOULD NOT BE REQUIRED TO TESTIFY IN ANY FURTHER PROCEEDINGS FOLLOWING THE TRIAL AT MONTGOMERY, ALABAMA, TO BE HELD NOVEMBER 29 NEXT, REGARDLESS OF THE OUTCOME OF THAT TRIAL, NAMELY, ACQUITTAL,

SUBJECT: EUGENE THOMAS, ET AL;

CIVIL RIGHTS - ELECTION LAWS

Inspector James McGovern, San Francisco, has advised that Gary Thomas Rowe, our informant whose testimony is needed in the Federal civil rights trial of the Liuzzo shooting in Montgomery, Alabama, beginning 11/29/65, had exhibited feelings of reluctance to testify for the Government and set forth certain conditions under which he would agree to testify.

These conditions consist of an agreement from the Attorney General that his testimony would not be required in any future proceedings, that he be assisted in obtaining employment and that some assurances be given him for the future security of his ex-wife and children and parents. He also expressed a desire to visit his wife and children in the Tampa, Florida, area over the Thanksgiving holiday.

Rowe's conditions were discussed in detail with Assistant Attorney General John Doar. Mr. Doar advised that he would discuss these conditions immediately with the Attorney General and requested that we arrange for Rowe to visit with his family in Tampa over Thanksgiving, 11/25/65, and that he would then personally meet with Rowe in Tampa on Saturday morning, 11/27/65. He said that he is planning to try the case personally in Montgomery and that Rowe's testimony is vital to a successful trial. He will make every effort to build Rowe's confidence, resolve the conditions set forth by Rowe and obtain his testimony.

This will confirm a discussion of Mr. J. William Hines of this Bureau with Mr. St. John Barrett of the Department on July 7, 1965, concerning outstanding personal debts of Gary Thomas Rowe, Jr., who furnished the initial information identifying and leading to the indictment of three subjects on charges of shooting Mrs. Viola Liuzzo on March 25, 1965.

Rowe's debts totaling approximately $2,350 consist primarily of personal loans at two banks in Birmingham amounting to about $1,500 and an assessment for Alabama State sales taxes in the amount of $268.50 which resulted from Rowe's operation of a tavern and restaurant from September, 1964, through March, 1965. The business was a losing enterprise and has reverted to its original proprietor. The balance of the debts are to local utility companies and for apartment rental. The utilities have been disconnected and the apartment reclaimed.

MAILED 23
JUL 9 1965
COMM-FBI

On July 7, 1965, Departmental Attorney St. John Barrett advised Mr. Hines that the Department was of the opinion that the Bureau should not assume responsibility for payment of Rowe's personal debts. He stated that if any payment is made to Rowe, it should be for personal services. Any large payment for personal services should not be made until after Rowe has testified at the upcoming trials of the subjects charged with the shooting of Mrs. Liuzzo scheduled for September and October, 1965.

Mr. Barrett's attention was called to the fact that the Alabama State tax authorities had an outstanding assessment against Rowe for State sales taxes in the amount of $268.50. Mr. Barrett stated he was aware of this and that Mr. Paul Johnston, the attorney representing Rowe in the action for legal fees brought against Rowe by Attorney Matt Murphy, had brought this assessment to the Department's attention.

You will be promptly advised of any legal action which may be instituted against Rowe for collection of any of the outstanding debts.

TO : Mr. J. B. Adams

DATE: 11/24/75

FROM : Legal Counsel JAM

SUBJECT: TESTIMONY BY THE ATTORNEY GENERAL BEFORE THE SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES

On 11/21/75, Inspector John B. Hotis met with Doug Marvin, Counselor to the Attorney General; Mark Wolf, Special Assistant to the Attorney General, and Michael E. Shaheen, Jr., Special Counsel for Intelligence Coordination, concerning Mr. Levi's forthcoming appearance before the Senate Select Committee on Intelligence Activities. The Attorney General will have a prepared statement which will probably deal with the future relationship between the Bureau and the Department and the kinds of contacts needed to prevent abuse of authority. Mr. Marvin asked that the Bureau provide the following materials, which will be used in the preparation of a briefing book for Mr. Levi's testimony:

(1) A general synopsis of major areas of the Bureau's activities that have been investigated by the Senate and House Select Committees. Mr. Marvin gave as examples, the "Official and Confidential" files, COINTELPRO, use of informants, and interception of mails. He said the purpose is to identify those topics which have been of primary concern to the Committees. Mr. Marvin asked that the synopses contain a brief statement of the Bureau's position on each of the subjects.

EX-115 REC-9 62-116395-1155

(2) A general statement concerning the organizational structure and functions of the FBI, with particular emphasis on the responsibilities of the Inspection Division. This should include a description of how complaints are received, the review process, and any recent changes in the operations of that Division. In addition, the Attorney General wants a write-up of all investigations of alleged misconduct presently being conducted by the Bureau. He is particularly concerned about any incidents that may have occurred during Mr. Levi's tenure as Attorney General, such as those in Richmond, Detroit, and Houston.

(3) A history of Congressional oversight of the Bureau. Mr. Marvin asked that we identify those Subcommittees of Congress which have exercised some oversight responsibilities over the Bureau. In particular, he asked that we review appropriations testimony going back to 1955 to determine whether we discussed topics which are presently of concern to the Select Committees. This will be very useful in demonstrating Congressional awareness of these matters. He also asked that we furnish a statement of the Director's position concerning Congressional oversight which he has previously expressed in speeches or testimony before Congress.

(4) A list of major investigative techniques employed by the Bureau, specifying in each case whether we seek Departmental approval. The more obvious examples are electronic surveillance, use of body recorders, pen registers, informants, and photographic surveillances.

(5) A list of any formal or informal proposals which have been made concerning organizational changes of the FBI. Examples are the creation of an Inspector General's Office in the Department or elsewhere having review authority over the FBI, transfer of counterintelligence functions to another agency or the creation of a separate Division within the Bureau for that function, transfer of drug enforcement responsibilities to the Bureau, and the proposed statutory limitation on the term of the office for the Director.

It should be noted that several position papers concerning such topics were prepared at the request of former Acting Director L. Patrick Gray which might be useful in responding to this request.

Although no date has been set for the Attorney General's testimony, it is expected that he will testify after Mr. Kelley's appearance on 12/9/75. In view of the limited time available, Mr. Marvin asked that we expedite the preparation of these materials and furnish them to his office as soon as they are completed. It is requested that these materials be submitted to the Office of Congressional Affairs, when completed, but no later than cob, Friday, 11/28/75. They should be submitted in insert form suitable for inclusion in a letterhead memorandum.

CONTINUED - OVER

RECOMMENDATIONS:

(1) That the Intelligence Division prepare a synopsis of the major topics concerning the Bureau which have been investigated by the Senate and House Select Committees.

(2) That the Administrative Division and the Inspection Division prepare materials concerning the organizational structure and function of the Bureau.

(3) That the Administrative Division in conjunction with the Legal Counsel Division prepare materials concerning Congressional oversight of the Bureau.

(4) That the Intelligence Division and the General and Special Investigative Divisions prepare materials concerning major investigative techniques.

(5) That the Office of Planning and Evaluation prepare materials concerning proposals for organizational changes of the FBI.

(6) In addition to the above specified assignments, it is recommended that every Division review this request and make appropriate recommendations or submit any other materials that might be useful in the preparation of the Attorney General's briefing book.

Dear Al:

This will confirm our conversation on November 26, 1975, wherein you authorized the Bureau to use a videotape recording of your "live" telecast concerning the appearance of Deputy Associate Director James B. This is to advise you that the videotape of Mr. Adams' testimony is being restricted solely to FBI personnel. We certainly appreciate your consideration in this regard. Thank you for this authority.

U. S. SENATE SELECT COMMITTEE TO STUDY GOVERNMENTAL OPERATIONS WITH RESPECT TO INTELLIGENCE ACTIVITIES (SSC)

Reference is made to SSC letter dated November 7, 1975, and specifically to Item 1 of an accompanying Document Request of same date which requested all materials contained in the files of William C. Sullivan pertaining to Martin Luther King, Jr., and/or the Southern Christian Leadership Conference (SCLC) which have not previously been made available to the Committee. Excluded from consideration in connection with this request were any portions containing transcripts or summaries or tapes of electronic surveillances of King.

The purpose of this memorandum is to effect delivery to the SSC of materials in response to Item 1 of the Document Request.

With respect to the excisions in materials being delivered herewith, where no notation appears as to reason for excision, the excision was made for the reason that the information actually summarizes or quotes from conversations monitored during electronic surveillances of King. In some cases it can be ascertained precisely what information in these materials came from electronic surveillances of King; however, there exist areas where documentation of the information is not precise and no accurate determination can be made. Therefore, no assurances can be given that portions of the materials being furnished do not contain information developed as a result of electronic surveillances of King.

In addition to materials not being furnished the SSC as stipulated by the SSC is a folder classified "Top Secret" bearing a label captioned "Communications Concerning Martin Luther King, Jr., Volume 1" which was located in the files of Mr. Sullivan. A review of that document indicates it contains information which could result in the identification of confidential sources of this Bureau; data obtained in connection with

Dear Mike:

As a follow-up to our briefing of Assistant Director Wannall on November 6 concerning our proposed format and witnesses for public hearings on December 4-5 on the FBI's use of intelligence informants and sources, we would like to make the following requests.

As discussed in our meeting with Mr. Wannall, we invite the Bureau to submit a memorandum on its intelligence informant and source program that could be inserted in the record of the testimony of Bureau representatives at the hearing. This memorandum would enable the Bureau to present to the Select Committee a complete description of its program and to discuss the issues of particular interest to the Committee members. These include, for example, 1) the size, scope and purpose of the program, including an assessment of the program's cost and effectiveness, and the distinctions and relationships between the intelligence informant program and the Bureau's criminal informant activity; 2) the criteria that determine when an informant may be used in an organization or group; and 3) the program's command and control system, including the limits that are placed on the activities of informants and the type of information an informant or source is permitted to report to his handling agent and the Bureau. In addition, the memorandum would discuss possible legislation in the informant area, such as the imposition of a warrant requirement or additional administrative review. To permit the Select Committee members to study this memorandum in advance of the hearing and to discuss it with FBI representatives during their testimony at the public hearing, we request that the memorandum be submitted by November 24.

In addition, we wish to interview and possibly depose the Special Agents who handled the three former informants (Rowe, Hardy and Cook) who are scheduled to testify at the public hearing on December 4. Because of the limited time remaining before the scheduled hearings, we request that the Special Agents be made available for interviews and depositions as soon as possible.

SUBJECT: SENSTUDY 75

On 11/25/75, John T. Elliff, Task Force Director of the Domestic Intelligence Task Force for the Senate Select Committee, requested the Bureau designate a witness to appear in executive session before the Senate Select Committee on 12/3 or 12/4 in the afternoon to discuss counterintelligence investigations by the Bureau. Elliff stated because of Chairman Frank Church's interest in a study as to whether counterintelligence investigations should be taken out of the FBI and placed in another agency or a separate component of the Justice Department, this particular topic would be the main focal point of the hearing. Elliff stated that the questions asked of the Bureau's witness would deal primarily with the feasibility of removal of counterintelligence out of the FBI including problems of a logistical and practical nature resulting from such a change. Elliff asked that he be advised as to the identity of the Bureau witness as soon as possible.

Inasmuch as the aforementioned topic is a question of policy, the Director may desire to appear or designate a Bureau witness to appear before the Committee in this matter. Michael E. Shaheen, Jr., Special Counsel for Intelligence Coordination in the Department, is aware of the aforementioned testimony and the possibility exists that the Department may make a decision with regards to the Bureau's providing a witness concerning this matter.

John T. Elliff, Domestic Task Force Director of the Senate Select Committee, advised at 9:15 a.m. on 12/3/75 that the following is a statement to be read by Senator Frank Church of that Committee on 12/3/75.

Attorney General Kennedy authorized wiretaps in 1962 on New York Times reporter Hanson Baldwin and his secretary and that lasted for about one month. In addition to the wiretap on New York Times reporter Hanson Baldwin in 1962, the Committee has received materials from the FBI reflecting authorization by Attorney General Kennedy of a wiretap on a reporter for Newsweek Magazine in 1961 during the investigation of another leak of classified information. Further materials reflected authorization by Attorney General Nicholas Katzenbach for a wiretap on the editor of an anti-Communist newsletter in 1965, also during the investigation of a leak of classified information. The Committee has received materials from the FBI reflecting authorization by Attorney General Robert F. Kennedy of wiretaps on at least six American citizens, including three Executive Branch officials, a Congressional Staff Member, and two registered lobbying agents for foreign interests. The materials also reflect that these wiretaps relate to an investigation of agents by foreign interests to influence United States economic policies.

Elliff was advised by SA Paul V. Daly of this Division that an impression would be created by the aforementioned statement that this Bureau may have conducted an electronic surveillance on Capitol Hill and that this, of course, was inaccurate. The electronic surveillance concerning the Congressional Staff Member was not located on Congressional property. Elliff agreed with this observation and indicated that he would check the material to insure the electronic surveillance in ~~question was~~ not on Congressional property and as agreed, make a change in the aforementioned statement.

Reference is made to memorandum dated 7/24/75, captioned as above, which requested review, assessment and recommendations pertaining to the contents of pages extracted from a 693-page CIA document in order to fully identify the subject matter and to assess whether FBI operations were compromised.

Section CI-3 conducted the following review and makes the assessment pertinent thereto:

RE: Page 00026, "Siesta" and pages 00059-61, captioned "Subject: General: Office of Security Survey." (S)

This matter concerns Orlando Nunez-Toro (Bufile 105-141367), a United States citizen of Cuban extraction, who was suspected by CIA of attempting to recruit for intelligence purposes CIA personnel, one Miss Deborah Fitzgerald. By letter dated 8/4/70, the first communication to the FBI by CIA relating to Toro-Nunez and Fitzgerald, the FBI was requested to advise whether it interposed any objections to CIA investigative action CIA deemed necessary to explore questions raised by the association of Nunez-Toro and Fitzgerald with CIA employees. (S)

EX-101 REC-56 62-116395-565

In response to that inquiry, FBIHQ advised CIA by letter dated 8/14/70, that the FBI interposed no objection to CIA investigation for such a purpose. At the same time, CIA was specifically requested to provide the FBI with any information developed relating to FBI internal security responsibilities.

Memo to Mr. W. R. Wannall
Re: Senstudy 75
62-116395

CIA communicated with FBIHQ by letters dated 7/6/71 and 2/24/72, concerning the Nunez-Toro and Deborah Fitzgerald matter, requesting each time records review of Bureau files of numerous individuals of interest to CIA. On each occasion CIA was provided with the results of such checks. However, by letter dated 3/2/72, FBIHQ responded to CIA letter dated 2/24/72, by stating, "We have made a study of our file concerning this matter (Nunez-Toro and Fitzgerald) and a detailed review of the referenced material. At the present time, it appears the paramount concern is whether Nunez and Deborah Jane Fitzgerald are obtaining intelligence information concerning your Agency, and you have established a network of sources to cover that aspect. As you indicate, there is no specific evidence that Nunez or Fitzgerald has any connection with a hostile intelligence service or a foreign government. We, therefore, will defer to your Agency until completion of your investigation or the development of information showing they are engaged in subversive activities within our primary jurisdiction." (S)

The FBI did not conduct an internal security-type investigation regarding the relationship of Nunez-Toro and Fitzgerald. The FBI did conduct an internal security-type investigation of Nunez-Toro in 1965 as a result of his reported disaffection for the United States while living abroad. [We reopened that investigation in 1969 when it was reported that Nunez-Toro communicated with the Cuban Embassy, Ottawa, Canada. That investigation was closed when it was established his family desired to return to Cuba and his contact was in that regard.] (S)

A review of FBIHQ files ~~contain~~ revealed no information that any FBI employee was knowledgeable, before or after the fact, of a surreptitious entry on the part of CIA personnel, into the premises of Nunez-Toro and Deborah Fitzgerald. That surreptitious entry by CIA personnel into the premises of Nunez-Toro and Fitzgerald located in Fairfax, Virginia, received considerable publicity recently, when it was alleged that Fairfax police assisted the CIA during the entry. (S)

ASSESSMENT:

No compromise of an on-going FBI operation.

RE: Page 00026, "Paragon." (S)

[This matter pertains to an alleged plot in 1972-73 to assassinate former Vice President Spiro Agnew and the Director of CIA by using two Latin American revolutionaries. A CIA informant abroad reported that one Elizabeth Boynton Millard, a New York City resident known for her Communist associations and her involvement with Latin-American revolutionaries, was scheduled "to finger" top United States Officials for assassination. The plot was allegedly conceived some time prior to 8/19/72, in Chile and was to be carried out sometime between 10/25/72 through 11/7/72.] (S) The FBI investigated this plot thoroughly and closed its investigation on 2/2/73, when it was concluded that none of the individuals reportedly involved had any connection with such activity.

ASSESSMENT:

No compromise of an on-going FBI operation.

RE: Page 00282, "28 October 1970."

During October, 1970, United States Government officials, including Dr. Henry A. Kissinger, who was then assigned to The White House, received cryptograms indicating bombings would occur in various cities of the United States on 11/29/70. The Soviet Military Attache, Washington, D. C., received a similar cryptogram reporting United States - Chinese activities against Russia. The sender of the cryptograms was identified and during our investigation other government agencies, including CIA, were requested to furnish the original cryptograms for fingerprint examination.

ASSESSMENT:

No compromise.

RE: Pages 00290, 00292, 00295, 00310.

The contents of these pages concern the Daniel Ellsberg matter, all of which is of a public nature.

RE: Pages 00334, 00361-363, 00368, 00371, 00373, 00376-379, 00384, 00385, 00468-470 and 00615.

The contents of these pages concern the "Chilean Project." On 4/16/71, CIA proposed technical penetration of the Chilean Embassy, Washington, D. C., to collect foreign intelligence data and to compromise classified encrypted diplomatic traffic. CIA proposed that access be made through one of their covert contacts. The FBI declined. The Attorney General then requested FBI cooperation. On 5/13/71, a memorandum was sent to the Department of State for approval of that operation and such approval was obtained on 5/17/71. On 7/14/71, the Attorney General authorized activation of the microphone installation at the Chilean Embassy until 10/8/71. CIA requested continuation as the expiration date approached and on 10/15/71, the Attorney General authorized such continuation. The technical surveillance was discontinued as noted in memorandum to the Attorney General and CIA dated 2/7/72. The surveillance was reactivated on 12/27/72, and was eventually discontinued on 2/22/73. (S)

On 6/19/73, the Watergate Special Prosecution Force requested FBI investigation of the alleged burglary of the Chilean Embassy, Washington, D. C., on or about 5/13/72. The Metropolitan Police Department, Washington, D. C., conducted an investigation of that incident and submitted a complete report to the Office of the United States Attorney. That report was in the possession of the Watergate Special Prosecution Force and on 10/30/73, that Force advised the FBI that no additional investigation was desired. There is no connection between the "Chilean Project" and the alleged burglary of the Chilean Embassy on or about 5/13/72. (S)

ASSESSMENT:

[The above information refers to our special coverage of the Chilean Embassy which was discontinued in February, 1973, and has not been operational since that time.] Possession of such information by the Senate Committee will not interfere with any on-going FBI investigation. All activities engaged in by the FBI in connection with this project were conducted on the instruction of Attorney General Mitchell. (S)

RE: Page 00361, captioned "Memorandum for: Executive Secretary, CIA Management Committee.

In addition to the "Chilean Project," the contents of this page also refer to FBI technical coverage of diplomatic establishments of Israel. It is pointed out that Watergate Defendant James McCord telephoned the Embassy of Israel, Washington, D. C., after his arrest, believing that his conversation would be overheard and he would be able to challenge tainted evidence. The date of his telephone call to the Embassy of Israel is not known but it is pointed out that our technical coverage of the Embassy of Israel was discontinued on 10/16/72, at the specific request of Secretary of State William Rogers. This matter is also public knowledge.

ASSESSMENT:

No compromise of FBI operations.

RE: Pages 00457 and 00458, concerning Item Number 3.

According to CIA, this matter involved surreptitious entries by CIA into a French diplomatic establishment, Washington, D. C., during the early 1960's. As is evident from reading Item number 3, there is no FBI involvement in or knowledge of such activities by CIA. (S)

It is pointed out that Philippe Thyraud De Vosjoli (Bufile 64-33606) a former attache of the French Embassy, Washington, D. C., and a former French Intelligence officer, cooperated with CIA and provided CIA with information in 1963 that French intelligence planned to engage in intelligence activities in the United States. This information was thereafter transmitted to the FBI. It is believed that De Vosjoli is identical with either Iden-122 or Iden-124 mentioned in Item number 3. (S)

ASSESSMENT:

There is no compromise of an on-going FBI operation.

RE: Pages 00591-00593, captioned ["MHCHAOS Program."] (S)

This CIA program involved the clandestine collection abroad of information relating to foreign efforts to support and influence domestic United States extremism. The foreign-oriented activity in the United States was of two types; first, selected FBI informants who traveled abroad in connection with their extremist activity and their resultant debriefing by CIA with the cooperation of the FBI. Second, FBI sources with existing extremist credentials who were offered to CIA for dispatching abroad to collect information responsive to CIA requirements. (S)

There has been no compromise of such FBI informants and sources.

ASSESSMENT:

No compromise of any on-going FBI operation.

Dear Mike:

The Select Committee, as you know, is investigating the FBI's relationship to mail opening activities. The Committee staff desires to interview all present or former Special Agents of the FBI who were responsible for supervising the communications between the FBI and the CIA with regard to this activity. Therefore, I am hereby requesting the names and present assignment and/or whereabouts of these Special Agents. Furthermore, please provide the current addresses and office assignments of all Special Agents with the surname "McDougal" who were assigned to the New York City area in 1971, and the names and current addresses of all SACs and ASACs for years 1959 to 1966 in the following field offices: New York, Boston, Washington, Detroit, Seattle, Los Angeles, Miami, and San Francisco.

In addition, please advise me as to whether Committee staff interviews of these Special Agents would interfere with the current criminal investigation into these matters by the Justice Department. This request is pursuant to the special procedure to which we have agreed.

On 7/25/75 at the request of Special Counsel for Intelligence Coordinator Michael Shaheen in the Department, a meeting was held between representatives of the FBI (SAs Paul V. Daly and John Thomas), representatives of the Senate Select Committee (John T. Elliff, Task Force head of the Domestic Task Force, Mark Gitenstein) and Michael Shaheen of the Department. At this meeting Mr. Shaheen advised that the proposed procedures concerning the handlings of requests for documents by the Senate Select Committee had been approved by the Attorney General and in the Senate Select Committee. (A copy is attached.)

Shaheen and Elliff indicated the purpose in meeting on the 25th along with an anticipated meeting on Monday, 7/28/75, was to assist the SSC in the planning of a superseding request in accordance with the newly established procedures concerning document requests. Both Shaheen and Elliff expressed concern at this time that the schedules set forth in the new agreement was such that in many instances the Bureau would not be able to respond in time to meet the deadlines. Additionally, Shaheen expressed concern that the provisions require that the Attorney General adjudicate any question as to the necessity of furnishing a document to the Committee and to make such a decision within 24 hours would be very burdensome.

Messrs. Elliff and Shaheen were advised by SA Daly that this would be true, pointing out that in many instances files are not readily available because of FOIA requests, needs of the Bureau's ongoing investigations and law suits in which it was necessary to view particular files. It was also pointed out that many of the requests of the Senate Select Committee necessitate the review of a number of files and/or numerous volumes of a particular file all of which are not necessarily available immediately. Mr. Shaheen advised that it was the Attorney General's desire that Senate Select Committee requests take precedence over all other matters including the Freedom of Information. It was pointed out to Mr. Shaheen that our responses to Freedom of Information Act are under deadline by law and; if

this were to be the Attorney General's feelings, he should advise this Bureau in writing so that we would be in a position to use this statement of policy should this question arise during litigation. It was pointed out that in many areas of possible abuse set forth by the Senate Select Committee we have pending FOIA requests and/or litigation which require the availability of those files for responses.

Elliff indicated that it was the Committee's desire in their forthcoming superseding request to request material that had been previously furnished the Committee with the understanding that there would be less excisions made in compliance with the new agreement. He inquired as to whether the Bureau could advise him as to what material previously furnished was readily retrievable and could be furnished in accordance with a new request. He was advised by SAs Daly and Thomas that it was not possible at this time to give him a response, however, we would endeavor to make an analysis of prior requests to obtain this information and have it available for the meeting Monday, 7/28/75.

A general discussion was had concerning the new agreement especially concerning the type of material which might properly be excised and third agency problems. It was generally agreed upon that not only the identity of informants be excised but also information which might disclose the identity of informants might also be properly excised. Elliff indicated that the Committee did not wish to see many items referred to the Attorney General as is called for by the agreement for his decision and would rather at least on a preliminary basis where it was a question of the propriety of the excision that the discussion be held with ~~he~~ him or one of his representatives before such a referral was made. Shaheen also indicated a desire that the referrals to the Attorney General be kept to a minimum. Regarding the "Third Agency" problems which are not addressed in the agreement there was no final decision arrived at. Elliff and Shaheen were under the impression that the clauses referring to foreign intelligence operations or foreign intelligence sources would handle this problem. They were advised that this was not the case. This was not true since even in these instances Senators on the Committee are given access after the Attorney General has made a determination that material involved "pecularily sensitive foreign intelligence sources or pecularily sensitive ongoing foreign

intelligence operations." It was pointed out that this would require that many documents be referred to the Attorney General for his determination which would be contrary to Messrs. Elliff's and Shaheen's desires.

The meeting was held 7/28/75, Messrs. Gitenstein and Elliff of the Committee, Michael Shaheen and Steven K. Blackhurst of the Department, and SAs Paul V. Daly, Seymor Phillips and Elmer Larson were in attendance. Regarding the "Third Agency" rule problem, we advised the Department and the Committee that we would continue to abide by this rule. The Committee presented a request dated July 28, 1975, captioned "Superseding Request for FBI Materials." This document amounted to a recapitulation of prior requests made by the Committee with a schedule for delivery set forth in accordance with the established guidelines for the production of documents. An item-by-item analysis of the request contained in the document was had and where necessary modifications concerning scheduled responses was made. It was obvious the intent of the Committee in making the superseding request was to have more documents made available in the Committee offices and also to have less excisions made on documents previously furnished the Committee based on prior requests. We were requested by Shaheen to prepare as soon as possible correspondence to the Attorney General setting forth instances where the deadlines set by the Committee could not be made. This prompted the provisions in the guidelines for the production of documents which require the Attorney General to notify the Committee Chairman and Vice Chairman within 24 hours of any expected delay beyond 96 hours of the request.

Intelligence Division has requested the Administrative Division to review Sections 10 and 12 (copies attached) of the Manual of Rules and Regulations for any possible excisions or problems in furnishing this material to the committee and to furnish the results of the review to Legal Counsel, attention Dennis R. Dickson.

Section 10, pertaining to Appeals and Grievances, and Section 12, Transfers-Resignations, have been reviewed and no problems can be foreseen and no excisions are necessary. In this regard, it is noted that Part I, Section 10, Appeals and Grievances, needs to be revised to set forth the current appeal rights of nonveterans. Attached is memorandum recommending a Manual revision be approved pointing out that under current procedure, final action in disciplinary matters involving cases of nonveterans up to and including dismissal is taken by the Assistant Director, Administrative Division, with the employee having the right to appeal this action to the Director.

There was some question under Section 12 dealing with transfers to foreign assignments wherein it is set out that Chief Clerks should be afforded training in maintenance, consolidation, and destruction of files, whether this information should be furnished. This was discussed with Deputy Assistant Director, Homer R. Hauer, Files and Communications Division, who advised there is nothing objectionable to this reference regarding destruction of files and the reference of same need not be excised.

Under Section 12, dealing with foreign assignments, information is set out regarding people being transferred to such assignments receiving training on coding equipment, the AFSAM-7. This was questioned as to whether it should be excised. Alvin C. Frank, Section Chief, Communications Section, advised this information need not be excised as the mere reference to AFSAM coding equipment is not objectionable.

It should also be noted that certain Manual changes are being recommended in connection with Section 12, in relation to absences for maternity purposes. In Section 12, page 10, we are recommending that the phrase "absence for maternity reasons" be used in all instances where we have previously used the phrase "maternity leave." These recommended revisions have already been approved and are being processed. In Section 12, page 8, we are recommending a revision indicating that employees resigning for maternity purposes can utilize accrued sick leave during their period of incapacitation and are not setting out specific time elements as previously utilized. Memorandum is attached recommending this change.

RE SEATTLE AIRTEL TO BUREAU, JANUARY 21, 1972, AND SEATTLE NITEL TO BUREAU, JULY 8, 1975, CAPTIONED "SENSTUDY 1975".

FOR INFORMATION OF BUREAU, SEATTLE POST INTELLIGENCER, DAILY SEATTLE, WASHINGTON, NEWSPAPER, ON INSTANT DATE CARRIED AN ARTICLE ENTITLED "BOMB-CASE FIGURE 'ASSASSINATED' HERE". THIS ARTICLE QUOTED SEATTLE POLICE CHIEF ROBERT HANSON AS SAYING THAT SUBJECT WAS FOUND DEAD IN HIS APARTMENT WITH A SINGLE BULLET WOUND IN HIS CHEST, AND THIS HAD AN APPEARANCE OF BEING A FLAT OUT ASSASSINATION.

THE SAME ARTICLE STATED THAT DESMOND IN PAST HAD CLAIMED HE HAD BEEN RECRUITED BY THE FBI TO HELP THEM APPREHEND BOMBERS AND THE FBI DENIED DESMOND'S STATEMENT.

SEATTLE HAS AGAIN ANSWERED PRESS QUERIES WITH THE SAME DENIAL THAT DESMOND EVER WORKED AS AN INFORMANT FOR THE FBI.

COPY OF ARTICLE BEING SENT TO BUREAU UNDER SEPARATE COVER.

U.S. SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC); INTERVIEW OF SA WALLACE E. WARD BY SSC STAFF MEMBER

On August 5, 1975, Special Agent (SA) Wallace E. Ward was interviewed by SSC Staff Member Lester Seidel at Los Angeles Headquarters regarding Cointelpro/Black Panther Party. The interview lasted from 9:12 a.m., to 9:22 a.m.

Seidel asked how long SA Ward has been a Special Agent with the FBI, and SA Ward responded nine years. He further requested previous offices SA Ward had been assigned to, and SA Ward responded Cincinnati, Ohio. Seidel advised the Bureau informed him that SA Ward had been assigned Cointelpro/Black Panther Party in June, 1969. Seidel requested to know what work SA Ward had been assigned before this, to which SA Ward responded he could not remember, but believed general criminal work.

Seidel requested to know what specific instructions were issued with regard to operating Cointelpro/Black Panther Party. SA Ward advised that due to his employment agreement, the sensitive nature of the Bureau work, and the possible overlap of Bureau investigation, he did not feel he could respond to any further questions. The official interview was terminated at this point.

SA Ward was advised by Mr. Seidel that the interview was voluntary but SA Ward was not advised of his rights in this matter.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

At the request of the Senate Select Committee (SSC), we recently furnished to it superseded material dated back to 1960 and relating to various sections of the Manual of Instructions, including Section 87. In furnishing this material, we did not furnish the various cover sheets relating to the many revisions since 1960.

We have received a telephonic request from Miss Martha Talley of the SSC Staff for additional information which would help her to better understand the various revisions to Section 87. She also specifically desired a copy of page 1 of that Section as it existed on 1/1/60.

We have secured the various cover sheets for the many revisions, as well as a copy of page 1 which bears the revision date of 8/13/56 and which, according to Mrs. Alene T. Smith of the Training Division, was the page 1 in force as of 1/1/60.

In order to comply with the request of Miss Talley, it is not believed necessary to obtain from the SSC a formal, written request; neither is it believed necessary to transmit the requested material by formal correspondence to the SSC through the Attorney General.

EX 104 REC-56 62-116395-559

ACTION: Attached to Supervisor P. V. Daly's copy of this memorandum is the material which it is requested he furnish to Miss Talley. Attached to this memorandum is a file copy of the page 1 alluded to above. Mrs. Smith has available in the Training Division duplicate copies of the cover sheets referred to above.

On August 11, 1975, Theodore A. King, Director of Security, Southern Bell Telephone Company, Atlanta, Georgia, voluntarily advised the Atlanta Field Office of the FBI that he was interviewed by SSC Staff Member Michael Epstein in the Dirksen Senate Office Building in Washington, D. C., on August 7, 1975, between 10:00 and 10:45 a.m. Theodore A. King served in the FBI as an SA from May 3, 1954, until March 18, 1960, when he resigned. It appears from the details of the interview, as set out below, that Theodore A. King was interviewed as an official of the Southern Bell Telephone Company and not as a former FBI SA.

The following are the details of the interview as furnished by Theodore A. King:

At the beginning of the interview, which was not under oath, King was furnished a form "warning" him of his rights, which he signed. Epstein was the only other individual present during the interview. Epstein stated the interview concerned the activities of Martin Luther King, Jr., and the Southern Christian Leadership Conference (SCLC) during the early 1960's. Epstein asked the name of the employee in the telephone company who was the contact with the FBI in the 1960's and King advised it was Charles Eberhart. King explained he took over the Security Division of the Southern Bell Telephone Company in 1961, and he handled the contacts with the FBI after that time. King stated that Alden Miller was the contact man at the FBI at the time.

Bureau letter to the Attorney General with enclosed memorandum, both dated 8/7/75 and captioned "United States Senate Select Committee on Intelligence Activities," advised that the Senate Select Committee (SSC) had requested the current address of former Special Agent (SA) Thomas J. Smith so that he may be interviewed with regard to his knowledge concerning the "Huston Plan." Referenced LHM furnished the SSC with the current address of SA Smith as 3410 Memphis Lane, Bowie, Maryland 20715.

The note to referenced memorandum advised that an attempt was made to telephonically contact SA Smith at the above residence at which time it was ascertained that SA Smith was out of town and not expected to return until sometime in the future. A message was left for SA Smith to contact FBI Headquarters upon his return.

On August 14, 1975, SA Smith telephonically contacted SA Thomas J. McNiff at FBI Headquarters. SA Smith was advised that the SSC had inquired as to his current address as they desired to interview him with regard to his knowledge concerning the "Huston Plan." He was advised that upon being contacted by the SSC, he should immediately advise the Legal Counsel Division in order to secure a release from his employment agreement. He was also advised that should he so desire, a Bureau Agent would be available upon his request for counseling purposes during the interview. It was also pointed out to Mr. Smith that during the interview, there were certain privileged areas concerning which he would not be required to

Memorandum outlines problem area with respect to confidentiality of FBI sources which we have encountered in the Senate Select Committee (SSC) investigation.

In their investigation of COINTELPRO, SSC has been given access to material from which we excised only informants and potential informants as defined in Manual of Instructions. When such material was requested for delivery, we have excised identities of all individuals to whom we have incurred an obligation to protect their identity and relationship with the FBI. SSC has objected to these more extensive excisions in delivered material, claiming the agreed-upon procedures do not allow us such latitude. This was not our understanding of the agreement.

As a result of this impasse, on morning of 8/8/75, the Director and other FBI representatives met with the Attorney General (AG) and the Deputy Attorney General (DAG) in an attempt to resolve the question. The AG deferred a decision at that time pending the receipt of certain requested information concerning the general COINTELPRO operation. Later that date, Mr. John Elliff, SSC, contacted SAs William O. Cregar and Elmer W. Larson of the Senstudy Project, INTD, and stated the DAG had suggested he attempt to get together with Bureau representatives and reach some sort of compromise or accommodation in this area.

EX 104

During the afternoon of 8/8/75, Messrs. ~~Cregar,~~ Larson and Elliff conferred at length. Mr. Elliff indicated he felt it was imperative that a certain number of individuals,

who had cooperated with the FBI in the COINTELPRO operations, be interviewed by SSC Representatives so that a more accurate picture could be obtained concerning possible harm to COINTELPRO targets. He indicated there was a deadline set for completion of COINTELPRO phase of SSC investigation and time did not allow for extensive interviews; however, he estimated that given no deadline a maximum of 36 such contacts would be made and, in view of the deadline, 8 to 12 interviews of the type indicated to be more realistic. Mr. Elliff isolated three cases which he suggested might most easily lend themselves to a compromise on this point and suggested they be considered by the Bureau. If the Bureau saw fit to agree in these instances, he suggested further deliberations be made to select further cases in which the cooperative sources' identities could be made available to the SSC.

SAs Cregar and Larson emphasized to Elliff that the principle involved here was not whether or not the cooperative source was of great and current value to the FBI but that the issue was the FBI's obligation to the source to protect the confidentiality of the relationship. While professing to acknowledge the validity of the Bureau position in this regard, Elliff, nonetheless, was adamant in his standing that the SSC be allowed to contact these sources without the FBI first contacting them to ascertain their amenability to such interview. It was stressed to Elliff that prior contact of these sources by the FBI would be mutually advantageous since it would satisfy FBI obligation to the source and, if the source then agreed to interview, would provide the SSC with a forth-coming cooperative witness. Finally, after much discussion, Elliff suggested that the three cases presented by him be approved and following this he would be willing to consider negotiation concerning further disclosures of identifies of sources based on FBI proposal of prior contact. The three cases proposed by Elliff are briefly set out below:

Re: Senstudy 75

1. In 1969, an Assistant State Attorney General, an established source of the Albuquerque Office, requested public source information concerning an individual in New Mexico who was a candidate for appointment to a pollution commission. We were able to furnish such information reflecting the subject's affiliation with the Students for a Democratic Society. SSC indicated they desire to interview our source.

2. In 1966, we furnished information to a California State Alcohol Beverage Control Commission agent that liquor was to be sold at a political fund-raising party. SSC desires to interview this source.

3. In 1968, the editor of a Tucson, Arizona, newspaper contacted our resident agency in Tucson and requested pertinent background data concerning some of the activists in various anti-draft, anti-Vietnam and similar groups in the Tucson area who had been receiving considerable publicity of late. Authority was granted to furnish public source data to the newspaper man. SSC now wishes to identify this contact and interview him.

On 8/12/75, the Director was advised of the proposal by Mr. Elliff. The Director indicated he desired to adhere to the current policy of not divulging identity of sources with whom the FBI has a confidential relationship; however, he extended an invitation for Mr. Elliff to meet with him on 8/18/75 at 4:00 p.m., for further discussion of this issue. During the morning of 8/12/75, the Director's position and invitation was conveyed to Mr. Elliff by SA Cregar. Shortly thereafter, Mr. Elliff called back to advise that he appreciated the invitation but that in his view the meeting would merely contribute to further delay and that he planned to contact

This is to identify 66 serials, copies of which were furnished to John Elliff, staff member of the Senate Select Committee (SSC), on 8/5/75 for retention in SSC offices.

Barbara Banoff, a staff member of SSC, requested 47 of the copies on 8/1/75 and 19 on 8/4/75. The requests were submitted by her based on copies which were previously reviewed by staff members in room 4171, JEH. Subsequent to the request for delivery of specific serials to SSC offices, they were re-excised to insure information which would tend to identify sensitive sources was deleted. Excisions in each serial, prior to being made available for delivery, was approved by appropriate Section Chief. Elliff accepted delivery from Section Chief Cregar and signed both attached lists indicating receipt.

Attached are 29 copies of serials requested on 8/1/75 which were delivered to Elliff on 8/5/75. Other copies which were delivered are not attached since no additional excisions were made other than those made in the initial project for review only. Excised copies of those serials were previously designated for the Cointelpro file. A second list is attached which contains ten copies of serials requested on 8/4/75 and delivered to Elliff on 8/5/75. Nine copies which were delivered are not attached since there was no additional excising.

This recommends representatives of Special and General Investigative Divisions review material from inspection reports which may be requested by the Senate Select Committee (SSC) to determine whether any excisions would be necessary before it is made available to the SSC.

By letter dated 5/14/75, the SSC, Appendix B, Item I, Number 5, requested access to annual inspection reports and related surveys for the past 10 years with respect to the Intelligence Division and 10 field offices. At a conference between members of the SSC Staff and representatives of the Department of Justice and the FBIHQ Senstudy staff, 5/30/75, it was agreed that in response to the above request we would make available to the SSC Staff, for review at FBIHQ, copies of the reports of the two inspections conducted of the Domestic Intelligence Division in 1971 and the inspection of the San Francisco Office during October, 1970.

EX 104 REC-56 62-116395-552

These reports have been reviewed by both the Intelligence and Inspection Divisions and necessary excisions agreed upon. The SSC Staff is being notified by LHM 7/22/75, transmitted through the Attorney General by letter dated 7/22/75, that excised copies of the aforementioned three reports are available for review in Room 4171 JEH. The LHM alerts the Committee to the fact that all portions of the San Francisco report which pertain solely to criminal matters, without security ramifications, have been removed from that report but can be made available for review should the SSC

determine that such material is pertinent to its mandate by making a written request for access to it. The criminal portions removed are attached to the tickler copies of this memorandum designated for Messrs. Cleveland and Gallagher, as they relate to matters within their Divisions' purview. It has been our experience that the SSC generally does request to see or obtain material not furnished during responses to an initial request. Therefore, it would be prudent for representatives of the General and Special Investigative Divisions to, at this time, review the material attached to Messrs. Cleveland and Gallagher's ticklers and make a determination as to whether any excisions must be made before review by the SSC Staff, should same be requested. Generally, under current ground rules, only material which would identify sensitive sources, including cooperative foreign agencies, or violate the Third Agency Rule, may be excised. Inquiries regarding current ground rules may be made by the Senstudy representatives of the General and Special Investigative Divisions of Supervisor J. P. Thomas, Room 4063 JEH, Extension 4636.

ACTION:

It is recommended that the material attached to the ticklers of Messrs. Cleveland and Gallagher be reviewed as indicated above and returned to Mr. Thomas with any necessary excisions underlined in red by 7/24/75.

7. Agents contacting informants outside of normal working hours obtained supervisory approval for these contacts prior to making them and make appropriate notations on their #3 cards. Supervisors thereafter, during file reviews with Agents, check with them regarding those contacts and spot-check informant files to insure after-hour contacts were made and appropriately recorded.

PROGRAM DEVELOPMENT

1. The overall objectives of the criminal informant program are to develop high quality informants who are in a position to furnish valuable information on a continuing basis.

Criminal desk supervisors participate in the program by remaining alert to the necessity of having good informant coverage in the criminal classifications which are covered by their respective desks. The supervisor is also required to approve any expenditure made to an informant for information or services concerning any case handled on his desk and in this way will be aware of the progress of the program as it relates to their desk. The supervisors also follow the Agents' activities in this regard on an individual basis to insure that they are fully participating in the informant program.

2. The San Francisco Office does have standards which requires all Agents assigned one year or more to this division should conform to and that is they should have a minimum of four PCIs or one CI and two PCIs or two CIs assigned at any one time. This, of course, is by no means considered a maximum and many Agents participate more fully in the program.

There are currently no first office agents assigned to this division and when an Agent is transferred to this division and assigned to criminal work he is expected to show some progress by the end of sixty days and within one year he is expected to be in compliance with the above standards.

3. A.

DESK 1

Accounting Matters
Supervisor H. ERNEST WOODBY

DESK 7

Applicant Matters
Supervisor ROBERT D. ROBY

These two desks are being handled as one unit inasmuch as the only true criminal classification handled by both desks are deserter fugitive cases, which are split alphabetically between the desks.

SA HENRY L. GAIDIS is the only agent who spends more than fifty per cent of his time on Squad 1 on deserter matters and SA FRANCIS J. O'HARA is the only agent on Squad 7 who spends more than fifty per cent of his time on these matters.

156.

SAs GAIDIS and O'HARA have been specifically assigned to develop informants who can give coverage in fugitive deserter matters and they have concentrated their efforts in specific areas where deserters are most likely to be found, as set forth below:

137-5670	South of Market Street Area
137-5355	North Beach Area
137-5094	Tenderloin and North Beach Areas (homosexuals)
137-5477	Tenderloin and North Beach Areas (homosexuals)
137-5738	Haight - Ashbury and the Fillmore (Negro ghetto area)

DESK 2

Bank Robberies - Major Case
Supervisor BRYON C. WHEELER

Special Agents assigned to Squad 2 have been instructed to continually be alert to develop top quality informants in order to carry out the responsibilities in their investigative fields. The work on the squad is broken down into two major categories, the first of which includes bank robberies and kidnappings. Agents specifically assigned to develop informants in this field are SAs MONTE A. HALL, FRANCIS J. COLLOPPY, JR., THOMAS J. PADDEN, ARDEN F. KEITH, ELDEN LOEFFELHOLZ, and WILLIAM R. tenBENSEL. The following informants have been developed in this field:

137-5473
137-2686
137-2961
137-2864
137-4999
137-4290
137-5308
137-1934

137-4867
137-4680
137-5260

The second major category handled on this desk is the 88 - Fugitive cases and agents specifically assigned to develop informants in this field are SAs RICHARD C. DU BRUILLE, CLARENCE A. BROM and MICHAEL G. KEALEY. The following informants have been developed in this regard:

137-5469
137-5426
137-4294

DESK 3

General Criminal Desk
Supervisor MORRIS M. DE JEAN

The main criminal classifications handled by this desk are ITSMV, Theft or Destruction of Government Property, Crime on Government Reservations, Crime on the High Seas, Probation and Parole Violators, Bond Default Fugitives, and Crime Aboard Aircraft and Air Piracy.

It is noted there are several major military installations within Headquarters City, including the Presidio and the U. S. Naval Shipyard at Hunters Point, as well as numerous Government buildings.

In the ITSMV field SAs DANIEL J. BUCKLEY and EDWARD C. SAUER have been assigned to develop informants and in this regard the following have been developed:

137-470
137-3528

The fugitive classifications handled off this desk are distributed among the various members of the squad and in these classifications SAs BERLYN H. CLOW, JAMES E. TARLETON, JR. and GARY D. MINYEN have been specifically assigned to develop informants and the following are informants developed in this regard:

137-5291
137-2164
137-5425

Regarding the Government reservations, it is noted that specific liaison assignments have been made in regard to these but inasmuch as persons normally contacted on these bases are Government employees contacted on an official basis, they are not considered appropriate for development as CIs and are bound to furnish information as part of their duties. It is noted, however, that the Hunters Point Naval Shipyard is in a predominantly Negro area and two PRIs, 170-845 and 170-241, are under development at that location by SAs assigned to this squad.

Regarding the air piracy and crime aboard aircraft violations, it is noted all major airports are located within Resident Agency territories and coverage at these locations will be covered there.

DESK 5

TFIS and ITSP Matters
Supervisor GLENN A. HARTER

A major category on this desk is civil rights matters but inasmuch as this classification does not lend itself to the development of informants it will not be covered in this write-up.

In TFIS matters the following agents have been assigned these cases and have been instructed to develop informants in this field: SAs F. STEPHEN OSBORN, DAVID C. SUMMING, JAMES R. ECHOLS, RALPH V. FINK, STEPHEN L. JENKS, and MARSHALL H. FELDMAN. In this regard the following informants have been developed:

137-5202
137-5538
137-5358
137-4826

The following agents handle primarily ITSP matters and have been instructed to develop informants in this regard: SAs ELLSWORTH F. HEMINGWAY, FREDERICK A. GROS, and EARL W. BAKER. In addition, a major source of information in this field was developed by SA JOSEPH T. FOX, JR., who was recently transferred to the Hayward Resident Agency, and is still contacted by SA FOX. The following are informants developed in this field:

137-1966
137-5547
137-5168
137-4458

DESK 6

Selective Service Matters
Supervisor RAY M. ANDRESS

It is noted all agents assigned to this desk work Selective Service matters and have been instructed to develop informants that will be of assistance in this classification.

It is also pointed out that this desk has numerous subjects that fall in the radical left and Black militant category. Anytime these subjects, when interviewed, appear to be cooperative in any degree their names and addresses are furnished to the appropriate desk for consideration as development to an informant.

Members of this squad continually endeavor to develop informants in Black neighborhoods, homosexual hangouts, and cheap hotel areas where most fugitive Selective Service subjects are located.

The following informants have been developed in this regard:

137-4948
137-4876
137-139

It is noted a number of agents on this squad are recent transferees into this office and there is a total of thirty PCIs currently under development by members of this squad.

B.

BERKELEY RA

The Berkeley RA encompasses a large populous metropolitan area and its primary investigative problems lie in the security field. There are four agents assigned to the

Berkeley RA handling primarily criminal matters and they are SAs WILLIAM H. SMITH, JR., TUVAL V. FARQUHAR, ROBERT F. PEVAHOUSE and LEON H. BLAKENEY.

Due to the varied nature of the criminal work existing in the Berkeley RA and the relatively small area covered by the Berkeley RA, no specific targets have been designated for informant development, but all agents working criminal matters are constantly alert to the necessity of having good informant coverage. The following informants have been developed:

137-4547
137-3910
137-4723
137-5238
137-109

EUREKA RA

The Eureka RA is a one-man RA handled by SA RICHARD GUY MILLER and covers Humboldt and Del Norte County, which are both rural in nature. All classifications in this territory are handled by SA MILLER and in view of the nature of the RA, no specific targets have been designated for informant coverage. Two informants have been developed in this territory and give general criminal coverage. They are as follows:

137-2613
137-3685

HAYWARD RA

The Hayward RA covers the southern half of Alameda County and has been a rapidly expanding RA in population and has developed into a large trucking area with a population of approximately half a million people.

The major criminal problems in this RA have been TFIS and ITSMV violations.

In this regard, SA SAMUEL A. MILLER has been specifically directed to develop informants covering TFIS violations and SA PAUL M. CARPER, JR. has been directed to develop informants in the ITSMV field.

The following informants have been developed in this regard:

137-5402
137-5011
137-5175

The remaining informants in this RA furnish general information regarding criminal and fugitive matters.

MONTEREY RA

The Monterey RA covers a territory that is rural in nature and its main industry is tourism and agriculture. There are four agents assigned to the Monterey RA which handle primarily criminal classifications and they are SAs FRANK W. MITCHELL, WARREN A. COOK, MAX H. FISCHER and LESLIE L. VANNATTA. Two problems exist in the Monterey RA territory and they are a large hippie-type population residing within the RA territory and the town of Seaside, California, is basically a Negro ghetto type area. The agents assigned to criminal work have been instructed to establish as much coverage as possible in these two areas and the following two informants have been developed in this regard:

137-5255
137-5778

The major criminal classifications worked in this RA are Selective Service matters, deserter matters, theft and destruction of Government properties matters, crime on Government reservations (it is noted Fort Ord, a major Army camp, is located within the RA territory), with a sprinkling of other criminal classifications. The following three informants provide general criminal coverage for the entire RA territory:

137-4008
137-3258
137-4601

162.

OAKLAND RA

The Oakland RA covers the northern half of Alameda County and is the largest RA, personnel wise, within the San Francisco Division. In this regard, its problems, as related to criminal investigations, are very much the same as Headquarters City.

The following is a list of agents working criminal matters who have been assigned to develop informants in the specific classifications they primarily are responsible for, along with a list of informants developed for coverage in these files:

Bank robberies and major case matters are handled by SAs DONALD F. HALLAHAN and WILLIAM P. O'CONNELL. The following are informants developed in this regard:

137-2752
137-3121
137-213

In ITSMV, DGP, CGR, air piracy and aircraft hijacking matters the agents handling them are SAs DAVID ROBERT EVANS, THOMAS C. MC GEE and CHARLES SPYROPOULOS. The following is a list of informants developed in this regard:

137-5470
137-5161
137-5235
137-5326
137-5073

Handling TFIS and ITSP matters are SAs EWING H. RAUCH, JR. and R. JAMES WILLIAMS. In this regard, they have developed the following informants:

137-3515
137-4674
137-5480
137-4497
137-5088

Agents handling Selective Service matters and deserter matters are SAs ROBERT M. LEONARD, DONALD E. LOVEJOY, GEORGE W. SMITH and GEORGE P. WILLIAMS, JR. In this regard, the following informants have been developed:

137-5342
137-1667

PALO ALTO RA

The Palo Alto RA is basically a metropolitan area and its investigative problems are primarily in the security field. The agents working the criminal classifications in the Palo Alto RA are SAs TROY F. WILDER and JEAN G. HUGHES. There have been no specific target areas assigned in Palo Alto due to the general nature of the criminal assignments given these two resident agents. The following informants have been developed, giving general criminal coverage to the territory covered by the Palo Alto RA:

137-1807
137-5031
137-5518
137-5815
137-975

RICHMOND RA

The Richmond RA covers northwestern Contra Costa County with its basic population located in the City of Richmond itself. As related to criminal investigations, its one problem area in the Richmond RA is the Negro ghetto area located in North Richmond. There are two agents working criminal matters in this RA, GERARD JAMES NORTON and RICHARD L. WEAVER. Inasmuch as the above-mentioned ghetto area is their primary problem area, they have been instructed to develop informants, giving as much coverage as possible for this area. In this regard, the following informants have been developed:

137-2818
137-5287
137-2575
137-5091

164.

SALINAS RA

The Salinas RA is a two-man RA working primarily criminal matters. The territory is rural in nature and its primary industry is agriculture.

In view of the nature of the territory no specific target areas have been designated and SAs THOMAS P. DOWD and CARL A. GOSTING have developed the following informants which provide general criminal coverage in their territory:

137-5452
137-5099
137-5594

SAN JOSE RA

The San Jose RA territory covers a large metropolitan area with a population in excess of 800,000 people. Eight of the ten SAs assigned to this RA handle criminal case assignments at least fifty per cent of the time.

There has been a high incidence of bank robberies in the territory and specific efforts have been made to develop informants by SAs WILLIAM N. KIDWELL, JR. and FRANCIS M. CONNOLLY which would provide information in this regard and they have developed the following informants:

137-4215
137-5350

The remainder of the criminal work in the RA is general in nature and no specific assignments have been made to develop informants and no agent has been specifically assigned to the development of informants in the RA. In addition to the above informants, there are five other symbol informants furnishing general criminal information and three informants furnishing information in the criminal intelligence field.

165.

SAN MATEO RA

The San Mateo RA covers a large metropolitan area, including the San Francisco International Airport. There is a large volume of work at this airport and SAs WAYNE J. MORRISON, JOHN F. BRESLIN and EDWARD C. SERNETT have been instructed specifically to develop informants providing coverage of criminal matters relating to it. In this regard, the following two informants have been developed:

137-5204
137-5501

There have been no other specific targets picked for development of informants in the RA territory and in addition to the above two informants there are four other informants furnishing general criminal information within the territory.

SAN RAFAEL RA

The San Rafael RA territory includes Marin and Napa Counties. All criminal work in Marin is handled by SA DAVID D. THOMAS and one problem has been the City of Sausalito, which has a large hippie population, and specific efforts have been made to develop an informant who could provide information concerning this element, and in this respect, SA THOMAS has the following informant:

137-5396

In addition to this informant SA THOMAS has an informant providing general criminal information in Marin City, California, which is a Negro ghetto area. This informant is 137-3167.

SA ELWIN N. WEGNER handles all criminal work in Napa County, which is basically rural in nature and no specific target areas have been picked for this county. It is noted, however, SA WEGNER has developed an informant providing general criminal coverage for the City of Napa and this informant is 137-5421.

166.

SANTA CRUZ RA

The Santa Cruz RA is a three-man RA with two agents, PATRICK J. HAGGERTY, JR. and JOSEPH A. DUSHEK, handling the criminal work in this area. The territory covered by this RA is basically rural in nature and no specific targets have been picked for this territory. It is noted, however, three CIs are currently being handled in this RA and in addition, they have a symbol racial informant and a top echelon criminal informant target. These informants are as follows:

137-4132
137-5651
137-5280
137-5112
170-613

SANTA ROSA RA

Criminal matters in the Santa Rosa RA are handled by SAs WILLARD E. BASEMAN and DOUGLAS R. AHLSTROM.

The Santa Rosa RA covers three rural counties of Sonoma, Mendocino and Lake, comprising some 7000 square miles in area. The bulk of criminal activity is located in and around the headquarter city of Santa Rosa, California (Sonoma County). Informant coverage has been established in the legalized cardrooms and night clubs in this area.

Coverage in the counties of Mendocino and Lake is limited to the close personal relationship with deputy sheriffs that cover the remote areas of these counties, which principal industries are logging and ranching.

There are no principal targets for informant development, such as shipping companies, railroads, airports, or large industries. Coverage has been established in gambling, 137-3976 and 137-4486. In night clubs, coverage has been established with females, 137-5819 and 137-5818, both of whom are furnishing quality information and will be converted as CIs.

167

In deserter and Selective Service matters, hippie coverage is maintained in Guerneville, California (Sonoma County) through 137-5462. This latter town is largely a summer resort town for the area, but does have a hippie population in the winter months as well. Also, in the Indian and Mexican deserter fugitive matters, 137-1412 gives coverage to the skid row section of Santa Rosa, California.

WALNUT CREEK RA

Criminal investigations in the Walnut Creek RA are handled by SAs RUDOLPH H. MANCINI and FRANKLIN S. BURROUGHS.

This RA covers a territory which consists of several large "bedroom" communities and a large section that is rural in nature.

The only problem high crime rate area in the territory is the City of Pittsburg, which is a Negro ghetto-type area and specific efforts have been made to develop informant coverage in this area. The following informants have been developed and furnish general criminal and racial information for the Pittsburg area:

137-674
137-5079

In addition, the RA handles four other informants and they are:

137-3135
137-5395
137-3529
137-4685

4. Yes, in line with the answer to question two above, agents are expected to submit a replacement at the earliest possible date.

5. Supervisors participate in the informant program in that they must approve all expenditures to informants furnishing information in classifications handled on their respective

desks. In this way they are aware of the productivity of the informant program as it concerns them. Also, if there is any particular problem concerning the handling of a particular informant, a supervisor is expected to assist and give guidance to the agent handling this particular informant. Supervisors are also regularly reminded of the importance of the informant program at supervisors' conferences and follow their individual agents to insure that they are fully participating.

Supervisors in this office are not required to approve either closing or opening memoranda on informant files. No record is kept of productivity of informants by desks, however, this information is readily available through the monthly statistical letter submitted on informant production inasmuch as each statistic is reported by classification.

6. Agents are reminded of the criminal informant program and their responsibility to participate in it at each biweekly squad conference.

7. Informant statistics are not kept by RA or road trip territory, however, this information would be available if it were necessary to obtain it by review of the particular informant files that are providing coverage in these areas. Our informant coverage in each RA area is considered adequate at this time and no particular weaknesses are noted. However, efforts are made on a continuing basis to try to improve coverage in all areas.

8. It is felt that informant coverage at Headquarters City is adequate at this time, but as indicated in number seven above, a continuing effort is made to improve this coverage.

Regarding the coverage provided by each criminal desk, it is noted that as of October 12, 1970, the following CIs and PCIs are being handled off the respective desks:

169

CIs	PCIs
Desk 1	
3	2
Desk 2	
15	14
Desk 3	
7	17
Desk 5	
11	27
Desk 7	
2	3
Desk 6	
3	30

The classifications handled by the above listed desks are set forth in question three above.

9. Administrative devices used to make certain agents are making maximum contributions to the criminal informant program are that the agents are followed on an individual basis through file reviews and supervisor conferences to insure they are meeting the criteria as set forth in question number two above. The criminal informant files are also specifically reviewed on a semi-annually basis at the time the semi-annual LHMs are submitted to the Bureau. It is also noted files are checked at the time they are posted on a continuing basis.

10. Informant files are reviewed at the end of the first year they have been opened on an individual basis and if they have been unproductive the agent is advised to close the case and replace the PCI with anew one.

170.

If the PCI has been productive the agent handling him is advised to convert him to a criminal informant. If it is a questionable matter it is discussed with the agent handling the PCI on an individual basis and a decision is reached in this matter inasmuch as the agent is in a better position to make the judgement as to the potential of this particular PCI.

11. All agents in the San Francisco Division are aware of the racial and ghetto informant program through participation. If an agent has a case that he feels warrants contacting of ghetto informants he will dictate a memorandum setting forth specifically that they should be contacted by the particular agents handling them.

12. No actual record is kept of how much use is made of the geographical criminal informant index. However, it has proved to be a valuable tool in determining who the logical informants are to contact in any given situation. This has saved many investigative hours by making easily available to each agent the particular type of informant coverage he might need.

ALL INFORMATION CONTAINED

DATE 7/20/01 BY SP-2 ALM/JTG

All criminal informant (CI) files and a representative number of potential criminal informant (PCI) files were reviewed during this inspection. Following review, a memorandum disclosing the rating afforded in each file has been forwarded to you for inclusion in the respective file.

Your office is currently operating 145 CIs as compared to 141 CIs being operated at the time of the last inspection. There is also an increase in the number of PCIs under development at this time to 271 as opposed to 250 under development during the last inspection. These figures do not include Top Echelon informants or targets for development which are commented on separately under the Criminal Intelligence Program. This represents a slight increase in the number of CIs and a more substantial increase in the number of PCIs under development. However, there is a slight decrease in two large metropolitan areas, namely, San Francisco and Oakland, which though slight represents a static situation as to increasing coverage in these areas. The Oakland Resident Agency has also recorded a decrease in the number of PCIs under development. In analyzing the coverage in the resident agencies, it was noted that Monterey, Richmond and San Jose have the same coverage from CIs as during the last inspection although Monterey and San Jose have shown a substantial increase in the number of PCIs being handled. PCIs under development in Salinas and San Rafael are down somewhat, although this too in part is off-set by the increase in the number of CIs being operated. In view of the Bureau's increased responsibilities, it is absolutely essential that a strong criminal informant program be maintained and in fact expanded if the Bureau is to meet these increased responsibilities.

QUALITY

All of the CI files were reviewed during this inspection and the following ratings were given to the CIs presently being operated by this office:

177

Excellent	14
Very Good	36
Good	78
Fair	12
Poor	3
Not Rated	2
Total	145

The two files which were not rated are SF 3308-C, SF file 137-5342 (Bufile 137-22463) and SF 2290-C, SF file 137-213 (Bufile 137-3071). Because SF 3308-C furnishes information principally as a result of his employment in the U.S. Army, Personnel Center, Oakland, California Army Base, this informant should be discontinued as a CI and converted to a Confidential Source. SF 2290-C was recently reopened on the basis of having provided a service to Department of Justice attorneys and the Bureau but has furnished no criminal information for an extended period of time and had been in a closed status since 3/10/69. This informant should also be discontinued as a CI and considered as a Confidential Source. You should appropriately advise the Bureau that this action has been taken.

The following informants have been rated Fair and they should be given specific assignments for a period of 90 days in an attempt to improve their productivity. At the end of that period of time you should advise the Bureau of reasons for continuing them as informants or that they are being discontinued.

Symbol Number	San Francisco File Number	Bufile Number
SF 3258-C	137-4999	137-21270
SF 2712-C	137-3352	137-10786
SF 3320-C	137-5425	137-22726
SF 3119-C	137-4547	137-18815

SF 3072-C	137-4674	137-17879
SF 2793-C	137-3135	137-9744

173.

The following informants were rated Poor and should be closed immediately:

Symbol Number	San Francisco File Number	Bufile Number
SF 3226-C	137-4427	137-20833
SF 3166-C	137-5091	137-19341
SF 3257-C	137-4888	137-21264

A representative number of PCIs were reviewed and were rated as follows:

Excellent	4
Very Good	10
Good	31
Poor	1
Insufficient Data to Rate	37
	83

The following PCIs have been under development for a period in excess of one year and should be closely followed and directed for a period of 90 days in an attempt to qualify them as CIs. If at the end of that time they have not furnished sufficient information to qualify as CIs they should be closed.

137-5486
137-5483
137-5474

File 137-5485 has also been open for a period in excess of a year. This PCI has furnished no information since September 1969. This file should be closed. This PCI was rated "Poor."

AGENT PARTICIPATION

You have indicated Special Agents JAMES P. MALOY, CARLTON H. WOLFARTH and GARY N. MAVITY have spent 50% or more of their time on criminal type investigative matters during thepast year but do not currently have assigned a qualified CI personally developed by them. Further comment is being set forth later in this addendum concerning these Agents.

PAYMENTS

A review of payments indicates that your office paid an average of $1,473.98 a month to informants during the period immediately preceding the last inspection. For the period immediately preceding this inspection, an average of $1,643.10 was paid to informants each month. A spot check of payments made to CIs and PCIs indicated value was being received for the money paid. You should insure that your personnel are alert to the use of monetary payments to enlist the further cooperation of informants by compensating them for expenses incurred in pursuit of information for this Bureau and as compensation for their effort on the Bureau's behalf. You should continue to closely evaluate informant payments to insure that value is received for money paid.

ACCOMPLISHMENTS

According to Bureau records your office shows increases in 4 of the 8 statistical accomplishments attributable to informants and it is noted that these increases have occurred in matters concerned directly with FBI investigations.

PROGRAM DEVELOPMENT

You have indicated a rather extensive involvement of supervisory personnel in directing informant development to those areas of responsibility coming within the scope of their respective desks. Referring to Government reservations and military installations, you indicated you do not consider Government employees appropriate for development as CIs as they are bound to furnish information as part of their duties. Your attention is specifically directed to

175.

Section 108, I-12, Volume 4, Manual of Instructions, which states informants should be developed on Government reservations and military installations when warranted. In view of the large installations located within your territory, it is suggested you identify particular areas of these installations wherein informant coverage would be logical and productive and give consideration to pinpointing such areas for development.

You have also indicated that Supervisors approve payments to informants and in this way are also aware of the productivity of the informant program. However, it is noted that approval of payments provides a rather limited assessment of the productivity of informants and points out the need for a continuing evaluation of respective coverage. Supervisors must constantly be alert to identify specific areas in which informant coverage would be logical and productive.

OBSERVATIONS AND RECOMMENDATIONS

You should give consideration to the development of informants on Government reservations and military installations as suggested by the Manual of Instructions.

In a number of instances, it was noted there was no follow-up on incomplete information furnished by informants. In such instances, the informant was not recontacted any sooner than required by the 30 day contact rule, which would indicate a lack of direction of the informant to further develop information of interest. The need to give informants direction to develop information to the point it can be considered useful and valuable should be brought to the attention of all appropriate investigative personnel.

There were few instances noted during review of the CI files wherein FD-302's had been utilized in recording informant information. It is recognized that much information regarding fugitives and possible suspects does not require

171

such recording but in view of the recent passage of Senate Bill 30 which will greatly expand the opportunity to utilize informant information, you should make certain all personnel are aware of those instances in which informant information should be recorded on an FD-302 and the proper method for so recording it.

Numerous areas have been identified in your territory as being the habitat of ethnic, ghetto and hippie elements, many with a high incidence of crime. To provide a better over-all view of the coverage in San Francisco and the heavily populated East Bay area and to facilitate a more convenient, ready reference for the agents of your office to this information, you should consider preparing a large wall map of the San Francisco - East Bay area and placing it in a central secure position in the office. In addition to criminal informants, you should include the location in which racial and ghetto informants will logically be able to furnish information and you should identify the location of all these informants on the map with an appropriate locator reference to an index showing the agent to whom the informant is assigned and the coverage which informant can be expected to provide.

EXPLANATIONS REQUESTED

Explanations are requested from SA's JAMES P. MALOY, CARLTON H. WOLFARTH and GARY N. MAVITY as to why they have not developed a qualified criminal informant during the past year.

Comments of SAC, ASAC and SA STANLEY J. HENNESSY requested.

SA STANLEY J. HENNESSY, ASAC JAMES T. MORELAND AND SAC ROBERT E. GEBHARDT: The Inspector's analysis of the Criminal Informant Program has been reviewed by each of us. It has been the goal of this office to develop quality informants that can furnish information concerning violations within the jurisdiction of the Bureau. As noted by the Inspector, we have increased our

177.

number of CI'S since the last inspection and have increased the number of PCI'S since the last inspection. We have also increased our payments to informants and no instances have been found where we did not get value received from these payments to informants. We have achieved excellent statistics from them as indicated by the fact that at the close of the last fiscal year we were ahead in all eight categories of informant accomplishments. This is our continuing goal and we will make every effort to surpass these accomplishments in the coming months. The observations, instructions and suggestions of the Inspector will be immediately complied with and this program will continue to receive close supervision in order to get maximum results in connection with our work.

178.

SA JAMES P. MALOY: Since my assignment to the San Francisco
10/28/70 Office, I have developed 4 PCI's. I am presently handling 4 PCI's. One PCI, STEVE VINSON (137-5565) can be qualified as a CI as soon as additional background information is obtained. I will immediately develop this background information and he will be qualified as a CI. In SF 25-75571 PCI Steve Vinson (137-5565) furnished information on which investigating Agents located and interviewed subject (Mosely). In 25-7475 PCI Steve Vinson (137-5565) furnished information on which investigating Agents located the subject (Malagone). PCI Vinson is in a position to furnish information on Deserters, SSA fugitives, hippies and narcotics. In 25-73123 PCI Jay Wilson (137-5790) furnished information re fugitive Jonathan Pitts. In 25-72710 PCI Dewey A. Parker (137-5566) furnished information which resulted in the location of subject Arsene Joseph St. Amand, Jr. I recognize the importance of the Bureau's informant program and will make every effort to develop other CI's.

SA GARY [illegible] MAVITY:
10/28/70.
GNM:jl

In the period of time I have been assigned to criminal work I have handled a number of PCIs with a view to the qualification of them as approved Criminal Informants. In the past year since I last had an approved Criminal Informant I have handled several PCIs including one who previously was the prime factor in the apprehension of a Bureau fugitive wanted for the murder of a police officer. This PCI has since furnished information of value which was relayed to the local police in a burglary case. He has been given the assignment to develop further information concerning local suspects in the handling of stolen merchandise from this and other burglaries.

In the past year I have been unable to devote a great deal of time to the development of this and other PCIs due to having been utilized as Relief Supervisor in the absence of the regular supervisor and because of the time necessary to prepare and present lectures at police schools on legal matters.

I am aware of the importance of the Criminal Informant Program and will continue efforts to develop a qualified Criminal Informant and expect to qualify the above-mentioned PCI in the very near future.

SA CARLTON H. WOLFARTH: I am extremely aware of the need to
10/28/70 develop CIs and have had a total of
CHW:ekk nine PCIs in San Francisco during the
time I have been in San Francisco.

I arrived in the San Francisco Division, 7/13/69, on transfer from the Chicago Division. It is to be noted that I developed CG 7215C in 1967. This informant had either worked for or was close to the top men of organized crime in Chicago, Miami and New Orleans. At one time, through a court order, this informant was wired with a microphone and tape recorder so information could be obtained in an Obstruction of Justice case. I had at least one other informant while I was handling the above informant, and handled both until leaving Chicago.

The potential of the four PCIs which I opened on 8/24/70 and the one which I opened 10/19/70 appears promising and it is anticipated that at least one will develop into a CI in the near future.

My assignments in San Francisco have been mainly ITSP - FBW investigations which are complicated and involve reviewing records and interviews with banks, brokerage house and other business officials. I had one excellent opportunity to develop a good CI when LOUIS MARDER, Las Vegas furnished me on 2/27/70 and 3/2/70 the original information which led to the recovery of $650,000 worth of Avco Thrift Certificates at Las Vegas. MARDER as recently as 10/27/70, furnished me valuable information. He cannot be developed into a CI because he lives in Las Vegas and is under Federal indictment in Miami.

I am sorry that this delinquency on my part happened. It is regretted and I will not let it happen again.

CRIMINAL INTELLIGENCE PROGRAM AND INTERSTATE GAMBLING ACTIVITIES

PART A. GENERAL

1. The commercial or lucrative type of criminal activity in the San Francisco Division continues to be predominantly confined to the areas as noted below. Exhaustive and probative investigation and close liaison with local state and Federal agencies to date has revealed no evidence of an organized criminal group controlling these activities in and San Francisco or Resident Agency territories. Investigation contacts with informants and other sources of information have failed to reveal the existence of any organized illegal gambling, loan sharking (Shylocking), labor racketeering or planned bankruptcy frauds.

A. Local bookmaking involving horse and sport bets conducted by numerous local independent bookmakers, some of whom have established "lay-off" arrangements among themselves.

B. Prostitution activity primarily in the "Tenderloin" section of San Francisco involving out-of-town businessmen, tourists, and servicemen with prostitutes, most of whom are working for unorganized negro "pimps".

C. Narcotic activity and related crimes usually involving thefts and frauds near universities, military installations, and "hippie" or Bohemian sections of cities within the division.

2. This office continues to enjoy an excellent relationship with the San Francisco Police Department and its official personnel. Cooperation and excellent relationships

207.

are known to exist between all Resident Agencies and the local law enforcement agencies in their territories. No evidence or information has been made available to this office to indicate that there is any corruption in law enforcement in this division.

As the Bureau is well aware, Mayor JOSEPH LAWRENCE ALIOTO was the Subject of anti-racketeering investigation by this office several years ago, however, this matter has been closed. ALIOTO prior to assuming the position of Mayor of the City of San Francisco was a prominent and well known attorney, particularly in the field of anti-trust matters. He is known to have been the attorney for TONY LIMA, a former "Boss" of the LCN in San Francisco. He also represented a number of other LCN figures and their associates.

Prior investigation revealed that the cousin of ALIOTO's father, JOHN ALIOTO, was the former "Boss" of the Milwaukee LCN Family. JOHN ALIOTO attended the inauguration of Mayor ALIOTO at San Francisco in January 1968.

As a result of an article published in "Look" magazine, September 23, 1969, linking ALIOTO with many LCN figures, ALIOTO filed a $12.5 million libel suit against "Look" magazine and the authors of this article, RICHARD CARLSON and LANCE BRISSON.

On May 15, 1970, Federal Judge BRUCE THOMPSON declared a mistrial in San Francisco on this suit in that the jury was unable to agree on the key issue of whether the article linking ALIOTO with the "Mafia" was published with "malice and reckless disregard for the facts." The jurors told newsmen that the article was defamatory to ALIOTO and that at least 50 per cent of the 27 points were indeed untrue. There was no agreement as to whether the falsehoods and the article's general claim that ALIOTO was "enmeshed in a web of alliances" with the "Mafia" represented "malice and reckless disregard for the facts." U.S. Supreme Court has ruled that such a finding is essential to a libel judgment sought by a public official.

SAC R. E. GEBHARDT
10/22/70

On August 5, 1970, RUDOLPH RAPALE, brother-in-law of Mayor ALIOTO, filed a $2 million libel suit against "Look" magazine and CARLSON and BRISSON. This article referred to a trip by PAPALE to Mexico during which PAPALE met with FRANK BOMPENSIERO, "CAPO", of the Los Angeles Family of the LCN residing in San Diego to discuss a lard selling permit in Mexico for a company of which PAPALE was former president.

On September 5, 1970, it was reported that retrial of the ALIOTO $12.5 million libel suit against "Look" was tentatively reset for May 3, 1971.

3. San Francisco top level informants currently being handled consist of four members of the LCN and seixn TE informants in the gambling and related criminal fields. Our LCN TE informants and ten PC target informants report on LCN activities of the San Francisco and San Jose Families as well as LCN activities in other divisions. Our other TE informants and our 36 PC target informants regularly report on matters involving bookmaking, prostitution, pornography and other criminal matters. [As an indication of the level of our informant coverage since last inspection, SF 2689-C-TE assumed the position of "Boss" of the San Francisco LCN Family.] These informants due to their positions and locations have made it possible to obtain top level information necessary to provide coverage for Items 1 and 2.

4. Since last inspection extensive investigation as well as informant coverage led to the first ITAR conviction prosecutions ever in the San Francisco Division (see Item 7 below).

Investigation in the case CARL EZEKIAL ECKSTIN, ITWI, case developed a "shakedown" by ECKSTIN against local bookmaker VICTOR ROMOLO. This matter arose out of the failure of ROMOLO to pay a bookmaking debt owed ECKSTIN. SALVATORE VINCENT "BILL" BONANNO, JOSEPH BONANNO, JR., MAURICE PATRICK HARTIGAN and MARTIN CHEIPETZ CARSON acting as agents for ECKSTIN attempted to collect the $1,600 gambling debt and during contacts with ROMOLO threatened him with physical harm

209

if he failed to pay the debt. This case is currently under investigation with the matter being presented to the Federal Grand Jury at San Francisco for violation of Title 18, U.S. Code, Section 894, Extortionate Credit Transaction Statute.

It should be pointed out that "BILL" BONANNO and JOSEPH BONANNO, JR. are the sons of JOSEPH BONANNO, SR., a "Commission" member of the LCN in the United States.

The aforementioned Subjects are also involved in a separate ECT case involving the shakedown and threats to do bodily harm to WILLIAM JOSEPH ELLIS. This matter is presently under investigation and will be presented to the Federal Grand Jury, San Francisco immediately upon completion of Grand Jury action in the ECKSTIN ECT case.

Since last inspection investigation has continued in regard to GUISEPPI CONFORTE, the reported Vice Lord, State of Nevada, who for years has headed up a major prostitution operation. Through extensive investigation and the placement of SF 3239-C-TE and SF 3369-C, this organization has been completely penetrated identifying his lieutenants and scope of operation. As a result of the above, it has been determined that CONFORTE's operation has spread to the State of Hawaii being controlled there by one of his top lieutenants, TOMMY SEALE. San Francisco has under preparation an affidavit for a request of a Title 3 electronic surveillance on the phones utilized by this organization in Honolulu. This Title 3 affidavit has been prepared with the assistance of Departmental Attorney at San Francisco and who has discussed same with the Organized Crime Section, Department of Justice, who has advised that upon completion of current investigation in Honolulu the affidavit should be immediately submitted for approval.

As another example of the progress made in the penetration of the racketeering operation since the last inspection information was received that HARRY JOHN JOHNSON and ALAN "SUITCASE" FIDLER, two Boston "hit men" received a contract, reportedly by a printer, to travel to San Francisco and "straighten somebody out over a union matter." JOHNSON, a former resident of San Francisco, is known as a former associate of JACK GOLDBERGER, top local Teamster official

210.

and reportedly JIMMY HOFFA's special West Coast representative. JOHNSON and FIDLER travelled to San Francisco from Boston in January, 1970 and through surveillance and subsequent intensive investigation it was determined that they met with one GEORGE R. DUNCAN, International Representative, International Typographers Union (ITU). It was determined that shortly prior to the travel of JOHNSON and FIDLER to the San Francisco area a strike situation existed at the San Rafael "Independent Journal" newspaper involving the ITU. Through cooperation and liaison with local law enforcement, JOHNSON and FIDLER were arrested near San Rafael, California and found to be in possession of handguns and mace. Shortly after the return of JOHNSON and FIDLER to the Boston area, an individual who had knowledge that they had been given this contract was found murdered in Boston and on his body were found the names and telephone numbers of JOHNSON and FIDLER. Through these efforts the attempt by JOHNSON and FIDLER to perform the conditions of the contract were thwarted. In addition, this matter is being considered by Departmental Attorney for possible Federal Grand Jury presentation.

Another example of progress made in the penetration in the field of intelligence and organized crime in this area resulted when through information furnished by top echelon informants revealing the presence of ALATADENO JAMES FRATIANNO residing in the San Francisco territory. Through investigation and surveillances conducted FRATIANNO was subsequently contacted and was developed as a top echelon target of this division. Frequent contacts were conducted with FRATIANNO and extensive cooperation was obtained from him concerning organized crime. FRATIANNO was identified as a member of the Los Angeles Family of the LCN and during August, 1970 was indicted by Federal Grand Jury convening in San Francisco for two counts of violation of Title 18, U.S. Code, Section 894, ECT. Although presently incarcerated FRATIANNO is being contacted periodically as a target in an effort to continue development of his cooperation.

Increase in penetration of racketeering operations since last inspection is evidenced by the above examples as well as the statistical accomplishments reported hereinafter.

8. Subsequent to the submission of last inspection report, through information by top echelon informants this office, information has been developed that SF 2689-C-TE has assumed the position of "Boss" of the San Francisco LCN Family.

SF 2656-PC has reported to the return to the San Jose area of STEFANO ZOCCOLI, Consiglieri of the San Jose LCN Family from Los Angeles where he had been residing for the past year.

During November 1969, SF 2656-PC reported that GEORGE ADRAGNA, a member of Western Pennsylvania Family of the LCN was coming to the San Jose area to live. Subsequently, SF 2656-PC and SF 2689-C-TE reported that ADRAGNA's membership had been transferred to the San Jose LCN Family and he is currently residing in the San Jose area.

Subsequent to the submission of last inspection report SF 2689-C-TE reported that JAMES FRATIANNO, a member of the Los Angeles LCN Family had moved into the San Francisco area where he remained until August when he commenced serving a prison sentence executed by the State of California.

During October, 1969, information was received indicating that JERRY LISNER, major bookmaker, Los Angeles, California was in contact with JOHN CASTELLI, bookmaker, Oakland, California. The purpose of this contact was for LISNER to establish a base of operation, particularly bookmaking, for his criminal activities in the San Francisco area. Investigation subsequently established that LISNER and others commenced a bookmaking operation in Alameda and Contra Costa Counties, East Bay Area, using as its front A-1 TV Service, Oakland, which is owned by JOHN CASTELLI. Following extensive investigation in cooperation with the Oakland Police Department, no evidence was developed to indicate any violation of Federal statutes. On November 22, 1969, the Oakland and Berkeley, California Police Departments simultaneously arrested SALVATORE J. BERNICE, JOHN TRAPPS and two other associates who were engaged in LISNER's bookmaking operation. These arrests resulted in a breakup in the entire bookmaking operation and subsequently during February, 1970 LISNER returned to the Los Angeles, California area.

In July, 1970, information was made available to the San Mateo Police Department which led to the arrest of WALTER DALY, PAULA DALY and SABRINA DUNN. These individuals were arrested for prostitution, conspiracy, maintaining a disorderly house and being an inmate in a disorderly house. These arrests were a direct result of informant information and investigation conducted by the San Francisco Office which revealed no Federal violation and therefore was referred to local authorities. This operation was determined to be a $90,000 a year "high class" call girl service and from this five other call girl services were uncovered, all local in nature in San Francisco. Intelligence information concerning these operations has been furnished the San Francisco Police Department and are being followed closely by the San Francisco Office.

9. Results of dissemination of information resulting in disruption of organized crime since the last inspection are illustrated by the following statistical accomplishments:

Raids	12
Individuals Arrested	39
Convictions	38
Amount of money seized	$5,829.00
Total "handle" - bookmaking	$895,000.00

Prior to the last inspection, these accomplishments were as follows:

Raids	10
Individuals Arrested	24
Convictions	10
Amount of money seized	$5,198.00
Total "handle" - bookmaking	$575,500.00

In addition to the foregoing, as a result of information furnished by SF 2956-C-TE and SF 3036-PC, CHARLES FRANCIS LEAHY, JR., Major San Francisco Bookmaker, was arrested on August 4, 1970, by the San Francisco Police Department on charges of bookmaking and ex-convict in possession of firearm. Trial date was initially set for September 22, 1970 in Municipal Court, San Francisco, however, has been set over until October 28, 1970.

218.

PART B: GAMBLING MATTERS

1. In the San Francisco Division there appears to be two gambling operators that lead all others in terms of handle, volume, coverage, number of accounts, and number of employees. These operators are CARL EZEKIAL ECKSTEIN and CHARLES FRANCIS LEAHY, JR., both of whom are based in San Francisco. While they both handle substantial individual accounts, ECKSTEIN and LEAHY are primarily associated with and rely on lessor local bookmakers for "action."

CARL EZEKIAL ECKSTEIN, age 40 years, has been engaged in gambling activities most of his adult life. ECKSTEIN was formerly associated with TONY RUIZ and other San Francisco bookmakers, but in the last year ECKSTEIN has set up his own independent operation. ECKSTEIN has been arrested on several occasions on charges of bookmaking but has never been convicted of this violation. In 1965 ECKSTEIN was convicted for failure to pay Federal wagering tax, which conviction was subsequently overturned. Details regarding his current operation are set forth below in Paragraph 3.

CHARLES FRANCIS LEAHY, JR., a native San Franciscan, in his middle 40's, has been engaged in bookmaking activities throughout his adult life. He was convicted in United States District Court, San Francisco, in 1961 for arrest on 9/28/60 for violation of Title 26, Section 7203, U.S. Code, failure to report and pay wagering tax, and was sentenced to six months in jail and five years probation. Subsequent to his incarceration, LEAHY moved to Medford, Oregon. He returned to the San Francisco area in the Spring of 1969 and resumed his bookmaking activities. During his absence from San Francisco, his ex-brother-in-law, KENNETH JOSEPH ZAHND, reportedly handled his, LEAHY's, bookmaking operation. LEAHY was recently arrested by the San Francisco Police Department on local bookmaking charges and is currently awaiting trial.

2. The types of gambling prevalent in the San Francisco Division are primarily wagering on horse races and sporting events. In addition, small numbers betting with a weekly drawing take place usually in the Spanish-speaking communities. There are also legal and illegal card games operating usually in low-income commercial neighborhoods. Gambling in the division is conducted by individual operators who are independent of each other, except for layoff purposes with respect to bookmaking and there are no indications of hoodlum control over any of these activities.

3. Concerning the extent of gambling in this division, bookmakers ECKSTEIN and LEAHY, named in Paragraph 1 above, operate in the following manner. Both are in daily contact with their accounts located in the Bay area which include other bookmakers for layoff purposes, split bookmakers, and numerous individual bettors.

Bets are placed with these operations generally at locations to which the general public has access, such as bars, restaurants, coffee shops, and other small shops. The "action" received at these business locations are in turn called in to a phone spot operated by a bookmaker who has a gambling relationship with the operator of the business.

ECKSTEIN normally operates with six employees, including two phone men, a bookkeeper, a pay & collect man, and two runners. In addition, he utilizes several split bookmakers as employees. The principal bookmakers and split bookmakers-involved in the ECKSTEIN bookmaking operations are THEODORE CHALMIS, ALBERT DiGERONIMO, ELBERT HEDRICK, MANNY PRONGOS, and ALBERT CARLSON. ECKSTEIN's monthly handle based on informant data, evidence seized by the San Francisco Police Department during recent bookmaking raids, and interviews of bettors is estimated to be approximately $50,000 for horse bets. His sports "action" varies with the season of the year and bettor interests in particular sporting events; however, ECKSTEIN's handle for sports action is estimated to be $40,000 per month.

LEAHY's operation normally consists of a separate phone man for horse racing action and sports bets, at least two pay & collect men, and several runners operating in the vicinity of three San Francisco bars in which LEAHY reportedly has a hidden interest. The persons believed to be associated with LEAHY as bookmakers and/or split bookmakers are ROBERT MAGIDSON, ATTILIO SPAGNUOLA, VICTOR FORNER, KENNETH ZAHND, MORRIS COOPER, and ALBERT CARLSON.

With respect to LEAHY's handle it is to be noted that a review of records seized at the time of his arrest on 8/4/70 discloses a daily handle for horse action in the approximate amount of $2,000 or approximately $50,000 per month. Data regarding LEAHY's sports handle is incomplete but it is estimated that this handle is comparable to that of ECKSTEIN.

Based on a review of available gambling records seized by local authorities on lessor local bookmakers, it is estimated that they have a monthly handle of approximately $25,000 each. Investigation, including contacts with informants and local authorities, indicates there are approximately 20-30 lessor bookmakers operating in the San Francisco Division on any given day. Accordingly, it would appear that the monthly handle for the San Francisco Division is in the approximate amount of one million dollars.

4. Sports line is formed by local bookmakers who receive an early opinion line from sports services located in Los Angeles, California, operated either by GERALD KILLGORE, DOMINICK "SONNY" DeFALCO, or FRANK MILANO. Upon receipt of this line information, the local bookmaker will make his own adjustments, if necessary, to suit his particular situation. In addition, the local major newspapers in this division publish line information on a daily basis prior to a particular sporting event.

Early race results are currently being furnished to local bookmakers by JERI GORDON MATZA who openly operates a sports service at 225 Kearny Street, San Francisco. Investigation has determined that MATZA receives race results by calling either California Turf, Los Angeles, a horse race results business operated by FRANK MILANO, or J & K Sports Journal, North Hollywood, California, operated by GERALD KILLGORE.

5. Since the last inspection, the San Francisco Office has developed SF 2661-C-TE, [who is a key operator within the ECKSTEIN bookmaking organization.] SF 3036-PC, who was targeted at time of last inspection, has been developed to the point where he furnishes detailed information on a weekly basis regarding the LEAHY bookmaking organization. This target is a split bookmaker handling sports "action" for the LEAHY organization. As a result of information furnished by SF 3036-PC and SF 3237-C-TE, LEAHY was arrested by the San Francisco Police Department on 8/4/70 on charges of bookmaking and convict in possession of a weapon.

SF 3090-PC was targeted at the time of the last inspection; however, during the past several months, he has furnished extensive information regarding several large bookmaking operations.

SF 3387-C was developed since the last inspection and was responsible for the initial information and identification of a major bookmaking operation in the East Bay area, including Oakland, California, and Naval Air Station, Alameda, California. The informant's information led to the arrest and subsequent conviction of the two major operators within the organization in United States District Court, San Francisco. In addition, based on informant's information and investigation by this office, there were two arrests and convictions effected by local authorities, Oakland.

222.

51

As a result of extensive investigation in the ECKSTEIN ITWI case, a "shakedown" on the part of ECKSTEIN against a local bookmaker was developed. This investigation has resulted in two major ECT cases involving non-payment of bookmaking debts which are currently under investigation and before the Federal Grand Jury at San Francisco. To date, eight local bookmakers have appeared before the Federal Grand Jury and others will be called. This has had a disruptive effect among bookmakers and has created an atmosphere of distrust.

6. Pursuant to instructions set forth in Bureau letter to SAC Albany 1/27/70 regarding gambling investigations under proposed SB30, a review of gambling cases was undertaken. It should be pointed out that during the past three years, it has been the policy of the San Francisco Office to closely follow the activities of local gambling organizations and/or subjects in an attempt to develop any indication of a Federal gambling violation. Per instructions additional 162 and 165 cases have been opened and investigated. Specifically since 2/1/70, sixty-three 162 cases and ninety-eight 165 cases have been opened.

PART D.

1. The La Cosa Nostra (LCN) continues to exist in the Northern California area and includes a San Francisco "family" and a San Jose "family." There are currently 8 members of the San Francisco "family" residing in this division and 19 members of the San Jose "family" residing in this division. In addition, there are two members of the San Francisco "family" residing in the Sacramento Division, one member in the Los Angeles Division, one in the Chicago Division and two members presently residing in Italy. There are currently 3 members of the San Jose "family" residing in the Sacramento Division and one in the Las Vegas Division. All of these members have been identified as members of the San Francisco or San Jose "families by TE informants of the San Francisco Division.

Four top echelon informants of this division who are members of LCN "families" have failed to indicate that the LCN "families" of this division register any control over gambling, narcotics, prostitution or any other organized illegal activity within this division.

The present leadership of the San Francisco "family" has recently been assumed by ANTHONY LIMA, who took over this position when the previous "boss", JAMES JOSEPH LANZA, stepped down in his favor. The "underboss" of the San Francisco "family" is GASPARE "BILL" SCIORTINO and this "family" has one Capo de Decina, VINCENZO INFUSINO, who resides in Modesto, California, in the Sacramento Division.

The leadership of the San Jose "family" remains the same as at the time of the last inspection report with JOSEPH CERRITO, the "boss," PHILIPPO OCTAVIO MORICI and STEFANO ZOCCOLI, Consiglieris, and one Capo de Decina, EMANUEL FIGLIA. No appointment has been made to the position of "underboss" since the death of the previous "underboss," CHARLES CARBONE, in 1967.

2. There are presently 8 members of the San Francisco "family" and 19 members of the San Jose "family" residing in this territory. All of these members have been identified by TE criminal informants of this division.

TE informants of this office who are members of the LCN or associates of members of the LCN have been alerted to continue to furnish information and identities of any individuals

22

who are associated with the LCN in this territory. SF-2689-C-TE has indicated that the recruits are the "second army" of the LCN and to be aware of and on top of activities of the LCN, it is necessary to identify these recruits. Since the last inspection, TE informants have identified an additional 11 recruits of the San Francisco and San Jose "families" residing in this territory or in the Sacramento territory.

As has been reported above, TE informant of this office reported the change in leadership of the "boss" of the San Francisco "family" when JAMES LANZA stepped down in favor of ANTHONY LIMA.

In addition, informants of this office reported the return to the San Jose area of Consiglieri STEFANO ZOCCOLI, who has been residing in the Los Angeles territory.

3. The following TE criminal informants are members of the LCN in the San Francisco territory:

SF-2550-C-TE
SF-2689-C-TE
SF-2745-C-TE
SF-3208-C-TE

Agents of the San Francisco Division currently involved in the development of TE criminal informants and in AR investigations are contacting the following PC targets who are members of the LCN in this territory in an effort to develop their cooperation:

SF-2545-PC
SF-2501-PC
SF-2630-PC
SF-2874-PC
SF-3013-PC
SF-2582-PC
SF-2886-PC
SF-3132-PC
SF-3141-PC
SF-3242-PC

Of the above LCN member targets, SF-2501-PC, SF-2874-PC and SF-3141-PC, in contacts to date, have furnished some cooperation and it is felt that with continued contacts, these targets offer excellent potential. In addition, from contacts to date, SF-2[illegible] and SF-3013-PC have also expressed some cooperation and it is felt offer good potential as targets under the TECIP.

228.

PART E. TITLE III OF THE OMNIBUS CRIME CONTROL AND SAFE STREETS ACT OF 1968

1. All agents assigned to Squad #4, handling CIP matters, are thoroughly familiar with all aspects of Title III.

2. Yes. See 3. below.

3. Since the last inspection, extensive investigation, as previously reported herein, has been conducted in the GIUSEPPE CONFORTE; ETAL case. During recent weeks, an affidavit for a Title III electronics surveillance has been prepared with the assistance of the Departmental attorney at San Francisco. This case, as well as the affidavit, has been discussed with the Organized Crime Section, Department of Justice, by the Departmental attorney and it is agreed that upon completion of investigation currently being conducted by the Honolulu Office, these results should be added to the affidavit and immediately submitted to the Bureau and the Department for approval.

ADDENDUM.
INSPECTOR ARNOLD C. LARSON:
10/27/70
OFL:dp

The following comments are based on a review of information of pending files and interviews with appropriate personnel:

LA COSA NOSTRA (LCN)

Investigation by your office revealed the existence of two LCN "families" within your territory. Membership within these "families" total 64 individuals. Your investigation revealed neither "family" is considered to be very strong and has little or no illegal operations being conducted on a day to day basis.

One "family" is centered in the San Francisco area and has for the past few years been headed by James Lanza, an attendee at the Apalachin meeting in 1957. Lanza has recently stepped down as boss of the San Francisco "family" and has been replaced by Toni Lima. Your investigation reveals that Lima's leadership has not been approved by the "commission." You should follow this matter closely so you will be in a position to know all activities relating to this change in position.

The second "family" is centered in the San Jose area and is headed by boss Joe Cerrito. This "family" exhibits little enthusiasm for illegal operations. You should closely follow the activities of members of this "family" to insure that any illegal operations are immediately known to your office.

Organized Crime

Although prostitution, gambling and narcotic activities exist within your division, there is no indication from your investigations that these operations are controlled by either the LCN or other organized groups. Your investigations should be continually pursued with vigor in order that your office will be aware of any illegal operations within your division. This is particularly true in regard to gambling activities in view of the recent passage of Senate Bill 30.

As you are aware provisions of Senate Bill 30 made it a Federal crime in certain gambling operations and it will not be necessary to prove interstate aspects of the gambling activity.

Top Echelon Criminal Informant Program (TECIP)

The following is an analysis of your Top Echelon Informant Program at this time as compared with the last inspection:

Rating	Last Inspection	Present Inspection
Excellent	4	3
Very Good	2	3
Good	1	3
Fair	0	1
Poor	0	0
Insufficient Data to Rate	0	0
Totals	7	10

It is noted your office has penetrated the LCN "families" in both San Jose and San Francisco through the development of member informants. This is very noteworthy and you are encouraged to make certain that your member informants are utilized to the best advantage of the Bureau. Also, it is noteworthy that you have increased your TE coverage from 7 to 10 since the last inspection.

SF 3058-C-TE (San Francisco file 137-4670; Bureau file 137-17455) was rated fair because of a lack of productivity. You should follow instructions issued in Bureau letter dated July 14, 1970 and if this informant is unproductive for four months subsequent to the receipt of that letter the informant should be closed.

Although SF 2745-C-TE (San Francisco file 137-3456; Bureau file 137-11174) was rated good, his progress should be closely followed. Although he is noted to be a member informant the file indicates he is very sick with varicose veins and is very old. The majority of information furnished by this source has been of a nature of past activities and little present information is being furnished by him. You should endeavor to have him furnish more productive recent informant or give consideration to concentrate on a more productive source.

231.

A review of your file 137-5207, Bureau file 137-20313 concerning SF 3208-C-TE indicates the source was last contacted on June 26, 1970. The file indicates this source sold his business and left for Los Angeles and this information was learned by your office on August 13, 1970. The file also indicates this TE left the New York area because of being a victim of a shylock loan. In view of this information you should closely follow this informant's activities and be circumspect in dealing with the informant to prevent any possible embarrassing situation from arising.

The following is a rating of the PCs and a comparison with the ratings at the time of the last inspection:

Rating	Last Inspection	Present Inspection
Excellent	0	1
Very Good	6	7
Good	11	24
Fair	1	3
Poor	1	1
Insufficient Data to Rate	20	10
Totals	39	46

It is very encouraging to note that you have increased your targets from 39 from the time of the last inspection to 46 at the time of this inspection. You are encouraged to continue this most desirable trend.

SF 2123-PC (San Francisco file 137-4945; Bureau file 137-11841) was rated fair. This target was opened on April 8, 1968 and was last contacted on October 10, 1969. You advised that contact is being held in abeyance pending a surveillance which was conducted by the Oakland Police Department in early 1970. In view of the length of time since this case was opened and the length of time since this target was contacted he was rated fair.

SF 2630-PC (San Francisco file 137-2967; Bureau file 137-9023) was rated fair. By letter dated December 10, 1968 the Bureau advised that this target was over two years old and that you should consider deleting within four months if he was unproductive. This informant was also rated fair during the last inspection because of lack of productivity.

The only reason this informant is being classified fair, instead of poor is because information contained in your letter to the Bureau dated September 18, 1970 wherein your informant reported information was furnished by a TE to the effect that the present "boss" of the San Francisco LCN "family" had been discussing leadership of the San Francisco LCN with the target. You are instructed that in the event he does not furnish valuable positive information within 90 days he should be closed and a more suitable target developed.

SF 3061-PC (San Francisco file 137-4768; Bureau file 137-17558) was also rated fair. This target along with the other two targets rated fair should be closely followed for 90 days and be given specific assignments during that period of time. In the event they are unproductive they should be closed.

SF 2582-PC (San Francisco file 137-2698; Bureau file 137-8249) was rated poor and should be closed.

In regard to your PCs, the following specific instructions are being furnished you:

SF 2656-PC (San Francisco file 137-3086; Bureau file 137-9425) was rated good because of his being close to San Jose LCN member Dominick Anzalone and Pittsburgh LCN member George Adragna who recently moved to San Jose. He is also close to LCN "recruit" Vito Adragna. It is noted that this target has been opened for a period of more than one year and has been furnishing general rather than any specific information. You should encourage this informant to furnish some specific information concerning these people who he is close to in order that he may be retained as a target of your office.

SF 3318-PC (San Francisco file 137-5545; Bureau file 137-22526) has been a target of your office since December 26, 1969. Unless your office is in possession of some specific information to the contrary he should be immediately interviewed to determine whether he will be cooperative with your office.

233.

60

SF 3135-PC (San Francisco file 137-5010; Bureau file 137-19079) was opened on May 17, 1968. During the two inspections since he was opened this PC was rated Unsufficient Data to Rate. On November 20, 1969 you advised that an interview of this PC was being held in abeyance pending an investigation by the Oakland, California Police Department. The file indicates that that investigation was completed on August 6, 1970 with your target paying a $125 fine. On August 19, 1970 you advised that interview of the target was being delayed pending further investigation. You are instructed that this interview should be immediately conducted in order to determine if this target will be cooperative with your office.

SF 3297-PC (San Francisco file 137-5457; Bureau file 137-22106) was opened on October 17, 1969. The file indicates that this target has never been interviewed and you indicate that contact with the target is being delayed until a more logical area of vulnerability is developed. Inasmuch as this target is over one year old it is felt that sufficient information should be developed so that your office might approach this target to determine if he will be cooperative with your office.

SF 3192-PC (San Francisco file 137-5016; Bureau file 137-10982) was opened on May 21, 1968. SF 3110-PC (San Francisco file 137-2182; Bureau file 137-22452) has been opened since December 8, 1969. It would appear that sufficient time has elapsed in order for your office to develop background information so that an interview of these targets can be conducted. You should without further delay interview these targets to determine if they will be cooperative and if not you should consider closing and finding more suitable targets for development.

Information you furnished indicates there are ten SAs who are working either exclusively or virtually exclusively on the CIP and IGA program who have not developed TEs. Although all ten Agents have PCs their progress should be closely followed to insure their participation in the development of TEs. In this regard you may desire to reiterate provisions of the Manual of Instructions to the Agents on the program concerning the qualifications of TE informants.

All Agents are to be reminded that in dealing with informants, they are to be particularly alert and not leave themselves open for criticism or false accusations. The importance of having an alternate contacting Agent or another Agent along during the course of certain interviews is advisable in case any compromising situation is attempted.

With the recent enactment of Senate Bill 30 you should concentrate on increasing your informant coverage in the areas covered by this legislation. Also in regard to the passage of Senate Bill 30 dealing with gambling, which you are aware does not now require interstate activity, you should not overlook the utilization of your racial informants to furnish information to your office concerning gambling activities. Other divisions of the Bureau have been particularly successful in coordinating the information from racial informants in to the CIP and IGA programs.

Statistical Accomplishments

During the fiscal year (fy) you recorded two convictions in the CIP-IGA category. During the fy 1970 your office had three convictions. During the first three months of fy 1971 you have recorded one conviction in this category.

According to the information furnished by your office you have four cases pending prosecution, two of which are in the 159 (LMRDA-IM) category and two are in the 92 (Anti-Racketeering) category. Only one of these cases is in the CIP-IGA program. A review of your files indicates that in file 179-24 in a case captioned JAMES FRATIANNO, EXTORTIONATE CREDIT TRANSACTION (ECT), the subject was indicted under Title 18, Section 894 of the U.S. Code. Your office was working the case under Anti-Racketeering classification and the file was opened after the ECT indictment.

In regard to the possible statistical accomplishments, from the above file it would appear the local office of the United States Attorney will seek indictments under the ECT statute. A review of your cases in this category reveal only three Office of Origin cases. The files also indicate instances wherein there are shylocking activities among the gamblers where there are large debts outstanding. A review of your

235.

file 165-100 on Kenneth Joseph Zahnd, aka; Morris Cooper, ITWI, indicates the local office of the United States Attorney appears to be in no rush to seek Grand Jury indictments on gambling matters. If the local office of the United States Attorney will entertain prosecution under ECT and is in no rush to seek indictments under the gambling statute, you should review at squad conferences with Agents assigned to the program provisions of SAC letter 68-46 dated August 20, 1968 wherein provisions of the ECT statute are set forth.

In relation to statistical accomplishments, prior experience has shown a direct relationship between Office of Origin cases in a particular classification and statistical accomplishments. As of September 30, 1970 your monthly administrative report reflects the following Office of Origin cases in the categories enumerated:

Classification	Office of Origin Cases
92	22
143	0
144	0
162	22
165	50
166	128
168	0
172	1
179	2

A review of the monthly administrative reports since the last inspection indicates your office of origin cases has remained fairly constant since the last inspection. With the increase of manpower on this program and the addition of informant development since the last inspection it is anticipated that your office should be in position at this point to begin to show results in regard to the statistical accomplishment phase of this program.

Supervision And Manpower

The CIP and IGA program is supervised by Supervisor Charles N. Hiner. Discussions with Supervisor Hiner and personnel assigned to the program indicate a very enthusiastic approach to the problems involved in this program.

236.

Immediately prior to the last inspection, by letter May 29, 1970 captioned "CRIMINAL INTELLIGENCE PROGRAM, ASSIGNMENT OF ADDITIONAL MANPOWER," you advised the Bureau of the addition of ten Agents to be assigned exclusively to this program. Your success since that time has been noted by the addition of one conviction in 1970 vs. 1969. Also you have added three TEs to the program and seven additional PCs. This is to your credit and you are encouraged to continue this favorable trend. However, the collection of intelligence information, though very important, is only one phase of this program. The other phase of the program which must receive close supervision and personal attention is the obtaining of convictions to fulfill the Bureau's responsibility toward statistical accomplishments.

In regard to statistical accomplishments, other divisions of the Bureau have been very successful in the utilization of Title 3. The utilization of Title 3 requires extensive use of manpower and if the Title 3 you are presently awaiting approval is approved you should judiciously use manpower in the operation of the Title 3 installation.

In regard to the utilization of manpower, it is imperative that all Agents assigned to this program show the necessary zeal to accomplish the desired results of intelligence information and statistical accomplishments. In the event any Agents assigned to the program fail to show the necessary enthusiasm consideration should be given to the reassignment of those Agents to other squads.

Administration And Files

Several instances were noted wherein the "pink sheet" were not completed although the informant files have been opened for a considerable period of time. The following are instances of this:

137-2341
137-5545
137-5651
137-5688
137-5650
137-5597
137-5323

137-5457
137-3813
137-3241
137-5293
137-5423

237.

There were four instances wherein you were instructed during the last inspection to complete the pink sheet and although 14 months have passed since last inspection these pink sheets have not been completed. While failure to complete the pink sheet when instructed does not necessarily indicate an Agent's enthusiasm in working this program, it does not show the desired attitude. These four instances are as follows:

137-4768
137-5015
137-4945
137-5016

A review of your 162 files indicates several instances wherein Bureau instructions were not followed. These Bureau instructions were set forth in Bureau airtel dated April 2, 1969, captioned "INTERSTATE GAMBLING ACTIVITY MATTERS." This is found in your file 162-00-21. Briefly, these instructions stated that the 162 classification should be reserved for "intelligence-type" inquiries and that substantive cases should be opened under the proper classification. These files which were opened on individual gamblers were as follows:

162-897
162-896
162-893
162-885
162-883
162-902
162-903
162-892
162-899
162-733
162-900

A review of your 166 files indicates cases which appear to be of dubious prosecutive potential and you should closely follow these cases to insure that when it is determined they are of no intelligence or prosecutive value these cases should be immediately closed. Instances are as follows:

238.

166-1628
166-1510
166-1491
166-1550
166-1551

Dissemination

Your office has been very successful in obtaining favorable results in dissemination of information to local law enforcement agencies concerning local violations developed during the investigation. You are encouraged to continue this favorable trend; however, you should bear in mind that violations that were strictly local in nature previously may now be covered by the recent enactment of Senate Bill 30. Those which are determined to be Federal violations, of course, should be prosecuted in Federal court.

New Legislation

A review of your files indicates you have complied with Bureau letter dated January 27, 1970, concerning the then proposed Senate Bill 30. You should closely follow guidelines formulated by the Bureau in regard to this new legislation in order that your office will be abreast of the latest information so that the Bureau's responsibilities in the organized crime field can be fulfilled.

Observations and Instructions

(1) Provisions of Title 3, the Extortionate Credit Transaction statute and of the Manual of Instructions concerning the qualification of TEs should be reiterated to all Agents on the program at squad conferences.

(2) You should stress to all Agents on the program the necessity of developing quality TEs.

239.

68

(3) You should stress the necessity of proper utilization of Title 3 installations as other field divisions have been very successful in this regard in obtaining a backlog of potential statistical accomplishments.

(4) You should concentrate on quality cases which have prosecutive potential which will obtain the desired statistical accomplishments.

(5) You should keep abreast of policy in regard to new Senate Bill 30 so that the Bureau's responsibility in this regard can be fulfilled.

Comments of Supervisor HINER and SAC requested.

SAC ROBERT E. GEBHARDT

Inspector's in-depth analysis and favorable comments regarding positive results achieved in the Criminal Intelligence Program are appreciated. You are assured the observation and comments will be closely followed and implemented.

SELECTIVE SERVICE MATTERS 4-M-5

INSPECTOR ARNOLD C. LARSON: The following comments, observations, recommendations and instructions are being made after an in-depth review of a representative number of your Selective Service Act matter cases and administrative files along with conversations with supervisory and Agent personnel and review of the answers to questions in a separate yellow (4-M-5):

The San Francisco area is a haven to draft dodgers and this undesirable situation will not be reversed until we make this area unattractive for "bums,""hippies," and members of white and black extremist groups who come to San Francisco in order to avoid the draft. Several obstacles must be surmounted in order to reverse this undesirable situation. The indifferent attitude that the judges have displayed to date must be reversed towards a tough handling of Selective Service Act violators. Supervisory and Agent personnel must maintain an aggressive attitude and continue to be a leader in streamlining processing procedures by the United States Attorney's Office and various Selective Service Boards to insure that these violators are promptly prosecuted in the courts. Every technique available to the Bureau should be used to get the judges, United States Attorney and public riled up about this ridiculous situation. Aggravated violators should be put in jail.

There are 2,983 "hippie-type" communes in the San Francisco Division comprising in excess of 20,000 population. 1,050 of these communes are located in the Berkeley and Oakland areas comprising in excess of 10,000 population and 43 communes are known to be violently oriented. Your office has eight subjects who have committed Selective Service Act violations that are members of white and black extremist groups. Every effort should be made to take these individuals out of circulation by placing them in jail. Information concerning their activities with extremist groups should be furnished to the probation officers so that they can so inform the judges in their presentencing report. All Agents handling Racial Matters and Selective Service Act matters should be periodically reminded to be on the alert

SAN FRANCISCO INSPECTION

to identify members of the Black Panther Party, Students for a Democratic Society, and other members of extremist groups who are in violation of Selective Service Act matters. These should be promptly discussed with the United States Attorney for expeditious handling.

There are several reasons why the draft dodgers come to this area to beat the draft, however, the six most important reasons are as follows:

1. Nation-wide publicity during the last three years concerning San Francisco being a haven for draft dodgers.

2. The apathetic attitude of the United States District Judges. Sentences have been very light and many decisions were adverse due to technical grounds which made prosecution of additional cases difficult.

3. Large panel of attorneys, most, if not all, of them of civil liberties inclination, was formed a few years ago in San Francisco under the auspices of the U. S. District Court for the purpose of defending Selective Service Act violators. The attorneys are appointed from this panel, by the court, when a man cannot afford his own attorney. The expenses for the violators' defense are paid out of the U. S. Legal Assistance or Public Defender Fund in San Francisco. Many of these attorneys have not only defended inductees who refused to step forward for induction, but have furnished legal advice and assistance to various Resistance movements in the area.

4. The Resistance, a loose organization in various colleges throughout the United States, has counsellors who assist registrants in deciding what their rights and possibilities are under the Act. The Resistance has several offices in various parts of Berkeley, Oakland and San Francisco where men can go for advice.

242

4 M-5

5. Investigations have developed strong indications that there is a loosely organized movement by registrants to deliberately crowd the court calendars in San Francisco to make the reaching of any one man as slow as possible. This will also give the violator the opportunity of getting the indictment against him dismissed alleging that the defendent cannot receive a speedy trial.

6. The former United States Attorney had on his staff an assistant handling 25 cases who had never served in the Armed Forces and was outwardly sympathetic towards the Selective Service Act violators. The new United States Attorney has a good attitude towards the prosecution of these violators, however, he has not completely replaced the staff of the old United States Attorney.

A major portion of the Selective Service Act violations in the San Francisco Division pertains to the inductees failing to step forward to be sworn into the Armed Forces, thereby refusing induction. The Armed Forces Examining and Entrance Station located in Oakland, California handles all inductions for Northern California and part of Nevada and handles approximately five per cent of all inductions in the United States.

Approximately 38 per cent of all refusals for induction into the Armed Forces arise at Oakland, according to the Department of the Army statistics. Many registrants from all over the United States come to the San Francisco area for the specific purpose of having their local draft board changed to this area, and after meeting all other requirements for induction, refuse to step forward to be inducted knowing that they will have two years or longer of freedom due to the slow handling of these cases by the Selective Service Board, United States Attorney's Office and the courts. San Francisco has several cases where the violations are over two years old in which no prosecutive action has been taken.

It is evident from the backlog of cases awaiting trial (414), backlog of cases awaiting prosecutive action by the Federal Grand Jury (749) and the fact that these violations are being received by your office at the average rate of 175 cases per month, that something must be done to get these cases before the courts. The most aggravated cases should be singled out and tried first, particularly those individuals who are members of extremist groups. Experience has shown that after several subjects have received rigid sentences, and a widely publicized trial, that many subjects enter guilty pleas hoping for lesser sentences by avoiding the Government the expense of a trial.

It is recognized the San Francisco Division has been most forcefully making every effort to expedite the handling of these cases, particularly through the judiciary. Indications are that the relatively newly appointed United States Attorney is sympathetic and receptive to the problem and is making an effort to diminish the backlog of cases awaiting Grand Jury presentations, but it is recognized once an indictment is returned, it is then up to the judiciary to proceed through the final step, to which they have not been particularly receptive. They have not responded enthusiastically to handling these matters in Federal Court.

It is obvious the Federal Judges in Northern California (San Francisco Division) have resisted any and all pressures brought to bear upon them concerning this problem. In my analysis of this situation, I have determined that the United States Attorney's Office, personnel of the FBI, and Selective Service personnel have all attempted to influence the Judges in handling these matters more expeditiously to no avail. Furthermore, within recent months there has been wide-spread nation-wide publicity relative to their coddling and minimizing this particular problem. This apparently has had no effect upon them. It would, therefore, appear that the various Federal Judges will not react to this problem unless some superior influential individual or group can forcefully bring this matter to their attention, particularly if such individual or group is one which the Federal Judges would respect. The obvious answer is the Administrator of the Courts for the Federal Judicial System in Washington, D.C. and/or Chief Justice of the Supreme Court, WARREN BURGER.

You are, therefore, instructed to suggest to the Bureau that the contents of the letterhead memorandum setting forth this overall problem be brought to the attention of the Attorney General with the further suggestion that the Attorney General bring this matter to the attention of the Administrator of the Courts of the Federal Judicial System and/or Chief Justice BURGER for his analysis and information, and the further suggestion he may desire to communicate with the Chief Federal Judge in San Francisco relative to these matters.

SAC, ASAC, Supervisory and Agent personnel should take advantage of every opportunity to personally discuss this aggravated situation with the United States Attorney, Selective Service Board officials, SAC contacts and other prominent individuals to get them riled up about this ridiculous situation. Insure that continuous close liaison is maintained by supervisory and Agent personnel with United States Attorney's Office and various local draft board officials to insure that these cases are promptly processed and prosecuted.

Your office in April, 1969 suggested to the former United States Attorney that arresting several inductees on the spot might have a favorable effect upon lowering the rate of refusals at the Oakland Induction Center. The only objection given by the former United States Attorney was that the case of the registrant must be presented to the Federal Grand Jury within two weeks after arrest. Due to your effective liaison, most of the "bottlenecks" have been worked out between the Selective Service Board and United States Attorney's Office in which these arrests can now be effected. You should be alert to members of extremist groups who will fail to step forward at the time of their induction and appropriately arrange with the United States Attorney for authority to arrest these individuals on the spot. You should insure that such arrests are given adequate press coverage. Such plans should be brought to the attention of the Bureau for their consideration in making a national press release, if warranted.

You must closely coordinate Selective Service Act cases with Agents handling extremist groups such as the Black Panther Party, Weatherman, SDS, etc. These files should be cross-referenced by appropriate memoranda.

245.

Statistical Accomplishments and Administrative Handling of Cases

As of 9/30/70, you had 1,873 origin Selective Service matters (1,799 active and 74 inactive). Between March and September 1970 you received 1,186 Selective Service Act matters for investigation, an average of 169 (1,186 - 7) per month. As of 10/23/70, 1,163 of the origin cases were completed. 749 cases are awaiting the United States Attorney's (USA) prosecutive decision, and 414 cases involve indictments of subjects and are awaiting trial. The case load is split about in half between Headquarters City and Resident Agents. 17 Agents are assigned to Squad 6 who handle only Selective Service Act (SSA) matters and their informants. One Agent has been on extended sick leave. Approximately 18 Resident Agents spend between 60 to 100% of their time on Selective Service Act matters. During the fiscal year 1970, ending 6/30/70, you recorded 74 convictions and for the first four months of fiscal year 1971, ending 9/30/70, you have recorded 9 convictions.

The procedures followed by your office concerning the immediate handling of subjects who refuse to step forward at the Armed Forces Examining and Entrance Station, Oakland, California, appear to save Agent time and Government expense and should be continued. It is noted, however, that several months elapse between the time the Subject is interviewed and the time the United States Attorney makes his prosecutive decision since he insists that the Selective Service file be processed and forwarded to his office by the State Director of the Selective Service Board. You should have Headquarters city Agents continue close liaison with Selective Service Boards and the United States Attorney's Office to insure that these cases receive expeditious processing and are presented to the Federal Grand Jury at an early date.

Current administrative procedures being followed in these refusal type cases are as follows:

The Induction Officer at the Armed Forces Examining and Entrance Station, Oakland, California, calls an Oakland Agent when there is going to be one or more inductees who will refuse to submit to induction. Inductions are handled on a Wednesday of each week. The Special Agent witnesses the refusal, conducts a short interview of the Subject, and in almost every instance secures an admission from the Subject that he knew he was violating the law and that he had thought

246.

about this matter carefully before refusing to step forward. The Agent during this interview obtains the Subject's current address which is generally different from the one he furnished the Selective Service Board. The Agent places the Subject on notice as to what probably will occur as to an indictment, summons, etc. The Subject is cautioned to remain in touch with his Local Draft Board in order to avoid being a Bureau fugitive.

A case is immediately opened and assigned to the Oakland Agent who prepares a report. Information copies of the report are furnished to the local USA, San Francisco and the field office and the USA covering the Subject's draft board when located in another division. It is the USA's opinion (San Francisco) that the refusal to step forward takes precedence over any prior delinquencies and will be handled by the USA, San Francisco. Instructions are given in leads to Headquarters city Agents and/or auxiliary offices to closely follow the Local Board to insure that all pertinent information regarding the Subject is promptly furnished to the USA, San Francisco.

In order to streamline the administrative handling of these matters as well as keeping the Bureau fully informed of the activity you are taking in these matters to insure prompt prosecutive handling, the following instructions should be followed:

All refusal cases and all other cases in which the investigation is completed should be reassigned to three or four Headquarters city Agents. These Agents will have the responsibility of getting these cases to the Federal Grand Jury and on the trial calendar. Those cases in which the subject becomes a fugitive should be reassigned to another case Agent.

At the present time there are 1163 cases pending prosecutive action. In order to eliminate status letters and reports to the Bureau in these type cases, the following procedures should be followed.

Memos to the SAC should be placed in individual files to keep them from becoming delinquent. When the Subject is indicted the Bureau should be immediately advised in each individual case. Beginning 10/30/70 and continuing on the 15th and 30th of each subsequent month, you are to advise the Bureau, by letter, entitled "SELECTIVE SERVICE ACT MATTERS, SAN FRANCISCO DIVISION" of the activity conducted,

247.

which would include the total number of cases presented to the Federal Grand Jury during the prior two week period, identifying each case by San Francisco file number, Bureau file number and title; the number of cases completed and awaiting Federal Grand Jury action; number of new cases received for investigation and general comments concerning the attitude of the USA's Office and U.S. District Courts concerning these matters. Also you should comment on any favorable publicity being given these matters by the local press media.

In the refusal cases the Bureau should be specifically advised of the status of a case within five months after the violation. The USA should be requested to advise of the prosecutive action he intends to take in each case and this information reported in the individual file.

It is felt that better liaison can be maintained with the USA's Office when only two or three Special Agents present these cases in a group thereby eliminating 30 to 35 different Agents presenting their cases separately. The Bureau will be kept advised on a semi-monthly basis of the activities of your office in getting these SSA matters through the courts. The above procedures will eliminate the dictation and typing of approximately 750 pages each month.

There are a sufficient number of SSA cases in Berkeley, Oakland, San Jose and San Francisco for your consideration of having a Special Clerk handle the review of Selective Service Board records. You should closely review these situations in these particular areas and if warranted recommendations for hiring Special Clerks.

ADMINISTRATIVE MEMORANDUM

Administrative Handling of Theft From Interstate Shipment Cases in the San Francisco Division

INSPECTOR ARNOLD C. LARSON: During the course of the inspection of the San Francisco Office a review was made of 140 Theft From Interstate Shipment cases. Instances were noted wherein Bureau Regulations concerning the handling of these cases were not followed. Set forth below are instances noted during this review:

In the following cases, it was noted the amount involved appeared to be a minor amount and there appeared to be no aggravating circumstances concerning these violations. In some instances concerning the cases which originated at the San Francisco Airport, it was noted the file indicated there was a possibility of an individual at the airport being involved in the theft. However, it is felt it is not necessary to keep open all the minor cases in order to determine which, if any, employees at the airport may be involved. These cases where minor amounts are involved are as follows:

The FBI Handbook, Part III, Chapter 73, Paragraph F, Page 192, states as follows:

> "If complaint is received involving a minor Theft From Interstate Shipment where there are no known aggravating or unusual circumstances, immediately present facts to USA for prosecutive opinion. If USA will not consider Federal prosecution, conduct no investigation, advise complainant, and, where appropriate, refer matter to law enforcement agency having jurisdiction. Confirm to USA and complainant in writing opinion and action taken."

None of the aforementioned cases reviewed indicate you are referring minor violations to the U. S. Attorney to determine if he would prosecute in the event a subject was identified.

There were numerous incidents wherein information had been received and the file contained no FD-302s and no indication that the FD-302s had been dictated.

The following is a list of these files which includes only those files wherein the case is at least 15 calendar days old. These files are identified as follows:

(b) "Information not in a signed statement received from a witness and concerning which the witness may testify" should be reported on the Form FD-302.

(c) "Information which may be the subject matter of testimony of a Bureau Agent" should be reported on the Form FD-302.

Four instances were noted wherein serial numbers have been obtained and, although sufficient time had lapsed, the serial numbers had not been entered into NCIC. These cases are as follows:

15-12006
-11994
-11965
-11877

The Manual of Rules and Regulations, Part II, Section 3, Paragraph F, Page 31 and following pages lists the procedures for entering serial numbers of stolen items into NCIC.

In your file 15-11918 a case was opened wherein the opening memo states there is no Federal violation involved. The alleged purpose of opening this case is because the person who is responsible for this theft may have been involved in a theft wherein FBI jurisdiction was apparent.

Explanations Requested

Supervisor GLENN A. HARTER is requested to explain the following:

251.

1) Why, in his supervision of these matters, he failed to insure that cases involving minor thefts were immediately presented to the U. S. Attorney for prosecutive opinion in accordance with existing Bureau instructions.

2) Why, in his overall supervision, he failed to detect that FD-302s were not prepared in the aforementioned cases.

3) Why he failed to detect that serial numbers in the aforementioned cases were not entered into NCIC.

4) Why a case was opened on 15-11918 when the opening serial indicated no Federal law had been violated.

Comments of SAC requested.

252.

SUPERVISOR GLENN A. HARTER: 1) This office received a
10/28/70 letter from the U.S. Attorney dated 6/24/69 wherein the U.S. Attorney advised that they would not undertake prosecution of minor theft cases. The letter set the guide as those cases of value of less than $100. This office has been following the interpretation of minor thefts as those having a value of less than $100. It was the judgment of this office that about all of the airport thefts involved amounts in excess of $100. It appears that an average loss at the airport would average an estimated $250, it being noted that the airline companies currently are paying up to $500 per bag. Therefore, these cases were not judged to be minor cases and had not been discussed with the U.S. Attorney as their value exceeded $100. In following this policy San Francisco believed that they were in compliance with Section 94 of the Manual regarding presentation of minor cases to the US. Attorney. In the future this office will immediately present cases of the type cited by the Inspector to the U.S. Attorney before any investigation is conducted and will consider suitcase type thefts as minor cases.

2)Submission of FD 302s. Regarding the fact that I had not detected that FD 302s were not included in the 25 files listed by the Inspector, I would like to explain that 13 of these files were opened after September 22 and I had not reviewed any of these files as yet on tickler and thereby would not have had an opportunity to detect the fact that the FD 302 was not listed. The remaining files have not all been available for review at this time but it is obvious that some of these files did not have FD 302s prepared promptly.

3)NCIC Entries. Three of the four files listed where NCIC entries had not been made had not as yet been reviewed on ticklers since they had been received in this office. One of the four files, 15-11994, reflects a suitcase claim check number which is not suitable for entry into the NCIC.

4) File 15-11981 was recommended to be opened by the case Agent as he felt that this shipment involved personnel and circumstances which would be logically worked in connection with other existing TFIS cases and that it might be a lever for possible informant development. The Agent hoped to work this case even though it was not a Federal violation and obtain an

253.

82

informant and utilizing the Subject's complicity in the case as a possible lever. It was believed that he could obtain a criminal informant.

I regret very much that it was necessary for the Inspector to call to my attention the matters referred to in this administrative write-up. I will take the necessary action to insure that minor cases are immediately presented to the U.S. Attorney, that FD 302s are immediately prepared, that NCIC numbers be immediately entered where pertinent so that it will not be necessary for these matters to be called to my attention again.

254.

SAC ROBERT E. GEBHARDT: The USA advised this office by letter dated 7/16/69 that the FBI should no longer present minor theft cases to the USA's office and that these cases should be deferred to local courts. The office has followed the policy set down by the USA and has utilized his guideline of $100 as a minor case. In view of his policy, the office has not been receiving minor theft cases, as the local business community has been made aware of the policy of the USA and has not been referring minor cases to the office.

Occasionally some minor case is received from someone not aware of the policy of the USA's office in not prosecuting cases having a value of less than $100. In the future when a complaint is received regarding a minor theft, the case will be immediately presented to the USA and after his declination, the office will advise the complainant and the USA's office in writing and where appropriate, refer the complaint to the local law enforcement agency having jurisdiction over the violation. This procedure will be in line with the requirements in the Manual of Inspection, Section 94.

255.

ADDENDUM

INSPECTOR ARNOLD C. LARSON: In regard to your answer to this write-up, the following is pointed out to you:

1. Your answer implies the inspector indicated that all suitcase-type thefts are minor thefts. This is completely inaccurate as each case, whether it be a suitcase or otherwise, has to be judged on the merits of the individual case. In the review of 140 cases there was not one single instance wherein the United States Attorney had been consulted to determine if the case was a minor amount and he would not entertain prosecution even if the subject were identified.

2. Concerning the submissions of FD-302's to the file, the following is a tabulation of cases over two months old in which no FD-302 is in the file:

FILE NUMBER	DATE OPENED
15-11918	8/14/70
15-11816	7/6/70
15-11814	7/2/70
15-11947	8/26/70
15-11818	7/10/70
15-11902	8/25/70
15-11939	8/28/70
15-11933	8/21/70

Although the remainder of the 25 files pointed out to you did not contain FD-302's and the files had not come up on ticklers for your review, it is apparent with this number of files without FD-302's the Agents are not receiving adequate instructions in conferences concerning proper preparing of FD-302's in TFIS cases.

256.

3. Although it was pointed out to you wherein NCIC entries on serial numbers had not come up for administrative review, it is apparent that several Agents on your squad have not been properly instructed in the necessity of immediately entering serial numbers into NCIC. It should not be necessary for you to have to remind Agents on your squad on a periodic file review of the necessity of entering serial numbers into NCIC. They should not wait an extended period of time to enter these numbers in NCIC, but the serial numbers should be entered immediately after they are obtained.

4. File 15-11981 was of a purely local nature and should have been worked out of the related Federal violation case rather than open a separate TFIS case wherein no Federal jurisdiction was indicated in the opening serial.

Supervisor HARTER and SAC note.

INSPECTOR ARNOLD C. LARSON: This is a pending case, opened on 3/16/67, assigned to SA GERARD JAMES NORTON of the Richmond, California, Resident Agency. It is supervised by SA RAY M. ANDRESS.

A review of this file reveals the Subject was declared delinquent by Local Board #30, Richmond, California, on 3/9/67, for failure to report for induction on 8/17/66. The whereabouts of the Subject have been unknown since 3/16/67, and considerable investigation has been conducted to locate him. Information was developed in March, 1970, that Subject was possibly in Canada and a friend of Subject's mother advised in September, 1970, that the Subject is in Canada, but that his mother does not have an address for him. The Subject is reported to telephone his mother on occasions. Other neighbors and police have reported Subject to be in Canada at the present time.

In view of the above, the following action should be promptly initiated in an effort to ascertain the location of the Subject:

1. Prepare a letterhead memorandum, in accordance with instructions set forth in the Manual of Rules and Regulations, Part II, Section 4, page 14 (2) (a) I and SAC letter #70-27, dated 5/19/70, in order that information regarding the Subject may be furnished to the Royal Canadian Mounted Police.

3. Place stop, under Subject's name, with the FBI Identification Division.

4. Place stop notices with the appropriate FBI Border Offices.

5. Check toll telephone calls on Subject's parents.

If the objective of this case is obtained, either directly or indirectly as a result of this suggestion memorandum, advise the Bureau by routing slip, attention: The Inspection Division.

INSPECTOR ARNOLD C. LARSON: This is a pending case in the San Francisco Office which was opened in July 1969 and is presently assigned to SA JEAN G. HUGHES. It is supervised by SA H. ERNEST WOODBY.

Extended investigation has been conducted since inception of this case in the neighborhood of Subject's parents, 1132 South Sage Court, Sunnyvale, California. When case was initiated, it was determined Subject's family had moved from 870 El Camino, Mountain View, California, the address shown on Subject's DD 553 in 12/68 which was prior to Subject's reported absence from the military in 4/69. Subject's parents have appeared to be cooperative and although present neighbors of Subject's parents are not well acquainted with the Subject, they are cooperative and a neighborhood source has been established.

Subject entered military service in 9/66 at San Jose, California, at which time he was approximately 20 years of age. Since initiation of this investigation, additional past residences have been developed for Subject's parents at 278 Lassen Avenue, Mountain View, California in 9/63; 620 East Mauded Avenue, Sunnyvale, California in 7/68 and 1390 Latham Street, Mountain View, in 7/68. A neighbor has indicated Subject may have a brother but could furnish no specific information concerning his identity. Attempts to establish residence at the Latham Street address have been negative. Mail returned to the U.S. Army addressed to the Latham Street address indicated a possible residence of Apartment 101, 1617 Pine Street, San Francisco, California. Investigation has also indicated past employment for the Subject at Channing House, Palo Alto, California, for a period not stated.

In view of the fact Subject had already entered military service before his parents moved to their current address, it is suggested investigation be concentrated in

the following areas to develop background and associates of Subject which may be of assistance in determining his present whereabouts and causing his apprehension:

1. Re-interview parents specifically concerning the identity of any possible brothers or sisters or other close relatives Subject might logically contact.

2. Conduct in depth investigation in areas of family's former residences, correlating this inquiry with results of re-interview of parents, to develop former employments or associates of Subject who may be able to furnish information concerning his present whereabouts.

3. Conduct inquiry at Pine Street address in San Francisco to develop background information of possible assistance in this investigation.

4. Check records at Channing House, Palo Alto, to determine if Subject formerly employed there and for possible leads to associates of Subject, such as listed references or indicated residences.

5. Conduct appropriate credit and criminal checks at Palo Alto and San Francisco.

6. Inasmuch as Subject has been absent for a period in excess of one year, consideration should be given to contacting Baltimore Source 4 should the above leads be unproductive.

If the objective of this case is achieved, either directly or indirectly as a result of this suggestion memorandum, advise the Bureau immediately by routing slip, attention Inspection Division.

Comments of SA JEAN G. HUGHES, Supervisor H. ERNEST WOODBY and SAC requested.

Subject declared deserter by U.S. Army 2/9/69. On 9/18/69, his mother, MARY BECKHUSEN, advised that the Subject lived with her until June, 1969, and since that time, had stayed with different friends in the Oakland-Berkeley area. Mrs. BECKHUSEN provided a list of other relatives of the Subject. She stated that she had seen the Subject approximately three weeks prior to that date.

On 11/18/69, Mrs. BECKHUSEN advised that she had not seen her son for several months and that he had called her from Death Valley, California, approximately one month prior to that date.

It is suggested that the following investigation be considered at this time:

1. Conduct thorough neighborhood investigation in vicinity of Subject's residence, 949 Madison Street, Albany, California.

2. Attempt to establish reliable neighborhood source who will report the Subject's presence in the event he is staying at or returns to his home address.

SUGGESTION MEMORANDUM

BOND DEFAULT MATTERS

INSPECTOR ARNOLD C. LARSON: As of 10/1/70, the San Francisco Office had 48 bond default matters under investigation. This volume of cases presents a fertile field for increased convictions under the Bond Default classification.

An in depth survey conducted by the Inspection Division disclosed that there has been a significant increase in cases received by the FBI for investigation subsequent to the passage of the Bail Reform Act of 1966. This Act liberalized bail and bond procedures in Federal cases whereby subjects were to be considered for release on their own personal recognizance or unsecured appearance bond in contrast to previous procedures which required a specific bond, creating an excellent opportunity for us to achieve statistical accomplishments. The ratio of convictions to the number of cases investigated in bond default matters is one of the highest of any violation handled by the Bureau.

One of our offices, namely San Diego, has been responsible for the most significant portion of the Bureau's convictions in bond default matters as a result of effective liaison with the U. S. Attorney, who felt that an indictment obtained under bond default was more easily proven than the substantive offense. When a subject is apprehended, the sentence is, in part, influenced by the U. S. Attorney, who informs the court the length of time the subject's apprehension has been sought by the Bureau. A number of these cases have arisen through charges of narcotics and smuggling of merchandise and aliens across the border. Subjects were brought before a magistrate, and rather than pleading guilty, subjects obtained a court appointed attorney and entered a not guilty plea. They were released then on either personal recognizance or a minimum bond until their scheduled appearance. When the subject failed to appear in court, a bench warrant was issued, San Diego opened a case, and usually within 30 days an indictment was secured under bond default.

SAN FRANCISCO INSPECTION
10/23/70
WAK:kah

Although San Francisco is not a border office, it is a great port of entry, both by sea and air, and many of the same type cases utilized by San Diego for obtaining a bond default indictment should be available to San Francisco.

As you are aware, convictions are becoming more difficult to obtain because of the court's interpretation of the law in many classifications. Bond default matters present an excellent opportunity to increase your conviction rate, therefore, it is suggested that through your liaison with the U. S. Attorney, point out to him the possibilities for an increase in convictions under the Bond Default Statute.

The necessity to establish effective liaison with the U. S. Attorney in bond default matters was set out in SAC Letter 70-13 dated 3/17/70.

If an increase in cases and convictions is obtained as a result of this Suggestion Memorandum, advise the Bureau by routing slip, attention Inspection Division.

Comments of Supervisor DE JEAN and SAC GEBHARDT requested.

SUPERVISOR MORRIS M. DE JEAN: 10/26/70: Close liaison will continue to be maintained with the United States Attorney's office and all avenues of potential convictions will be vigorously pursued to increase the statistical accomplishments in the San Francisco Division.

SAC GEBHARDT: 10/26/70: This matter will be followed and the Inspection Division will be advised if an increase in cases and convictions is obtained.

INSPECTOR ARNOLD C. LARSON: This is a closed case which was opened in the San Francisco Office 4/21/70, and closed 6/15/70. At that time, case was assigned to SA ROBERT M. LEONARD and supervised by SA RAY M. ANDRESS. The case was reopened 8/26/70, and assigned to SA RICHARD G. MILLER and supervised by Relief Supervisor RICHARD E. LUEBBEN on the desk of SA ANDRESS. Case was again closed 9/3/70.

The case was initially opened on the basis of a copy of a letter directed to Local Board 4, Eureka, California, from the Armed Forces Examining and Entrance Station, Oakland. The letter indicated that the Subject reported for induction 4/14/70, was found qualified, but left the building prior to induction. Case was closed 6/15/70, on basis of a memorandum from SA ROBERT M. LEONARD wherein it was pointed out that the violation was not such as to be reported to the U. S. Attorney by the Selective Service System.

Case was reopened 8/26/70, on receipt of a request for investigation from the U. S. Attorney, San Francisco, and assigned to SA RICHARD G. MILLER. Review of the file indicates that Subject was interviewed by SA MILLER 9/1/70, at which time he indicated he would agree to induction.

U. S. Attorney declined prosecution and a closing report was submitted 9/3/70, with copy to U. S. Attorney and San Francisco Office. This report was signed by SA RICHARD E. LUEBBEN. This report contains FD 302 (interview report form) wherein interview of Subject was recorded. The FD 302 fails to indicate that the Subject was advised of the identity of SA MILLER or the nature of the inquiry.

SA RICHARD GUY MILLER:
10/27/70

At the beginning of the interview at the Humboldt County Jail, Eureka, California, I exhibited my FBI credentials to the subject and advised him of the nature of the inquiry. I apparently inadvertently failed to record this in the opening paragraph of the FD 302 and on review of this FD 302 I inadvertently failed to note this had been omitted from the FD 302. Care will be exercised in the future to insure this does not reoccur.

SA RICHARD E. LUEBBEN:
10/27/70

I was Relief Supervisor on Desk #6 in the absence of the regular supervisor and due to the exceptionally high volume of mail handled by this desk I inadvertently failed to note the above omission from FD 302 of SA MILLER dated 9/1/70 when the report was signed out by me. Every effort will be made in the future to avoid a repitition of this delinquency.

SA RAYMOND M. ANDRESS:
10/27/70

In reference to the report of SA RICHARD GU MILLER signed out by SA LUEBBEN on 9/3/70, SA LUEBBEN was one of the Relief Supervisors during my extended sick leave during this period. SA LUEBBEN is a experienced Relief Supervisor and supervises the desk in a very efficient and commendable manner. Due to the exceptionally heavy volume of mail during this time, he inadvertently overlooked the omission in the FD 302 of SA MILLER. The importance of advising Bureau subjects the identity of Agents and nature of interview will be discussed with the Relief Supervisors periodically and will be followed closely to insure this does not reoccur.

SAC GEBHARDT: Above delinquencies noted and will be followed
10/27/70 closely to insure this does not occur again.

INSPECTOR ARNOLD C. LARSON: There is no Seat of Government culpability in this matter as this error or delinquency could only be detected through a review of the field office file.

INSPECTOR ARNOLD C. LARSON: This is a pending case in the San Francisco Office opened on 7/24/69, assigned to SA JEAN G. HUGHES and reassigned on 12/8/69, to SA KENNETH W. SHEETS. Case is supervised by SA ROBERT D. ROBY.

Review of the file indicates the Subject together with two other Navy deserters had lived in a hippie commune in the San Jose area during August of 1969. Investigation has determined that he has used narcotics and has associated with hippie-type individuals until the present time.

During 8/70, investigation was conducted in San Jose and investigation determined that one JOAN BAUER was also residing in a hippie fashion and was acquainted with the Subject of this investigation as well as the other two Navy deserters.

On 8/13/70, JOAN C. BAUER was interviewed at which time she stated she is employed at National Aeronautics Space Agency (NASA), Ames Research Center, as a secretary at Moffett Field, a Navy installation. During the course of this interview, she stated she was living with a male individual in a common-law relationship. She had formerly considered herself a member of a "family" of hippies including the Subject and another Navy deserter. At the time of interview she advised that the members of this hippie "family" received mail at her address and the reason for maintaining the address is to receive food stamps for this hippie "family" living in a commune style. She stated she occasionally picks up their mail at her home and admitted on occasion taking the mail to them when she visits the "family". This interview was conducted at Moffett Field. The information concerning BAUER was orally disseminated to the Security Officer, NASA, Ames Research Center, on 8/13/70.

The Manual of Rules and Regulations, Part 2, Section 5, Page 7, indicates that Bureau policy under Executive Order 10450 is to furnish the Civil Service Commission all pertinent identifiable, derogatory non-subversive information relative to employees of the Executive Branch of the government. This is normally accomplished by including such information in letterhead memorandum form and transmitting same to the Bureau for appropriate dissemination.

INSTRUCTIONS

Immediately handle this matter in accordance with Bureau instructions cited above.

EXPLANATIONS REQUESTED

1. SA KENNETH W. SHEETS is requested to explain why he neglected to forward to the Bureau in letterhead memorandum form the information developed concerning JOAN C. BAUER, as required by existing Bureau instructions.

2. Supervisor ROBERT D. ROBY is requested to explain why, in his over-all supervision of this case, he did not detect this error as set out above.

Comments of SAC requested.

SA SHEETS: JOAN C. BAUER advised at the outset of the interview on 8/13/70 that she could consider herself a member of the communal "family", however, this became a matter of interpretation during the course of interview and eventually she denied she was a member of the "family" or commune. She admitted visiting people connected with the commune and associating with them, even to the extent of allowing some of these individuals to use her address for the purpose of receiving mail and food stamps.

This matter was discussed at length with Security Officer RALPH MAINES and JOHN VAN ETTEN, Head of Security at NASA, Moffett Field, California. They made no statement as to what action they intended to take.

I realize now that I should have also prepared a letterhead memorandum for dissemination to NASA Headquarters in Washington, D.C. I regret not having done so and in the future will insure that such matters are promptly disseminated.

312.

SUPERVISOR ROBERT D. ROBY: On 9/30/70 I approved a communication prepared by SA SHEETS to office of origin incorporating interview of JOAN C. BAUER, referred to above. At the time, my primary attention was directed toward information furnished in the substantive fugitive investigation and I failed to consider the nature of BAUER's employment. I agree that the information pointed out by the Inspector should have been furnished to the Bureau in letterhead memorandum form for dissemination at the Seat of Government. Letterhead memorandum has now been prepared and forwarded to the Bureau. I regret my oversight in this instance and will be alert for similar situations in the future to insure that all data which should be disseminated by letterhead memorandum is promptly submitted.

SAC GEBHARDT: Letterhead memorandum should have been prepared at the time of the initial interview with JOAN C. BAUER. I will continue to emphasize the necessity of prompt dissemination of information obtained during our investigations which may be of interest to other governmental agencies.

INSPECTOR ARNOLD C. LARSON: This case was opened in 9/65 with San Francisco as Office of Origin. Bureau changed Office of Origin to Los Angeles 7/19/66. Case has been opened periodically in San Francisco Division to cover leads. Case reopened 5/4/70 and assigned to SA DOUGLAS R. AHLSTROM. Case is supervised by SA BRYON C. WHEELER. Case was closed (RUC) on 10/15/70.

Subject escaped from custody at San Quentin Prison 9/16/65. Authorized complaint filed 10/21/65 before U.S. Commissioner, San Francisco, California. Bureau changed Office of Origin to Los Angeles because Subject's relatives and friends live in the Los Angeles area and all logical leads had been coveredin the San Francisco Division.

Los Angeles by letter dated 4/24/70 requested the San Francisco Office to identify the holders of two telephone numbers concerning long-distance telephone calls from home telephone of Mrs. MARLYS CONNOLLY, Rialto, California. San Francisco by letter dated 6/30/70 identified one telephone number registered to the Subject's sister, Mrs. MELVIN GLAZE of Point Arena and subsequent contact with Mrs. GLAZE failed to develop any information concerning the Subject. No investigatic was conducted to identify holder of telephone number 933-8871 at Walnut Creek, California between 5/4/70 (date case reopened) and 10/15/70 (date case RUCed).

INSTRUCTION:

Immediately reopen this case and conduct logical investigation requested in Los Angeles letter dated 4/24/70.

EXPLANATIONS REQUESTED:

SA DOUGLAS R. AHLSTROM is requested to explain why he failed to detect the lead at Walnut Creek had not been covered before the case was closed on 10/15/70.

Field Supervisor BRYON C. WHEELER is requested to explain why he failed to assign a lead to a Walnut Creek Resident Agent to conduct an investigation to identify the holder of the telephone number and why he failed to insure that this investigation had been conducted before he approved the closing of this case (San Francisco letter to Los Angeles dated 10/15/70).

Comments of SAC requested.

SA DOUGLAS R. AHLSTROM: The writer was of the impression that the lead at Walnut Creek to identify a telephone subscriber had been covered and reported at the time the case was RUC'd on 10/15/70. The writer did not have the file available as the RUC communication was submitted from the Santa Rosa Residence Agency and was therefore unable to make a thorough review of the file. Steps will be taken to make certain this does not recur in the future.

SUPERVISOR BRYON C. WHEELER: The lead to check out a telephone number at Walnut Creek was inadvertently overlooked at the time the case was reopened and assigned to SA AHLSTROM. Upon receipt of the RUC communication closing the case on 10/15/70, the fact that the Walnut Creek lead had not been covered was overlooked. Efforts will be made to make certain this does not recur in the future. Case reopened.

SAC ROBERT E. GEBHARDT: The above write-up and explanations have been noted. It will be stressed among Special Agent and Supervisory personnel in this office the importance of guarding against a situation of this kind happening in the future.

INSPECTOR ARNOLD C. LARSON: There is no Seat of Government culpability in this matter as this error or delinquency could only be detected through a review of the field office file.

SUBJECT: SENSTUDY 75

Reference is made to W. O. Cregar to Mr. W. R. Wannall memorandum dated 7/24/75, captioned as above. This memorandum advised CIA had prepared a document citing instances wherein CIA believed some of its activities may have exceeded its legal mandate. Portions of this CIA document were furnished this Bureau and referenced memorandum requested documents pertaining to a particular Bureau division and/or Intelligence Division section be reviewed to identify the subject matter and make an assessment as to whether any compromise to this Bureau's operation is involved. Those portions of the CIA document pertaining to the IS-2 Section of the Intelligence Division are pages 29, 30, 171, 190, 191, 193, 194, 197, 198, 203, 330, and 482.

A review has been made of the material, supra, and the following comments apply:

Pages 29, 30, under the heading "Merrimac," refer to recruitment and handling of "several Agents" to covertly monitor dissident groups in the Washington area and states one was so successful the "Agent" was turned over to the FBI. We have no idea who the "Agent" was and in absence of identifying information no compromise exists to Bureau operations.

REC-102 62-116395-499

Page 171 refers to CIA producing a document titled "Restless Youth" in two versions. The version dealing with radical students in America was sent only to the President and two other high officials. Page 171, itself, in no way compromises Bureau operations.

14 AUG 11 1975

Pages 190, 191, also deal with the "Restless Youth" document, which disclose the document only went to ~~nine~~ readers, "a copy may be in the Johnson Library," and refers to updating of the document. These pages, themselves, in no way compromise Bureau operations.

Memorandum to Mr. W. R. Wannall
Re: Senstudy 75
62-116395

Pages 193, 194, refer to CIA participation in preparation of several short intelligence memoranda dealing with the foreign connections of U. S. organizations and activists involved in the anti-war movement. Reference is made to collecting information from their own sources "and through liaison with the FBI." A reference is also made to primary source of information being "sensitive intercepts produced by NSA." While these pages do not directly compromise Bureau operations, disclosure of NSA intercepts could well indirectly adversely affect Bureau operations by disclosure of sensitive techniques which produce extremely valuable information to the intelligence community, of which the FBI is a part.

Pages 197, 198, refer to the response to an inquiry as to involvement in domestic affairs by the Director, Central Reference Service, CIA, and in no way compromises Bureau operations.

Page 203 refers to a similar response by Director, Foreign Broadcast Information Service, CIA, and includes a reference to their monitoring foreign broadcasts of Jane Fonda and Ramsey Clark and furnishing transcripts at the request of the FBI and Department of Justice for consideration for possible trial use. There is no compromise of Bureau operations involved as this was to be evidence in a public trial and would have required CIA personnel to publicly testify.

Page 330 again makes reference to "Restless Youth" and use of FBI reports. It also refers to a 1967 CIA study of "SDS and its foreign ties." The page, itself, does not compromise Bureau operations.

Page 482 refers to a "project MPLODESTAR," which involved manipulation of assets against targets in the "leftist and communist milieu in various parts of the world." Comments include "each case is cleared with the FBI..." The page itself does not compromise Bureau operations.

RE: SENSTUDY

The following are comments prepared by the Radio Engineering Section of the FBI Laboratory and relate to copies of excerpted pages from a report written by the Central Intelligence Agency. Comments are keyed to page numbers which appear in the lower right-hand corner of each sheet.

1. Page 00112

Paragraph b. refers to FBI purchases of television equipment and is accurate as to equipment obtained. According to Bureau records, Purchase Order #21100 was issued to CIA on 4/11/73 and was amended 9/24/73. The items were 1 each WTC-20 @ $18,300 and 1 each WTC-23 @ $18,600. Purchase Order #21469 dated 5/1/73 was issued to CIA for 2 each lens systems totaling $11,200.

No damage would be suffered by release of this information.

2. Page 00118

Item 9 lists 50 "Actuators, Recorders." This entry is partially correct.

Bureau records show that Purchase Order #8989 was issued to CIA on 11/17/71 for 30 each QTC-11s at $488.25, and 20 each QTC-12As at $236.25.

No damage would be suffered by release of this information.

Item 11 lists 1 "Camera, Video." This entry could refer to that transaction detailed in Purchase Order #18301 issued to CIA on 11/27/72 for 1 each WTC-20 camera in the amount of $18,400. Tubes installed in these cameras were of the type mentioned under Item 12 and 13 below.

Item 12 lists 1 "Tube, Image, Burn-Resistance, Equivalent of WL 30691." This entry is accurate.

62-116395-498

ENCLOSURE

Purchase Order #16555 was issued to CIA on 9/21/72 in the amount of $4,639. The video tube was for use in a closed circuit television camera.

Item 13 lists 2 "Tube, Image, WL 30691" as having been furnished the FBI on 3/26/71 at a cost of $4,607 each. This entry is probably a duplication of Item 4 on page 0019. Bureau records show that Purchase Order #5450 dated 5/21/71 was issued to CIA for this equipment for use in CCTV cameras. No purchase order to support two such acquisitions (March and May) could be located.

Item 14 lists 2 "Cameras, Television" at a unit cost of $18,300. This entry probably refers to that equipment acquired under Purchase Order #21100 and is detailed in Paragraph b. page 00112, above.

No damage would be suffered by release of this information.

3. Page 00119

Item 2 lists 25 "Actuators, Recorders." The entry is accurate.

Purchase Order #17204 was issued to CIA on 10/18/72 for 25 each QTC-11s @ $591.94. This equipment is identical to that obtained on Purchase Order #8989 mentioned above.

Item 3 lists "Tube, Image, Burn-Resistance" etc., and is a duplication of Item 12 on page 00118. Note identical dates.

Item 4 lists "Tube, Image, WL 30691" and is believed to refer to the transaction carried as Item 13 on page 00118.

Items 5, 6, and 7 list "Transmitters, Module, Plug-In, and Power Supply - UWP-39A." These entries are essentially accurate.

Purchase Order #4203 was issued to CIA on 4/6/71 for 2 each transmitters SRT-67 @ $1372.35; 1 each transmitter QRT-10A @3160.33; 1 each module QWT-18 @ $1247.40; and, 1 each power supply UWP-39A @ $538.65.

No damage would be suffered by release of this information.

4. Page 00221

Item (A) is believed to be accurate and in the absence of additional detail no serious damage would be suffered by release of this information.

Item (B) is accurate and as long as target is not specifically identified no serious damage should be incurred. It should be recognized, however, that although the concept of intercepting cryptographic machine emanations would come as no surprise to those familiar with intelligence work, confirmation of a functioning system could encourage implementation of countermeasures which would deprive the U.S. of invaluable information.

Item (C) is accurate except that the equipment has not been operated for some time. Without specific identification no serious damage would result from disclosure of this information.

Item (D) is inaccurate to the extent that it states that "installation is not fully operational because the full complement of personnel have not yet arrived." Aside from that, disclosure of information could lead the knowledgeable foreign government to be certain of Bureau's participation and take whatever diplomatic steps they felt necessary. Decision to withhold is an operational/political one rather than one which would affect technical capabilities and, therefore, the Laboratory is making no recommendations in this regard.

5. Page 00222

Item (E) is accurate and entirely too revealing. If there is any way this item can be deleted from material yet to be given to anyone outside the intelligence community, it should be done. As written, it suggests a concerted effort toward a penetration to be attempted in the future. Disclosure of this information could easily negate millions of dollars already spent and literally years of work already performed - the largest single project ever undertaken by this Bureau. In view of our responsibilities in the counter-intelligence field, the FBI, as well as the intelligence community, and perhaps the free world as well, would suffer incalculable harm from release of this information. It would also be appropriate for the Intelligence Division to comment on this item.

Item (F) is accurate and, although its disclosure is confirmatory no serious technical damage would result from its disclosure. To our knowledge, there has been no diplomatic protest, disclosure could precipitate such protest. Intelligence Division may wish to comment regarding this possibility.

Item (G) asserts that in one case it is known that CIA equipment was used against a "domestic target." This is insufficient information to identify this matter.

ARABIC LINGUISTS

(Item 6, pgs. 182 & 202) X

With regard to press allegations concerning the use of polygraph, it was noted that during July 1971 the President was alleged to be furious with unauthorized disclosure of classified information relative to the SALT Talks as disclosed in the New York Times. The President directed a sweeping investigation to determine the source of the disclosure and this was conducted under the direction of Mr. Egil Krogh and others of the White House Staff.

A subsequent article in the Washington Post dated September 3, 1971 stated that a State Department spokesman had acknowledged at a news briefing that agents of the Federal Bureau of Investigation had polygraphed State Department employees suspected of leaking information on the SALT Talks in July. This statement is not accurate and the Director of the FBI (J. Edgar Hoover) denied this allegation in a letter to the Washington Post and said that the polygraph examinations had been conducted by another agency.

As noted in the CIA notes in fact, it was CIA that conducted the polygraph examination in conjunction with the State Department and the FBI was not involved in any way in these polygraph examinations. It is recalled that FBI officials had been called to a White House meeting headed by Mr. Krogh in which it was indicated we might have to conduct some polygraph examinations and were so alerted. A subsequent call from the White House to the FBI instructed that the FBI polygraph examinations would not be required.

In view of above, it does not appear the FBI would incur any damage to its reputation or recognized use of the polygraph in carefully selected criminal and security matters in which we have jurisdiction.

In regard to the CIA notes concerning the subject of the lending of Arabic linguists to the FBI, the following is noted:

The FBI's linguistic capacity is limited to those foreign languages in which translators can be fully utilized on a full-time basis. When we need translations of foreign language material beyond our normal translation capacity, we turn to the governmental linguistic community for assistance. Such help has been obtained in the past from such agencies as the Library of Congress, Voice of America, Foreign Service Institute, Defense Language Institute, CIA, NSA, Bureau of Indian Affairs, U. S. Information Agency and Smithsonian Institution. On occasions, we have also turned to private citizens for help in very unique situations involving exotic or rare languages.

The massacre of the Israeli athletes in Munich at the 1972 Summer Olympics and other Arab terrorist acts fomented a situation involving the national security of the United States. The FBI needed immediate assistance in the Arabic language field. A program was immediately instituted to hire our own Arabic translators and, in the interim period, CIA lent to our Washington Field Office the necessary Arabic translators to fulfill our responsibilities.

The opening of the People's Republic of China Liaison Office in Washington also created a need in the Washington Field Office for Chinese translators with special talents. Two such translators were borrowed from CIA and one of them became an FBI employee for a short time following his retirement from CIA.

All arrangements for the loan of Arabic and Chinese linguists from CIA were effected by the Intelligence Division and the Washington Field Office through their liaison with CIA, and the FBI Laboratory was not directly involved.

In summary, the CIA notes are accurate. It is not believed, however, that the FBI would incur any embarrassment or damages as a result of this interagency cooperation.

DISCUSSIONS ON IMAGERY ENHANCEMENT TECHNIQUES

Item 8, (Pg. 00234)

Current personnel are unable to verify or disclaim contact with CIA regarding this photographic technique.

In all likelihood, this contact was made in conjunction with our continuing technical liaison with other Federal agencies.

This consultation was entirely proper and made to augment the Bureau's capabilities in this area. No deleterious effect can be seen as a result of exposure of this information.

PURCHASE OF CAMERAS

(Item 8, Pg. 00118)

The F. B. I., by purchase order #1793 dated 1/20/72, contracted for the purchase of 10 Tessina cameras on a transfer of funds basis arranged as a result of our liaison with the Technical Services Division of CIA. Cost of these cameras amounted to $7,000.

The Tessina camera is a small, sophisticated camera which is employed in concealment devices needed for photographic surveillances.

Although the exact nature of the concealment devices we employ is not publicized, the disclosure of the fact that we purchased cameras suitable for this use is not considered inimical to our operations.

INTERVIEW OF FBI SPECIAL AGENT (SA)
O. RICHARD HAMILTON BY SSC STAFF MEMBERS

The following information has been furnished by SA O. Richard Hamilton concerning an interview of him by SSC Staff Members Michael Epstein and Mary DeOreo, which took place on July 22, 1975, in the office of Senator Herman E. Talmadge in Atlanta, Georgia.

The above-mentioned interview commenced at 10:38 a.m. and concluded at 11:54 a.m. SA Hamilton was not advised of his rights by the SSC Staff Members. The following information is not necessarily in chronological order.

Regarding the period of time of SA Hamilton's FBI employment and period of assignment in Atlanta, Georgia, SA Hamilton advised he became a Special Agent in September, 1951, and has been assigned to the Atlanta Office since February, 1961. SA Hamilton was questioned regarding the period of time he was assigned to the Security Squad in Atlanta. SA Hamilton advised that according to his best recollection, he was assigned to the Security Squad shortly after his arrival in Atlanta in 1961, and continued that assignment until approximately sometime in 1962. At that time he was assigned to a road

trip involving investigations of any FBI matter occurring within that road trip and such assignments were not necessarily connected with the Security Squad. SA Hamilton advised he was reassigned to the Security Squad in Atlanta during the Spring or early Summer of 1964 or 1965, and he believed that, according to his best recollection, this was in 1964.

The SSC Staff Members questioned SA Hamilton as to what, if any, assignment he had regarding the investigation of Dr. Martin Luther King, Jr., or with the Southern Christian Leadership Conference (SCLC). SA Hamilton advised that upon his reassignment to the Security Squad, he was assigned to monitor a wiretap on SCLC and on the residence of King. The Staff Members inquired as to the number of lines monitored and as to the location of the technical installation. SA Hamilton recalled that lines on the SCLC switchboard and SCLC Wide Area Telephone Service (WATS) as well as the residence telephone of King were monitored. The Staff Members inquired whether tapes of conversations were made from the technical installation and SA Hamilton replied that occasionally when it was necessary to record more than one telephone conversation occurring at the same time, that he occasionally would tape one conversation while preparing a handwritten log of another, that thereafter the conversation recorded on tape was reduced to a handwritten log when time permitted. The Staff Members asked what was done with the recorded tapes following the completion of the recording and Hamilton advised that when the conversation had been reduced to writing on a log and the tape was used up, that as best as he could recall, the tape was erased and then reused. The Staff Members asked whether such tapes were reviewed by other FBI personnel and SA Hamilton stated he could not recall any situation where this occurred. The Staff Members inquired as to whether such tapes were further maintained or placed

---

somewhere else and SA Hamilton replied he was not aware of any instance where this was done. The Staff Members asked to whom the case on King was assigned and who was the supervisor of the squad at the time that SA Hamilton was assigned to the monitoring of the installation. They were advised the agent assigned to the case was former SA Robert Nichols and the supervisor was Charles Harding. At that point the Staff Members inquired as to who was the supervisor of the Security Squad when SA Hamilton was first assigned to Atlanta and who were the succeeding supervisors on that squad. They were advised that Mr. Henry Rowse was the supervisor when Hamilton was first assigned to Atlanta and that upon Rowse's transfer to FBI Headquarters, Harding became the supervisor. Thereafter, in approximately 1968, Charles Haynes replaced Harding as supervisor of the Security Squad in Atlanta. The Staff Members inquired as to the reason for the replacement of Harding by Haynes. Hamilton advised that was an administrative decision made by FBI Headquarters and since that did not relate to the investigation pertaining to Doctor Martin Luther King, Jr., he would respectfully decline to discuss that matter. The Staff Members subsequently asked if SA Nichols was subsequently assigned to the Valdosta, Georgia, Resident Agency of the Atlanta Office and, then transferred to another field office. SA Hamilton advised that was correct. The Staff Members inquired as to the reason for SA Nichols' transfer to another field office, to which SA Hamilton replied he felt that question did not relate to the investigation of King and involved an administrative decision by FBI Headquarters; and, therefore, declined to answer.

The Staff Members, after being advised by SA Hamilton that he was assigned to monitoring the technical installation for a period of approximately four months, inquired as to whether he was ever subsequently assigned to any investigation relating to King or SCLC. Hamilton advised the case concerning SCLC was assigned to him upon the retirement of former SA Alan Sentinella in approximately 1970. The Staff Members inquired as to the period of time thereafter that SCLC remained under investigation and what basis if any there was for closing the case. SA Hamilton pointed out that since the reassignment of the case to him occurred after the death of King, he felt that question did not directly relate to the investigation of King and that prior to furnishing an answer to that question, he felt he should confer with a FBI Headquarters representative who was then present in the Atlanta Office of the FBI. The Staff Members advised they did desire an answer to that question and approved of a consultation between SA Hamilton and the FBI Headquarters representative. SA Hamilton conferred with the FBI Headquarters representative then in the Atlanta Office of the FBI and it was agreed the question regarding the closing of SCLC and the assignment of that case to SA Hamilton was outside the parameter of the authority given to SA Hamilton by FBI Headquarters regarding discussion of Doctor Martin Luther King, Jr. However, in the spirit of cooperation, it was agreed that SA Hamilton would answer the question of the Staff Members in this regard. Thereafter, SA Hamilton advised the FBI investigation regarding SCLC was closed about 1972 or 1973 since a review of the case file failed to reflect any influence by individuals or organizations having affiliations with communist background. In view of that, it was felt the SCLC case should be closed.

The Staff Members inquired as to who made the decision regarding closing of SCLC and whether the matter was first discussed with FBI Headquarters or other individuals within the Atlanta Office of the FBI or if it was a decision made by SA Hamilton alone. Hamilton advised that as he recalled, he reviewed the SCLC case file from that time to a substantial period in the past and that he recommended to the supervisor of the Security

Squad that the case be closed since there had been no known communist influence upon the activities of the SCLC organization for a long period of time. In response to the mechanics of closing the case they were advised that SA Hamilton dictated a letter to FBI Headquarters from the Special Agent in Charge of the Atlanta Office, advising that a review of the file reflected no communist influence upon the activities of SCLC and that unless advised to the contrary by FBI Headquarters, the case was being closed. The Staff Members asked if a form letter was used whereby blanks were filled in and they were advised this was not the case. The Staff Members inquired if FBI Headquarters agreed with the closing and SA Hamilton advised that to his knowledge, no communication was thereafter received from Headquarters which would disagree with the closing of that case. The Staff Members inquired as to whether SA Hamilton or anyone in Atlanta conferred with any persons in the New York Office of the FBI prior to closing the case and SA Hamilton advised that to his knowledge this did not occur. The Staff Members then inquired as to the basis for closing the case on SCLC as compared with the basis for opening the case originally. Hamilton advised he did not specifically recall the wording of any communications upon which the case was originally opened, however, a review of the case at the time it was closed did not indicate that SCLC might be involved in any activities which could constitute a violation of the Internal Security Statutes. The Staff Members inquired as to whether the investigation was based upon the Smith Act and SA Hamilton stated he did not recall specifically seeing the words "Smith Act", however, FBI investigations regarding communist influence was based upon the communist goal of forceable overthrow of the U.S. Government.

The Staff Members asked if, after the death of King, whether Stanley Levison was in contact with Reverend

Ralph Abernathy, President of SCLC. They were advised by Hamilton that that question was not related to the FBI's investigation of Doctor Martin Luther King, Jr., and he would decline to discuss that matter without further consultation with FBI Headquarters representative in the Atlanta Office. The Staff Members did not ask that Hamilton then discuss that point with the Headquarters representative.

The Staff Members inquired as to the identities of other FBI personnel assigned to the monitoring of the technical installation and SA Hamilton advised he recalled that at that time SA Robert Thomson and SA John Benton were assigned to monitoring, however, SA Hamilton could not recall the identities of other agents assigned during the period of time he was assigned to the monitoring of the installation. Staff Members inquired as to the reason for SA Hamilton being removed from the assignment of monitoring the installation and Hamilton replied that he requested he be removed for the purpose of being reassigned to security investigative matters. Hamilton stated that shortly after discussing this desire with Supervisor Harding, he was taken off the assignment and was given other investigative assignments. They inquired as to whether Hamilton questioned the propriety of the technical installation regarding King and SCLC and Hamilton replied that he did not question such propriety. The Staff Members inquired as to the names Hamilton was instructed to listen for on the installation and Hamilton replied he recalls being instructed to listen for conversations of individuals by the names of Stanley Levison and Harry Wachtel. They asked if he was instructed to listen for conversations of individuals by the names of Helstein and O'Dell. Hamilton advised the name Helstein was familiar although he could not recall specific instructions regarding him but recalled that he was instructed and did listen for conversations of Hunter Pitts O'Dell.

Staff Members asked whether the Atlanta FBI Office maintained subfiles regarding Doctor Martin Luther

King, Jr., or SCLC or whether the Atlanta Office or FBI Headquarters maintained a JUNE file regarding King. SA Hamilton advised he could not recall the maintaining of subfiles and could not recall a JUNE file relating to King. They asked if the FBI maintained a case regarding Mrs. Martin Luther King, Jr., and SA Hamilton advised he could not recall at this time whether such a file was maintained on Mrs. King.

During the interview the Staff Members asked who handled the arrangements for renting the apartment where the technical installation was located and where it was located. Hamilton advised the installation was located in an apartment at 300 West Peachtree Street, but he could not recall in which apartment it was located. They inquired as to the identities of the individuals who handled the rental and who made the rent payments and SA Hamilton advised he did not know that information. They asked whether or not FBI inspectors ever inspected the installation or if during the course of an inspection of the FBI Office in Atlanta whether they visited the installation. Hamilton advised he was not aware of any inspection of the installation or visit of it by inspectors.

The Staff Members asked if Hamilton could recall any contact with King by any political personalities, public officials, or officeholders, to which Hamilton replied he could not at that time recall any such contacts.

field. SA Thomson advised that he was assigned to the security squad and upon questioning stated that the nature of this security assignment was to monitor the telephones of Martin Luther King, Jr., both at his residence and his office. SA Thomson advised that he continued in this assignment until approximately August, 1964, when he was transferred to the Columbus, Georgia, Resident Agency.

SA Thomson was asked the reason for his transfer from Little Rock to Atlanta and thereafter to the Columbus, Georgia, Resident Agency, at which time SA Thomson replied that both transfers were routine transfers, the transfer to Columbus due to the fact an opening had been created in the Resident Agency.

SA Thomson further advised that in 1969 he was transferred from the Columbus, Georgia, Resident Agency back to Atlanta, Georgia and that for a short period of time in 1971 was assigned to security work in the Atlanta Office.

SA Thomson was asked that upon his return to Atlanta and engaged in security work in 1971, if he was aware of any pending investigation concerning SCLC and SA Thomson advised he could not recall any investigation of SCLC but could state that he was not involved in any if there was such an investigation.

SA Thomson was asked if he had any knowledge as to when this telephone monitoring of Martin Luther King was instituted or when it was discontinued. SA Thomson replied that he had no such knowledge.

SA Thomson was further questioned as to what pertinent instructions were furnished him in regard to his monitoring of Marting Luther King's telephones and who gave these instructions. SA Thomson advised that the supervisor at that time was Special Agent Charles S. Harding and that SA Thomson was advised that the monitoring of these telephones was being done because of national security and information was to be obtained concerning King's contacts and associates, and the reason for such contacts.

SA Thomson was questioned if he ever questioned himself at any time as to the morality or justification for this monitoring. SA Thomson replied that after having only worked on such monitoring for two months he had no question in his mind as to the reason for this telephone monitoring.

INTERVIEW OF FBI SPECIAL AGENT (SA)
DONALD P. BURGESS BY SSC STAFF MEMBERS

The following information has been furnished by SA Donald P. Burgess concerning an interview of him by SSC Staff Members Michael Epstein and Mary DeOreo, which took place on July 22, 1975, in the office of Senator Herman E. Talmadge in Atlanta, Georgia.

The interview of SA Donald P. Burgess commenced at approximately 3:45 P.M. and terminated at approximately 4:45 P.M. At no time during the interview was any mention made to SA Burgess regarding his rights by SSC Staff Members Michael Epstein and Mary DeOreo.

The results of this interview will not necessarily be in chronological order, but will be to the best recollection of SA Burgess.

At the outset of the interview, SA Burgess was asked when he was assigned to the Atlanta Office of the FBI and SA Burgess replied to the best of his recollection it was at the end of July or the first part of August, 1964. SA Burgess was also asked how long he had been in the FBI, to which he replied since January, 1951.

SA Burgess was asked what his duties were and to what squad he was assigned when he first arrived in the Atlanta Division of the FBI. SA Burgess advised he had been

immediately assigned to the Security Squad. In reply to a question as to what type of investigations he handled, SA Burgess replied that he was mainly involved in civil rights type investigations.

Mr. Epstein asked SA Burgess when he was assigned to monitoring the telephone tap of Doctor Martin Luther King, Jr. SA Burgess replied to the best of his recollection he was assigned to these duties from the end of November, 1965, until sometime in June, 1966. SA Burgess was asked if he could pin down exactly the date of his assignment to this monitoring duty and SA Burgess replied that he recalled the general time period quite well as he had recently undergone surgery before this assignment and after extensive sick leave, went almost immediately on the monitoring duty.

Mr. Epstein asked SA Burgess what his understanding was as to why this telephone tap on Doctor Martin Luther King, Jr. was being used. SA Burgess replied that it was his understanding and recollection that three or four individuals who had heavy and extensive Communist Party or Marxist affiliations and connections had an inordinate influence and control over Doctor Martin Luther King, Jr. insofar as policies, objectives and activities of the Southern Christian Leadership Conference (SCLC). SA Burgess replied it was his understanding that these three or four aforementioned individuals' influence over King extended so far as preparing his speeches and public statements and that it was also his understanding that the Attorney General at the time the telephone tap was instituted, Robert Kennedy, had approved of and insisted upon this investigative technique.

SA Burgess was then asked if he thought the telephone tap on Doctor King was justified and SA Burgess replied that he thought it was fully justified in light of the time and circumstances and the position of Doctor King.

INTERVIEW OF FBI SPECIAL AGENT (SA)
DONALD P. BURGESS BY SSC STAFF MEMBERS

SA Burgess was then asked about the personal type information regarding personal misconduct, whether or not he felt the collecting of this type of information was justified. SA Burgess replied that information regarding personal misconduct or immoral activities on the part of King was not the prime purpose or interest of the telephone monitoring, but that he did feel that evidence of gross personal misconduct and completely amoral activities was significant in this particular case, bearing in mind the original justification for the telephone monitor and the fact that Doctor Martin Luther King, Jr. was a moral leader of world stature and a religious personality. SA Burgess said that he therefore felt a complete double standard of personal conduct as opposed to public image was significant inasmuch as such behavior would make Doctor King subject to pressure or blackmail by the worst criminal or subversive elements in our society.

SA Burgess was asked if the type of information regarding Doctor King's personal misconduct was disseminated to other agencies or the press and SA Burgess replied that he did not know. SA Burgess was asked if he ever disseminated any information regarding the personal misconduct on the part of Doctor King to the press or others, and SA Burgess replied he had not.

Mr. Epstein said that he assumed that SA Burgess was aware of some of the allegations that had appeared in the press regarding FBI dissemination of this type of information, and SA Burgess replied that he was aware of some of these allegations but he had no specific knowledge regarding these matters.

SA Burgess was asked if he ever reviewed the communications regarding Doctor King based upon information monitored, and SA Burgess replied that he merely recorded the results of the interception of telephone conversations.

SA Burgess was then asked for the physical location from which the telephones were monitored and if this physical location was an apartment in the Peachtree Towers. SA Burgess replied in the affirmative, but said he could not recall the exact apartment number or the floor on which it was located.

SA Burgess was asked if the apartment from which the telephones were monitored was a one or two bedroom apartment and if he knew any of the neighbors or if he recalled maid service to the apartment. SA Burgess replied that he believed it was a one bedroom apartment, did not recall any of the neighbors and insofar as he recalled, there was no maid or janitorial service.

In response to a question as to where the monitoring equipment was located, SA Burgess replied to his recollection it was in the bedroom of the apartment.

SA Burgess was asked if inspectors were at the apartment and if odd-hour shifts were maintained. SA Burgess advised that he recalled that odd-hour shifts were maintained, but he did not recall any inspection of the apartment.

Mr. Epstein asked SA Burgess if he recalled what his duties were prior to the time that he was assigned to the aforementioned monitoring and SA Burgess replied, general security work and particularly civil rights cases which included the observation of civil rights demonstrations in various locations.

Mr. Epstein then asked about general policy regarding observation of demonstrations, whether it came from Washington or originated in the field, and whether the instructions to observe demonstrations came by SAC letter to the field. SA Burgess replied that insofar as he knew it was the general policy of the Bureau for a number of years to observe at any type of demonstration involving civil rights type matters where the possibility of violence existed so that firsthand observation of any possible violation of Federal statutes could be had by impartial observers, and that any subsequent investigation would not be dependent upon the sometimes impassioned observations of persons on either side of a controversial issue.

At this point in the conversation, Mr. Epstein was reminded by SA Burgess that the purpose of the interview was the investigation of Doctor Martin Luther King, Jr., and Mr. Epstein replied that he was interested in observations of civil rights matters insofar as Doctor King was involved.

SA Burgess replied that the only specific demonstration or civil rights activity he recalled in which he acted as an observer where Doctor Martin Luther King, Jr. or SCLC was involved was in Americus, Georgia, in 1965, and he could recall very little regarding this matter.

SA Burgess was asked at one point during the interview if, during the time he served as a monitor on the telephone tap of Doctor King, there was a tap on SNCC. SA Burgess replied that he had no recollection of a telephone tap on SNCC, (Student Nonviolent Coordinating Committee).

Mr. Epstein asked why SA Burgess was removed from monitoring telephones mentioned above. SA Burgess said that it was at his request as he had completely recovered from a debilitating illness and was very frankly quite bored with an inactive assignment.

Mr. Epstein asked if SA Burgess remained on the Security Squad in the Atlanta Office and what type of cases he handled after that period. SA Burgess replied that he did remain on the Security Squad until December, 1966 or January, 1967, and that he had handled general security matters, but not the investigation of Doctor Martin Luther King, Jr.

Mr. Epstein asked why SA Burgess was reassigned and was advised it was a routine administrative reassignment.

Mr. Epstein then asked SA Burgess if he was quite certain of his period of assignment to monitoring the telephones of Doctor King and SA Burgess replied that he was virtually certain that assignment to these duties was from within ten days before or after Thanksgiving, 1965, until sometime during June, 1966, because of the aforementioned surgery approximately six weeks prior to his assignment on these duties.

Mr. Epstein asked if SA Burgess could ascertain the date of his surgery from his doctor or hospital records. SA Burgess replied that surgery had taken place at St. Joseph's Infirmary immediately adjacent to the FBI office and he would attempt to ascertain the date. Mr. Epstein asked if SA Burgess would be willing to telephone the hospital at that time in an attempt to verify this date. SA Burgess replied that old hospital records are sometimes difficult to locate and from experience, it would probably take two or three days.

In response to a question as to whether anyone else immediately available could recall the date of this surgery, SA Burgess replied that his wife might recall. Mr. Epstein then asked SA Burgess if he would be willing to telephone his wife in an attempt to determine the date of his surgery. At that point in the interview, SA Burgess did telephone his wife who informed SA Burgess that she thought SA Burgess had undergone surgery during mid-September, 1965. This was communicated to Mr. Epstein.

Mr. Epstein also asked SA Burgess whether or not any record in the Atlanta Office would pin down the exact dates of his assignment to monitor the King telephones. SA Burgess replied that he knew of no such record.

Mr. Epstein asked if an annual fitness or performance report would show his assignment at that time, and SA Burgess replied that he believed these performance reports merely stated general assignments, such as general security, etc., and the location of these reports were unknown to him. Mr. Epstein asked if SA Burgess had seen his annual performance reports and SA Burgess replied that he had.

At the conclusion of the interview, Mr. Epstein asked if he might have SA Burgess' home telephone number and if he might call him at a later date to obtain from SA Burgess the date of the aforementioned surgery, if SA Burgess was able to ascertain this date. SA Burgess did furnish Mr. Epstein his home telephone number and advised he would attempt to determine the date of this surgery.

ALDEN F. MILLER BY SSC STAFF MEMBERS

The following information has been furnished by SA Alden F. Miller concerning an interview of him by SSC Staff Members Michael Epstein and Mary DeOreo, which took place on July 22, 1975, in the office of Senator Herman E. Talmadge in Atlanta, Georgia.

The interview of SA Alden F. Miller commenced at 4:50 P. M. and was terminated at 5:29 P. M., July 22, 1975, with the statement that consideration would be given overnight as to whether additional questions would be directed on the following morning to SA Miller. At the outset Staff Member Michael Epstein advised SA Miller of his rights, stating he did not have to answer any questions, that he had the right to legal counsel, and further, that anything he said might be used in a criminal proceeding against him.

The following questions and the responses of SA Miller to these questions are set forth hereinafter in narrative form to the best of his recollection, utilizing verbiage nearly as possible synonymous with statements made. The context of this question and answer interrogation is not necessarily in chronological order. All questions were directed to SA Miller by Staff Member Michael Epstein.

SA Miller was asked concerning his employment and assignment to the Federal Bureau of Investigation (FBI) Atlanta Office. SA Miller replied that he first was assigned to the Atlanta Office in 1947, was transferred to New York

in 1948, and returned to the Atlanta Office in 1951. SA Miller was further asked when he was assigned to the Security Squad in the Atlanta FBI Office, to which he replied June of 1951. Inquiry was further made as to whether still assigned to the Security Squad and SA Miller replied that as of March, 1975, he was no longer assigned security matters and that he was presently assigned to work in conjunction with the General Accounting Office review of matters in the Atlanta Office.

SA Miller was asked when a technical installation or telephone tap was placed on the Southern Christian Leadership Conference (SCLC) and Martin Luther King. SA Miller replied that it was impossible for him at this date to recall specifically when such an installation was made, but by citing civil rights activities with particular emphasis in Albany, Georgia, in 1962, was reasonably sure that the technical installation was made sometime subsequent to that date. When asked how long the technical installation remained in effect, SA Miller replied that he could not recall the exact duration of the telephone tap, however, was of the opinion it was in effect for several years, possibly three. When asked what telephone facilities were covered, SA Miller replied that telephone service to the offices of SCLC and to the residence of Martin Luther King were covered in this telephone tap.

SA Miller was asked what was the justification or purpose of this technical installation, to which he replied that it was to determine the degree of subversive influence, if any, over the activities of the SCLC sponsored civil rights demonstrations and programs.

Inquiry was made as to who instructed the installation of such technical coverage and SA Miller replied that he undoubtedly received these instructions from his immediate supervisor and/or the Special Agent in Charge of the Atlanta Office at that time. When asked whether these instructions were written or verbal, SA Miller replied that he could not specifically recall, but was reasonably sure that if written they would have also been discussed verbally, both with his supervisor and the Special Agent in Charge.

ALDEN F. MILLER BY SSC STAFF MEMBERS

SA Miller was asked whether a feasibility study was made prior to the actual installation or a survey conducted. SA Miller replied that he did not recall at this late date whether such a feasibility study was made prior to the installation. SA Miller was asked whether if such a study or survey was made whether it was reviewed by high officials prior to ordering such an installation. SA Miller replied that he did not specifically recall whether such a review as that was made on a feasibility or survey, as if this were done, it would have been done in Washington, and SA Miller would not have been in a position to know of such a review.

SA Miller was asked in making the telephone tap did the Atlanta Office have sufficient equipment here and if not, where did we get such equipment to make this installation. SA Miller replied that the Atlanta Office did not have equipment available for such an installation and at this date it is unknown where the equipment came from, however, a request for such equipment would have been made of FBI Headquarters in Washington, D. C. SA Miller was asked whether he dealt with the phone company in conjunction with this installation and he replied that he undoubtedly had requested line information which relates to pair and cable data for phones to be covered in this technical installation. Inquiry was made of SA Miller as to the identity of the person at the Southern Bell Telephone Company who provided such information and it was stated that at this late date it was impossible to say definitely who furnished this data as the phone company during this era was in the process of setting up a security office who would normally provide such information under the proper circumstances and that if such an office were then in existence Mr. Theodore King would have provided the line information desired.

SA Miller was asked whether leased lines were obtained from the phone company in conjunction with this installation, to which he replied he did not specifically recall whether leased lines were utilized or whether other telephone service was ordered with subsequent adaptation enabling the use of this service for the technical installation.

SA Miller was asked whether charges were incurred for such service, to which he replied payments were made for all services rendered by the Southern Bell Telephone Company, whether it be leased lines or other telephone-type service. SA Miller was asked whether he had issued the orders for leased lines or other service and if so, what name was utilized in issuing such orders, to which SA Miller replied that if leased lines or other service was ordered through the Security Office of Southern Bell Telephone Company, that he had ordered same, however, he could not recall at this time the name utilized for such service.

SA Miller was asked further did he issue the order for having a private working number installed in the monitoring plant, to which he replied he could not recall whether such an order was issued or given by him and if it was, whether it was done through the Security Office or done in a routine fashion like any person requesting normal telephone service.

SA Miller was asked if he recalled where the technical installations were made, to which he replied he did recall and could point out the locations, however, could not recall the addresses of these locations. SA Miller was asked the location of the monitoring point, to which he replied an apartment in an apartment building located diagonally across the street from the Federal Building housing the offices of the FBI.

SA Miller was asked whether he was responsible for renting the apartment which was used for monitoring this technical installation, to which he replied he did not think that he was, but was of the opinion that the case Agent rented the apartment. SA Miller was asked where in the apartment building was the apartment located, to which he replied he could only recall it was in the upper portion of the building, probably above the tenth or twelfth floor and that it was located immediately adjacent to a wire closet. SA Miller was asked the cover name used in renting this apartment, to which he replied at this late date he could not recall the exact name utilized, but was of the opinion

---

it was some sort of engineering company, but at any rate, it would have been the same name utilized in requesting telephone service. SA Miller was asked further whether the owners of this building and top management were cognizant of the real identity of the renters of this apartment, to which he replied he had no way of knowing but was of the opinion for security reasons no one knew or was aware that this apartment was being utilized by the FBI.

SA Miller was asked further whether he had anything to do with the installation of utilities and furnishing of this apartment used in the monitoring operation, to which he replied he had nothing to do with this other than the installation of certain wooden shelves utilized for equipment necessary to such monitoring and neither did he have anything to do as it related to the utilities.

SA Miller was asked whether he ever actually monitored this installation, to which he replied that on several occasions when regular monitors were ill and there were other technical needs at the facility, he would serve as a monitor. SA Miller was asked whether he had ever furnished supplies to this facility, to which he replied the only kind of supplies he would have taken to the facility were those necessary to insure a trouble free technical monitoring. SA Miller was specifically asked whether he ever replenished the supplies or tapes for recording purposes, to which he replied he did not recall such, other than at the initial inception when a sufficient supply of tapes were made available and these tapes were used over and over.

SA Miller was asked specifically whether he ever made any technical installation on phone service at the Ebenezer Baptist Church, the church where Martin Luther King was on the staff, to which he replied that no such installation to his knowledge was ever made. SA Miller further informed that he did not know whether city police authorities or state authorities had made such an installation and further, he was not in a position to be aware of any such activities on the part of these law enforcement agencies.

SA Miller was asked whether he had ever discussed Martin Luther King with Eugene Patterson, Editor of the Atlanta Constitution, to which he replied that to the best of his knowledge he had never discussed this matter with Mr. Patterson. SA Miller did point out that he was acquainted with Mr. Patterson professionally and socially as previous investigations had brought him in contact with Mr. Patterson and that they were both members of the same church and served jointly on various committees and boards for several years. SA Miller replied further that during this era Mr. Patterson may have directed questions to him regarding Martin Luther King, as it was a timely subject and one receiving considerable newspaper publicity; however, all such inquiries were parried or handled in a non-committal and non-revealing manner. SA Miller further replied that numerous civil rights cases were being conducted by the Atlanta Office of the FBI, which was public knowledge and subject of news coverage by the newspaper of which Mr. Patterson served as Editor, however, to the best of SA Miller's knowledge no revelation was made indicating the FBI had an unusual interest in the activities of Martin Luther King. SA Miller further advised that even though socially acquainted with Mr. Patterson, he did not agree with Mr. Patterson's publicly espoused political position on many and varied interests of the times.

SA Miller was specifically asked that while the Staff Member did not desire to place SA Miller in a bind, did a superior of his at any time ever instruct him to contact Eugene Patterson regarding Martin Luther King, to which SA Miller replied that at no time had any superior of his, or for that matter, any other FBI employee, ever ask that Eugene Patterson be contacted in regard to Martin Luther King.

The interview was terminated at 5:29 P. M. with Mr. Epstein stating that he would like to think overnight regarding the questions and answers as set forth above and would on the following morning advise as to whether he desired to ask additional questions.

INTERVIEW OF FBI SPECIAL AGENT (SA)
CHARLES T. HAYNES BY SSC STAFF MEMBERS

The following information has been furnished by SA Charles T. Haynes concerning an interview of him by SSC Staff Members Michael Epstein and Mary DeOreo, which took place on July 22, 1975, in the office of Senator Herman E. Talmadge in Atlanta, Georgia.

The interview of SA Haynes started at 11:57 A. M., was discontinued for lunch from 1:32 P. M. until 2:34 P. M., and was terminated at 3:10 P. M. Epstein asked all of the questions during the interview. Haynes was not advised of his rights or of the purpose of the interview. Early in the interview, Haynes informed Epstein he was under the impression the purpose of the interview was to obtain information regarding Martin Luther King, Jr., and Epstein confirmed this explaining King, the SCLC* and the marches were so closely related it was necessary to go into some of these things.

Epstein asked Haynes his title and was informed Haynes is a Special Agent Supervisor in the Atlanta Office of the FBI, supervising the Number 3 Squad which is generally known as the security squad. He asked when Haynes became a supervisor and was informed he was appointed in August, 1968. Epstein asked who served as supervisor of the squad prior to Haynes and was advised SA Charles S. Harding, now retired,

preceded Haynes as supervisor. He asked why Harding was replaced and Haynes stated it was a decision made by the Bureau which was an administrative matter and not pertinent to the inquiry regarding Martin Luther King, Jr. Epstein did not pursue this question any further.

Epstein asked when the investigation regarding King started and if there was a file open prior to the time the investigation was authorized. Haynes replied he did not know when the file was opened or when the investigation was authorized. Haynes was asked when the technical coverage regarding King was instituted and when it was discontinued, and he replied to the best of his knowledge it was instituted during about November, 1963, and Haynes monitored it until about January 4, 1964, when Haynes became ill from a kidney stone attack, thereafter entering the hospital in Atlanta on January 8, 1964. Epstein asked Haynes if he returned to monitoring the surveillance later and Haynes replied that he did not return to the assignment on a full-time basis, but probably relieved other individuals monitoring several times during a period which may have continued as long as a year.

Epstein asked when the King case was closed and Haynes replied he did not know, but felt sure it was sometime prior to April, 1968. Haynes was asked who made the decision to close the file, and he stated he did not know. Epstein asked when the SCLC case was closed and Haynes stated he did not recall, but did remember that SCLC activity "wound down" considerably prior to King's death, and even more so after King's death to the point that the information did not warrant maintaining the file in a pending status. When asked who gave instructions to close the file, Haynes stated that he did not recall but that it was possible that the Atlanta Office took the action closing the file, and it was even possible that Haynes may have approved such action administratively; however, he does not recall.

Epstein asked if it would be customary for New York to send Atlanta any information they received regarding Stanley Levison and if so what file it would be put in. It was explained to Epstein it would be necessary to know the nature of such information before answering such a question, however, since Atlanta did not have any pending investigation regarding Levison or SCLC there would be no reason for New York to send any information regarding Levison to Atlanta unless they had some reason to request information concerning some pending investigation. Epstein pressed the question of whether New York would continue to send Atlanta information concerning Levison and he was informed, based on information available at Atlanta, there was no reason for New York to send the information to Atlanta regarding Levison, without requesting investigation; however, it was possible that they may have some reason for having sent information to Atlanta for informational purposes.

Epstein asked where the monitoring of the King technical surveillance was conducted and he was advised by Haynes it was conducted in the Peachtree Towers Building. He asked the room number and Haynes replied he did not recall the room number but did recall it was on one of the upper floors of the building. He asked who made the installation and handled the contact with the telephone company, and Haynes replied he did not know, that the equipment was in the apartment when Haynes was instructed to report there for the monitoring assignment. Epstein asked who else was present in the apartment at the time and was advised that SA Alden F. Miller was present, connected the equipment and instructed Haynes in the operation of the equipment. In response to the question of other Agents monitoring the technical surveillance at the time, Haynes stated to the best of his knowledge he was probably the first Agent to monitor the surveillance, with the technical assistance of SA Miller.

Epstein asked the name of the person who rented the apartment at the Peachtree Towers and Haynes replied he did not know. He asked if such information was available in the files of the Atlanta Office and Haynes replied he did not know, explaining that such information may have been made a matter of record, and yet may not have been made a matter of record. Epstein stated that at this point he would stop the questioning in order for Haynes to go upstairs to the FBI Office and review the files to determine whether or not such information was in the files. Haynes explained that such a project would probably entail extensive file review in order to state whether such information was, or was not, in the file. Epstein asked if Haynes could have someone else conduct the necessary file review regarding this matter, at which time Haynes replied he would request a break at this point to consult with an FBIHQ representative in the FBI Office. After consulting with the FBIHQ representative for approximately five minutes, Haynes returned to Senator Talmadge's office and informed Epstein that the clearance for the interview was based on what Haynes could remember regarding King and not on information from the files. Epstein was advised that any request by him for information from the files should be submitted in writing in the usual manner. Epstein did not pursue this matter any further.

Epstein asked if Haynes knew Bill Sullivan and if he recalled him coming to Atlanta. Haynes replied that he did know Sullivan and recalled him coming to Atlanta in the 1960's at least on one occasion and possibly twice. Haynes explained he recalled Sullivan coming to Atlanta in the early or middle 1960's in connection with a regional type FBI conference regarding developing and handling of informants in Klan organizations, and possibly a second visit at a later time, but no other details were recalled.

Epstein asked Haynes if he knew of any instance where an Agent in Atlanta furnished any information regarding King or the SCLC to the news media and Haynes replied he did not.

Epstein asked if Atlanta had a COINTELPRO file regarding King or the SCLC and Haynes advised it did not. Haynes was asked if he knew of any COINTELPRO information regarding King or the SCLC and Haynes stated he did not. When asked where such material would be filed, Haynes stated that since he knew of none he did not know where it would be filed. When asked if such information could be in the case file, Haynes advised it was possible.

Epstein asked if the Atlanta Office participated in the COINTELPRO retrieval project and was advised by Haynes he thought so; however, Haynes was not familiar enough with the particular project he had in mind to be sure. Haynes explained he had in mind a project around the first of 1975, which had to do with declassifying certain previously identified COINTELPRO correspondence and subsequently classifying some material also connected with COINTELPRO. Epstein wanted to know if any COINTELPRO information regarding King or SCLC was included in this information and he was informed Haynes had no knowledge of such, but the details of the project were handled by another Agent under Haynes' supervision. Haynes was requested to identify the Agent and replied he would have to have a few minutes to consult with an FBIHQ representative in the FBI Office prior to answering this question. Epstein contacted the FBIHQ representative in the Atlanta Office telephonically, requesting him to come down to Senator Talmadge's office and conferred with him for approximately five minutes, during which time Haynes was not present. At the conclusion of this conference, upon advice of the FBIHQ representative Haynes informed Epstein the Agent who handled the above-mentioned project was SA Edward A. Shea.

Epstein terminated the interview at 3:10 P. M.

INTERVIEW OF FBI SPECIAL AGENT (SA)
EDWARD A. SHEA BY SSC STAFF MEMBERS

The following information has been furnished by SA Edward A. Shea concerning an interview of him by SSC Staff Members Michael Epstein and Mary DeOreo, which took place on July 23, 1975, in the office of Senator Herman E. Talmadge in Atlanta, Georgia.

The interview of SA Edward A. Shea by the two SSC Staff Members commenced at 9:35 A. M. and ended at 10:37 A. M.

At the beginning of the interview no mention was made of SA Edward A. Shea's rights by SSC Staff Members Michael Epstein and Mary DeOreo.

The following information was furnished to these two SSC Staff Members and it is not necessarily in chronological order:

At the outset of the interview, SA Shea was questioned about his service in the Bureau, type work he did, etc., and SA Shea indicated that he had been in the Federal Bureau of Investigation (FBI) as a Special Agent for almost 25 years, having entered the Bureau in March, 1951; after an initial assignment at Richmond, Virginia, SA Shea was transferred to Cleveland, Ohio, where he was assigned to the security squad. SA Shea remained in Cleveland for 20 years doing security work for practically the entire time. In May, 1972, SA Shea was transferred to the Atlanta Division and once again was assigned to security work, which assignment has continued to the present time.

ENCLOSURE

SA Shea was then asked by Mr. Epstein about a review project he had handled earlier in the year pertaining to the Counterintelligence Program (COINTELPRO) in the Atlanta Division and what it involved.

SA Shea mentioned that in approximately the latter part of December, 1974, or early January, 1975, he had been assigned to handle a project dealing with COINTELPRO in the Atlanta Office.

FBI Headquarters (FBIHQ) had sent out communications to various field offices around the latter part of December, 1974, or early January, 1975, relative to the COINTELPRO-Hate Groups, Black Nationalist Hate Groups, New Left, and Communist Party, U. S. of America (CP,USA). In these communications FBIHQ had indicated it was in receipt of a request under the Freedom of Information Act (FOIA) for documents relating to the COINTELPRO. As a result, FBIHQ had reviewed its files on COINTELPRO and classified various documents. FBIHQ listed these documents in work papers which were sent out to the various field offices, including Atlanta, as enclosures to the FBIHQ communications. These work papers listed documents that were to be classified in each office and recipients were instructed to review the work papers to make sure all copies of these documents classified by FBIHQ were so classified in the field office files on COINTELPRO. These work papers showed the classification assigned to the particular document, the identifying number of the classifying officer, the exemption category and the date it was classified by FBIHQ.

In addition, these FBIHQ communications instructed the recipient field offices to review its various COINTELPRO files, such as the ones on the Hate Groups, Black Nationalist Hate Groups, etc. to insure that all other documents in these files which were classifiable were so classified. These were to include memoranda and letters to other offices, etc. The office that originated the communication had the responsibility of notifying other recipients of these communications so their copies could also be classified.

Based on these FBIHQ communications, SA Shea, who handled this project by himself, located all the documents listed in the FBIHQ work papers and classified them according to the information set out in the work papers.

In addition, SA Shea also reviewed each of the Atlanta COINTELPRO files on the categories previously mentioned, for any further documents that should be classified.

SA Shea recalled that in this part of the review he did locate various documents in these files which he felt required classification.

SA Shea could not recall any specific documents that he so classified but did remember classifying a number of documents in the COINTELPRO-Hate Group file and COINTELPRO-CP,USA file. These documents selected by SA Shea were then classified, and copies designated for any other Atlanta files were then located and classified; in addition, FBIHQ and other field offices that had been furnished copies of these documents were then notified by Atlanta to locate their copies of these documents and classify them according to information furnished by Atlanta.

SA Shea pointed out to the SSC Staff Members that he recalled that subsequently FBIHQ had sent back communications to Atlanta relative to documents SA Shea had classified in both the COINTELPRO-Hate Group and COINTELPRO-CP,USA files. FBIHQ instructed that all those classified by SA Shea in the COINTELPRO-Hate Group file be declassified as they did not warrant classification and also a number in the COINTELPRO-CP,USA file also were to be declassified, which was done by SA Shea.

The SSC Staff Members then inquired if during this review of the COINTELPRO files, whether SA Shea had noted any COINTELPRO actions, any recommended actions, or any COINTELPRO suggestions which were directed against Reverend Martin Luther King, Jr., Coretta King or the Southern Christian Leadership Conference (SCLC). SA Shea indicated that in carrying out this project, his purpose was first to locate the COINTELPRO documents listed by FBIHQ in their work papers and classify them; next he was also to review the Atlanta COINTELPRO files to see if any other COINTELPRO documents prepared by Atlanta required classification.

In handling this project, SA Shea was primarily interested in classifying the documents in these COINTELPRO files and little notice was made of any specific COINTELPRO actions actually being recommended in these documents. SA Shea pointed out that in his review he did not recall any COINTELPRO action that had been directed or recommended against Reverend King, his wife, Coretta, or SCLC.

SA Shea was then questioned as to whether he could recall in his review, having to classify any Atlanta COINTELPRO document in which a copy may have been designated for the case file on SCLC, and SA Shea indicated that he could not recall or remember anything specific on this.

Mr. Epstein then inquired if the Atlanta Office had any COINTELPRO files which only pertained to organizations, in which all information relative to a particular organization like the Young Socialist Alliance (YSA), or the Socialist Workers Party (SWP) would be located. SA Shea indicated there was no such specific breakdown in the Atlanta COINTELPRO files as they were set up under broad group categories, such as Hate Groups, Black Hate Groups, New Left, etc.

Mr. Epstein then asked if SA Shea had ever been involved in handling any COINTELPRO matters when he was assigned to the Cleveland Office or whether the Cleveland Office ever had any COINTELPRO actions against Reverend King or SCLC. SA Shea indicated that he understood that the questioning of him would be limited to his review of the Atlanta COINTELPRO files earlier in the year, for the classification purposes; SA Shea suggested that this should be discussed with the FBIHQ representative, who was in the Atlanta Office at the time, to resolve this; however, Mr. Epstein did not pursue this.

Mr. Epstein then inquired, that prior to the FBI instituting the COINTELPRO, and prior to the various field offices setting up COINTELPRO files, if some Agent made a suggestion about a counterintelligence action, would such a suggestion, say in the form of a memorandum or letter, be placed in the case file of the organization or the individual against whom the action was being directed. SA Shea indicated he had no knowledge of any such suggestions ever being made in the form of memoranda, letters, etc., suggesting a counterintelligence action being directed against anyone or any organization prior to the institution of the actual COINTELPRO by FBIHQ.

Mr. Epstein then asked, if when FBIHQ instituted the COINTELPRO and the various field offices set up COINTELPRO files, was there any retrieval of any documents made from any files dating back prior to the commencement of COINTELPRO, that were then placed in any of Atlanta's COINTELPRO files. SA Shea indicated that in his review of the various COINTELPRO files earlier in the year, he had not noted any such indication of this.

Mr. Epstein then asked if SA Shea was aware of any review program dealing with COINTELPRO in which any documents were removed from COINTELPRO files. SA Shea stated emphatically that there was no program to ever remove any documents dealing with COINTELPRO from Atlanta's COINTELPRO files or from any Atlanta files.

On several occasions during the interview of SA Shea, Mr. Epstein would come back to his line of questioning about SA Shea's review of the COINTELPRO files earlier in the year and whether SA Shea could recall any COINTELPRO action or COINTELPRO suggested action against Reverend King, Mrs. King or SCLC. SA Shea on each occasion pointed out that he could not recall seeing any documents in any of the COINTELPRO files which related to any such action directed against the Kings or SCLC.

Mr. Epstein on one occasion asked SA Shea if, during the time he had been assigned to the Atlanta Office, he had ever hear of any COINTELPRO action, or any suggested action, directed against Reverend King, his wife, or SCLC, and SA Shea replied that he had not.

EDWARD A. SHEA BY SSC STAFF MEMBERS

Mr. Epstein also asked if SA Shea was aware of any COINTELPRO action or recommended action being made after FBIHQ has discontinued the COINTELPRO, and SA Shea indicated he knew of no actions or recommendations being made.

During the interview, Mr. Epstein did most of the questioning and Mrs. DeOreo took extensive notes; both SSC Staff Members were pleasant and cordial during the entire interview, which ended at approximately 10:37 A. M.

SUBJECT: INVENTORY OF DOCUMENTS RECEIVED FROM FORMER ASSOCIATE DEPUTY ATTORNEY GENERAL JAMES A. WILDEROTTER, DEPARTMENT OF JUSTICE

Justice Department

At 3:05 p.m. on July 8, 1975, I met with Deputy Attorney General Tyler and advised him of the fact that Mr. Wilderotter had furnished certain materials to the Bureau at the time of his transfer to the White House. I told him that Mr. Wilderotter requested an inventory be prepared of the materials in order to assure their appropriate disposition and that such an inventory was prepared. I told him that the Attorney General was advised by memorandum dated June 26, 1975, with a copy designated for the Deputy, each of which enclosed a copy of the inventory. I explained that I took a copy of the inventory to Mr. Wilderotter and requested him to mark thereon his suggestions as to the disposition of each item.

I suggested that some of the items appearing on the inventory could be material pertinent to the current inquiries by the Senate Select Committee and to conversations recently had with the Deputy Attorney General concerning official and confidential files maintained by Mr. Hoover. I told the Deputy that my purpose in bringing this matter to his personal attention was to emphasize my concern that the Department would be aware of the existence and location of the material listed in the inventory and of our interest in having materials returned to the Department or otherwise disposed of at the earliest possible date.

FBI investigations; and information which originated with other agencies, including foreign intelligence agencies. They were all also informed that an FBI representative would be available in the Atlanta FO for consultation purposes should such a need arise. This procedure, as explained to these SAs, provides that if a question arose during the interview in one of the areas set out above, the SA had the privilege, before replying, of consulting with the FBI representative. The representative did not accompany these Agents to the interviews but was available in the Atlanta FO located in the same building where the interviews took place. Instances of the use of this representative for consultation purposes are indicated in the appropriate memoranda being furnished.

The FBI representative referred to above was Supervisor S. F. It should be noted that it was necessary during the course of some of the interviews for the SA to consult with Phillips as to whether certain information was to be furnished the interviewers and, notably in respect to SA Charles T. Haynes, consultation resulted in our refusal to at this time acquiesce to a request for information from Atlanta FO files. Also, the interview of Haynes late afternoon 7/22/75 resulted in a request for interview of Shea which was arranged on the scene and took place morning of 7/23/75--details of clearance for this covered

SUBJECT: SENSTUDY 75

Michael Epstein, Staff Member, Senate Select Committee, requested that Staff interview be arranged with Seymor Phillips concerning the Bureau's investigation of Martin Luther King. He requested the interview be held at 10 a.m., 8/1/75. He was advised that this was not possible and that sometime next week would be more acceptable. It was agreed that the interview would be conducted at 10 a.m. on Monday, 8/4/75.

In view of the ongoing discussions between the Department, representatives of the King family, and the Senate Select Committee concerning Committee access to information concerning Martin Luther King, Michael Shaheen was contacted concerning this interview.

It was pointed out to Mr. Shaheen that Mr. Phillips had a great deal of knowledge concerning the King investigation and it could be assumed that information would be disclosed during interview which might contravene an agreement with the King family should such an agreement become perfected. Since the Department was to meet with representatives of the King family and Senate Select Committee members on 7/31/75, it was suggested that any decision concerning Mr. Phillips' interview be held in abeyance pending a resolution of this problem. Shaheen agreed.

Shaheen subsequently advised SA Daly that the meeting with the King family representatives, Senate Select Committee representatives and the Department had not resulted in an agreement. He said he had discussed the pending interview of Mr. Phillips with the Committee Staff representatives and they said they would furnish guidelines concerning the topics to be covered during the interview. Shaheen indicated these guidelines would be consistent with the King family's concerns regarding the production of information from Bureau files concerning King.

This is in response to SSC letter dated July 3, 1975, requesting copies of all communications from the FBI Director and/or other Headquarters personnel to more than one FBI field office and/or to all Agents in those offices regarding the activities of the SSC.

Attached for your approval and forwarding to the Committee is the original of a memorandum with enclosures which constitutes our response to this request. A copy of the memorandum and the enclosures is being provided for your records.

Sensitive information pertaining to electronic surveillance contained in FBIHQ teletype of June 13, 1975, (attached) was not excised pursuant to advice received from Mr. K. The June 13, 1975, FBIHQ teletype (attached) has been sanitized only to the extent that the terms "mail surveillance" and "source" were substituted for wording which could tend to identify specific sensitive sources.

Supervisor J. P. Thomas, CI-2, INTD, consulted with K. William O'Connor, regarding possible excisions to 6/13 and 18/75 teletypes, to protect electronic surveillance and mail surveillance operations. O'Connor advised that the material should be given to the SSC. He was informed that this would be noted in our memorandum to the Attorney General and he assented to this. RECENTLY, THE SENATE SELECT COMMITTEE (SSC) STAFF HAS INTERVIEWED SEVERAL FORMER EMPLOYEES AND IT IS ANTICIPATED THAT MANY MORE SUCH PERSONNEL WILL BE CONTACTED.

THE FBI HAS PLEDGED FULL COOPERATION WITH THE COMMITTEE AND WE WISH TO ASSIST AND FACILITATE ANY INVESTIGATIONS UNDERTAKEN BY THE COMMITTEE WITH RESPECT TO THE FBI. HOWEVER, WE DO HAVE AN OBLIGATION TO INSURE THAT SENSITIVE SOURCES AND METHODS AND ONGOING SENSITIVE INVESTIGATIONS ARE FULLY

SHOULD ANY FORMER EMPLOYEE CONTACT YOUR OFFICE AND HAVE ANY QUESTION REGARDING HIS OBLIGATION NOT TO DIVULGE INFORMATION OBTAINED BY VIRTUE OF HIS PAST FBI EMPLOYMENT, HE SHOULD BE INSTRUCTED TO CONTACT LEGAL COUNSEL, FBIHQ, BY COLLECT CALL. YOUR CONVERSATIONS WITH FORMER EMPLOYEES MUST BE IN KEEPING WITH OUR PLEDGE. IT IS BELIEVED SUCH A PROCEDURE WOULD INSURE PROPER PROTECTION AND ALSO FACILITATE THE WORK OF THE SSC.

MEMORANDUM TO ALL EMPLOYEES

RE: INTERVIEWS OF FBI EMPLOYEES

All employees are advised that Congress is conducting an inquiry into activities of the Federal Bureau of Investigation. Congressional staff members are conducting interviews of former and current FBI employees. This Bureau has pledged its cooperation with the Congress.

You are reminded of the FBI Employment Agreement (copy attached) with which you agreed to comply during your employment in the FBI and following termination of such employment.

Also, you are reminded of Title 28, Code of Federal Regulations, Section 16.22 (copy attached), which reads as follows:

"No employee or former employee of the Department of Justice shall, in response to a demand of a court or other authority, produce any material contained in the files of the Department or disclose any information relating to material contained in the files of the Department, or disclose any information or produce any material acquired as part of the performance of his official duties or because of his official status without prior approval of the appropriate Department official or the Attorney General in accordance with Section 16.24."

Also, you are reminded of Department of Justice Order Number 116-56, dated May 15, 1956, (copy attached) which, among other things, requires an employee upon the completion of his testimony to prepare a memorandum outlining his testimony.

Our cooperative efforts, of course, must be consistent with the above cited authority. Therefore, if you are contacted for purpose of interview or testimony you are to request approval as required by the Employment Agreement and await authorization before furnishing information, testimony, or record material.

EMPLOYMENT AGREEMENT

As consideration for employment in the Federal Bureau of Investigation (FBI), United States Department of Justice, and as a condition for continued employment, I hereby declare that I intend to be governed by and I will comply with the following provisions:

(1) That I am hereby advised and I understand that Federal law such as Title 18, United States Code, Sections 793, 794, and 798; Order of the President of the United States (Executive Order 11652); and regulations issued by the Attorney General of the United States (28 Code of Federal Regulations, Sections 16.21 through 16.26) prohibit loss, misuse, or unauthorized disclosure or production of national security information, other classified information and other nonclassified information in the files of the FBI;

(2) I understand that unauthorized disclosure of information in the files of the FBI or information I may acquire as an employee of the FBI could result in impairment of national security, place human life in jeopardy, or result in the denial of due process to a person or persons who are subjects of an FBI investigation, or prevent the FBI from effectively discharging its responsibilities. I understand the need for this secrecy agreement; therefore, as consideration for employment I agree that I will never divulge, publish, or reveal either by word or conduct, or by other means disclose to any unauthorized recipient without official written authorization by the Director of the FBI or his delegate, any information from the investigatory files of the FBI or any information relating to material contained in the files, or disclose any information or produce any material acquired as a part of the performance of my official duties or because of my official status. The burden is on me to determine, prior to disclosure, whether information may be disclosed and in this regard I agree to request approval of the Director of the FBI in each such instance by presenting the full text of my proposed disclosure in writing to the Director of the FBI at least thirty (30) days prior to disclosure. I understand that this agreement is not intended to apply to information which has been placed in the public domain or to prevent me from writing or speaking about the FBI but it is intended to prevent disclosure of information where disclosure would be contrary to law, regulation or public policy. I agree the Director of the FBI is in a better position than I to make that determination;

(3) I agree that all information acquired by me in connection with my official duties with the FBI and all official material to which I have access remains the property of the United States of America, and I will surrender upon demand by the Director of the FBI or his delegate, or upon separation from the FBI, any material relating to such information or property in my possession;

(4) That I understand unauthorized disclosure may be a violation of Federal law and prosecuted as a criminal offense and in addition to this agreement may be enforced by means of an injunction or other civil remedy.

I accept the above provisions as conditions for my employment and continued employment in the FBI. I agree to comply with these provisions both during my employment in the FBI and following termination of such employment.

OFFICE OF THE ATTORNEY GENERAL

WASHINGTON, D. C.

May 15, 1956

ORDER NO. 116-56

It is the policy of the Department of Justice to extend the fullest possible cooperation to congressional committees requesting information from departmental files, interviews with department employees, testimony of department personnel, or testimony of Federal prisoners. The following procedures are prescribed in order to effectuate this policy on a basis which will be mutually satisfactory to the congressional committees and to the Department. [This order supersedes the Deputy Attorney General's Memorandum No. 5, dated March 23, 1953, and his Memorandum No. 97, dated August 5, 1954. It formalizes the Attorney General's press release of November 5, 1953, establishing procedures to permit committees of the Congress and their authorized representatives to interview and to take sworn testimony from Federal prisoners. It supplements Order No. 3229 (Revised) dated January 13, 1953, and Order No. 3464, Supplement No. 4 (Revised) dated January 13, 1953 (with Memorandum of "Authorization Under Order No. 3464 Supplement No. 4 (Revised)" dated January 13, 1953), insofar as said orders have reference to procedures to be followed in the Department's relations with congressional committees. In support of this order, reference should be had to the President's letter dated May 17, 1954, addressed to the Secretary of Defense, and to the Attorney General's Memorandum which accompanied it.]

A. REQUESTS FOR INFORMATION FROM DEPARTMENT FILES

1. Congressional committee requests for the examination of files or other confidential information should be reduced to writing, signed by the chairman of the committee, and addressed to the Deputy Attorney General, who is responsible for the coordination of our liaison with Congress and congressional committees. The request shall state the specific information sought as well as the specific objective for which it is sought. The Deputy Attorney General will forward the request to the appropriate division where a reply will be prepared and returned for the Deputy Attorney General's signature and dispatch to the chairman of the committee.

2. If the request concerns a closed case, i. e., one in which there is no litigation or administrative action pending or contemplated, the file may be made available for review in the Department, in the presence of the official or employee having custody thereof. The following procedure shall be followed in such cases:

a. The reply letter will advise the committee that the file is available for examination and set forth the name, telephone extension number, and room number of the person who will have custody of the file to be reviewed;

ALL FBI INFORMATION CONTAINED

DATE 10/17/2000 BY SP2 ALM/MAK
mor-16

b. Before making the file available to the committee representative all reports and memoranda from the FBI as well as investigative reports from any other agency, will be removed from the file and not be made available for examination; provided however that if the committee representative states that it is essential that information from the FBI reports and memoranda be made available, he will be advised that the request will be considered by the Department. Thereafter a summary of the contents of the FBI reports and memoranda involved will be prepared which will not disclose investigative techniques, the identity of confidential informants, or other matters which might jeopardize the investigative operations of the FBI. This summary will be forwarded by the division to the FBI with a request for advice as to whether the FBI has any objection to examination of such summary by the committee representative. The file will not be physically relinquished from the custody of the Department. If the committee representative desires to examine investigative reports from other government agencies, contained in the files of the Department, he will be advised to direct his request to the agency whose reports are concerned.

3. If the request concerns an open case, i. e., one which litigation or administrative action is pending or contemplated, the file may not be made available for examination by the committee's representative. The following procedure shall be followed:

a. The reply letter should advise the committee that its request concerns a case in which litigation or administrative action is pending or contemplated, and state that the file cannot be made available until the case is completed; and

b. Should briefly set forth the status of the case in as much detail as is practicable and prudent without jeopardizing the pending contemplated litigation or administrative action.

B. REQUESTS FOR INTERVIEWS WITH DEPARTMENTAL PERSONNEL

1. Requests for interviews with departmental personnel regarding any official matters within the Department should be reduced to writing, signed by the chairman of the committee, and addressed to the Deputy Attorney General. When the approval of the Deputy Attorney General is given, the employee is expected to discuss such matters freely and cooperatively with the representative, subject to the limitations prescribed in A respecting open cases and data in investigative reports;

2. Upon the completion of the interview with the committee representative the employee will prepare a summary of it for the file, with a copy routed to his division head and a copy routed to the Deputy Attorney General.

C. EMPLOYEES TESTIFYING BEFORE CONGRESSIONAL COMMITTEES

1. When an employee is requested to testify before a congressional committee regarding official matters within the Department the Deputy Attorney General shall be promptly informed. When the Deputy Attorney General's approval is given the employee is expected to testify freely subject to limitations prescribed in A respecting open cases and data in investigative reports;

2. An employee subpoenaed to testify before a congressional committee on official matters within the Department shall promptly notify the Deputy Attorney General. In general he shall be guided in testifying by Order 3229 (Revised) and the President's letter of May 17, 1954, cited at the beginning of this Order.

3. Upon the completion of his testimony the employee will prepare a memorandum outlining his testimony with a copy routed to his division head and a copy routed to the Deputy Attorney General.

D. REQUESTS OF CONGRESSIONAL COMMITTEES FOR THE TESTIMONY OF FEDERAL PRISONERS

Because of the custodial hazards involved and the extent to which their public testimony may affect the discipline and well-being of the institution, it is the policy of the Department not to deliver Federal prisoners outside the penal institution in which they are incarcerated for the purpose of being interviewed or examined under oath by congressional committees. However, when it appears that no pending investigation or legal proceeding will be adversely affected thereby and that the public interest will not be otherwise adversely affected, Federal prisoners may be interviewed or examined under oath by congressional committees in the institution in which they are incarcerated under the following procedures, and with the specific advance approval of the Deputy Attorney General.

1. Arrangements for interviewing and taking of sworn testimony from a Federal prisoner by a committee of the Congress or the authorized representatives of such a committee shall be made in the form of a written request by the chairman of the committee to the Deputy Attorney General.

2. Such written request shall be made at least ten (10) days prior to the requested date for the interview and the taking of testimony and shall be accompanied by written evidence that authorization for the interview or the taking of sworn testimony was approved by vote of the committee. Such request shall contain a statement of the purpose and the subjects upon which the prisoner will be interrogated as well as the names of all persons other than the representatives of the Department of Justice who will be present.

3. A member of the interested committee of the Congress shall be present during the entire time of the interrogation.

4. The warden of the penal institution in which the Federal prisoner is incarcerated shall, at least forty-eight (48) hours prior to the time at which the interview takes place, advise the Federal prisoner concerned of the proposed interview or taking of sworn testimony; and shall further advise that he is under the same, but no greater obligation to answer than any other witness who is not a prisoner.

5. The warden of the penal institution shall have complete authority in conformity with the requirements of security and the maintenance of discipline to limit the number of persons who will be present at the interview and taking of testimony.

6. The warden or his authorized representative shall be present at the interview and at the taking of testimony and the Department of Justice shall have the right to have one of its representatives present throughout the interview and taking of testimony.

7. The committee shall arrange to have a stenographic transcript made of the entire proceedings at committee expense and shall furnish a copy of the transcript to the Department of Justice.

E. OBSERVERS IN ATTENDANCE AT COMMITTEE HEARINGS

In order that the Department may be kept currently advised in matters within its responsibility, and in order that the Deputy Attorney General may properly coordinate the Department's liaison with Congress and its committees, each division that has an observer in attendance at a congrssional hearing, will have the observer prepare a written summary of the proceeding which should be sent to the division head and a copy routed to the Deputy Attorney General.

NOTE: By letterhead memorandum dated 7-16-75 we made available to the Committee a summary of the Inspection Division inquiry into the "official and confidential" files, along with making available in Bureau space a list of people knowledgeable concerning the "official and confidential" files who were contacted during the Inspection Division inquiry. We have now been requested to forward this list to the Committee's offices. It would appear to resist this request would not be in the best interests of the Bureau. This is to advise that Special Agent-Liaison Officer L. A. Crescioli has been requested to appear for informal staff interview by the Senate Select Committee (SSC) 7/30/75.

On 7/28/75 Mr. James Dick, Staff member, SSC, requested that Liaison Officer Crescioli appear on 7/30/75 for informal staff interview to be conducted by Mr. Dick and Mr. Paul Wallach, both SSC Staff members. According to Mr. Dick, the interview will concern the general liaison responsibilities of Liaison Officer Crescioli with the Headquarters Office of the Inspection Service, U. S. Postal Service (USPS).

Upon learning on the above occasion that Crescioli assumed the USPS Headquarters liaison post in November, 1974, Mr. Dick inquired as to Crescioli's predecessor and was provided the name of Mr. Francis X. O'Neill (currently assigned as ASAC, New Haven Office). Mr. Dick was aware of the fact that at an earlier period SA L. F. Schwartz handled liaison with USPS.

RECOMMENDATIONS:

1. That Liaison Officer Crescioli be released from his employment agreement for purposes of this interview.

FBI: Missing the Point

So many disclosures have surfaced so rapidly that the public may have become inured to still more revelations about improper activities of government intelligence agencies. Yet the admissions and comments Monday by FBI Director Clarence M. Kelley should not be permitted to pass unnoticed:

—The FBI for many years engaged in "national security" burglaries, and, presumably, foreign embassies in Washington were among the targets.

—The FBI still compiles "personal behavior" information on government officials, including members of Congress and prominent private citizens.

In defending the burglaries, Kelley said: "I am convinced that in these matters where there might be some criticism there is an underlying intent to do that which is good for the nation. I have not come across any activities which I would construe as being illegal or being directed toward personal gain or to enhance the personal reputation of anyone."

I spoke of past [illegible]

This analysis, even if accurate—which is doubtful—betrays a misunderstanding of the responsibilities of an agency like the FBI in a democratic society.

A warning some 20 years ago by Supreme Court Justice Felix Frankfurter goes to the heart of the problem. Frankfurter said, "The accretion of dangerous power does not come in a day. It does come, however slowly, from the generative force of unchecked disregard of the restrictions that fence in even the most disinterested assertion of authority."

Of special significance was Kelley's revelation that the FBI continues to collect personal information on congressmen and others who are not under criminal investigation. His explanation was nothing less than astonishing. He said such information, which includes sex and drinking habits, "might very well be helpful to us in later investigations." Of course it might, but that tactic is the very essence of a police state.

I said "receives"

The bureau, Kelley said, is drawing guidelines, in cooperation with the Justice Department, to control the collection of "personal behavior" information not related to criminal investigations. No guidelines are necessary, because no American citizen should be the target of such an investigation.

I did not say this. It is their conclusion

"I have not reviewed files to find out about reporters, congressmen or other public figures," Kelley said, but here again he was wide of the mark. The discretion or lack of it, or the good intention of an FBI director or lack of it, does not meet the issue. Such files should not exist.

See pg 23 for my statement

After the Senate Select Committee on Intelligence Agencies completes its investigation, Congress must redefine the roles of the FBI, the CIA and other elements of the intelligence community, which includes thousands of employes and which spends $5 billion to $8 billion a year. Their secret operations, and the manpower and billions they command, give them vast power. That power must be brought under firm control.

Some mechanism must be devised that is more effective than the present oversight committees of Congress, which, based on their record, could be more accurately dubbed the "overlook" committees of Congress.

NEWS CONFERENCE OF CLARENCE M. KELLEY
DIRECTOR, FEDERAL BUREAU OF INVESTIGATION
JULY 14, 1975

MR. KELLEY: Good morning. I have very few statements to make as an opening. I just want to say that this is a further attempt on my part to be a little more available. Frankly, it is something which I hope we can continue and I have not in the past been premeditatively evasive nor reluctant to appear before you. But, frankly, I've been pretty busy with a number of other things. I want to let you know that we're continuing our efforts to try to improve the rapport between us. We will continue to do some things and hopefully, in the future we can get together more frequently on the basis of some of our past meetings which I think have been very fruitful. So now I'll throw it open for questions and these lights are a little bit strong but I'll try to be able to identify you. Do you have any questions?

QUESTION: Do you have any evidence, sir, or any information leading you to suspect any CIA Agents have been planted in any manner or form in any executive agencies for the purpose of transmitting evidence back to the CIA about that agency?

MR. KELLEY: I have no evidence whatsoever brought to my attention and I certainly know of none.

QUESTION: Sir, do you have ongoing programs trying to check out that sort of thing? Do you look for it?

ENCLOSURE

MR. KELLEY: We have no ongoing programs whatsoever and have had no reports that it has occurred and this is something new to us.

QUESTION: Sir, there have been complaints repeatedly in recent days from Congressmen and Senators on the Hill who are charged with investigating the FBI and its domestic surveillance in past years that they are not getting the information that they need. We heard from Senator Church maybe yesterday. Can you respond to that?

MR. KELLEY: The allegation has been made to the effect that the FBI is dragging its feet, so to speak, and slow to respond to the requests of the Church committee for information relative to past abuses by the FBI in the intelligence field and it's even been said from time to time that this reluctance is reflective of an effort to preserve the image of Mr. Hoover. First, I want you to know that in giving instructions in this matter, it has been consistently my policy to say that we should be completely candid and forthright. And we should respond in whatever manner we can consistent, of course, with some restrictions--those being a matter of confidentiality and right to privacy. Insofar as dragging our feet, the letter which was sent to us was dated May 14, 1975. We immediately embarked on a program to try to respond. In May, 1975, I remember it was the last half of May, we devoted 323 man days to try to respond and to date have added another over 400 hours and it's a total dedication of personnel--of 102 of our people. We have 102 people who are responding to this request. The reason why it has taken this much time and this great amount of manpower is that we must go through all of this material very carefully to preserve, of course, the privacy of those who may be mentioned and also to assure that matters of grave import are no so disclosed. We are trying at best we can to resolve in favor of making them available. I think this number 102 is very significant inasmuch as in the work of the Freedom of Information, there are also over 102, about 105 people, dedicated to fulfilling our obligations there. So, we have almost 210 people engaged in these two enterprises and this has a great impact upon our capabilities. Does that answer your question?

QUESTION: Can you tell us why Senator Church would be complaining?

MR. KELLEY: Why he what?

QUESTION: Why he would be complaining?

MR. KELLEY: No sir, I don't know. Some of these things, of course, may be thought to be too slow and it's thought perhaps that all you have to do is to remove the material from the file and send it on up. We have already submitted a great deal of it and intend within the next 10 days to complete the entire matter.

QUESTION: Is in any of that material now in the Justice Department awaiting approval of the Attorney General?

MR. KELLEY: Yes, some of it is in the hands of the Department ready to be transmitted. That's our first step--after we make our survey, to ship it over to them, they review it and then send it on through.

QUESTION: Well, has it been there for a while?

MR. KELLEY: I can't tell you exactly what length of time but I can say that within about 10 days, we'll have ours completed and you can gage thereafter what type of delay is experienced through the Department.

QUESTION: Mr. Kelley, Senator Church says that you won't allow him and his staff to interview FBI Agents and that's one of the complaints he makes about the lack of cooperation. Is that true that you will not allow the Senate staff to interview FBI Agents?

MR. KELLEY: We have gone through a procedure whereby ex-FBI Agents may have available to them our people in order to consult with them as to any matter which might be thought to violative of some of the confidentiality provisions; and we have not, to my knowledge, denied the right of anyone presently employed to be interviewed with, of course again, the requirements that if they want to consult with us they may do so.

QUESTION: Well, in other words, you're saying that FBI Agents can be interviewed by the Senate staff. Is that correct?

MR. KELLEY: Let me just check that. Mr. Mintz, is that correct? Have we denied any?

MR. MINTZ: We have not denied any. We've not indicated to anyone we would not let them be interviewed.

QUESTION: What was that Mr. Kelley, about ex--I didn't understand, about ex-FBI Agents?

MR. KELLEY: Ex-FBI Agents, when called, and we're advised, are informed that one of our people can be present outside the interview room for consultation by that interviewee with our people to determine whether or not a certain question is beyond the purview of his capability, and we do not say to him that he cannot answer but we do say here are the rules, the regulations, the law and you can be guided in accordance with your own dictates. But we make available to him a consultant, so to speak.

QUESTION: Is that a requirement or..?

MR. KELLEY: That's an agreement between us.

QUESTION: In other words, when an ex-Agent goes up, he has to have somebody?

MR. KELLEY: No sir, he does not have to have but we inform him that he may have if he so desires.

QUESTION: During your confirmation hearings two years ago, you advocated or said that you would like to see more Congressional oversight of the FBI. You think now that there's too much, just about right, or not enough oversight?

MR. KELLEY: It is true that I said during my confirmation that I do not object to FBI Congressional oversight. One has been established and I have met with them on several occasions to set an oversight committee. There is also a House so-called oversight committee--it's the House Judiciary Committee--there are others who may by virtue of their jurisdiction feel that they, too, have oversight. We do no oppose House oversight. Frankly, I would like to have a joint committee of oversight so that we can know precisely to whom we should report and they, in turn, know precisely to whom any oversight problems can be referred. Basically, in other words, I do not object to oversight--I do think that it would be much better if we could have it well-structured so that it will be clearly understood by all parties concerned as to what they are going to do and how they are to do it.

QUESTION:	Mr. Kelley, do you feel the oversight being conducted now between the Senate and House is probing too deeply into the FBI--do you feel that any of the operations of the FBI have been hurt by the investigations going on now?
MR. KELLEY:	I do not construe the activities of the oversight groups as having delved too deeply into the work of the FBI. We do on occasion feel that perhaps some matters need protection, particularly those involving national security, but I have no objection in the exchange in oversight groups of any matter in which we are engaged. I think, as a matter of fact, that this is a proper balance insofar as keeping us in line and I also welcome it inasmuch as it gives us an opportunity to explain just what and how we do things. I do not object to the exchange, in other words.
QUESTION:	Mr. Kelley, you said that you're not attempting to preserve the image of J. Edgar Hoover and, apparently, you know what will be in the information that is to go out of your office in 10 days. Can you tell us, when that information gets up to the Hill and assuming it's made public, are there going to be some more bomb shells about the FBI that we haven't heard about or is this all information which has generally been made public?
MR. KELLEY:	I don't know of any bomb shells, so to speak. In the news media, there have been many things discussed, many reports made, and in those matters I think that just about everything that we know about has been already, at least to

some extent, discussed and, to some extent, publicized. I am convinced that in these matters where there might be some criticism, there is an underlying intent to do that which is good for the Nation. I have not come across any activities which I would construe as being illegal, being directed toward personal gain or to enhance the reputation of anyone. I see nothing untoward in these activities, in other words, as they will be reviewed by the various groups.

QUESTION: Now, Mr. Kelley, Mr. Sullivan said about a week ago, that he assumed there had been some national security break-ins over the years and I'm just wondering if there have been national security break-ins, say in the last five years, roughly what number are we talking about and why aren't they illegal? What's the legal authority?

MR. KELLEY: There have been statements made about surreptitious entries and the latest was that statement made by Mr. Sullivan who just retired as the Assistant Director in Charge of the Los Angeles Office; and there have been, of course, reports in the media that the Department of Justice has been inquiring into allegations that our people have engaged in surreptitious entries or, as they are sometimes termed, burglaries. Yes, the FBI has conducted surreptitious entries in securing information relative to the security of the Nation. However, in 1966, all such activity was terminated with the exception of a small amount of actions which were conducted in connection with foreign counterintelligence investigations which we felt had a grave impact upon the security of the Nation. And again, as I just said, I feel that the FBI personnel participating in or approving such activities acted in good faith with the belief that national security interests were paramount and their actions were reasonable. I'm always mindful of a story I heard many years ago about two neighbors who started some arguments which, obviously, were going to terminate into difficulties. One of the neighbors started a campaign to build himself up with shadowboxing, punching the bag and so forth, and it appeared very likely that he was going to be in pretty good shape in order to beat up his neighbor and so the neighbor, thereafter, concerned as to what would happen to him, started to defend himself. You don't wait until the climax which could be the putsch--you start preparing yourself and so I think that the FBI and its officials construed this as paramount again in the protection of the country.

QUESTION: You said that in 1966, there were a small amount of burglaries. I'm just wondering how small is small and who gave the OK. Did this come from President Johnson or President Nixon or was this a decision made by Attorney General....

MR. KELLEY: This matter will be discussed in subsequent hearings and in reports, and further than what I have stated, I cannot comment.

QUESTION: Mr. Kelley, were these directed against Americans or foreign persons?

MR. KELLEY: I would prefer not at this point to make any comments further and particularly not in particularity as to who may have been the ones against whom they were directed.

QUESTION: Well, were they all conducted in this country or were some conducted overseas?

MR. KELLEY: I know of none overseas.

QUESTION: Sir, going back to prior to 1966, why was the procedure changed in 1966?

MR. KELLEY: By virtue of the feeling of Mr. Hoover that, under the then-prevailing philosophy and the feeling that possibly in the context of the times, this was not a viable procedure--they were stopped. It was Mr. Hoover's decision.

QUESTION: Sir, can we infer that there were quite a number, a large number, of burglaries prior to 1966, but fewer since then?

MR. KELLEY: You cannot infer anything because I have not told you of any number. I can only say that they were stopped in 1966. As to the number, I cannot actually tell you how many nor can I say that it's quite a number or very few.

QUESTION: Why can't you tell us the number?

ANSWER: Because we're going to make reports to our Congressional groups and to the Department of Justice and, frankly, I can't tell you the number myself. We don't have any....

QUESTION: They did not entirely stop in 1966? There were some that did get, you say, a small number after 1966?

ANSWER: There may have been some after 1966 which were, of course, in the field of foreign counterintelligence, and such that it would make a grave impact on our....

QUESTION: Before that, they were not with the field of foreign counterintelligence?

ANSWER: Oh, yes, there were some in that field also.

QUESTION: There were others that were not in the field of foreign counterintelligence before 1966?

ANSWER: You recall that I said in the context of the time, it may well have been that prior to that time national security or counterintelligence or whatever terminology you might want to use could have included other areas. But, then you began to compartmentize various types of activities and then it became evident that the area of foreign counterintelligence national security certainly should be differentiated from domestic security.

QUESTION: But, Mr. Kelley, what policy have you followed in the time that you have been Director? Is this type of activity, has it been permitted? Is it policy now to conduct this kind of activity?

ANSWER: I have not had a single request to conduct such activity since I have been made Director. If ever anything of this type comes up, and I can't foresee this need, but, if it ever did come up and it became a matter of grave concern, a matter which is to be solved only through such activity, I would present it to the Attorney General and would be guided by his opinion as to such activity. Frankly, I have not had any such request since I have come aboard.

QUESTION: Is that in the foreign field, Mr. Kelley. Is that limited to the foreign field when you say such activity?

ANSWER: Yes, sir. Foreign intelligence, counterintelligence, national security, whatever terminology you want to use.

QUESTION: Back prior to 1966, were any of those in say organized crime investigations?

ANSWER: I know of none.

QUESTION: Would you characterize, Mr. Kelley, what areas they were in, please. What areas the pre-1966 burglaries took place? Characterize the kinds of investigations they concern?

ANSWER: I can not at this point characterize them because I just don't know how they were to be characterized. But, it could be that, I would guess, that the great majority of them are what we now term counter-foreign, counterintelligence, or national security. I would say that in all probability the geat majority of them were in that area. That's where the grave concern is.

QUESTION: Have you reviewed them from a legal point of view to determine whether any of them at all were conducted without proper legal authority?

ANSWER: We have discussed them with the Department, and will place them in their hands and they will make such a review.

QUESTION: I wanted to ask you if this goes back to World War II, the Korean War, the Vietnam War, the Cold War or all of them?

ANSWER: They will go back to World War II, I'm confident.

QUESTION: Is it possible to get court authorization by warrant or whatever means for surreptitious entry as distinguished from an ordinary search warrant?

ANSWER: Inherent in the request for a microphone installation there is a matter of surreptitious entry. So, therein you have a natural concomitant. You do have that permission. There is some dictum to indicate, at present, that this may be brought up later. But, I know of no authorization which can be obtained per se for a surreptitious entry. And, at this point, of course, the feeling is that these confined as they are to foreign counterintelligence it flows from presidential authority as it applies also to the warrantless wiretaps.

QUESTION: Weren't the civil rights groups, Mr. Kelley, among some of the organizations who were burglarized?

ANSWER: I'm not going to say anything about where they were, or against which organizations they were directed, only to say that they were, Mr. Nelson, and I hope that will satisfy you, and I hope that if there is any revelation to be made later that they can be as complete as possible because, again, we feel that the intent was a very good one and there was no illegality concerned. And the impact of it was to protect the country.

QUESTION: Sir, how can you say that there was no illegality concerned if the Constitution says that you have to have a search warrant to make an entry and without, as I understand it, even checking this with the Attorney General, these Agents burglarized private premises?

ANSWER: The resolution of the problem which you now present is up to the Department and the courts, and I, of course, will not engage in anything except to say that in the defense of the men who authorized and participated, that they had this intent and within every criminal violation there is a necessity that there be the ingredient of intent and there was none here as far as I can determine.

QUESTION: Mr. Kelley, would you say, sir, that most of these requests for surreptitious entry flowed from presidential authority? Is that what you said, sir?

ANSWER: No, I did not say that. I did not give a complete outline as to what the authorization was. And, this again will be a matter which will be discussed in the reviews of the Department and the various Congressional committees.

QUESTION: Sir, would you say that the Cubans who burglarized Daniel Elzberg's psychiatrist's office should not have been convicted then since they thought that they were on a national security mission? They didn't intend to violate any laws. That was their testimony.

ANSWER: I have no judgment insofar as that because my province is in presenting the facts and for the review and determination by the courts and if such an inference was made it was not intended by me to give them any sanctuary. I'm trying to keep in the area of our facts and that particular thing as to whether or not they had any intent or whether or not it is a viable defense is up to the courts.

QUESTION: Mr. Kelley, did you twice mention that you expect some resolution to this question in the courts? How is it going to get into the courts?

ANSWER: I don't know. It possibly will be some sort of a defense, rather some sort of a presentation to the courts by the Attorney General. He has indicated that perhaps this being a Constitutional question--it being a matter of the executive privilege of the presidential power--that it might well be necessary to have such a review to determine.

QUESTION: Were all of these break-ins conducted with the permission of either the Attorney General or the President at the time? Or were there any that were conducted without such approval?

ANSWER: I cannot, at this point, give you any particulars about the program. I just say, as I did before, and this....

QUESTION: Because you don't know or because you're withholding comment?

ANSWER: I'm withholding comment.

QUESTION: Mr. Kelley, I'm still unclear about distinction between break-ins before 1966 and afterward. Is the reduction in number the only change that was made or was there change in the limitations on the targets that were used?

ANSWER: There was a change insofar as the targets just being in the subsequent area confined to those matters which were concerned in foreign counterintelligence.

QUESTION: You imply then that the others concern domestic security or did it go beyond that?

ANSWER: This implication is yours, Mr. Rogers, but....

QUESTION: I'm trying to recall what you said initially.

ANSWER: I said that..., the question was asked me whether I included domestic intelligence, and I said I was confident that the great majority was in the area of foreign intelligence or foreign counterintelligence, whatever you want to call it. And there may have been. I don't know.

QUESTION: Mr. Kelley, you said that you have not received a request for any type of activities such as this since you have been in office. When did the last one take place?

ANSWER: I do not know. I do not know.

QUESTION: Will the material you turn over to the Church Committee include full details of everyone of the break-ins?

ANSWER: It will be a matter which will be completely presented to the Attorney General, and, insofar as full disclosure by him, that's a question which only he can answer. We will report those about which we know.

QUESTION: Mr. Kelley, you said it was also for the good of the country that Agents send letters to school boards and principals and others to damage the reputation of people working who have had connections with groups the FBI had infiltrated. Was that also for the good of the country?

ANSWER: Your statement, was that also for the good of the country to do that, to damage the reputation, was not the issue. As you pose your question, you answered substantially my response that would be made. Yes, I think that the purpose here was to do something that would ultimately end to the benefit of the Nation. In other words, I think in the so-called COINTEL Program, which you mentioned, that the intent there was one which had adequate basis. As to the programs, now, individually activities within those programs may be suspect. I have said and repeated that some of those activities I would not feel are proper today. I wasn't there during the time that all of these programs were developed, nor certainly the approval of the various activities within those programs. Were I to have been there, there is some that perhaps I might have said, "No I don't think this is proper." I have the benefit of hindsight. I have the benefit of experience in local law enforcement which, I think, prepares me to better understand perhaps the impact of some of these types of things. They are not at all unknown in the field of law enforcement. In some degree or another almost all the law enforcement has engaged in some similar types of activities. Not perhaps to the sophistication as the COINTEL Program, but the context of the time is felt necessary in the present day. We realize that different standards should be applied and they are and we do not engage in those activities now. Since April, 1971, we cut them off.

> (NOTE TO CORRESPONDENTS AND EDITORS: The preceding comment by Mr. Kelley concerning local police use of efforts similar to COINTELPRO may be open to misinterpretation. At his direction the FBI later issued his clarifying statement: "I had in mind that law enforcement agencies have used methods designed to create disunity among the criminal element, particularly in organized crime and hoodlum gangs. Probably most common was labeling a crime figure as a police informant to discredit and destroy his criminal influence. These activities to pit one crime figure against another have achieved success in neutralizing the criminal element.")

QUESTION: You said that you disagreed with some of the activities, that they were not proper programs. Alright, does that mean that there are variations of COINTEL Programs still going on?

ANSWER: In the first place, we deliniate certain programs. That's the overall structure of the full system. Within each of these programs there were some activities, individual activities. I feel that the setup of the programs certainly was directed properly, that is, with the intent to preserve the Nation. Insofar as some individual activities, yes, I feel that some were, in today's context particularly, imprudent and that they were not, again in the present context, the type of thing that certainly I would approve. Be that as it may, we stopped them in 1971 and we have no intention to continue them.

QUESTION: Mr. Kelley?

ANSWER: Yes, sir, Joe?

QUESTION: When you were an Agent did you engage in any break-ins or were you aware of any break-ins?

ANSWER: Insofar as the matter which you are now discussing, I think that we can give substantially the same answer to this. This is a matter which is being investigated by the Department and is being investigated by the various committees, particularly the Select Committee of Congress and, I'm not saying that Clarence Kelley engaged in such activites, or did not engage in these activities. I'm merely saying that these have been presented for review and they will, thereafter, be discussed at some length and any publicity that might be given them will be that which will be given by those more knowledgeable than I.

QUESTION: Mr. Kelley, to your knowledge have any members of the FBI been involved in the planning or execution of assassinations?

ANSWER: No, sir. I know of none.

QUESTION: Mr. Kelley, how about the break-in of embassies here in Washington. Have any members of the FBI gained surreptitious entry into any embassies in Washington?

ANSWER: Without naming or designating victims or institutions, I can only say that there were a few concerned with counterintelligence--foreign in nature--subsequent to 1966. Further then that I cannot say.

QUESTION: A few is 10, 20, 100? When you say few, I'm sure that I'm lost as to how few is a few.

ANSWER: Not many.

QUESTION: Was a lot of this done in Washington as opposed to other cities in the country?

ANSWER: There were not a lot, I'm confident of that. And, frankly, I don't think that all of the few were confined to Washington, D. C., but I can't tell you absolutely that that is true.

QUESTION: Mr. Kelley, were any of these done in conjunction with the CIA? With their knowledge?

ANSWER: I know of none. Now, subsequently, perhaps there may have been information which did go to them but, not insofar as the origin of the information, I'm confident of that. We were not in partnership with CIA.

QUESTION: How about the NSA? Were there any of these break-ins done to help benefit the NSA in its code-breaking programs?

ANSWER: That is a matter which will be developed and will be presented and, it's better for them to comment then I.

QUESTION: Mr. Kelley, the Rockefeller Commission report said that, in discussing the CIA's mail cover operations, said the FBI only learned about this about five years after it was in the works. In 1958, I believe. Mr. Colby's report to the President said the FBI knew about it from its conception. Which is correct?

ANSWER: It is my understanding it was 1968.

QUESTION: 1958?

ANSWER: 1968. Wait a minute, 1958, 1958. That's right, 1958.

QUESTION: Mr. Kelley, in the last 50 years, as I understand it from FBI officials, there has never been an FBI Agent prosecuted for any kind of corruption or crime in connection with his official duties. Is there any agreement with the Justice Department either in writing or any other kind of agreement not to prosecute people who may stray from or commit crimes but, rather to handle it with internal discipline?

ANSWER: Mr. Kelly, spelled K-E-L-L-Y, there is no such agreement. I would not abide by such an agreement. I vehemently oppose any such arrangement and would not operate under such arrangement. No, there is none. Yes, anyone that, within the FBI, will be prosecuted if there is evidence leading to that conclusion. I can assure you absolutely that this is my policy, is the policy of the Bureau, and that we will pursue them as vigorously as we possibly can. There's nothing worse in my estimation than the betrayal of trust and that's what we have when one of your own people defects and gives sanctuary and assistance to the crminal world.

QUESTION: How do you account than for the fact that there has been no one who has strayed across the line in all these years? It's almost unhuman.

ANSWER: Well, I appreciate your compliment, Mr. Kelly, which I agree with, there has been none. There have been, of course, some allegations made from time to time, all of which have been pursued and found to be groundless. I think that it's inherent in an organization which is closely scrutinized, an organization which has a strong inspection system but, more than anything else, is the choice of people who are not susceptible to this type of thing. Unquestionably, in such a screening process some might get through. But, than, within the FBI is a built-in system which further prevents this possibility and that is a tremendous pride in this very matter. That is, that there has been no corruption. And, I am confident that Agents working with one another, although, will, of course, on occasion be sympathetic to an Agent who possibly may be drinking too much or may possibly, for other reasons in the area the morals might digress to some extent, they absolutely will not countenance corruption or defection to the criminal element or otherwise contaminate that splendid reputation of the Bureau. It's a unique situation. It's difficult for some to understand. But, it's a built-in barrier to an extension of this type of activity and, something of which we will have tremendous pride and I personally would not hesitate one second to pursue any allegations such as this, feeling that although it may get wide publicity, although it may, to some extent, harm the credibility of the FBI, it must be done. And, I assure you, will be done. Unusual perhaps, but nonetheless, it is present and we will persist with this type of activity. We don't ask our Agents to squeel on one another, we point out the splendid reputation that is inherent within our tradition and is one of the finest traditions you can possibly build.

QUESTION: Mr. Kelley, earlier you spoke of the advantages and limitations of hindsight. After having examined the records of the break-ins and other surreptitious activity, you observed that you thought it was well intentioned, I believe, in most cases. Did you also observe that there was any gross misuse of authority in the process of that?

MR. KELLEY: I do not note in these activities any gross misuse of authority. I see a consistent thread of well-intentioned activities. Perhaps now in the present society, and in the context of now and in those times, I do not feel that it was a corruption of the trust that has been placed in us. As now we have determined a valuation that perhaps could be wrong, but in those days there was no intention to engage in activities which were prohibited, illegal, or otherwise wrong.

QUESTION: Mr. Kelley, why wouldn't an act like the bugging of Martin Luther King's hotel room have been a betrayal of trust? These Agents took an oath under the Constitution and that was prohibited by Federal law at that time.

MR. KELLEY: There have been a number of articles written about this situation. In reviewing this situation, I feel that the authority stemmed from the proper source. It was a matter which was construed in those times as of considerable concern to the country, and the FBI acted in accordance with the request which was made that it be installed.

You say that it was a matter which was then a violation of the law. Within the warrantless wiretaps under ordinary circumstances they could conceivably be construed as a violation, but under the umbrella of the protection of the country they have been authorized, so I don't subscribe to the feeling that they knowingly, in such an installation, vilated the law with the intent to violate the law.

QUESTION: Mr. Kelley, do you still--does the FBI still--compile personal information on the personal behavior of Members of Congress, members of the press, and other people?

MR. KELLEY: The FBI receives a great deal of information from time to time. We are charged when we have a complaint to write up that complaint. We feel that not only are we following the archival rules that such must be recorded, but also we feel in discharge of our duties we should record it because such information might well dovetail with some investigation that we are conducting. People come to us to tell about these things for reasons--not just to spill out gossip and rumor and to possibly put someone on the spot. We inform them, for example, at the time they submit this information a record will be made of this but if it is outside the jurisdiction of the FBI we so state. They know before they leave, for example, that nothing will be done about it other than to record it.

QUESTION: But it is put in the files?

MR. KELLEY: Yes, it is put in the files. Yes sir.

QUESTION: Whether it has to do with sex activities, or drinking too much, or what have you?

MR. KELLEY: The allegations within the complaint are put into the complaint and are put into the file no matter what they might be. Yes.

QUESTION: Government officials, Members of Congress and the press, and what have you?

MR. KELLEY: Yes sir. The Department of Justice and the Bureau are now engaged in a mutual venture to set up guidelines as to our activity in this regard. We will abide by those guidelines. We do want it known, however, that some of this information might very well be helpful to us in later investigations. The abuse is the publication of this information, and I know of no abuse, Jack, which we can point to.

QUESTION: Has it been used at times to try to get a person's job?

MR. KELLEY: I know of none.

QUESTION: You know of none?

MR. KELLEY: Now you say to try to get a person's job? Now I don't know of all of the activities that we're involved in--and I say to you, Jack, that yes there have been some accounts as to this effect. I feel that actually were there any such activity it was on the basis of a feeling that these things were true and that they were of such importance that they should be passed on. Some of these, of course, are in the COINTEL Program. I was not privy to some of these allegations. I assure you that this will not continue to the present time. I have been asked what about your own feeling about such information. Since I have arrived I have not had a bit of gossip or a bit of rumor sent to me and this is over two years. I have not reviewed files to find out about reporters, Congressmen or other public figures. I do not subscribe to that type of thing. I have a file on me. It is a quite lengthy file. It includes the investigation conducted about me at the time I was being considered. I understand it is quite voluminous. I assure you that I have not read that file. I do not know who made complimentary statements about me. I don't know who made derogatory statements. Perhaps, maybe, some of you may have made such statements. I don't want to be colored in my opinion about you by some statements which you may have made in good faith, and I think this substantially is what it is all about. The confidentiality and the privacy of individuals. If you, Joe Lastelic, want to make a statement about me, you should. I think you should be given that right, and I think that the proper forum is in one of confidentiality. I have not read those so-called gossip, rumor, or other objectionable types of materials. I am not going to read them, and I certainly do not sponsor any move to revive anything such as may have once existed.

QUESTION: Those files will remain? Rumors, gossips--gossip, whatever is in it?

MR. KELLEY: Yes sir.

QUESTION: You said that you don't question the motives of people who come in to give you information. Do you ever check out the information that was given to you about the people?

MR. KELLEY: If it is within our jurisdiction and makes allegations which may mount into a violation, yes, we check them out. But a mere allegation that so and so is a sex deviate or that he is going around conducting himself other than in a gentlemanly manner and so forth, no, we do not just on the bare gossip stage check that out.

QUESTION: But, nevertheless, that remains in file. You don't check that out, that remains in the person's file unevaluated and raw. Is that correct?

MR. KELLEY: That's right. Now the implication is that you should possibly clear the man. In so doing you would, of course, be violating your charter which is that you do not investigate matters of this type. You might also by virture of this give it some degree of statute by investigating it. But more than anything else if we have no business in it we shouldn't be checking it out and we do not.

QUESTION: If you have no business in it, why are you in it at all?

MR. KELLEY: We did not enter into it.

QUESTION: Is this a file that is a part of the FBI records?

MR. KELLEY: Yes sir.

QUESTION: You won't always be the FBI Director?

MR. KELLEY: That's right. I am confident of that. I am with you a thousand percent.

QUESTION: Mr. Kelley, can you tell us when you first learned of the files that Mr. Hoover kept that were called his confidential or OC files and whether or not anyone within the Bureau knew about those files and failed to tell you about them?

MR. KELLEY: Jack, that's a long answer, but I will try to brief it. I first learned of the possibility that these files existed in January, 1974. I then was presented a list of some of the files and called in one of the Assistant Directors and said what is this all about. Should they be integrated into the general file system, and I mean by that that we have a general file system. We have a section of our files which are kept in a separate room because we don't want everyone to have the capability of going into them. The man who was charged with the responsibility of looking into this then within a few months retired. The next stimulation of this situation arose after a statement appeared in the paper mentioning these files and we immediately talked about this. Still I did not look at the files. I then instructed that our Inspection Division go over them and make a listing of them, categorizing them. Some of them, of course, were purely administrative, some included information as outlined by Mr. Levi. Such a listing was made and was turned over to the Department. Thereafter Mr. Silberman looked them over and thereafter Mr Levi looked them over and I made a rather cursory check of them myself. Why did I not look these files over in the first place? I did not construe them as being within the realm of the so-called dossiers that had been mentioned before and during, certainly, my confirmation. I said I did not subscribe to the preparation or retention of dossiers on Congressmen nor members of the Senate. I still persist in that and we have not. My references were about those which were declared improper during Mr. Gray's administration and they were at that time stopped. These were dossiers that were prepared on candidates for Members of Congress and those who failed in their venture were destroyed. Those which were successful were put into the general files. We no longer do that and frankly, in my opinion, this is what was referred to. I feel that these files should be maintained confidential. I still have not given them a close review. I have not done so for the very reason as I mentioned about my own file. I don't think it will benefit me to go over them. Under archival rules they must be preserved. In the guidelines which are to be established, I will welcome any reasonable guideline which says we either do or do not preserve them. I am anxious for us to do our work the way it should be done. More than that, I cannot say.

QUESTION: Mr. Kelley, there have been suggestions that your absences from Washington for family reasons have prevented you from getting the kind of control of the Bureau that you would have if you were here all the time. I am wondering how you respond to that kind of suggestion?

MR. KELLEY: My response is that I feel that I have been able to maintain control. I am certainly in constant touch. I have telephone calls that are relayed to me when I have made such trips. I am confident that the executive staff of this Bureau is solidly behind me. I say this inasmuch as I have somewhat a feeling such as may be implied in your question. I must as a result of conditions that you know about make these trips. If I feel that in so doing it will endanger my administrative control and my capability of doing that which I think should be done, I will leave.

There is no question whatsoever because that which I say applies to others should also apply to me. But, I do feel that I have control of the organization. I have known of no disruptive tactics that might have been launched to unseat me and again were there any evidence of that and found, in my opinion, to be one which is well grounded, I would immediately leave.

QUESTION: Mr. Kelley, if I can return for the moment to the subject of break-ins. You said that conditions of national security and foreign intelligence--there may have been other areas. I wonder if you can be a little clearer on whether there were any break-ins that were not related to foreign intelligence or national security?

MR. KELLEY: I know of none.

Thank you Mr. Kelley.

Re Senstudy 75 memorandum dated 7/24/75.

Pages 521-522, Item 5 and Item 6, of a CIA memorandum entitled, "Items For Possible Use in Briefing the DCI," contain references to CIA participation in FBI training and FBI participation in CIA training. Comments appear below in regard to each item.

Item 5. It is true that since late 1972 CIA has participated in numerous foreign counterintelligence (CI) in-services put on by Intelligence Division (INTD). CIA has participated in all seven of our basic CI schools held to date.

It should be noted that CIA's input into these programs has been highly valuable and productive and is designed to give FBI Agents a better insight into the Soviet, Satellite and Chicom target based on CIA's overseas experience against these targets. Two of the lectures usually given at these courses include the structure, function and role of CIA, and the structure, function and role of the Domestic Collection Division and the Foreign Resources Division.

These lectures have been beneficial in teaching our Special Agents about the mutually complimentary roles of CIA overseas and the FBI in the United States in working against hostile intelligence targets.

CIA officers who lecture to our classes have been careful to emphasize CIA's experience against these hostiles from an overseas perspective and their overseas experiences.

REC-102 62-116[illegible]-486

CIA's presentations can in no way be interpreted as being an attempt on their part to teach us how to work CI in the United States, nor does CIA attempt to persuade our Special Agents to adopt CIA overseas methods or tactics to United States conditions.

Item 6. Three Special Agents, Neil Rice, Larry McWilliams, and John McCaffrey, attended this Soviet Operations course at CIA Headquarters. The course ran from May 14 to May 25, 1973. Special Agent McCaffrey only attended one week while Rice and McWilliams attended for two weeks.

The primary reason for FBI inclusion in this course was because, at that time, the three Special Agents were members of the new Training Unit, INTD, and we were seeking educational guidance and ideas for our basic CI courses then under development. We benefited from this course because we borrowed a few educational ideas and techniques from CIA's method of handling its course.

Re: Senstudy 75
62-116395

A conference was held on the morning of 7/29/75 by Senstudy Project personnel with all Intelligence Division personnel involved in the Senstudy effort. Appropriate assignments were made or confirmed. A conference is scheduled for the afternoon of 7/30/75 to check progress and identify any special problems. FROM : S. R. Burns

SUBJECT: UNITED STATES SENATE SELECT COMMITTEE
TO STUDY GOVERNMENTAL OPERATIONS
WITH RESPECT TO INTELLIGENCE ACTIVITIES (SSC)

The Department of Justice (DOJ) received a letter dated July 24, 1975, directed to K. William O'Conner, Esq., Special Counsel for Intelligence Coordination, Office of the Deputy Attorney General, Department of Justice, requesting that the DOJ provide the Senate Select Committee to Study Governmental Operations with respect to Intelligence Activities with a list of all Special Agents assigned to the New York City area in the mid-1960's who had the surname "Kehoe". The unit to which they were assigned and their current addresses were also requested. The letter, which has been forwarded to us for our response, was signed by John T. Elliff, Director, Domestic Intelligence Task Force.

The purpose of this memo is to recommend that the attached memorandum from the Director enclosing a memorandum for the SSC be approved and forwarded to the Attorney General. The memo for the SSC advises (1) that there were two Special Agents, Francis Joseph Kehoe and James Patrick Kehoe, assigned to the New York City area in the mid-1960's who have the surname "Kehoe" (2) that both were assigned to the investigation of Soviet espionage matters and (3) that both are currently employed as Special Agents of the FBI with business address as follows:

Memo Burns to Walsh
Re: United States Senate Select Committee
To Study Governmental Operations
With Respect To Intelligence Activities (SSC)

Review of our in-service and out-of-service records failed to indicate any other current or former FBI Agents with the surname "Kehoe" who were assigned to the New York Office in the 1960's. Francis Joseph Kehoe, EOD 12-10-51, GS-13, $26,905, married with six children, was assigned to New York City from 1952 until 10-15-74 when he was transferred to Newark where he is currently assigned. During all of the 1960's he was assigned to the investigation of Soviet espionage matters. James Patrick Kehoe, EOD 3-26-51, GS-13, $27,632, married with one child, has been assigned to New York City since 1953. Prior to the 1960's through the present he has been assigned to the investigation of Soviet espionage matters.

RECOMMENDATION:

That the attached memo from the Director to the Attorney General enclosing the attached memo to the SSC be approved and forwarded to the Attorney General.

To advise review of pages 188, 189, 283 and 330 of Central Intelligence Agency (CIA) document which Senate Select Committee has had access to and which reportedly makes reference to extremely sensitive Bureau operations determined such pages do not compromise or damage FBI operations or sources which relate to IS-1 Section. The CIA document is fully identified in memorandum from Mr. W. O. Cregar to Mr. W. R. Wannall dated 7/24/75 under instant caption.

Re page 188

This page reveals CIA began to follow Caribbean black radicalism in earnest in 1968 and as a result CIA's Directorate of Intelligence published studies on 8/6/69 and 6/12/70. This page revealed in each of these studies there was a single paragraph devoted to ties with U. S. black power movement and primarily concerned visits of Stokely Carmichael and other U. S. black power activists to the Caribbean. The second study was to pay special attention to links between black radicalism in the Caribbean and advocates of black power in U. S. This page reveals these studies did not provide meaningful evidence of important links between militant blacks in the U. S. and the Caribbean.

REC-88 62-116395-481

These CIA studies were furnished FBI, see serials 157-8415-247 and 190-12-324-257. The 8/6/69 study revealed the Jamaican Government had officially banned the travel to Jamaica by Stokely Carmichael, H. "Rap" Brown and James Forman. These individuals were not further identified and no additional information was set forth in that study concerning their possible travel to Jamaica.

Buy U.S. Savings Bonds Regularly on the Payroll Savings Plan

Memorandum to Mr. W. R. Wannall
Re: SENSTUDY 75

The study on page 13 reports "Unlike its fairly frequent contacts with Black Panthers and other radicals in the U. S., the Castro Regime seems to have refrained from more than occasional communications and expressions of moral support for the Caribbean groups." No specific data is set forth regarding contacts between Black Panthers and other radicals in the U. S. and the Castro Regime. Paragraph number 33 on page 13 of this study notes that the extent of relations between black power groups in the Caribbean and similar organizations in the U. S. is vague. Activities of "the more activist Negro leaders in the U. S. such as Stokely Carmichael and Elijah Muhammad have been followed closely in Jamaica and other places. There have been visits by Carmichael and other U. S. black power exponents to some of the Caribbean Islands." The study notes these visits have been limited in the past two or three years because of a ban on the travel of certain U. S. Negro spokesmen by the Governments of Jamaica, Antigua and Trinidad-Tobago. The study notes the latter government had refused to permit Carmichael to enter the country despite the fact that he is a native of Trinidad.

The 6/12/70 study on page seven noted that available evidence suggested that contact between Caribbean groups and the black power movement in the U. S. is infrequent. It reported there was a two-way flow of visitors including occasional speaking tours by Carmichael and one or two other radicals. It was presumed that exchanges of views and sharing of information occurred but the study noted there was no firm evidence of funding or direction by U. S. groups.

There is no data on page 188 or published in the two CIA studies which would compromise or damage FBI operations or sources.

Re page 189

This page indicates that for several months in the first half of 1968 the Caribbean branch (apparently of the Director of Current Intelligence, CIA) wrote periodic typescript memoranda on Carmichael's travel abroad during a period when he had dropped out of public view. This page indicates that it was felt these memoranda were for internal CIA use only although a copy of one such memorandum was inadvertently sent to the FBI.

Bureau file 100-446080 contains numerous communications from CIA concerning Stokely Carmichael's activities and travel during late 1967 and early 1968. These memoranda included data concerning Cuban Intelligence Service contacts with Carmichael and his travel, including trips to North Vietnam and Algeria.

It is probable these memoranda were furnished FBI due to our interest in establishing the degree of foreign influence or funding in relation to Carmichael's activities in the U. S.

Data on page 189 and in the memoranda furnished by CIA concerning Carmichael's whereabouts during this period does not compromise or damage FBI operations or informants.

Re page 283

This page noted under date of 12/10/70 that "DDI" noted press accounts of Director Hoover's 11/19/70 statement reported that the Black Panthers are supported by terrorist organizations. This page reveals that someone with CIA had examined FBI's related files and also those of CIA and could locate no indication of any relationship between FEDAYEEN and the Black Panthers. This page revealed a CIA employee provided "Director," probably the CIA Director, with a memorandum on this topic.

FBI Annual Report for the Fiscal Year 1970 released 10/30/70 revealed the Black Panther Party (BPP) ideology showed an increasing emphasis on the teachings and writings of the Premier of North Korea; that BPP spokesmen repeatedly confirmed their belief in Marxism-Leninism; that the international influence of BPP grew with support groups being organized in foreign countries; and a BPP international staff was operating in Algeria. The Annual Report revealed the head of the BPP International Staff had established a relationship with Al Fatah, the Arab guerrilla organization, which relationship had manifested an outpouring of anti-Semitic and anti-Zionist propaganda in the BPP newspaper.

Memorandum to Mr. W. R. Wannall
Re: SENSTUDY 75

Since the reference to Mr. Hoover's statement concerning support being received by the BPP has been made public, the data on page 283 would not damage or compromise FBI operations or sources.

Re page 330

The three paragraphs under the caption "Black Radicalism" on this page briefly summarized the data reported by CIA on page 188. Data on this page does not compromise or damage FBI operations or sources.

RE: INCOMMUNICADO INTERROGATION

Reference is made to your request to the Attorney General by letter dated May 14, 1975, with specific reference to Appendix A, Request Number 5, g., as well as Appendix B, Request Number 4, a and b. In general, these two requests refer to information concerning the use of certain techniques by the FBI in performance of its investigative responsibilities. The purpose of this memorandum is to respond to information requested concerning the technique referred to as "Incommunicado Interrogation."(S)

For your information, this technique has been used by the FBI on extremely rare occasions during the period of approximately 1959 to 1963. In each instance when this technique was used, the subjects were known, prior to interviews, to be illegally in the United States and to have been associated with the Soviet Intelligence Services as illegal officers/agents. (S)

In view of the extremely sensitive nature, it is requested that any further details concerning the limited use of this technique be given in an oral briefing before properly cleared members of the Committee's Staff who are assigned to this matter. At that time, they will be given access to necessary documentation.(S)

Re: Further Documents Pertaining to the
FBI and Department of Justice

Policies and Procedures
(Appendix B, Part I, Item 1.a.)

NOTE:

The material to be reviewed consists of clean Xerox copies of the approximately 335 selected SAC Letters and Memoranda. Each of the SAC Letters and Memoranda was reviewed by the following Divisional representatives who cleared such material for review by the SSC Staff with respect to their Division's interests: Identification - J. T. Stewart, Training - J. E. Reilly, Administrative - F. Woodworth, Files and Communications - H. R. Hauer, General Investigative - J. W. Hines, Laboratory - R. F. Petty, External Affairs - D. L. Divan, Special Investigative - J. E. McHale, Inspection - F. B. Griffith, Legal Counsel - P. V. Daly, Computer Systems - C. D. Neudorfer. INTD reviewers who cleared the above material with respect to INTD interests for reviewing by the SSC Staff were: J. W. Johnson (1971 - 1972), H. W. Dare (1962 - 1966), R. D. Hampton (1968 - 1973 - 1974 - 1975), R. L. Moore (1964 - 1965 - 1967), K. A. Mendenhall (1960 - 1969), and T. E. Burns, Jr. (1961 - 1963 - 1970). Excisions were made in the material by the above INTD personnel with regard to protection of sources, third agency considerations and with respect to sensitive methods and techniques. Since the material is to be reviewed at FBI Headquarters and in order to expedite the process of making the material available and avoid unnecessary extensive effort, the various SAC Letters and Memoranda have not been classified nor have they been excised with regard to privacy considerations in all instances. The SSC Staff representative(s) will be orally advised of the above at the time of their review at FBI Headquarters. Should the SSC Staff seek certain specific copies of the SAC Letters or Memoranda, those items selected will then be appraised with regard to classification and privacy considerations, prior to furnishing any copies to the SSC Staff for their off-premises perusal. None reviewed pertained to OPE responsibilities.

SENSTUDY — 75

On the late afternoon of October 11, 1975, Douglas Marvin, Special Assistant to the Attorney General, called me and requested that the Attorney General be furnished a brief statement concerning FBI relationships with the Senate Select Committee and the House Select Committee for inclusion in a statement being prepared for submission to the White House. Mr. Marvin said that the Attorney General's intention was to bring together anticipated problems concerning the two committees in the hope that a means for resolving these matters might be found.

I discussed this request with Mr. Jenkins in the absence of Mr. Callahan and I returned Mr. Marvin's call and dictated to the Attorney General's secretary. I requested her to furnish me with a copy of the dictation. Attached is the page furnished by the Attorney General's secretary which I received on October 15, 1975.

This matter was brought to the attention of the Executives Conference on October 14, 1975.

FBI Relationships with the Senate and House Select Committees

Senate Select Committee

FBI relationships with the Senate Select Committee generally have been harmonious with responses to the Committee requests delivered promptly. When difficulties have occurred they have been overcome by negotiation and tolerance on both sides. Future difficulties that may be confronted and require similar resolution include the scope of any public hearing regarding electronic surveillance of foreign nationals or their agents and establishments.

House Select Committee

In the past the FBI has experienced the following difficulties with the House Select Committee:

(1) It has held public hearings which were orchestrated to present adverse views without an opportunity for prepared rebuttal, such as occurred on October 9, 1975, regarding electronic surveillance matters;

(2) It has demanded delivery of documents on unreasonably short notice considering the time necessary to locate and prepare for delivery the enormous quantity of documents called for;

(3) It has interviewed employees, former employees and confidential sources of the FBI without first advising the FBI of the proposed interview and has demanded the appearance of agents below the policy-making level.

A large number of documents dealing with electronic surveillance conducted without a warrant between 1970 and July 30, 1975, were furnished to the Committee on Friday, October 10, 1975. Certain excisions in these documents were made and it remains to be seen whether the Committee will accept the determinations made as to what types of information, e.g., identities of subjects who were monitored, should have been excised.

The overriding concern for the future is the need to establish an understanding on both sides of the policies to be followed by each in responding to the Committee's mandate. General agreement to specified operating procedures would alleviate the suspicion on the part of the Committee and the fear of Committee ~~re~~sponsibility on the part of the FBI. irre

During the discussion on 10/20/75 concerning the forthcoming testimony of Assistant Director W. Raymond Wannall, Mr. Wannall mentioned to the Senate Select Committee Staff Members present (John T. Elliff, Domestic Task Force Director, Michael Epstein, and Mark Gitenstein) that in view of the fact these hearings would be open to the public the Committee would not be fully briefed concerning the background involved in the Bureau mail opening programs because of the sensitivity involved. Elliff indicated that he was in agreement and that he would contact F. A. O. Schwartz, Chief Counsel of the Committee, to see if executive session testimony could be arranged. Elliff subsequently telephonically contacted SA Paul V. Daly of this Division and advised him that Mr. Wannall could testify in executive session on mail openings in the late afternoon on 10/21/75 at approximately 4:30 p.m. subject to the approval of the Senators.

After consultation with Assistant Director Wannall, Elliff was advised that this would be acceptable and that Mr. Wannall would appear for executive session testimony concerning mail openings if the Senators agree to accept executive session testimony.*

Michael E. Shaheen, Jr., Special Counsel for Intelligence Coordination in the Department, was advised of the possible executive session testimony and interposed no objection to the Bureau giving such testimony.

Issues

The following issues are among those which are raised by the FBI mail opening programs and the FBI's cooperation in CIA's New York intercept project:

(1) Whether mail opening as an investigative technique should ever, under carefully circumscribed regulations and with proper authorization, be sanctioned in the counter-espionage field. The FBI mail opening programs raise this issue with more force than the CIA programs since, in general, the FBI programs were more circumscribed, more tightly controlled, and more focused than the CIA programs. The FBI programs were also very successful in achieving their counter-espionage goals. Mail opening does represent an extremely valuable ~~menas~~ means of intercepting the communications link in espionage communications. On the other hand, the sanctity of the mails is an established tradition in the United States, and it is doubtful that any selection criteria could be sufficiently precise to allow for the opening of only mail to or from illegal agents.

(2) Whether the mail openings that did occur were properly authorized. It is clear that FBI Director Hoover personally approved the majority of the mail opening programs. The one which was implemented without Headquarters approval was terminated shortly after it came to the attention of Headquarters. It does not appear, however, that any Attorney General ever authorized these programs or that the exact nature and full scope of the programs was even brought to the attention of any Attorney General, even though opportunities existed to do so. Similarly, despite frequent contacts with the Postal Inspection Service regarding the implementation of these programs, no Chief Postal Inspector was ever informed that the FBI contemplated the actual opening of mail.

(3) Whether the legal implications of the mail openings were adequately considered. There is no evidence that legal considerations were discussed after 1951, and there is evidence that Headquarters personnel who ran the programs either considered them illegal or ignored the legal implications entirely.

(4) Whether the mail opening programs were adequately controlled to ensure that they remained focused on counter-espionage matters. As noted above, the programs did generate some information regarding domestic organizations and criminal activity, although the primary purpose always remained in the counter-espionage field. The fact

ENCLOSURE

62

that these programs did generate such information apparently came as a surprise to the Headquarters officials who ran the programs and the obvious questions are whether this was permitted or encouraged, and, if neither, how it could have happened.

(5) Whether the selection of names for inclusion on the CIA's Watch List in the Hunter Project was sufficiently controlled and limited. Because the FBI requested the CIA for information on categories such as peace organizations and on specific individuals and groups involved in the peace and women's movement, a serious question is raised whether there was sufficient restraint on the use of this source.

NOTE: As discussed in the FBI MAIL OPENING PROGRAMS summary, several of the FBI mail opening programs utilized, as selection criteria, various "indicators" which, with some accuracy, identified letters sent by or addressed to foreign illegal agents. The fact of these indicators has been made public by FBI officials in recent weeks. But: these indicators are still felt to be valid and the FBI has no reason to believe that they are not still being used. It is recommended, therefore, that the Committee avoid questions which would require in response an elaboration of the nature of these indicators.

STAFF MEMORANDUM

EXECUTIVE SESSION ON FBI MAIL OPENING PROGRAMS

FBI Assistant Director W. Raymond Wannall and William Branigan, Chief of the Soviet Section of the FBI Counterintelligence Branch, have requested an opportunity to appear before the Select Committee in executive session to discuss classified aspects of the FBI mail opening programs. Both of them will be witnesses at the public hearing on FBI mail openings on Friday.

The Committee staff has agreed that the public hearing will not disclose the following aspects of FBI mail openings:

1. The identity of the foreign nations involved, including the Soviet Union, Communist China, Cuba, Mexico, Hong Kong, Japan, most Western European countries, and several Central and Latin American countries.

2. The fact the mail to and from the Soviet Embassy and the Soviet United Nations Mission, the Cuban United Nations Mission, other Soviet-bloc Embassies was selectively opened. (S)

3. The "indicators" used as criteria for selective opening of mail screened in several other programs designed to detect illegal foreign intelligence agents in the United States. (The fact that there were "indicators," but not their nature, may be disclosed publicly.)

4. The identities of specific individuals and groups whose mail was opened either by the FBI or by the CIA at the request of the FBI. (FBI officials will state publicly that some of these, especially in the category "peace and protest groups," were not adequately justified.) Some of these included:

   Leonard Bernstein
   Clergy and Laymen Concerned About Vietnam
   Jeremy Stone
   Cambridge Center for Study of Public Policy

The following are questions which cannot be discussed in public hearings because of this agreement. They should be raised at this executive session:

1. What was the actual intelligence value of FBI mail openings aimed at mail to and from the [Soviet and Soviet-bloc embassies?] (X)

2. What was the actual intelligence value of FBI mail opening programs using "indicators" and designed to detect illegal foreign intelligence agents in the United States? [(Soviet and Cuban)] (X)

3. What was the actual intelligence value of the material supplied to the FBI by the CIA from its mail opening operation?

4. How good are the "indicators" in selecting mail of foreign intelligence agents only and not mail of American citizens or others who are not foreign agents?

5. What standards were used for opening mail to and from Communist China, and what was the intelligence value of these programs?

6. Do FBI counterespionage officials desire to resume any mail opening programs, with proper authorization from Congress and the Attorney General?

7. How do the benefits of mail opening compare with the benefits of warrantless electronic surveillance currently used by the FBI for foreign intelligence and counterintelligence purposes?

NATHANIEL WALTER JUNIOR

Nathaniel Walter Junior has been identified as a member of the Black Panther Party (BPP).

The BPP is a black extremist organization started in Oakland, California, in December, 1966. It advocates the use of guns and guerrilla tactics to bring about the overthrow of the United States Government.

Junior appeared in United States District Court, Chicago, Illinois, on January 18, 1971, and entered a plea of guilty on Federal Firearms charges against him, as well as on a bail jumping charge. On February 5, 1971, United States District Judge Sam J. Perry, Chicago, Illinois, sentenced Junior to three years probation on the above charges.

On September 28, 1971, Junior was interviewed by a Special Agent of the Federal Bureau of Investigation (FBI).

Junior advised that he was no longer a member of the BPP, having resigned as a result of a dispute with Bobby Rush, Deputy Minister of Defense of the Illinois BPP, regarding the unauthorized use of Panther funds by Rush. He further alienated himself with the BPP when, in January, 1971, he refused to repay the BPP $1,500.00 that had been paid as bail to secure his release from jail on the aforementioned charges.

Junior furnished the following information concerning his activities with the BPP:

He originally joined the BPP at the invitation of Fred Hampton, in the Fall of 1968. Hampton at the time was the Chairman of the Illinois BPP and was subsequently

slain by Cook County States Attorney Officers, December 4, 1969, who at the time were executing a search warrant in Chicago, Illinois.

While in the party, Junior held the title of Field Secretary and was privy to administrative matters relating to the BPP. On two occasions he traveled out of the state on party business, once to BPP National Headquarters for the purpose of meeting the National Staff, and to Washington, D. C., to attend the Revolutionary People's Constitutional Convention (RPCC).

The RPCC, held August 7, 1970, at Howard University, Washington, D. C., was organized by the BPP to structure "a constitution that will guarantee us the right to life, liberty, and the pursuit of happiness; a constitution that serves the people instead of a constitution that serves the ruling class".

In early 1969, Junior negotiated to purchase a quantity of weapons from an undercover United States Treasury Agent, for the BPP and as a result was arrested on a Federal Firearms charge. While out of jail on this charge, Junior learned that he had been indicted and decided to jump bond and leave the country.

Junior left the country for Canada, through the aid of persons connected with the draft resistence movement, and who did not know of his pending criminal charges or his affiliation with the BPP. He declined to identify these persons who aided in his leaving the country or those who aided him in Canada.

The BPP in no way aided him in leaving the country, nor did they provide him any financial assistance while he was a fugitive and for this he is bitter.

Junior decided to leave Canada and return to Chicago for the purpose of surrendering to face trial on the Federal Firearms Act charge, because of his parents' poor health.

Upon his return, he learned the BPP was no longer functioning on a democratic basis but was now being dominated by Bobby Rush, Illinois Minister of Defense. Junior sought to bring the party back to its former state, by calling for reforms and reorganization, which was resisted by Rush and he was subsequently removed from the Central Staff and he resigned from the party in September, 1970.

He is in no way involved with the BPP, or other extremist activities, at this time nor does he have any plans to resume his association with the BPP, as he feels "The BPP and other organizations are being duped by white intellectual revolutionary hobbyists, who are taking advantage of the hopelessness and frustrations of the Black community to exercise their theories on political and social democracy."

Junior claims to have no knowledge of any BPP underground, now or in the past, but admits that preliminary discussion regarding an underground cell of the BPP was had in the early development of the Illinois BPP, but that plan like most others never got off the ground.

The BPP was, and is, a big disappointment to Junior in that they departed from their original concept of neighborhood protection against police brutality, to one of international identification with communism. He maintained his association with the BPP in spite of this change in philosophy because of his respect and confidence in Fred Hampton, who rationalized that in order to further the cause of neighborhood control they'd need the financing and good will of governments oppose to people oppression, no matter where these people were.

Junior feels that the BPP is dead in Illinois and blames its demise to its identification with communism and coalitions with white revolutionary groups.

He has three things to show for his membership in the BPP; (1) probation on the Federal Firearms charge, (2) three years probation on State narcotics case (which he claims was a frame by police, but to which he entered a plea, "as part of a deal", at the urgency of his BPP attorney); and (3) an outstanding

indictment with the State of Illinois charging he and fourteen others with kidnaping and related crimes. Junior advised that this was another case of police harassment of the BPP, and another example of how the BPP has lost its attractiveness to people in Chicago. Of the sixteen people who were originally charged in the kidnapping case, including the deceased Hampton, only two of those, Yvonne King, and Billy Brooks, continue as members of the BPP.

Junior claims to have no contact with any members or former members of the BPP, except when the persons charged with the kidnaping report for trial every month. Junior cites the numerous continuances of the kidnaping case as an example of white hobbyists playing with young black revolutionary hopefuls. To him the continuances represent a conspiracy on the part of the BPP attorneys and the States Attorney's Office, as on alternate months they ask that the case be continued and neither ever objects. If he could afford it he would not avail himself of the BPP attorney's services.

Junior is required to report to his probation officer twice per month and is not allowed to travel outside the State of Illinois, without prior permission.

Logical sources, in positions to know, advise that Junior is not now active with the BPP, and has not been so in more than a year.

On October 29, 1971, the FBI recontacted Junior and learned that his pending kidnaping case was continued from October 26, 1971, until November 30, 1971.

This is to identify two serials, copies of which were furnished to Barbara Banoff of the staff of the Senate Select Committee (SSC) for retention in the Committee's files.

Banoff on 10/10/75 requested copies of a memorandum from Mr. Baumgardner to Mr. Belmont dated 3/30/60 and a letter to the New York Office and 15 other offices dated 3/31/60, both captioned "Communist Party, USA, Counterintelligence Program," be furnished to the Committee. Banoff stated she believed these documents had previously been requested but she was unable to locate them in the Committee files. She said she desired to have these documents because they set forth a logical program by which the FBI made an effort to prevent the Communist Party from infiltrating legitimate mass organizations. As an aside, she stated she thought the FBI was successful in this effort, indicating she felt the technique was worthy and proper.

Copies of the above two documents were made available to a SSC representative on 10/22/75. Copies of the documents together with a cover page indicating their receipt are attached. No excisions were required in these documents.

This memorandum advises that the Senate Select Committee (SSC) intends to release to the press copies of eight FBI documents (attached). The release of these documents is scheduled for 10/24/75, following the appearance of Assistant Directors Wannall and Mintz and Section Chief Branigan before the SSC.

These documents were made available to the SSC responsive to specific requests. They have been excised and declassified where necessary. With regard to dissemination of FBI documents to the Select Committees of Congress, both the White House and the Department have held that, once a document has been excised, declassified and furnished to either Select Committee of Congress, it is that Committee's property to do with whatever that Committee deems appropriate. However, we do have an understanding with the Committee that allows for more extensive excisions once the Committee decides to make documents available to the press. Personnel in the Senstudy Project have reviewed the attached eight documents and have made additional excisions which are acceptable to the SSC. These excisions are designed to protect Bureau sources, targets and, where possible, the identity of Bureau personnel.

REC-114 62-116395-956

The contents of the documents that will be made available generally portray the Bureau in a favorable light. They highlight: (1) tight supervision and control of the mail intercept programs; (2) general objectives of the program; (3) accomplishments; and (4) Departmental officials' knowledge of the existence of some of these programs.

For the information of Bureau officials reviewing the attached documents, no excisions have been made; however, the brackets in red ink show what information will be obliterated from the documents prior to their release to the press.

The Attorney General called on the morning of February 27, 1965, to advise he wanted to consult with the Bureau on certain problems raised by the Long Committee, which is exploring the use of mail covers, et cetera. He noted there was a possible problem concerning Chief Inspector Montague's testimony and whether it was necessary for Montague to change his testimony. Also, he felt that Internal Revenue Service had been using investigative techniques which they should not use and this could pose a problem. He said that the President had asked him to coordinate with all executive agencies concerning the problems raised by the Long Committee.

Inspector Moore and I met with the Attorney General i his office this afternoon. Mr. Courtney Evans was present. I told the Attorney General that in Montague's testimony he was told by Attorney Fensterwald that if any of the questions had national security implications Montague should not answer them. Consequently, Montague was estopped from doing other than answe in the negative when asked questions touching on national security. With this interpretation, it was questionable whethe an attempt should be made to change or explain Montague's testimony, particularly in view of the obvious lack of judgment on the part of Fensterwald and the desire of Long for publicity I made it clear to the Attorney General that from our dealings with Montague, he was a man of integrity and sacrificed his personal desires for the welfare of the country and had coopera fully with us. The Attorney General said he had no intention of changing one word of Montague's testimony, but he was considering advising Long and Fensterwald that there were extreme delicate national security matters touching on the area being covered by the committee and there could be exceptions to the answers given in the testimony when they touched on such sensitive security matters. He said further that he contemplat seeing Senator Long and impressing on him that the committee would not want to stumble by mistake into an area of extreme interest to the national security as they nearly did in a matte

affecting CIA. (Apparently CIA got wind of some inquiries by the committee relative to their secret operation and went to the committee and warned them off.) Katzenbach contemplates asking for a list of the witnesses who will appear before the committee together with a brief summary of the expected testimony. On the basis of this, he will be able to advise Senator Long when he should steer clear of a sensitive area.

I told Mr. Katzenbach that I certainly agree that this matter should be controlled at the committee level but that I felt pressure would have to be applied so that the personal interest of Senator Long became involved rather than on any ideological basis. Mr. Katzenbach said that he had already talked to Vice President Humphrey about Fensterwald, who he considered a wild man, and that Humphrey had promised to talk to Long concerning Fensterwald. Katzenbach said that in addition to the Vice President he might have to resort to pressure from the President himself, although he would prefer to work it out without resorting to the President. He indicated there was no one on the committee itself who could be helpful and that he did not expect any help from Senator Eastland.

Mr. Katzenbach said that he expected troublefrom the possible activities of IRS and the military in the investigative field; that if some of these matters are uncovered before the committee they will tend to undermine the restricted and tightly controlled operations of the Bureau. I told him that our operations are tightly controlled and particularly in the delicate areas of concern, we restrict ourselves to important security matters.

Mr. Katzenbach said he was going to see Senator Long on Monday and wanted to know if the Bureau would like someone to go along with him. I told him no.

ACTION:

Mr. Katzenbach said he would advise us of the results of his conversation with Long. He also asked that I advise the Director of our discussion and I told him I would.

I called Mr. DeLoach and briefed him on this problem in order that he might contact Senator Eastland in an effort to warn the Long Committee away from those areas which would be injurious to the national defense. (Of couse I made no mention of such a contact to the Attorney General.) Mr. DeLoach advised that Senator Eastland is in Mississippi and he will contact him upon his return Monday.

[illegible] Committee Judiciary

The Attorney General called and advised that he had talked to Senator Long last night. Senator Long's committee is looking into mail covers et cetera. The Attorney General stated he thought somebody had already spoken to Senator Long as he said he did not want to get into any national security area and was willing to take steps not to do this. The Attorney General stated that Mr. Fensterwald was present for part of the meeting and Fensterwald had said that he had some possible witnesses who are former Bureau Agents and if they were asked if mail was opened, they would take the Fifth Amendment. The Attorney General stated that before they are called, he would like to know who they are and whether they were ever involved in any program touching on national security and if not, it is their own business, but if they were, we would want to know. The Attorney General stated the Senator promised that he would have a chance to look at the names if he wanted to, personally and confidentially, and the list would have any names involving national security deleted and he would tell the Senator how many but no more.

The Attorney General stated that the Postmaster General is going down there this morning himself which he, the Attorney General, thought would be helpful to Chief Inspector Montague of the Post Office Department.

The Attorney General stated that Senator Long also said he is not going to propose legislation to abolish mail covers as he thought they served a useful purpose but he did think that control should be tightened. I stated I thought there was great laxity in the matter of mail covers and the matter of tapping telephones.

I stated I have always been of the view and recommended back when Tom Clark was Attorney General that no agency of the Government should tap a telephone except with the written approval of the Attorney General. I stated

there would then be in one place a list of all phone taps and the purpose and reason for them. I stated that it is a fact, insofar as I am concerned, that I am the only head of an agency who does not have authority to tap telephones. I stated that I know that subordinates down the line in some agencies will tap phones without the knowledge of the chief of the agency and there is grave suspicion in Washington by some newspapermen that their phones have been tapped by agencies of the Government trying to find out where they are getting their information. I stated I have always been opposed to the law whereby it is necessary to get the authority of a court to tap phones because of the composition of some of our courts and the employees thereof, but I have always felt that the President should issue an Executive Order confidentially to all agencies that all phone tapping be discontinued except when specifically approved by the Attorney General so there would be in one place a list and then if any committee in Congress got on the warpath, the Attorney General would have a list he could vouch for as being the only phones tapped by the Government. The Attorney General stated that made sense. I stated many agencies are opposed because they realize there would be a marked restriction. I stated we only have 45 phone taps, which is a low number for a country the size of ours and the area we have to cover. The Attorney General stated no one has any idea how many phone taps the whole Government has.

I stated there is also a school being conducted in California by a private organization which instructs the Treasury Department and the Internal Revenue Service in the matter of phone tapping and they have sent their own personnel there to be trained. I stated Internal Revenue has also from time to time hired private outside phone tappers to do their tapping. I stated it is that type of thing if there were a real investigation which would come out. The Attorney General commented that he would not guarantee some of it won't come out. I stated I was amazed when I learned of the school in California as I saw a reference to it in the newspaper and wanted to know what it was and what officers attended. I stated we have our own instructors and do it ourselves.

I stated I thought the Attorney General had made good headway with Senator Long. The Attorney General stated he thought it would be helpful, but his

problem is that he thinks the Senator is fine but he does not think that Fensterwald is as straightforward, or to put it another way that Fensterwald is smart and devious and the Senator is straightforward and not very bright and that is the problem. I stated I thought that Fensterwald is trying to get publicity for the Senator. The Attorney General stated the Senator said he did not want to get into this and he would give him, the Attorney General, the names and a summary of the testimony and told Fensterwald to do so, but he, the Attorney General, can't say Fensterwald is going to do it; that he will on some but he did not know that he would on all. I stated I had no faith or confidence in Fensterwald and neither did Senator Eastland. The Attorney General stated that Senator Eastland may have already talked to Senator Long or else the Vice President, but somebody had waked him up. I stated Senator Eastland said he would do it Wednesday, but he may have called him.

The Attorney General stated that is where it stands now and we shall see what happens.

Very truly yours,

Prior memoranda have advised of the starting of the trial of the Soviet illegal agents in this case, Mr. and Mrs. Robert K. Baltch, in the Eastern District of New York and motions by defense counsel regarding the nature of evidence to be submitted in this case.

The Judge originally denied the motions, but Assistant Attorney General Yeagley has advised that USA Hoey in answering questions by the Judge gave answers which were too broad and which the Government cannot support and therefore it is necessary for the Government to make additional statements to Judge Dooling who is sitting in this case in the Eastern District of New York. My memorandum of September 30, 1964, advised that while we were not aware of the contents of the conversations between USA Hoey and Judge Dooling, we had no objections to Yeagley's proposed amending statement as it was correct.

Subsequently on the afternoon of 10-1-64, Departmental Attorneys Thomas K. Hall and Kevin Maroney advised Supervisor Litrento and myself that USA Hoey's statement to Judge Dooling was unfortunate because it was too broad. They believe that the Judge's query pertained to any tainted source at the Baltch residence and was confined to eavesdropping devices, but that Hoey in his answer had not confined the answer to the residence or to eavesdropping, either of which would perhaps have prevented the current problem. (No information obtained from wiretaps or microphones is contemplated to be used in this case and the only tainted source is a mail intercept which did not take place anywhere near the residence).

Subsequently on the evening of 10-1-64, Mr. Hall advised that he had just learned that apparently Hoey in his discussions with the court had stated, or at least indicated, there was no microphone involved in this case and, of course, this was incorrect and the Department felt the record had to be corrected. asked if the Bureau had any objection and was advised in the negative. This morning Mr. Hall called to advise that USA Hoey had now requested advice as to what answer could be given the court should he be asked (1) if there was a wiretap involved in this case and (2) if there was a mail intercept in this case. After checking, I called Hall back and said that we would leave the answer to #1 up to the Department, but that if the Department saw necessary, the Bureau would not object. However, with regard to #2, under no circumstances is the Bureau willing to admit that a mail intercept was utilized and Hall said he would pass this information on to Hoey and Assistant Attorney General Yeagley who is in New York.

[illegible]

Hall advised that he had discussed this case with Acting Attorney General Katzenbach this morning and Katzenbach was of the opinion that the Department must be candid with the Judge. He said Katzenbach recognized the problems, but felt that in view of the value of the case, an effort should be made to go ahead with the trial even if it might be necessary drop the overt act where our tainted source is involved, and proceed on a general conspiracy basis with the recognition that the verdict might be against us, but we would have revealed the Soviet espionage activities to the people. Hall said he was passing on the Acting Attorney General's comments to Assistant Attorney General Yeagley. Hall said that the motions of defense counsel and the complications with regard to the answers may eventually force the Government to drop the prosecution. He said in view of the many facets involved, he did not feel there was any reason to agree to a pre-trial hearing on the issue of tainted source if this should be required by the court, and rather than do this, they are prepared to drop the espionage charges and attempt to proceed on lesser grounds.

ACTION

SAC Schmit, NYO, was advised of the above developments and requested to keep in close touch with Yeagley in New York and you will be kept advised of developments.

ROUTE IN ENVELOPE

The captioned code word covers our investigation of the unknown subject at San Diego, California who offered to sell information concerning Sonar to the Soviets for $60,000.

BACKGROUND:

Information concerning this first came to our attention on 7-17-64 when our highly confidential coverage detected a letter addressed to Soviet Ambassador Dobrynin, postmarked 7-16-64 at San Diego, California. We followed up on this by inserting a message in a San Diego newspaper indicating that we were interested in the offer. The unsub then telephonically contacted an Agent of the Washington Field Office at the telephone number furnished him in the message in the personal column of the San Diego newspaper. Thereafter, we intercepted a telephone call that the subject made to the Soviet Embassy during which he attempted to verify that he was dealing with Soviet citizens. Acting on the subject's instructions, a package containing a camera suitable for document photography and $500 was dispatched by United Airlines air freight from Washington to San Diego during the early morning of 8-13-64.

In the meantime, another resident of San Diego, one R. Tobin, advised our office there that he had been engaged by an unidentified individual to pick up a package at United Airlines Freight Terminal which he was to subsequently turn over and for which he would be paid $20.

CURRENT DEVELOPMENTS:

According to SAC C. Williams, an Agent of the San Diego Office posing as R. Tobin in the latter's automobile picked up the package at 8 p.m., PDT, and, thereafter, proceeded as he had been instructed to a drive-in in the San Diego area. SAC Williams advised that the coverage by San Diego Agents at the Air Freight Terminal uncovered a suspect who appeared to be closely observing

Tobin's automobile and who, thereafter, surveilled the automobile to the area of the drive-in.

After waiting the agreed time, our Agent proceeded to a parking lot adjacent to a church about one mile further down the highway. Shortly after the Agent arrived, he was approached by the suspect who inquired "Are you Tobin?" Thereafter, the suspect claimed to be a messenger who had been engaged to pick up the package. He did deliver an envelope to our Agent which contained the $20 agreed to. At this point, the Agent, posing as Tobin identified himself and requested that the suspect identify himself and voluntarily accompany him to the San Diego Office.

The suspect, who has now been identified as the subject, is Perry A. Chandelaine, 3231 Par Drive, La Mesa, California. He is a Grade 13 engineer at the Navy Electronics Laboratory, San Diego. This laboratory does all the training and electronics work and research, including Sonar, for the Navy in the San Diego area. In this connection, the subject claimed that he had access to information classified "Confidential." He has been a Government employee in excess of ten years and is the father of ten children.

In May, 1952, subject was an applicant for the position of Special Agent with this Bureau. Apparently during the interview it was determined the applicant's father was killed by the police in Chicago in 1932 when caught stealing butter from a boxcar. He had been arrested for selling whiskey prior to that in Wisconsin. Applicant was considered very nervous and had a vagotomy operation for a nervous disorder performed in 1947. Applicant had an ulcer which caused his discharge from the service and which still, at that time, gave him trouble. He was unfavorably recommended for employment.

According to SAC Williams, the subject readily acknowledged that he was in real deep trouble and claimed that his wife was also knowledgeable concerning his activities. Subject freely admitted contacting the Soviets and offering to sell information to them. However, the subject steadfastly maintained that he was a patriotic American, a Catholic and one who hated the Russians and that he was endeavoring to get all out of them that he could and he then intended to turn whatever he obtained over to ONI.

Subject's wife was invited to the office and she confirmed that earlier in the evening the subject had apprised her of his activities and gave her a letter which was addressed to ONI and which she was to mail upon receipt of a phone call from him. This

CONTINUED - OVER

letter was mailed by her when she was contacted by the subject who was at that time in the San Diego Office. Subject and his wife both furnished signed statements.

Thereafter, the facts in this case were presented to Mr. Thomas K. Hall of the Internal Security Division of the Department who advised that in view of the illegal source of the original information and all that flowed from it, he could not authorize the filing of a complaint charging the subject with an attempt to commit espionage. ONI was immediately advised both at San Diego and at Washington concerning the identity of the subject and the facts admitted by him. This was done in the event the Navy could institute some action. Upon completion of the signing of the statements, subject and his wife were permitted to return to their residence since no prosecutive action could be taken.

ACTION:

The investigation at San Diego is continuing, the completed results of which will be furnished to the Navy so it can institute administrative proceedings against him. The facts will, likewise, be furnished to the Internal Security Division of the Department which has requested them.

ESPIONAGE - RUSSIA

This is to consider recommendation of the New York Office that the Sam Survey Program be reinstituted.

BACKGROUND:

Sam Survey was a successful program operated between 1959 and 1966, which involved screening of air mail destined for selected European countries and cities by our Agent personnel in an effort to detect Soviet illegal agent mail. This program was made possible through the confidential cooperation of highly placed postal officials. In 1961 we identified, through this program, the [redacted] in New York City [redacted] In addition, [redacted], we uncovered [redacted] which had operated in the [redacted] for a certain period and then shifted its activities to the [redacted]. [redacted] In July, 1966, this program was discontinued.

Foreign Intelligence Project

RECOMMENDATION OF NEW YORK:

New York points out that although ample evidence indicates the presence of a substantial number of Soviet illegals, the Bureau has been unsuccessful in locating any in recent years; that various programs and projects put into operation have been unsuccessful. Further, it is its contention that the illegal's most vulnerable area is still his letter writing and that this is the area we have the best chance by far to locate and identify illegals. Therefore, New York wishes to submit for the Bureau's consideration the reinstitution of Sam Survey. If this is not possible, it recommends that the Bureau consider requesting CIA or postal authorities to take over this program.

OBSERVATIONS:

It is agreed that the problem to locate Soviet illegals has assumed serious proportions and that the resumption of this program could be of inestimable value to the Bureau in meeting its responsibilities in that regard. However, present Bureau policy precludes the use of this technique. For this reason, it is not believed that we consider reinstitution of this program directly or through CIA or postal authorities.

ACTION:

New York is being advised that the reinstitution of Sam Survey Program either directly or through CIA or postal authorities is not advisable at this time.

On January 15, 1969, Richard Ober, Central Intelligence Agency (CIA), suggested to the Liaison Agent that the Bureau should not overlook the utilization of the Agency's Hunter project for the development of leads in the New Left and Black Nationalist fields. Ober admitted the traffic involving individuals in these areas might be light but that the Bureau might wish to give consideration to placing stops on certain key personalities.

The Hunter project for which we have given the designation of Bureau Informant 200 essentially consists of specialized coverage of mail between the United States and Russia. If we have some reason to believe that one of our subject's is communicating with anybody in the Soviet Union it might be worthwhile to place a stop.

We should bear in mind that this coverage is extremely sensitive and the handling of any matters involving Bureau Informant 200 should conform with the ground rules which have been established. (See Mary Triplett, extension 631, Soviet Section.)

SUBJECT: BUREAU INFORMANT 200 - POLICY

This is to advise you that on 10/31/62 representatives of this Bureau conferred with CIA representatives James Hunt, John Mertz and Thomas Chalmers at CIA concerning "Project Hunter." At this conference our observations concerning Hunter material furnished since our last conference on 2/13/62 were given CIA. In addition, we advised CIA specifically of certain Hunter items which were of no interest to us and of certain Hunter items which were of interest to us. These items were set forth in memorandum form and furnished to CIA; a copy of same is attached.

5

CIA advised that its "Hunter-Don" coverage was being operated seven days a week until November 15. This concentrated coverage is for the purpose of determining if there is any illegal agent traffic. After November 15 all Hunter coverage can be expected to be reduced until after the Christmas mail rush has subsided.

The CIA representatives were very pleased with our analysis of the Hunter material received and with the attention afforded it by us. They are very cooperative in that they are willing to focus their attention on any particular phase of coverage we suggest for our own benefit. For CIA's interest we furnished them a copy of the attached memorandum of our analysis of typical information furnished by Bureau Informant 200 of interest to us.

RE: PROJECT HUNTER

After an extensive review of 2500 Hunter Reports since our last memo captioned as above and dated 8/21/62, we have made the following observations in the interest of economy in regard to Project Hunter as it related to our Bureau and your Agency to insure time will not be unnecessarily expended by our Bureau processing unwanted material and to save your Agency the expense involved in the preparation of such material.

I Traffic Which Holds No Interest:

1. Soviet-bloc immigrants desiring to repatriate to USSR. These people are interviewed by INS and INS refers anything of interest to us.

2. Americans traveling to the USSR as such travel is permissible and several hundred people a year visit the USSR while on tour abroad as well as Soviets returning to visit relatives. We, of course, have an interest in such travel involving people on the CIA Watch List, known Communist Party members, and suspected intelligence agents.

3. U. S. professors in Academic Research corresponding with each other. It is not likely if U. S. professor is passing any data he would identify himself at the same time.

II Traffic of Specific Interest:

1. All data re Cuba. This serves to identify pro-Castro followers in the U. S.

2. All data re U. S. Cubans in contact with Cubans attending Friendship University in Moscow.

3. All material emanating from Puerto Rico of an Anti-U. S. nature and pro-Soviet.

4. Data re U. S. peace groups going to Russia and while in Russia.

5. Data indicating death of any U. S. Communist abroad.

6. Data re Maurice Hyman Halperin(now in Cuba); Helen Kagen Pozner; Miriam Zeitlin Seborer, Oscar and Stuart Seborer(All in Russia); Max, Celia and Rose Seborer(New York); Noah and Anna Sparer Seborer (Mexico).

7. Any data on Alfred Slesinger operator Modern Photo Shop, 865 3rd Avenue, New York City(wife Kitty), residence 1860 Grand Concourse, Bronx, New York.

1. As a part of the recent request by the Senate Select Committee, we reviewed our files to see if there were any responses to General Allen's letter of September 17, 1973 which requested recertification of "Watch Lists." At that time we did not find any responses. We recently checked with the FBI and Secret Service and discovered that there were in fact responses. The Secret Service, by letter dated 21 September 1973, did in fact recertify a "Watch List" containing U.S. names, however, NSA has not accepted the U.S. names.

2. Inclosed are copies of the FBI and Secret Service letters. Request you forward these to the Senate Select Committee with the above comments.

Lieutenant General Lew Allen, Jr.
Director
National Security Agency
Fort George G. Meade, Maryland

Dear General Allen:

I am in receipt of your letter of September 17, 1973, concerning the necessity for a mutual review of our policies with respect to the compilation and maintenance of the Watch List. I share your concern and fully agree that we should review our procedures to assure that our authorities, particularly in light of recent court decisions, are not exceeded.

As you are aware, however, the Department of Justice in filing affidavits with the United States District Court, Eastern District of Michigan, in the case of United States versus William Ayers, et al., which case involved the Students for a Democratic Society, an organization included on the Watch List, took the position that the intercepts obtained by your agency were lawful and not within the disclosure requirements of the court.

We are instituting a review of our procedures but feel that any decision reached respecting the Watch List should await the final ruling of the court.

On October 21, 1975, from approximately 2:15 p.m. to 3:35 p.m., Section Chief William A. Branigan, CI-1 Section, Intelligence Division; Assistant Director John A. Mintz, Legal Counsel Division; and myself appeared at an Executive Session of the Senate Select Committee on Intelligence Activities to discuss classified aspects of the Bureau's various mail intercept programs. Present were Senator Church, Chairman of the Select Committee; Senators Mondale, Goldwater, P. A. Hart, Huddleston, and Schweiker; as well as various members of the staff of the Select Committee.

Generally speaking, the reception by the Chairman and the various Senators, as well as members of the staff, was a friendly one. No antagonism was shown to the Bureau representatives, and the Senators by their questions indicated a desire to help the Bureau in our foreign counterintelligence operations.

At the request of the Chairman, the eight separate mail intercept surveys were explained to the Committee, including the length of time that these surveys were in operation and the value that was derived from them.

During the hearing we were supplied with a copy of a Staff Memorandum which outlined various aspects of our operations which would not be disclosed during a public hearing. The Staff Memorandum also outlined certain questions which could not be discussed at a public hearing and suggested that these questions be raised at the Executive Session. A copy of the Staff Memorandum is attached for your information.

Re: Senstudy

At the conclusion of the hearing, considerable questions were asked concerning legislation or direction which would be necessary from The Congress to permit the Bureau to carry out mail opening programs which were productive in their results and which would not at the same time invade the privacy of innocent American citizens.

ACTION:

This is submitted for your information.

ADDENDUM BY LEGAL COUNSEL 10/23/75, JAM:mfd

I answered the Committee's questions described in the last paragraph of this memorandum by explaining to them that in a security case we would find it most difficult to meet the 4th Amendment standard of probable cause in order to obtain a search warrant. for mail. If we are to be required to obtain warrants prior to obtaining mail and if we are to be successful, a lower standard of probable cause such as is permissible in administrative searches such as those conducted by Health Inspectors would be necessary. In answer to a specific question I explained that the Supreme Court has ruled that mail is protected absolutely by the 4th Amendment.

STAFF MEMORANDUM

EXECUTIVE SESSION ON FBI MAIL OPENING PROGRAMS

FBI Assistant Director W. Raymond Wannall and William Branigan, Chief of the Soviet Section of the FBI Counterintelligence Branch, have requested an opportunity to appear before the Select Committee in executive session to discuss classified aspects of the FBI mail opening programs. Both of them will be witnesses at the public hearing on FBI mail openings on Friday.

The Committee staff has agreed that the public hearing will not disclose the following aspects of FBI mail openings:

1. The identity of the foreign nations involved, including the Soviet Union, Communist China, Cuba, Mexico, Hong Kong, Japan, most Western European countries, and several Central and Latin American countries.

2. The fact the mail to and from the Soviet Embassy and the Soviet United Nations Mission, the Cuban United Nations Mission, other Soviet-bloc Embassies was selectively opened. (S)

3. The "indicators" used as criteria for selective opening of mail screened in several other programs designed to detect illegal foreign intelligence agents in the United States. (The fact that there were "indicators," but not their nature, may be disclosed publicly.)

4. The identities of specific individuals and groups whose mail was opened either by the FBI or by the CIA at the request of the FBI. (FBI officials will state publicly that some of these, especially in the category "peace and protest groups," were not adequately justified.) Some of these included:

   Leonard Bernstein
   Clergy and Laymen Concerned About Vietnam
   Jeremy Stone
   Cambridge Center for Study of Public Policy

~~TOP SECRET~~

The following are questions which cannot be discussed in public hearings because of this agreement. They should be raised at this executive session:

1. What was the actual intelligence value of FBI mail openings aimed at mail to and from the [Soviet and Soviet-bloc embassies?] ~~(S)~~
2. What was the actual intelligence value of FBI mail opening programs using "indicators" and designed to detect illegal foreign intelligence agents in the United States? [(Soviet and Cuban)] ~~(S)~~
3. What was the actual intelligence value of the material supplied to the FBI by the CIA from its mail opening operation?
4. How good are the "indicators" in selecting mail of foreign intelligence agents only and not mail of American citizens or others who are not foreign agents?
5. What standards were used for opening mail to and from Communist China, and what was the intelligence value of these programs?
6. Do FBI counterespionage officials desire to resume any mail opening programs, with proper authorization from Congress and the Attorney General?
7. How do the benefits of mail opening compare with the benefits of warrantless electronic surveillance currently used by the FBI for foreign intelligence and counterintelligence purposes?

Re: Documents Pertaining to Requests for Mail
Covers Made by the Bureau from 1971
Through 1975

NOTE:

Materials furnished in response to this request were obtained by review of all abstracts regarding communications to the Postal Service requesting mail covers. Since 1971, all national security mail covers have been requested by means of a letter to the Chief Postal Inspector, Postal Service. The materials being furnished only encompass investigative matters involving domestic security cases wherein the mail cover has been terminated whether the investigation is pending or closed. The materials are comprised of copies of the letters to the Postal Service and supportive memoranda where used in lieu of notes. These materials were reviewed and, where necessary, excisions made. By memorandum 9/24/75, the SSC was furnished the bulk of such documents located at that time. The documents being furnished now are those which could not be immediately located. All domestic mail cover requests which were located by means of the abstract review have now been furnished to the SSC.

By oral agreement with the SSC staff, only domestic security mail covers were required to be furnished.

The Bureau is requested to consider securing copies of income tax returns for the UNITED KLANS OF AMERICA, INC., KNIGHTS OF THE KU KLUX KLAN; ROBERT MARVIN SHELTON, 1708 - 15th Street, East, Tuscaloosa, Ala., or the ALABAMA RESCUE SERVICE, a name by which the UKA is sometimes known.

Inquiry at the banks in Tuscaloosa has failed to reveal any accounts in the name of the UKA or ROBERT M. SHELTON, except a small personal account of SHELTON at the First National Bank of Tuscaloosa. Informants have advised that SHELTON is paid probably $8,000 per year for his work as Imperial Wizard. This money is sent in monthly to UKA headquarters in Tuscaloosa by the individual Klaverns and presumably put in some bank.

An examination of pertinent income tax returns might furnish information concerning the financial standing of SHELTON and UKA which could be used in this program.

COUNTERINTELLIGENCE PROGRAM
INTERNAL SECURITY
DISRUPTION OF HATE GROUPS
(ROBERT M. SHELTON)
(UNITED KLANS OF AMERICA, INC.)

Robert Marvin Shelton is a full-time paid employee of the United Klans of America, Incorporated (UKA), Knights of the Ku Klux Klan with the title Imperial Wizard. He is probably the most influential and well-known Klansman in the United States. We are endeavoring as a counterintelligence technique to develop information discrediting Shelton or embarrassing to the UKA.

Through analysis of the income tax returns we may be able to determine secret sources of Shelton's income or depository used by him for the Klan organization. There is a possibility that he is misappropriating funds. We also have information Shelton has been on the payroll of a Mobile, Alabama, engineering firm as a public relations man.

In the event we determine such information we will consider exposing Shelton within the Klan organization, publicly or by furnishing information to the Internal Revenue Service.

RECOMMENDATION:

It is recommended the Liaison Section obtain from the Internal Revenue Service two uncertified copies each of the Federal tax returns filed by Shelton and the UKA for the past five years. Attached is a memorandum for the use of the Liaison Section.

ReBUlet 11/7/64.

Attached are Xerox copies of Federal income tax returns filed by Robert M. and Betty Lou Shelton for the years 1959-63 inclusive. Also attached are Xerox copies of United States corporation tax returns filed by Robert M. Shelton as a corporate officer of the United Klans of America, Inc. (UKA), for the years 1961 (year ending 6/30/62) and 1963 (year ending 6/30/64) as well as a statement of no tax liability for the year ending 6/30/63. Information set forth in these tax returns is for lead purposes only and should not be set forth in the details of any investigative report.

The following comments and investigative instructions are noted in connection with these tax returns:

1. The individual returns filed jointly by Shelton and his wife during the period 1959 through 1963 indicate Shelton's occupation to be "salesman" and "manager" and in no instance do they indicate any employment or association with the Klan. This is in conflict with the corporate returns filed by Shelton for the UKA where he indicates his position as "Imperial Wizard" or "President."

2. Shelton's return for 1959 indicates it was prepared by Ed F. Allen, Jr., Certified Public Accountant, Post Office Box [illegible], Tuscaloosa, Alabama. The form and typing on the other tax returns, both corporate and individual, indicate a strong likelihood these too were prepared by Allen. You should review your files and conduct necessary investigation to determine if Allen is active in connection with financial matters relating to the Klan.

This document is prepared in response to your request and is not for dissemination outside your Committee. Its use is limited to official proceedings by your Committee and the content may not be disclosed to unauthorized personnel without the express approval of the FBI.

3. In no instance in his individual tax returns does Shelton indicate the receipt of income for his position of Imperial Wizard or President of the UKA. However, his returns do indicate he has received some salary payments from such sources as "Tex Harris," "J.H. Mason," "Alabama Tire Company," "J & H Transport Co.," and "Tom & Johnson Elec. Svc." Inasmuch as your informants have advised Shelton spends almost all his time on Klan business and is paid almost $10,000 annually by the Klan, it would appear these salary sources are covers for payments made to him to compensate for his Klan employment. Necessary investigation should be conducted to resolve the true source of Shelton's income.

4. Shelton's return for 1960 shows other income received from a wrestling enterprise in Nashville, Tennessee. This source of income should also be checked to determine its legitimacy. It is possible Shelton's relationship with this enterprise also represents a cover for Klan activity or that the payments made to him were for efforts in behalf of the Klan.

5. In no instance does Shelton indicate any interest or dividend income. It is known he has a bank account at the First National Bank of Tuscaloosa. An attempt should be made to determine if he has failed to report interest actually earned. It is also noted the corporate returns filed by the UKA do not in any instance indicate interest received.

6. Shelton's return for 1963 lists other income of $500 as received from "Commissions - Dixie Engineering Co." Your attention is directed to an editorial that appeared in the Tuscaloosa "News," edition of 6/12/64, wherein it is indicated Shelton had been listed on the payroll of a Mobile engineering firm as a public relations man. Investigation should be conducted to determine Shelton's relationship with the Dixie Engineering Co. and also whether this company had a contract involving the use of Federal and/or state funds.

7. The corporate returns of the UKA, as filed by Shelton, in no instance indicate salary payments although both Shelton and his wife have been reported by your informants as full-time employees.

8. The gross income of Shelton and his wife for the year 1963 totals $1,076. This amount does not appear to be sufficient to support a family of five. All possible efforts should be made to develop evidence indicating Shelton is withholding or concealing income.

This investigation should be afforded prompt and continuing attention and the Bureau must be advised of all pertinent developments.

When all possible leads have been developed a blind memorandum should be prepared setting forth Shelton's background and current position with the Klan and all data probative of a possible violation of Internal Revenue laws. The Bureau will make this information available to appropriate Internal Revenue Service officials at the Seat of Government.

ROBERT SHELTON
INTERNAL SECURITY - X

At the request of the Internal Security Section, Mr. William Parker, Internal Revenue Service (IRS), was contacted on 6/23/67 to determine the status of the IRS case on Robert Shelton, Imperial Wizard of the United Klans of America.

Parker advised that IRS had initiated investigation of Shelton for possible tax evasion for the years 1963 through 1965. This case is still under investigation but indications are that Shelton owes no income taxes for 1963 and 1965 and owes $100 in taxes for the year 1964. According to Parker, it appears that the criminal tax investigation of Shelton will be closed and the case will be referred to the Audit Division of IRS for civil disposition.

This report relates to the alleged evasion of income taxes for the years 1963 and 1964 by ROBERT M. SHELTON and the alleged wilful failure to file 1961 and 1963 corporate returns by the UNITED KLANS OF AMERICA, K.K.K., INC. It was also alleged that SHELTON diverted KLAN funds to his personal use. SHELTON has been Imperial Wizard of the UNITED KLANS OF AMERICA, K.K.K., INC. since 1961. He maintains an office for himself and the KLAN in his residence at 18 Lake Sherwood, Northport, Alabama 35476. He received mail for himself, the KLAN, and ALABAMA RESCUE SERVICE at P. O. Box 2369, Tuscaloosa, Alabama 35401. ALABAMA RESCUE SERVICE is a cover name for the KLAN organization in Alabama. He filed his individual income tax returns involved with the District Director, Birmingham, Alabama.

AUG 9 1967

Revenue Agent Wade Hutchinson, Tuscaloosa, Alabama, cooperated in the joint investigation. This case has been classified as sensitive.

This document is prepared in response to your request and is not for dissemination outside your Committee. Its use is limited to official proceedings by your Committee and the content may not be disclosed to unauthorized personnel without the express approval of the FBI.

63-64-037-1-1
63-73-022-1-1

BASIS FOR INVESTIGATION:

The investigation originated as a referral from Audit Division. It was alleged that SHELTON received $4,000.00 from DIXIE ENGINEERING COMPANY of Mobile, Alabama, during the years 1963 and 1964 and reported only $2,000.00 from this source during the aforementioned years. It was further alleged that SHELTON travels in a late model Cadillac, dresses well and recently built a new house while reporting very nominal amounts of income on his tax returns.

In respect to the KLAN, it was alleged that no corporate returns were filed for the years 1961 and 1963 and that corporate funds were being diverted to the personal use of corporate officers.

KU KLUX KLAN organizations were the subject of an investigation by the House Un-American Activities Committee during the years 1965 and 1966. SHELTON was tried and convicted on a Contempt of Congress charge for refusing to testify and produce KLAN records before this committee. He was given the maximum sentence, one year in prison and $1,000 fine, on October 16, 1966. SHELTON's conviction is presently on appeal.

Evidence was offered before the House Un-American Activities Committee alleging SHELTON signed checks on the KLAN bank account in Tuscaloosa, payable to cash, aggregating $5,600.00, which were cashed at grocery stores and service stations; and that he allegedly paid for automobiles and a diamond ring with KLAN funds. SHELTON refused to confirm or deny these allegations when testifying before the Congressional Committee.

EXTENT AND RESULTS OF INVESTIGATION:

1. I obtained photostats of INVISIBLE EMPIRE, UNITED KLANS, KNIGHTS KU KLUX KLAN OF AMERICA, INC., incorporation papers from IMPERIAL WIZARD ROBERT SHELTON. They disclose incorporation date of February 20, 1961, in Fulton County, Georgia. The general purpose of the corporation, according to these papers, is: "to teach patriotism, to support the Constitution and Laws of the United States, and to maintain the liberty bequeathed to us by our forefathers, and to preserve the American way of life."

2. I obtained SHELTON's tax returns from the files of the District Director, Birmingham, Alabama. They disclose adjusted gross income as follows:

Year	Adjusted Gross Income
1961	$ 5,600.00
1962	4,200.00
1963	1,875.00
1964	3,576.62
1965	4,663.23
1966	10,031.21

Shelton claimed a standard deduction on each of the returns and they were filed timely and the tax paid which was shown to be due thereon.

3. I obtained KLAN tax returns from the files of the District Director, Birmingham, Alabama. They disclose gross receipts and taxable income as follows:

FYE	Gross Receipts	Taxable Income
6/30/62	$ 2,980.05	$ -0-
6/30/64	7,415.63	-0-
6/30/65	13,487.60	741.09
6/30/66	75,168.12	7,135.01

SHELTON gives President JOHNSON credit for increasing gross receipts of the KLAN from $7,415.00 in 1964 to $75,168.12 in 1966. He stated that every time "LBJ" gets on television and condemns the KLAN, he gets a flood of membership applications. He also stated that the publicity he received during the House Un-American Activities Committee hearing in 1965 and 1966 got him many new members.

4. Revenue Agent HUTCHINSON and I interviewed SHELTON on seven different occasions between April 5, 1967 and May 17, 1967. He instructed his wife, BETTY LOU SHELTON, and KLAN BOOKKEEPER, MRS. MELVIN SEXTON, to cooperate with us and make available all records of financial transactions of the KLAN. SHELTON stated that:

a. He did not furnish books and records of the KLAN to the House Un-American Activities Committee because his attorney advised him he could not waive his immunity on part of his records or on part of his testimony. He either had to take the "Fifth Amendment" all the way or disclose confidential records of KLAN membership which he had taken an oath not to disclose.

b. The books and records of the KLAN are audited at least once a year by KLAN EXAMINERS. The results of this examination is reported on the annual corporate income tax return.

c. The KLAN is a tax exempt organization and should not be required to file tax returns. SHELTON exhibited a letter from the State of Alabama Revenue Department which stated that, "The UNITED KLANS OF AMERICA, INC., is exempt from Alabama income tax and as long as it is operated not for profit and not for the gain of any individual it will not be necessary that corporate income tax returns be filed."

SHELTON acknowledged he had never applied for exempt status for the KLAN for Federal tax purposes because he would have to disclose information regarding KLAN membership which he was not at liberty to disclose.

d. SHELTON stated that the KLAN is on a "Form System." Each Klavern (Unit) prepares a Monthly Financial Report in triplicate and sends one copy to the Imperial Office in Tuscaloosa, one copy to the State Klan Office and retains one copy for the local unit file. This form lists the following financial information from each unit, each month:

63-65-037-1-1
63-73-022-1-1

e. SHELTON stated that he was authorized by the KLAN to draw $15,000.00 per year salary but 1966 was the first year the KLAN was financially able to pay him the full $15,000.00. Prior to 1966, his salary was determined at the end of each year by aggregating his withdrawals from the KLAN, reduced by the amount of documentation for travel and other KLAN expenses he had turned in during the year.

f. SHELTON converted his carport into an office and moved the KLAN office from the Alston Building in Tuscaloosa into his space May 1, 1966. The KLAN pays SHELTON $35.00 per month rent and $15.00 per month on his utilities.

g. SHELTON maintains that four of the eight $500.00 checks he received from DIXIE ENGINEERING COMPANY bounced. The reason the four $500.00 items do not show on his bank statements as a debit to the account was the balances at the time the checks were returned were less than $500.00 and he picked up the checks with cash or with another check from DIXIE ENGINEERING.

h. KLAN checks were made payable to "Cash" because just any one would not cash a KLAN check. When he left Tuscaloosa on KLAN business he never knew where he would be able to cash a check so he would make the check payable to cash and cash the check at some grocery store or service station where he was known. The amounts were charged to him on the KLAN books and he brought back gas tickets, motel bills, invoices, etc., to account for the

63-64-037-1-1
63-73-022-1-1

money spent. SHELTON stated that he travels 90,000 to 110,000 miles per year on KLAN business. He traveled 120,000 miles by automobile during the year 1966 on KLAN business.

5. Revenue Agent Hutchinson and I examined the KLAN's bank statements, cancelled checks, deposit tickets and cash receipts and disbursements books for FYE 6/30/62 through FYE 6/30/66. Receipts and expenses per books substantially reconciled with receipts and expenses per returns. For the four year period, net income was overstated on returns by $48.10. The 1963 corporate return filed by the KLAN was never located. We worked with a Profit and Loss Statement located in the KLAN file for that year which showed receipts of $3,879.44, disbursements of $3,634.89 and taxable income of $240.49. SHELTON claims he recalls mailing the 1963 return to the District Director in Birmingham. Mrs. CAROL LONG, KLAN BOOKKEEPER during this period, recalls preparing the return and giving it to SHELTON to sign and mail. Receipts during the period 2/20/61 to 6/30/61, the first four months of operation of the UNITED KLANS OF AMERICA, were negligible and were included in receipts for the FYE 6/30/62.

6. Revenue Agent Hutchinson analyzed all checks written to cash and examined the supporting documents. Checks to cash totaled:

Year	Total	
1961	$ 156.18	
1962	184.92	
1963	1,033.75	
1964	5,104.69	
1965	11,787.45	$18,266.99

Checks written to cash and not supported by documentation were reported by SHELTON as income on his individual income tax return. Numerous checks to cash were signed by SHELTON and cosigned by T.M. MONTGOMERY or JAMES HENDRIX. It was brought out during the House Un-American Activities Committee hearings that T.M. MONTGOMERY was signed by CAROL LONG, KLAN BOOKKEEPER, and JAMES HENDRIX was signed by SHELTON's wife, BETTY LOU. SHELTON acknowledged that the MONTGOMERY and HENDRIX names on the checks were KLAN code names for MRS. LONG and MRS. SHELTON and that the names and signatures were on file at the bank. This information was corroborated by FIRST NATIONAL BANK VICE PRESIDENT J. H. PERDUE.

7. Receipts per monthly reports of various KLAN UNITS were compared with total receipts per return for FYE 6/30/64 and 6/30/65. Total receipts per reports and total receipts per returns were as follows:

Year	Receipts per Reports	Receipts per Returns	Variance
6/30/64	$ 5,557.25	$ 7,415.63	$1,858.38
6/30/65	17,552.40	18,487.60	935.20
	$23,109.65	$25,903.23	$2,793.58

The variance between receipts per reports and receipts per return consisted mainly of monies which came in without a report and anonymous contributions.

8. Monthly reports of various KLAN UNITS were pulled at random from six different states. The reports were traced individually to Cash Receipts Journal, to deposit tickets and to bank statements, without discrepancy.

63-64-037-1-1
63-73-022-1-1

9. Photostats of several thousand checks from various KLAN UNITS, payable to SHELTON or ALABAMA RESCUE SERVICE, were secured from the House Un-American Activities Committee file. I found only one of these checks which was not endorsed "For deposit only" to ALABAMA RESCUE SERVICE account in Tuscaloosa. A check dated 3/28/64 payable to ROBERT M. SHELTON, in amount of $50.00, on the account of WHITE PATRIOTS, P. O. Box 7094, Montgomery, Alabama, was endorsed by SHELTON and THE AUTO-RITE STORE in Tuscaloosa. The amount was entered in receipts on the KLAN books as a donation from WHITE PATRIOTS of Montgomery. SHELTON stated that the $50.00 was for four recaps on his automobile which was used for KLAN business.

10. Transcript of the testimony of ERNEST H. MERRIWETHER, President, DIXIE ENGINEERING CORPORATION, Mobile, Alabama, was secured from the House Un-American Activities Committee file together with photostats of eight $500.00 checks payable to SHELTON during 1963 and 1964. MERRIWETHER was not contacted personally on advice of U. S. Attorney ROBERT JANSEN, Southern Judicial District of Alabama. MERRIWETHER has several tax suits pending in Mobile at present.

MERRIWETHER testified that he paid SHELTON the following checks:

Date	Amount	
7/14/63	$500.00	
9/24/63	500.00	
11/6/63	500.00	
11/13/63	500.00	$2,000.00
1/8/64	$500.00	
2/13/64	500.00	
3/13/64	500.00	
4/22/64	500.00	$2,000.00

SHELTON reported $500.00 from this source on his 1963 return and $1,500.00 on his 1964 return. He contends four of the $500.00 checks "bounced." The ledger sheets on his personal account at the FIRST NATIONAL BANK OF TUSCALOOSA and the deposit tickets to this account disclosed eight $500.00 deposits to the account from DIXIE ENGINEERING and only one debit to the account for $500.00 for a returned DIXIE ENGINEERING check.

D. L. THOMAS, accountant for DIXIE ENGINEERING, stated that all eight checks to SHELTON were posted to their disbursements journal and postings to this journal were made from checks after they cleared the bank.

The eight checks in question were written on six different bank accounts. The banks were contacted and their records indicate all eight checks were eventually paid. However, SHELTON's five exemptions and a standard deduction for the year 1963 will offset his reported income plus the additional $1,500.00 on his 1963 return. The additional $500.00 in 1964 is more than

offset by unclaimed depreciation on his automobile for that year. He will owe a small amount of self-employment tax on the unreported net amounts.

11. Revenue Agent Hutchinson and I examined SHELTON's account at LORCH's DIAMOND SHOP in Tuscaloosa from opening purchase on 6/11/62 to date. The diamond ring alleged to have been purchased with KLAN funds during the years 1964 and 1965 was purchased June 11, 1962 by MRS. SHELTON for $339.60, which amount includes carrying charges. She paid $30.00 per month on this account until November 8, 1963, at which time the account was paid in full. The checks drawn on the KLAN account to LORCH's DIAMOND SHOP during the years 1964 and 1965 were payments on an Invicta Tape Recorder purchased on 5/18/64 for $62.95 and a Webcor Recorder purchased on same date for $167.00. These items were purchased for the KLAN and charged to his account, according to SHELTON, because LORCH's would not extend credit to the KLAN.

12. Sales Invoice from STANSELL PONTIAC-CADILLAC COMPANY, 2115 15th Street, Tuscaloosa, shows the Cadillac purchased by SHELTON to be a used 1961 CADILLAC purchased on November 18, 1964, for $612.00 cash and a trade-in of a 1963 Pontiac Grand Prix. SHELTON said he traded the 1963 Pontiac on a 1961 Cadillac because the Pontiac had over 100,000 miles on it. The KLAN made three payments on the Pontiac for SHELTON but none on the Cadillac. A check was issued on the KLAN account on 6/15/63 to STANSELL PONTIAC-CADILLAC COMPANY for $277.66 and another check to the same company on 9/27/63 for $136.33. SHELTON failed to include these payments in income for the year 1963 and did not claim any depreciation on the Pontiac for that year.

13. SHELTON purchased his residence in Northport, Alabama, in April, 1966. The property was purchased from Lake Real Estate Company in Tuscaloosa for $20,876.47. He paid $11,000.00 down and assumed a $1,000.00 second mortgage held by Lake Real Estate Company. Balance of $8,876.47 was financed at FIRST FEDERAL SAVINGS AND LOAN ASSOCIATION, Tuscaloosa, Alabama.

SHELTON acquired the $11,000.00 down payment by selling his residence at 1703 East 15th Street in Tuscaloosa for $5,000.00 and drew $6,000.00 accrued salary from the KLAN, which was included on his W-2 statement from the KLAN for the year 1966.

In June, 1966, SHELTON purchased the adjoining lot to his home for $1,500.00. This amount was raised by selling various books at KLAN rallys and through the mail. A separate record was kept by MRS. SHELTON of this income and was reported on SHELTON's 1966 income tax return.

CONCLUSIONS AND RECOMMENDATIONS:

The investigation disclosed that: (1) Substantially all checks received by the KLAN are deposited to the KLAN account in Tuscaloosa; (2) Currency received and cash donations are recorded on the KLAN books as receipts; (3) Checks drawn on the KLAN account payable to cash are substantiated by

receipts and invoices; (4) there is no indication of income being received by the KLAN and not posted to their books; (5) controversial receipts by SHELTON from DIXIE ENGINEERING are offset by his exemptions and allowable depreciation on his automobile; (6) allegations that SHELTON purchased a diamond ring and a Cadillac automobile with KLAN funds are negated by available evidence, and (7) failure to file 1961 and 1963 returns by the KLAN resulted in no injury to the government.

I recommend that this case be closed in the Intelligence Division files because of lack of criminal prosecution potential and referred back to the Audit Division for such action as they deem appropriate. Audit Group Supervisor G. D. Grim advises he has no objection to this proposed withdrawal.

Dear Sir:

Enclosed is our 1967 income tax return. Salary for which there is no W-2 forms comes from several short or part time jobs which did not withhold.

Just as last year we cannot, of course, voluntarily pay our tax so long as the war in Vietnam continues. Should the government run short of funds in the meantime we suggest repeal of the oil depletion allowance or any other of the tax breaks for the wealthy.

UNITED STATES SENATE SELECT COMMITTEE
TO STUDY GOVERNMENTAL OPERATIONS WITH
RESPECT TO INTELLIGENCE ACTIVITIES (SSC)

Reference is made to the letter from the Director of the Domestic Intelligence Task Force, SSC, to the Deputy Attorney General's Office dated September 9, 1975, requesting delivery of FBI materials pertaining to Martin Luther King, Jr., and/or the Southern Christian Leadership Conference.

The purpose of this memorandum is to effect delivery to the SSC of information and materials relating to the September 8, 1975, SSC requests and specifically to the following Items in those requests: Items 8, 9, 11, 13 and 14.

Relative to Item 8, upon review of the file the only information located which is suggestive of being that to which Mr. Hoover referred in his written statement on the Baumgardner September 16, 1963, memorandum to Mr. Sullivan, is the prior memorandum from Mr. Baumgardner to Mr. Sullivan August 23, 1963. That document was previously furnished under Item 12 of this request.

Although there is no way of knowing just what Mr. Hoover was referring to with his statement, the August 23, 1963, memorandum summarizes a detailed memorandum which was attached to it and advises of Communist Party, USA, efforts being discontinued because of being "ineffective." Mr. Hoover wrote a comment on the August 23, 1963, memorandum to the effect that he could not ignore certain matters as having only "infinitestimal" effect on the efforts to exploit the American Negro by the communists.

This document is prepared in response to your request and is not for dissemination outside your Committee. Its use is limited to official proceedings by your Committee and the content may not be disclosed to unauthorized personnel without the express approval of the FBI.

Item 11 requested all materials reflecting or pertaining to conversations between Courtney Evans and Assistant Attorney General Burke Marshall, and/or between Mr. Evans and the Attorney General, as described in Assistant Attorney General Marshall's September 20, 1963, memorandum to the Director captioned "Hunter Pitts O'Dell." An extensive review has been conducted of all logical files, abstracts and indices in an effort to find documents relating specifically to such conversations described in the request. The attached materials represent the only documents located that appear to be related in any manner to these conversations.

Item 13 requested the "detailed document prepared on Communist Party and the Negro in 1953," and the "analysis in this same field prepared by the Bureau in 1956," which are referred to in the penultimate paragraph of page two of Mr. Sullivan's September 25, 1963, memorandum to Mr. Belmont, subject "Communist Party, USA, Negro Question, Communist Influence in Racial Matters, Internal Security - C."

These two documents have been located. The 1953 document captioned "The Communist Party and the Negro" is a 103-page study of the interest and activities of the Communist Party, USA, in Negro-related causes and covers the years 1919-1952. The October, 1956, study is entitled "The Communist Party and the Negro, 1953--1956" and it supplements the 1953 study, and consists of 57 pages. SA Elmer W. Larson, Jr., discussed this matter with Mr. Michael Epstein of the SSC Staff on October 8, 1975. Mr. Epstein agreed that these documents need not be delivered at this time. It was agreed that the documents will be made available for access. If upon review copies are desired they will be provided. (66-04-1775; 100-3-75-1270)

HUNTER PITTS O'DELL
INTERNAL SECURITY - C
INTERNAL SECURITY ACT OF 1950

In my letter dated August 2, 1963, information was set forth regarding a United Press International release issued on July 29, 1963, at Atlanta, Georgia, reporting that the Reverend Martin Luther King, Jr., had agreed to submit to Attorney General Eugene Cook of Georgia an affidavit explaining the employment in the Southern Christian Leadership Conference (SCLC) of a man linked by Congressional committees with the Communist Party. The release stated that King sent an attorney to Cook's office to determine what the Attorney General wanted in connection with his inquiry into the relationship with the SCLC of Jack O'Dell. The release concluded with the statement "King said last week O'Dell had worked for SCLC on two occasions but his connections with the integration organization were severed for good last June 26." It is noted that the subject is also known as Jack O'Dell.

On August 16, 1963, a confidential source of the Bureau advised that King had been alerted by his assistant, Wyatt Tee Walker, to an article appearing in the Atlanta "Constitution" on August 16, 1963, regarding King's association with O'Dell. Walker told King that the article referred to a letter written by Georgia Attorney General Cook in which Cook stated that O'Dell is a known communist and in which Cook demanded an explanation from King as to why O'Dell was placed on King's staff.

MAILED 6
AUG 20 1963
COMM-FBI

King instructed Walker to reply to Cook's letter by stating that O'Dell, as of June 26, 1963, was no longer on King's staff. Cook was to be further advised that O'Dell came to him, King, through the Democratic Party of the Bronx, New York, and that King "has nothing to hide."

HUNTER PITTS O'DELL
INTERNAL SECURITY - C
INTERNAL SECURITY ACT OF 1950

Reference is made to my letter dated July 31, 1963, concerning an article in the July 25, 1963, issue of the Atlanta, Georgia, "Constitution" regarding Hunter Pitts O'Dell and entitled "Onetime Communist Organizer Heads Rev. King's Office in N.Y." My letter concluded that a telephone call to the office of the Southern Christian Leadership Conference (SCLC) in New York City on July 30, 1963, resulted in a statement by an unidentified female employee that Hunter Pitts O'Dell was no longer employed by the SCLC.

A United Press International release issued on July 30, 1963, at Atlanta, Georgia, reported that the Reverend Martin Luther King, Jr., had agreed to submit to Georgia Attorney General Eugene Cook an affidavit explaining the employment in the SCLC of a man linked by Congressional committees with the Communist Party. The release states that King sent an attorney to Cook's office to determine what the Attorney General wanted in connection with his inquiry into the relationship with the SCLC of Jack O'Dell. The release further states that "King said last week O'Dell had worked for SCLC on two occasions but his connections with the integration organization were severed for good last June 26."

For your additional information in this regard, investigation by this Bureau's New York Office has developed information that, on July 2, 1963, and July 19, 1963, one "J. H. O'Dell" was the payee of checks in the amounts of $333.62 and $2,372.96, respectively, drawn by the SCLC. These checks were deposited to the account of Hunter Pitts O'Dell in a New York City bank.

On July 19, 1963, Charles Finnerty, Supervisor of the E. J. Creeden Company, 118 East 25th Street, New York City, the company which provides mailing service

Finnerty asked O'Dell to submit written instructions but O'Dell replied that he would get together with Finnerty when Finnerty returned from vacation on August 5, 1963. Finnerty had previously on July 17, 1963, telephoned and spoken to O'Dell at the New York Office of the SCLC.

On July 22, 1963, O'Dell visited the offices of the Creeden Company and turned over to Mrs. Dorothy Creeden, the company's secretary, a check for $200 to be credited to the account of the SCLC at the Creeden Company.

On July 31, 1963, a pretext telephone call to the New York Office of the SCLC was answered by a person identifying herself as Ruth Bailey. When asked if Hunter Pitts O'Dell was still employed by the SCLC, Ruth Bailey stated that she was not in a position to say. It is known that Ruth Bailey has been employed in the New York Office of the SCLC for some time; nevertheless, she commented to the person making the telephone call that she had not been employed by the SCLC very long.

Also on July 31, 1963, O'Dell was observed by Special Agents of this Bureau's New York Office entering the premises at 312 West 125th Street, New York City, which house the New York Office of the SCLC. O'Dell remained for several minutes and then returned to his residence.

REQUEST FROM SENATOR MONRONEY
CONCERNING CURRENT RACIAL AGITATION

#MORI6
DECLASSIFIED BY SP JALM/JJG
ON 11-8-00

For your information, there is enclosed a copy of a letter dated July 12, 1963, received from Senator A. S. Mike Monroney which is self-explanatory. I have advised Senator Monroney by letter of this date that, in line with Departmental policy, I am referring his letter to you.

In substance, the Communist Party, USA (CPUSA) is not able to assume a role of leadership in the racial unrest at this time. However, the Party is attempting to exploit the current racial situation through propaganda and participation in demonstrations and other activities wherever possible. Through these tactics, the Party hopes ultimately to progress from its current supporting role to a position of decisive leadership.

Much of the CPUSA's hope to play a more decisive role is linked with Stanley Levison's role as an advisor to Martin Luther King. Party officials regard Levison, a secret member of the CPUSA, as being engaged in the most important work in the Party today because of his association with King. Levison has reportedly stated that "King is a wholehearted Marxist who has studied it (Marxism), believes in it, agrees with it, but because of his being a minister of religion, does not dare to espouse it publicly." Levison is reputed to have written the speech which King delivered at the convention of the American Federation of Labor-Congress of Industrial Organizations (AFL-CIO) in Florida in December, 1961.

When King indicated in June, 1962, that he wanted another administrative assistant, Levison recommended Hunter Pitts O'Dell, who had been elected to the National Committee of the CPUSA in December, 1959, under the pseudonym Cornelius James. King adopted Levison's suggestion and employed O'Dell in his organization, the Southern Christian Leadership Conference (SCLC). When the press identified O'Dell as a communist in [illegible], 1962, King announced that O'Dell had resigned from the SCLC. However, O'Dell continues to associate with King to this

Recently, information received indicates that, while Levison still retains his strong communist convictions and still acts as an effective Party advisor to King, he is becoming critical of the Party's role in the relationship. He believes the Party has lost prestige among Negroes lately because it has not been sufficiently aggressive and effective in promoting civil rights for the Negro and otherwise actively immersing itself in Negro causes.

King reportedly attended a Labor Day weekend seminar in 1957 at the Highlander Folk School in Monteagle, Tennessee. According to a publication circulated concerning this meeting by the Georgia Commission of Education, which allegedly has an undercover agent in attendance, the meeting was held to discuss methods and tactics for precipitating racial strife and disturbances. While CPUSA members were on the school staff and the school followed the policy of welcoming communist students, the CPUSA was not in control of the school.

See memo Bland to Sullivan 7-11-63

In June, 1960, the SCLC was reported to have ~~[illegible]~~ solicited funds from the Soviet and Czechoslovakian Embassies and the Rumanian Legation in Washington, D. C. Same caption

In recent years, King has signed a petition urging abolition of the House Committee on Un-American Activities and petitions requesting the release of two imprisoned Communist Party leaders.

NAACP officials are aware that the NAACP is a communist target. As a result, the NAACP has taken a firm stand against communism and has warned its branches to be constantly alert against communist efforts to infiltrate them. The constitution of the NAACP contains an anticommunist clause which prohibits membership in the organization by known Communist Party members.

There is no indication that any of the key figures of the NAACP are or have been members of the Communist Party. Roy Wilkins, Executive Secretary of the NAACP, has been strongly anticommunist and has endeavored to keep the NAACP free of communists.

The following national officers of the NAACP had communist front affiliations--in no instance extensive--a number of years ago, but none is known to have been a Communist Party member: Arthur Spingarn, President; Bishop Stephen G. Spottswood, Chairman of the Board of Directors; and Robert L. Carter, General Counsel.

There is no evidence that any of the following top leaders of CORE are or have been Communist Party members: James L. Farmer, National Director; James T. McCain, ~~Field~~ Director; and Gordon R. Carey, Director, Program and Training Department. Carey was one of the founders of the Conference of Young Socialists (CYS) in 1957 and was a member at large of the Executive Committee of CYS. The CYS was controlled by the Trotskyite Socialist Workers Party, which has been designated as subversive pursuant to Executive Order 10450.

Assistant Attorney General Burke Marshall of the Civil Rights Division has asked that we give him a statement concerning the Communist Party affiliation of Hunter Pitts O'Dell. We have called to his attention current reports which have been furnished to the Security Division, Attention Mr. Walter Yeagley, concerning O'Dell's activities.

Marshall was interested in O'Dell's association with Rev. Martin Luther King and he was given a copy of a report of Special Agent James F. O'Connell dated 12/20/62 at New York, which was classified "Confidential", which had been disseminated to Walter Yeagley of the Security Division. This report reflected the current association of O'Dell and the organization of Rev. King, namely, the Southern Christian Leadership Conference (SCLC). In addition to the above we also furnished him a copy of a memorandum from the Director to the Attorney General dated 12/6/62 and another dated 1/23/63, pertaining to O'Dell.

Marshall stated that upon review of the above information which was furnished to him, he would like to have a statement from the FBI concerning the present Communist affiliation of O'Dell, particularly, whether O'Dell actually is a member of the Communist Party at this time.

I advised Marshall that an appropriate memorandum would be prepared and furnished to him concerning his request. There is attached hereto a memorandum which has been prepared by the Security Division indicating that we have developed evidence through our coverage of the activities of the Communist Party, USA, which indicates that as of July, 1962, Party leaders considered O'Dell to be a member of the Party. It is being pointed out that this information is highly sensitive and confidential.

Memo to Mr. Belmont from A. Rosen
Re: Hunter Pitts O'Dell

By way of background, Marshall indicated that the basis for his request stems from the necessity of having to talk with Rev. Martin Luther King with reference to O'Dell. He stated that an inquiry has been received from King about O'Dell and apparently the Department wants to be able to adequately handle this inquiry.

ACTION:

If approved, attached memorandum to Burke Marshall will be handed to him. It is brief and specifically points out the need to treat this information as highly sensitive and confidential.

HUNTER PITTS O'DELL
INTERNAL SECURITY - C
INTERNAL SECURITY ACT OF 1950

On December 6, 1962, you were furnished information indicating that despite the Reverend Martin Luther King's statement of October 31, 1962, that Hunter Pitts O'Dell had resigned his position with the Southern Christian Leadership Conference (SCLC), O'Dell had continued to represent himself as being affiliated with the New York Office of the SCLC and, during late November and early December, 1962, was actively engaged in the work of this organization. Reverend King's public statement of October 31, 1962, was occasioned by an editorial in the October 25, 1962, edition of the "Augusta Chronicle," Augusta, Georgia, which identified O'Dell as a concealed member of the National Committee, Communist Party, USA, who was employed by the SCLC under the alias Jack H. O'Dell.

I thought you would be interested in the fact that on three occasions during early January, 1963, O'Dell registered at an apartment in Atlanta, Georgia, as J. H. O'Dell. On each occasion, O'Dell represented himself as being with the New York Office of the SCLC. When checking out on January 7, 1963, O'Dell requested that the bill be charged to the SCLC. An inquiry by the manager resulted in telephonic confirmation from the Atlanta Office of the SCLC that that organization would pay O'Dell's bill. Also, on January 10, 1963, O'Dell, Reverend Martin Luther King and eight other officials of the SCLC traveled together via Delta Airlines from Atlanta to Savannah, Georgia.

On November 2, 1962, I forwarded to you a copy of an editorial that appeared in the October 25, 1962, edition of the "Augusta Chronicle," Augusta, Georgia. This editorial identified Hunter Pitts O'Dell, a concealed member of the National Committee, Communist Party, USA, as employed under the alias Jack H. O'Dell in the capacity of "Acting Executive Director" for the Reverend Martin Luther King's Southern Christian Leadership Conference.

Subsequently, various newspapers contained accounts of a statement issued by the Reverend Martin Luther King on or about October 31, 1962, wherein it was stated O'Dell had resigned from his position with the Southern Christian Leadership Conference. Reverend Martin Luther King is quoted in this statement as denying knowledge of the communist affiliations of O'Dell and further describing allegations that O'Dell was the Southeastern Director of his organization as false in that O'Dell functioned "purely as a technician with 90 per cent of his work taking place in the North..." King further stated that the Southern Christian Leadership Conference has a policy "that no person of known communist affiliation can serve on the staff, executive board or its membership at large."

I thought you would be interested in the fact that our New York Office has developed information that on November 23, 1962, O'Dell identified himself as affiliated with the New York office of the Southern Christian Leadership Conference and during late November and early December, 1962, he was actively engaged in New York City in the work of this organization.

SUBJECT: HUNTER PITTS O'DELL;
STANLEY LEVISON;
COMMUNIST INFLUENCE IN
THE NEGRO MOVEMENT

Assistant Attorney General Burke Marshall telephoned and advised that on instructions of the Attorney General he wanted to clear with us the rough draft of a memorandum which he was going to send to the Bureau. As a matter of fact, the Attorney General has approved the rough draft contingent upon our approval.

The proposed memorandum, a copy of which is attached, relates to Hunter Pitts O'Dell and Stanley Levison and action taken to advise Dr. Martin Luther King and his immediate associates of the communist activities on the part of O'Dell and Levison. Marshall states that some time ago it was not felt wise, in view of the position of the FBI informant, for Marshall to say that he knew O'Dell to be under communist control. Instead, he informed Dr. King and two of his immediate associates that O'Dell was believed by many people to have had communist connections and his association with Dr. King's organization was not in its best interest.

Subsequently, on June 22, 1963, according to Marshall's proposed memorandum, he brought this matter very explicitly to Dr. King's attention. Later that same date, both the Attorney General and the President, separately, strongly urged Dr. King that there should be no further connection between O'Dell and the Southern Christian Leadership Conference (SCLC). Thereafter, the Attorney General and Marshall received copies of a letter dated July 3, 1963, from Dr. King to O'Dell. In this letter King makes reference to a resignation which O'Dell submitted some months ago which was accepted because of the SCLC's firm policy that no communist or communist sympathizer would be on the staff. Dr. King's letter continues by noting an investigation

had been conducted but they were unable to discover any present connections with the Communist Party by O'Dell.

King further tells O'Dell that the situation is such that the organization cannot even afford the risk of impressions about communist inspiration and therefore O'Dell's temporary resignation is being made permanent.

Mr. Marshall's proposed memorandum also advises that he informed Dr. King on June 22, 1963, Stanley Levison was a secret member of the Communist Party. This action was taken on direction of the Attorney General and the President. Marshall had previously warned Dr. King about any association with Levison. This was the first indication given him of firm information Levison was under communist control.

Sensitive foreign intelligence operation

As a matter of background, our early information concerning the communist connections involved here came from ~~one of our two most highly placed communist informants (NY694-S*)~~. To protect ~~this most valuable informant~~ we insisted Levison and O'Dell not be informed by King we had positive information of their communist connections.

Subsequently, with the passage of time so that the risk to the informant was not jeopardized, the Director in a personal conversation with the Attorney General on June 17, 1963, agreed Dr. Martin Luther King could be informed that he should get rid of Levison and O'Dell because they are members of the Communist Party. It was on the basis of this advice from the Director that action was taken by the Attorney General and the President.

ACTION TO BE TAKEN:

While Mr. Marshall's proposed memorandum does not spell out the sequence of events here in detail, his summary is nevertheless accurate and it is therefore believed we should inform Mr. Marshall that he should feel free, of course, to submit the memorandum as he drafted it. If approved, Mr. Marshall will be so advised telephonically.

This relates to your letterhead memorandum of September 5 to the Attorney General, relating to Hunter Pitts O'Dell and the related prior memoranda. I appreciate your having sent copies of these to me.

This matter had been brought to the attention of Dr. King some time ago by me, but in accordance with conversations which the Attorney General had with Courtney Evans, it was not felt to be wise in view of the sources of the Bureau's information to state that I knew O'Dell to be under Communist control at any time. I did inform Dr. King and two members of his organization -- Reverend Andrew Young and Reverend Wyatt Walker -- some time ago -- that since O'Dell was believed by many people to have had Communist connections, his association with their organization was not in the best interests of the organization.

At that time, inconclusive steps were taken to remove O'Dell, and his job with the Southern Christian

Leadership Conference was changed. In response to direct questions whether I had hard evidence of O'Dell's Communist connections, however, I replied that I was not in a position to give any.

Following further conversations with Mr. Evans in June, however, I brought the matter to the attention of Dr. King very explicitly in my office on the morning of June 22 prior to a scheduled meeting which Dr. King had with the President. This was done at the direction of the Attorney General. Later that morning both the Attorney General and the President separately strongly urged Dr. King thatthere should be no further connection between O'Dell and the Southern Christian Leadership Conference.

Dr. King stated that the connection would be ended. Thereafter, theAttorney General and I both received copies of the attached letter, dated July 3, 1963, from Dr. King to O'Dell.

On the same occasion, I also informed Dr.King that our information was that Stanley Levison was a secret member of the Communist Party. This was also done after conversations with Mr. Evans prior to the meeting with Dr. King, and was done at the direction of the Attorney

General and the President. Prior to that time, again based upon talks between the Attorney General and Mr. Evans at which I was present, it had been decided that it was not in the best interest of the United States to inform Dr.King that we had any firm information that Levison was under Communist control. I had, however, on a previous occasion, warned Dr. King about any association with Levison, basing the warning upon doubts about Levison's loyalty to the United States.

I thought you should have this additional information for your file.

In my letter dated August 20, 1963, information was set forth regarding Hunter Pitts O'Dell's possible association with the Reverend Martin Luther King, Jr., and information regarding Reverend King's statement indicating O'Dell, as of June 26, 1963, was no longer on Reverend King's staff.

On August 30, 1963, at 7:25 P.M., O'Dell was observed by Special Agents of this Bureau entering the building located at 312 West 125th Street, New York, New York. O'Dell remained in the building in excess of one hour. The Southern Christian Leadership Conference occupies one of the several offices which are located in that building.

We will continue to furnish you any pertinent information developed regarding this matter.

Dear Jack:

Several months ago you submitted your resignation pending an investigation of your alleged affiliation with the Communist party, as was suggested by an article to this effect in the Birmingham and New Orleans newspapers. We accepted this temporary resignation because of SCLC's firm policy that no Communist nor Communist sympathizer can be on our staff or in our membership. We felt that it was imperative to conduct an immediate investigation. As you know, we conducted what we felt to be a thorough inquiry into these charges and were unable to discover any present connections with the Communist party on your part.

The situation in our country is such, however, that any allusion to the left brings forth an emotional response which would seem to indicate that SCLC and the Southern Freedom Movement are Communist inspired. In these critical times we cannot afford to risk any such impressions. We, therefore, have decided in our Administrative Committee, that we should request you to make your temporary resignation permanent.

We certainly appreciate the years of unselfish service which you have put into our New York Office, and regret the necessity of your departure. Certainly, yours is a significant sacrifice commensurate with the sufferings in jail and through loss of jobs under racist intimidation. We all pray for the day when our nation may be truly the land of the free.

SUBJECT: RACIAL SITUATION

In talking with the Attorney General and Assistant AG Marshall, of the Civil Rights Division, reference was made to our earlier conversation concerning Congressional requests which had been received by the Director, relating to alleged communist influence in the racial demonstrations. The Department's original position was that there was no immediate urgency in recontacting Senator Monroney, in view of recent contacts had with him by Departmental representatives. Today, I pointed out that these requests should not be allowed to remain unresolved too long.

Assistant AG Marshall advised that he had drafted a proposed letter to be used in replying to these Congressional requests, since he had ascertained that a written reply is desired, particularly by Senator Monroney. In his letter Marshall proposes to paraphrase the President's statement at his press conference on 7/17/63. Marshall's letter will, of course, make no reference to the President's statement, but merely indicate that this is the conclusion, predicated upon reports and other information supplied to the Department.

In those instances where the Department is dealing with a Member of Congress believed to be trustworthy, Marshall plans to deliver his letters personally and to explain that the classified nature of the reports precludes the furnishing of specific information in writing or in testimony. Marshall feels that he can talk confidentially in this way to Senator Magnuson and thus forestall any requests for further information. It was noted that, as a result of the Director's conversation with the Attorney General, Marshall had spoken with Martin Luther King about the dangers of his associating with Stanley Levison and accepting assistance from him. It was, therefore, believed that since this may get back to Members of Congress, Marshall should talk with the individual Senators, where this can be done on a confidential basis.

Marshall said he would, of course, keep us advised of the results of his contacts in this regard.

The Attorney General called and advised he would like to have Assistant Attorney General Burke Marshall talk to Martin Luther King and tell King he has to get rid of Levison and O'Dell, that he should not have any contact with them directly or indirectly. The Attorney General inquired if King could be told these persons are communists without exposing the informant.

I advised the Attorney General I thought he could make the statement that they are members of the Communist Party without exposing the informant. I pointed out that, if King continues this association, he is going to hurt his own cause as there are more and more communists trying to take advantage of the hate movement and bigots down South who are against integration are beginning to charge King is tied in with communists. I stated I thought Marshall could very definitely say this association is rather widely known and, with things crystallizing for them now, nothing could be worse than for King to be associated with it.

SA Don Roney of the New York Office advised that NY 3810-S* on 5/30/63 furnished information concerning a conversation on that date between Martin Luther King and Stanley Levison, who has been a secret Communist Party member and has contributed funds to the Communist Party on a regular basis. King stated that he had requested a conference with the President and the Attorney General because King thought that now was a good time for such a conference. Levison agreed. Levison stated that there has never been an Administration in this country that has been as worried about the Negro problem as the present one. Levison continued that this is brought about by the Administration's concern with the common market problem in Europe. It was Levison's opinion that United States prestige is very important at this time and the inability to control the racial situation was making it more difficult. It was Levison's opinion that the needs of the President are so great that he is all ready for a different policy if it can bring about the kind of controlled situation that he feels he needs.

King and Levison agreed that the situation has to be kept moving so that the President will have to look for an alternative. The President can then be presented with certain alternatives. This will benefit the President, for then his problem, fear of violence, will be done away with. It was Levison's thought that the President is all ready to make a change. A conference now would be fruitful, but if a conference cannot be worked out, then the movement must be enlarged. King stated that he would like to put so much pressure on the President that he would have to sign an Executive Order making segregation unconstitutional.

Levison said that the method of negotiating used in Birmingham will set the pattern for a whole series of southern cities. That is, you come in with a package, come up with demands, discuss them and come out with a victory. You ask for more than you expect to get. The goals of the movement, according to Levison, are desegregation, jobs and the right to vote. The

My dear Mr. O'Donnell:

A source, who has furnished reliable information in the past, has advised that on May 30, 1963, Reverend Martin Luther King, Jr., and Stanley Levison held a discussion concerning a conference which Reverend Mr. King reportedly has requested with the President and the Attorney General.

Levison and Reverend Mr. King agreed that this is a good time for such a conference and Levison stated that no Administration has ever been as worried about the Negro problem as is the present Administration. Levison added that this is based upon the Administration's concern with the problems arising from the Common Market in Europe. Levison expressed the opinion that the prestige of the United States is very important at this time and that inability to control the racial situation makes the Administration's task more difficult. He also said that the President is ready for a different policy if it can bring about the kind of controlled situation that he feels he needs.

Reverend Mr. King and Levison agreed that it was necessary to keep the situation moving so that the President will be forced to look for an alternative. It was stated that the President can then be presented with certain alternatives which will benefit the Administration as the President's fear of violence will be done away with. Levison expressed the thought that the President is ready to make a change and that a conference at this time would be fruitful. He added that if a conference cannot be worked out, then the movement must be enlarged. Reverend Mr. King said

he would like to put so much pressure on the President that he will have to sign an Executive Order making segregation unconstitutional.

Levison stated that the method of negotiation used in Birmingham, Alabama, will set the pattern for a series of Southern cities. He explained this method by stating that you come in with a package, come up with demands, discuss them and come out with a victory, and that in doing so you ask for more than you expect to get. He described the goals of the movement as desegregation, jobs and the right to vote. He described the methods of obtaining these goals as being direct action, nonviolence and negotiation.

As previously mentioned to you, another source who has furnished reliable information in the past, advised in March, 1963, that Stanley Levison was a secret member of the Communist Party, United States of America, who contributes to the Communist Party on a regular basis.

I advised the Attorney General of the above information and he suggested that the President should see this letter.

Sincerely yours,

Assistant Attorney General Burke Marshall of the Civil Rights Division has asked that we give him a statement concerning the Communist Party affiliation of Hunter Pitts O'Dell. We have called to his attention current reports which have been furnished to the Security Division, Attention Mr. Walter Yeagley, concerning O'Dell's activities.

Marshall was interested in O'Dell's association with Rev. Martin Luther King and he was given a copy of a report of Special Agent James F. O'Connell dated 12/20/62 at New York, which was classified "Confidential", which had been disseminated to Walter Yeagley of the Security Division. This report reflected the current association of O'Dell and the organization of Rev. King, namely, the Southern Christian Leadership Conference (SCLC). In addition to the above we also furnished him a copy of a memorandum from the Director to the Attorney General dated 12/6/62 and another dated 1/23/63, pertaining to O'Dell.

Marshall stated that upon review of the above information which was furnished to him, he would like to have a statement from the FBI concerning the present Communist affiliation of O'Dell, particularly, whether O'Dell actually is a member of the Communist Party at this time.

I advised Marshall that an appropriate memorandum would be prepared and furnished to him concerning his request. There is attached hereto a memorandum which has been prepared by the Security Division indicating that we have developed evidence through our coverage of the activities of the Communist Party, USA, which indicates that as of July, 1962, Party leaders considered O'Dell to be a member of the Party. It is being pointed out that this information is highly sensitive and confidential.

By way of background, he stated that an inquiry has been received from King about O'Dell and apparently the Department wants to be able to talk to King about O'Dell.

Before Marshall can do this he states he would like to have whatever background information we have on O'Dell. In this regard, it is noted that O'Dell is supposed to be a member of the Communist Party and has in the past been associated with the Southern Christian Leadership Conference. This is King's organization. We have in the past furnished information to the Department concerning O'Dell and his association with Rev. King.

Marshall should be furnished with memoranda which have heretofore been given to the Security Division. It is understood that a report of O'Dell's activities is also available and has been furnished to the Security Division but has not been given to the Civil Rights Division. It would appear that Marshall is entitled to this information if he is to properly evaluate O'Dell's background.

Marshall has asked for a summary on O'Dell. If such is not readily available, copies of material previously furnished to the Department would seem to suffice. He stated he has been in touch with the Attorney General on this matter and is anxious to have it handled as soon as possible.

SECURITY MATTER - C

In response to your inquiry of Assistant Director Courtney A. Evans on January 30, 1963, you are advised that Reverend Martin Luther King, Jr., accompanied by Hunter Pitts O'Dell and eight other officials of the Southern Christian Leadership Conference (SCLC), arrived in Savannah, Georgia, aboard Delta Airlines Flight Number 427 in the early morning of January 10, 1963. This group was met at the Savannah air terminal by Stanley Levison and the entire group departed Savannah in two automobiles.

Levison departed Savannah by train en route to New York City on the evening of January 11, 1963, while King, O'Dell and three other officials of the SCLC held reservations with the Delta Airlines for the morning of January 12, 1963. The racial unrest in the United States is currently the target for a determined concentration of communist effort. Long-range communist strategy includes the establishment of a Negro-labor coalition which the communists hope to be able to manipulate, as a powerful political-action weapon. They aim, thus, to provoke class struggle and promote legislation which can serve as a step toward a communist system of government. This constitutes a serious national security problem, since the individual playing a most dominant role as a leading spokesman for the estimated 20 million Negroes in this country today is knowingly, willingly, and regularly cooperating with and taking guidance from communists. An in-depth view of this individual, Martin Luther King, Jr., will serve to illustrate how he functions as a channel through which communist efforts are being directed against the Negroes and, therefore, against this country. It depicts, too, a Moral degenerate [redacted] of such magnitude as to blaspheme the title of "Reverend" which he carries.

King — The Communist Pawn

King, who is a copastor with his father of the Ebenezer Baptist Church, Atlanta, Georgia, and the recipient of Bachelor of Divinity and Doctor of Philosophy Degrees, is considered and described within the Communist Party-USA (CPUSA) as a Marxist. sensitive foreign intelligence operation

He has been closely aligned with communists for several years and has shown not only a willingness, but at times even an eagerness, to associate and confer with communist leaders and to work closely with and rely upon the advice and guidance of dedicated communists -- this despite the fact that they have been reliably identified to him as such. In February, 1962, Stanley David Levison, a secret Communist Party (CP) member, passed the word to the Party's General Secretary, Gus Hall, that "King is a wholehearted Marxist who has studied it (Marxism), believes in it, agrees with it, but because of his being a minister of religion, does not dare to espouse it publicly."

Levison -- Key Communist Directing King

Levison, one of the individuals exerting the most influence upon King and who has greatly facilitated King's rise to prominence, is a shrewd, dedicated communist and is known as such by King. Since the late 1940's Levison has played a highly clandestine role in which he was entrusted by the Party to raise and handle secret funds used to finance some of the Party's activities. In 1961 Levison was Assistant Treasurer of the Southern Christian Leadership Conference (SCLC), which is headed by King.

Sensitive foreign intelli
operation

Since 195[illegible] Levison has expended much effort in King's behalf in such activities as: actively involving himself in fund-raising drives for King; serving as King's legal counsel in selected matters; preparing speech material for King; assisting in the mechanics of some demonstrations in which King was involved; guiding King as to acceptance or rejection of public appearances and speaking commitments; and helping King with matters related to the latter's writings.

King's Reliance on O'Dell, A National Party Functionary

Another key communist through whom the Party exerts influence on King is Hunter Pitts O'Dell who, at the Party's last National Convention in 1959, was elected a member of its second highest governing body, the National Committee. His election was under a pseudonym. In 1960, while working as an assistant to the Party's National Secretary for the South, James Jackson, O'Dell also began to work actively in support of King's movement. In June, 1962, King sought Levison's counsel concerning the addition of an administrative assistant to King's staff. As a result of Levison's recommendation of O'Dell, the latter associated himself with the SCLC in Atlanta, Georgia, under the name J. H. O'Dell and also served the SCLC in its New York office. In October, 1962, several newspaper articles exposed O'Dell's connection with the SCLC and his communist affiliations, as a result of which King announced O'Dell's temporary resignation pending an inquiry.

This "temporary resignation" consisted of O'Dell's return to New York City where he continued to perform services for the SCLC until July, 1963, [redacted]

Homosexual Rustin -- Liaison With Communist Party-USA

Rustin himself is an interesting link in the King "combine." He has long been inclined toward homosexual activities and in 1953 was sentenced to serve 60 days for offering to engage in an act of sex perversion of a homosexual nature, which he admitted. Rustin has also publicly admitted affiliations with the communist movement in the late 1930's and was one of a select group of observers permitted to attend the Party's 16th National Convention in 1957. He also has maintained contact with the Party's National Secretary, Benjamin J. Davis,

If the Party fully implements its current plans, we may expect to see more open and aggressive actions in its attempts to further influence, infiltrate, dominate and recruit the American Negro — just one more step in its ultimate goal of establishing a communist state within our boundaries.

Dear Mike:

Enclosed is a document request for materials pertaining to the King matter.

I would like to set October 6, 1975 as a deadline for delivery of all outstanding previously-requested documents pertaining to the King matter and October 13, 1975 for delivery of all documents requested on the attached list.

I would also appreciate your arranging a briefing for Mike Epstein for sometime this week by knowledgable FBI personnel concerning:

This document is prepared in response to your request and is not for dissemination outside your Committee. Its use is limited to official proceedings by your Committee and the content may not be disclosed to unauthorized personnel without the express approval of the FBI .

A. INVESTIGATIONS OF KLAN-TYPE ORGANIZATIONS, HATE ORGANIZATIONS, AND ASSOCIATED INDIVIDUALS

1. While these are considered criminal investigations, they are considered delicate in nature and require the application of the restrictions necessary in conducting security-type investigations. Therefore, the investigations and reports are to be handled in accordance with the general rules applying to security-type investigations.
2. Caution
   Extreme care must be exercised to insure that in every instance there is a proper basis for investigation. Sound judgment must be used to avoid investigation of organizations or individuals that merely sponsor unpopular causes or propaganda but do not meet the standards outlined under item 3a below. The Bureau must insure that there will be no justifiable basis for any charge that these investigations infringe upon constitutional freedoms of speech, press, or assemblage.
3. Investigations
   a. Investigation is confined to those organizations or associated individuals that either:
      (1) Have been designated pursuant to Executive Order 10450
      (2) Have not been designated under Executive Order 10450 but there is an actual or alleged affiliation or subsidiary relation with a designated organization
      (3) Have adopted a policy or have allegedly adopted a policy of advocating, condoning, or inciting the use of force or violence to deny others their rights under the Constitution
      (4) Have allegedly committed acts of violence
      (5) Have actually or allegedly committed violations of laws within the Bureau's jurisdiction
   b. During the investigation of Klan-type organizations and hate organizations, the following information should be obtained:
      (1) Organization structure
         (a) Headquarters
         (b) Officers
         (c) Location of klaverns or local chapters
      (2) Objectives
      (3) Publications and propaganda
      (4) Finances
      (5) Activity of klaverns or local chapters
         (a) Name and address
         (b) Officers
         (c) Estimated membership and recruiting activities
         (d) Meetings
            I. Date
            II. Type (open or closed)
            III. Place
            IV. Estimated attendance
   c. Follow through public source material and established sources activities of organizations which do not qualify for investigation under above standards. Initiate investigation upon receipt of information which brings organization within investigative criteria and at the same time advise Bureau this action taken and basis therefor.
   d. Conduct no investigation regarding individual acts of violence allegedly or actually committed by an organization in absence of information indicating violation within Bureau's jurisdiction. However, concerning each such incident, the following information should be obtained through informants and sources in connection with investigations of such organizations:

This document is prepared in response to your request and is not for dissemination outside your Committee. Its use is limited to official proceedings by your Committee and the content may not be disclosed to unauthorized personnel without the express approval of the FBI.

(1) Which group involved
(2) Whether action taken was on initiative of individual members or with knowledge or approval of leadership

In initial communication reporting violent act, advise if there is or is not indication of organization participation.

If act of violence is a criminal violation over which Bureau has jurisdiction, be guided by instructions concerning the specific violation; if the act of violence is a bombing or attempted bombing having religious or racial aspects or involving a religious or educational institution, be guided by the specific instructions relating to bombings and attempted bombings.

e. Agents are not to attend functions or rallies of any Klan or hate group although open to the public.

f. These investigations must be both vigorous and incisive. The fundamental objective is to identify those who may be engaged or responsible for acts of violence, and care must be taken to avoid becoming involved in widespread, nebulous investigation which does not go to the heart of the problem at hand. When a case is opened, it should receive immediate continuous attention until the initial allegation is resolved. The case should be promptly closed if it is definitely determined that it does not fall within the criteria set out in item 3a above.

g. Individual cases should be opened on officers, leaders, and active workers in these organizations to determine whether they have been involved in acts of violence or have a definite potential for future acts of violence. Good judgment and discretion must be exercised in the case of prominent individuals who may be dupes of such organizations and who may hold nominal office. Immediately advise the Bureau when investigation of a prominent person is contemplated; and if there is any question as to whether there is sufficient probable cause to fully justify investigation, no investigation should be conducted without Bureau approval.

h. Names of members in attendance at meetings should not be set out in investigative reports but should be indexed from informant reports. Names of new members should be furnished the Bureau by letter for indexing purposes.

4. Informants and interviews

a. In order that the Bureau may discharge its responsibilities, it is mandatory that information be obtained regarding all pertinent Klan or hate organization activities. In this regard it is necessary that informants be developed in all such organizations which meet the criteria set forth in 3a above. Efforts in this regard must be discreet.

b. Preliminary interviews with rank-and-file members of an organization and other individuals not connected with such organizations conducted solely for the purpose of determining the attitude of the individual may be authorized by the SAC. To obtain authority from the SAC, credit, arrest, informant, and indices checks should be made and a memorandum prepared for the SAC setting forth this information so that he may make a decision regarding the propriety of the interview. Officials of local groups or national officers are not to be interviewed without prior Bureau authority. Likewise where a greater than usual risk is involved, such as individuals employed in the newspaper field, educational field, radio and television industry, and the like,

[specific Bureau authority must be obtained. Two Agents should be
[present when an organization official is interviewed and, if possible,
[two Agents should be present at interviews with organization members.
[During such an interview, no attempt should be made to develop the
[individual as an informant; but if he is cooperative and has a
[potential for development as an informant, complete background infor-
[mation should be obtained and specific Bureau authority requested
[to develop him as an informant.
[c. Bureau authority not necessary prior to interview with organization

Enclosures (19)

A. INVESTIGATIONS OF KLAN-TYPE ORGANIZATIONS, HATE ORGANIZATIONS, AND ASSOCIATED INDIVIDUALS

1. While these are considered criminal investigations, they are considered delicate in nature and require the application of the restrictions necessary in conducting security-type investigations. Therefore, the investigations and reports are to be handled in accordance with the general rules applying to security-type investigations.

2. Caution

Extreme care must be exercised to insure that in every instance there is a proper basis for investigation. Sound judgment must be used to avoid investigation of organizations or individuals that merely sponsor unpopular causes or propaganda but do not meet the standards outlined under item 3a below. The Bureau must insure that there will be no justifiable basis for any charge that these investigations infringe upon constitutional freedoms of speech, press, or assemblage.

3. Investigations

a. Investigation is confined to those organizations or associated individuals that either:
- (1) Have been designated pursuant to Executive Order 10450
- (2) Have not been designated under Executive Order 10450 but there is an actual or alleged affiliation or subsidiary relation with a designated organization
- (3) Have adopted a policy or have allegedly adopted a policy of advocating, condoning, or inciting the use of force or violence to deny others their rights under the Constitution
- (4) Have allegedly committed acts of violence
- (5) Have actually or allegedly committed violations of laws within the Bureau's jurisdiction

b. During the investigation of Klan-type organizations and hate organizations, the following information should be obtained:
- (1) Organization structure
  - (a) Headquarters
  - (b) Officers
  - (c) Location of klaverns or local chapters
- (2) Objectives
- (3) Publications and propaganda
- (4) Finances
- (5) Activity of klaverns or local chapters
  - (a) Name and address
  - (b) Officers
  - (c) Estimated membership and recruiting activities
  - (d) Meetings
    - I. Date
    - II. Type (open or closed)
    - III. Place
    - IV. Estimated attendance

c. Follow through public source material and established sources activities of organizations which do not qualify for investigation under above standards. Initiate investigation upon receipt of information which brings organization within investigative criteria and at the same time advise Bureau this action taken and basis therefor.

d. Conduct no investigation regarding individual acts of violence allegedly or actually committed by an organization in absence of information indicating violation within Bureau's jurisdiction. However, concerning each such incident, the following information should be obtained through informants and sources in connection with investigations of such organizations:

This document is prepared in response to your request and is not for dissemination outside your Committee. Its use is limited to official proceedings by your Committee and the content may not be disclosed to unauthorized personnel without the express approval of the FBI .

(1) Which group involved
(2) Whether action taken was on initiative of individual members or with knowledge or approval of leadership

In initial communication reporting violent act, advise if there is or is not indication of organization participation.

If act of violence is a criminal violation over which Bureau has jurisdiction, be guided by instructions concerning the specific violation; if the act of violence is a bombing or attempted bombing having religious or racial aspects or involving a religious or educational institution, be guided by the specific instructions relating to bombings and attempted bombings.

e. Agents are not to attend functions or rallies of any Klan or hate group although open to the public.

f. These investigations must be both vigorous and incisive. The fundamental objective is to identify those who may be engaged or responsible for acts of violence, and care must be taken to avoid becoming involved in widespread, nebulous investigation which does not go to the heart of the problem at hand. When a case is opened, it should receive immediate continuous attention until the initial allegation is resolved. The case should be promptly closed if it is definitely determined that it does not fall within the criteria set out in item 3a above.

g. Individual cases should be opened on officers, leaders, and active workers in these organizations to determine whether they have been involved in acts of violence or have a definite potential for future acts of violence. [Wholesale investigations of individuals of these organizations should not be conducted and investigations of individual members should be initiated only on a most selective basis. Individuals investigated should be those who are key personnel who actually formulate and carry out the organization's policy and not those individuals who merely attend meetings on a regular basis. If there is any question as to whether such an investigation should be initiated, the facts should be presented to the Bureau for its consideration.]

Immediately advise the Bureau when investigation of a prominent person is contemplated; and if there is any question as to whether there is sufficient probable cause to fully justify investigation, no investigation should be conducted without Bureau approval.

[The Bureau should be advised by letter of the information obtained, together with a statement as to whether the individual warrants inclusion on the potential bombing suspects list of your office. If investigation indicates that the individual should not be included, the case may then be closed administratively. If the subject is included on the list, the matter should be handled in accordance with instructions set forth in section 23, volume II, of this manual concerning bombing matters.]

h. Names of members in attendance at meetings should not be set out in investigative reports but should be indexed from informant's [statements.] Names of new members should be furnished the Bureau by letter for indexing purposes.

4. Informants and interviews

a. In order that the Bureau may discharge its responsibilities, it is mandatory that information be obtained regarding all pertinent Klan or hate organization activities. In this regard it is necessary that informants be developed in all such organizations which meet the criteria set forth in 3a above. Efforts in this regard must be discreet.

b. Preliminary interviews with rank-and-file members of an organization and other individuals not connected with such organizations conducted solely for the purpose of determining the attitude of the individual may be authorized by the SAC. To obtain authority from the SAC, credit, arrest, informant, and indices checks should be made and a memorandum prepared for the SAC setting forth this information so that he may make a decision regarding the propriety of the interview. Officials of local groups or national officers are not to be interviewed without prior Bureau authority. Likewise where a greater than usual risk is involved, such as individuals employed in the newspaper field, educational field, radio and television industry, and the like, specific Bureau authority must be obtained. Two Agents should be present when an organization official is interviewed and, if possible, two Agents should be present at interviews with organization members. During such an interview, no attempt should be made to develop the individual as an informant; but if he is cooperative and has a potential for development as an informant, complete background information should be obtained and specific Bureau authority requested to develop him as an informant.

c. Bureau authority not necessary prior to interview with organization members in criminal- or applicant-type cases; however, interview should be confined to subject matter of inquiry, unless data concerning organization volunteered by interviewee.

[d. Original and one copy of semiannual letter captioned "Klan Organizations, Hate Organizations and Racial Informants, Racial Matters, Bombing Matters," to be submitted according to schedule set out below. Where there is no pertinent activity or information, a negative statement should be made.

[B. GENERAL RACIAL MATTERS

[1. Jurisdiction

[The Bureau does not have investigative jurisdiction over such general racial matters, as race riots, civil demonstrations, and similar developments except in instances in which the action is a violation of statute over which the Bureau has jurisdiction or some subversive influence is at work. Insofar as Federal jurisdiction in general racial matters is concerned, U. S. Army regulations place responsibility upon the Army to keep advised of any developments of a civil disturbance nature which may require the rendering of assistance to civil authorities or the intervention of Federal troops. OSI and ONI have collateral responsibility under Army in such matters and copies of pertinent documents disseminated to Army concerning such matter should be furnished to OSI and ONI.

[2. Policy

[a. As an intelligence function the Bureau does have the responsibility of advising appropriate Government agencies and officials on both a national and local level of all pertinent information obtained concerning such incidents. In this connection it is the personal responsibility of each SAC to make the necessary arrangements to

insure that all developments of this type occurring within his territory are promptly reported to his office and upon receipt thereof furnished to the Bureau by whatever form of communication is warranted under the circumstances.

b. Since the Bureau does not have investigative jurisdiction in general racial matters, no open investigation is to be conducted concerning general racial matters as such.

c. In instances in which civil rights may be involved or in which a racial incident may involve an act which constitutes a criminal violation over which the Bureau has jurisdiction, be guided by instructions concerning the specific violation. Likewise, if the incident involves a bombing or attempted bombing having religious or racial aspects or involving a religious or educational institution, be guided by the specific instructions relating to bombings and attempted bombings.

d. In instances in which some subversive influence is determined to be at work, be guided by instructions pertaining to investigation of the specific subversive influence involved.

e. CAUTION. By their very nature racial matters are extremely delicate and great care must be exercised in the approach to such matters.

3. Procedures

a. Information dealing with general racial matters, such as proposed or actual activities of individuals, officials, committees, legislatures, organizations, etc., in the racial field, must be furnished to the Bureau expeditiously by whatever means of communication is warranted by the specific nature of the information and the circumstances involved.

b. Pertinent information bearing on general racial matters which would not otherwise be available to interested Government agencies, such as that obtained through sources and informants, and which is of such a nature that it would normally be furnished to the Bureau by letter or airtel must be transmitted to the Bureau in form suitable for dissemination. In general, pertinent information bearing on general racial matters appearing in newspapers or publications need not be furnished to the Bureau in form suitable for dissemination. In such instances merely submit copies of pertinent newspaper articles and publications to the Bureau. Of course, if such data is clearly of a nature as to require contacts with appropriate sources, such as information of unusual local or national importance, submit same expeditiously in form suitable for dissemination. Concisely summarize the pertinent article and include therein the results of contacts with appropriate sources.

c. Maintain contact with pertinent informants and sources and keep Bureau and local intelligence agencies advised of any additional pertinent developments. Unless circumstances clearly indicate necessity for more expeditious handling, furnish such additional data to the Bureau promptly in form suitable for dissemination.

d. In many instances situations involving members of the Negro and Caucasian races result in violations of criminal statutes over which the Bureau has investigative jurisdiction. While such matters are to be handled in accordance with instructions pertaining to the substantive violation involved, the Bureau has the additional responsibility of disseminating pertinent information concerning any racial aspects of such situations to appropriate Government officials and agencies that do not ordinarily receive reports in criminal matters. Therefore, the submission of a report concerning the criminal violation involved alone is insufficient. In general, pertinent data concerning the racial situation involved must be submitted immediately to Bureau in form suitable for dissemination in order that it may reach interested agencies as soon as possible.

[e. Where information is received in connection with racial matters indicating that individuals or organizations have resorted to or contemplate resorting to violence, you must

(1) Immediately advise the Bureau of full facts by expeditious means depending upon urgency of circumstances

(2) Immediately advise appropriate law enforcement agency having jurisdiction in the matter unless it is already cognizant. If a compelling reason exists for not so advising the pertinent law enforcement agency, such as the possibility of exposing the informant furnishing the information, immediately furnish the Bureau with full facts. Include therein recommendations as to what other trustworthy local or state law enforcement agencies or officials may be used as intermediaries through whom the information in question may be furnished to the law enforcement agency actually having jurisdiction in such a manner as to fully protect the specific informant and the Bureau as the source thereof.

(3) Immediately advise the local office of military intelligence

(4) Contact all appropriate informants and sources to determine if they possess any additional pertinent data concerning the matter and instruct them to be alert for and to promptly furnish to you any such pertinent data obtained.

(5) Prepare and submit pertinent data to the Bureau in form suitable for dissemination. Include in the communication the results of contacts with appropriate sources and informants; the time and date that local agencies were advised; and the identities of the individuals so advised. (Where information is furnished to an intermediary official or law enforcement agency and not to the agency actually having jurisdiction, set forth in the cover page the reasons for such procedure.) Submit communication same day original information received except where original information is received after normal working hours, when communication is to be submitted beginning of next workday.

(6) Maintain contact with pertinent informants and sources and keep Bureau, pertinent local law enforcement agency, and local intelligence agencies advised of any additional pertinent developments as they occur. Unless circumstances clearly indicate necessity for more expeditious handling, furnish such additional data to Bureau and intelligence agencies in form suitable for dissemination.

SUBJECT: THE LONG COMMITTEE

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE BY

The Attorney General called on the morning of February 27, 1965, to advise he wanted to consult with the Bureau on certain problems raised by the Long Committee, which is exploring the use of mail covers, et cetera. He noted there was a possible problem concerning Chief Inspector Montague's testimony and whether it was necessary for Montague to change his testimony. Also, he felt that Internal Revenue Service had been using investigative techniques which they should not use and this could pose a problem. He said that the President had asked him to coordinate with all executive agencies concerning the problems raised by the Long Committee.

Inspector Moore and I met with the Attorney General in his office this afternoon. Mr. Courtney Evans was present. I told the Attorney General that in Montague's testimony he was told by Attorney Fensterwald that if any of the questions had national security implications Montague should not answer them. Consequently, Montague was estopped from doing other than answer in the negative when asked questions touching on national security. With this interpretation, it was questionable whether an attempt should be made to change or explain Montague's testimony, particularly in view of the obvious lack of judgment on the part of Fensterwald and the desire of Long for publicity. I made it clear to the Attorney General that from our dealings with Montague, he was a man of integrity and sacrificed his personal desires for the welfare of the country and had cooperate fully with us. The Attorney General said he had no intention of changing one word of Montague's testimony, but he was considering advising Long and Fensterwald that there were extreme delicate national security matters touching on the areas being covered by the committee and there could be exceptions to the answers given in the testimony when they touched on such sensitive security matters. He said further that he contemplate seeing Senator Long and impressing on him that the committee would not want to stumble by mistake into an area of extreme interest to the national security as they nearly did in a matter

affecting CIA. (Apparently CIA got wind of some inquiries by the committee relative to their secret operation and went to the committee and warned them off.) Katzenbach contemplates asking for a list of the witnesses who will appear before the committee together with a brief summary of the expected testimony. On the basis of this, he will be able to advise Senator Long when he should steer clear of a sensitive area.

I told Mr. Katzenbach that I certainly agree that this matter should be controlled at the committee level but that I felt pressure would have to be applied so that the personal interest of Senator Long became involved rather than on any ideological basis. Mr. Katzenbach said that he had already talked to Vice President Humphrey about Fensterwald, who he considered a wild man, and that Humphrey had promised to talk to Long concerning Fensterwald. Katzenbach said that in addition to the Vice President he might have to resort to pressure from the President himself, although he would prefer to work it out without resorting to the President. He indicated there was no one on the committee itself who could be helpful and that he did not expect any help from Senator Eastland.

Mr. Katzenbach said that he expected trouble from the possible activities of IRS and the military in the investigative field; that if some of these matters are uncovered before the committee they will tend to undermine the restricted and tightly controlled operations of the Bureau. I told him that our operations are tightly controlled and particularly in the delicate areas of concern, we restrict ourselves to important security matters.

Mr. Katzenbach said he was going to see Senator Long on Monday and wanted to know if the Bureau would like someone to go along with him. I told him no.

ACTION:

Mr. Katzenbach said he would advise us of the results of his conversation with Long. He also asked that I advise the Director of our discussion and I told him I would.

I called Mr. DeLoach and briefed him on this problem in order that he might contact Senator Eastland in an effort to warn the Long Committee away from those areas which would be injurious to the national defense. Edward V.

I called the Attorney General and told him I wanted to let him know that I had talked to Senator James Eastland today, in regard to the hearings before the Long Committee concerning mail covers, et cetera. I stated Senator Eastland is in Mississippi today but he is going to see Senator Long not later than Wednesday morning to caution him that this fellow Fensterwald must not go into the kind of questioning he made of Chief Inspector Montague of the Post Office Department. The Attorney General stated he was going to see Senator Long himself and asked if I thought he ought to wait until after Senator Eastland talks to Senator Long. I stated the timing might be well if he did wait as Eastland assured me he will see Long not later than Wednesday and then if he, the Attorney General, could see Long sometime Wednesday, it would probably tie it down once and for all as there are no hearings until Wednesday anyway. The Attorney General stated he thought they were having a hearing tomorrow, but he would check. I stated if there is a hearing tomorrow, then I would be inclined for the Attorney General to see Senator Long now and if it is not before Wednesday, then I think he should let Senator Eastland see what he can do. I stated Senator Eastland thoroughly understands the matter and said he does not intend to have that gone into and that obviously Fensterwald is getting in over his head and that has to be stopped. The Attorney General called and advised that he had talked to Senator Long last night. Senator Long's committee is looking into mail covers et cetera. The Attorney General stated he thought somebody had already spoken to Senator Long as he said he did not want to get into any national security area and was willing to take steps not to do this. The Attorney General stated that Mr. Fensterwald was present for part of the meeting and Fensterwald had said that he had some possible witnesses who are former Bureau Agents and if they were asked if mail was opened, they would take the Fifth Amendment. The Attorney General stated that before they are called, he would like to know who they are and whether they were ever involved in any program touching on national security and if not, it is their own business, but if they were, we would want to know. The Attorney General stated the Senator promised that he would have a chance to look at the names if he wanted to, personally and confidentially, and the list would have any names involving national security deleted and he would tell the Senator how many but no more.

The Attorney General stated that the Postmaster General is going down there this morning himself which he, the Attorney General, thought would be helpful to Chief Inspector Montague of the Post Office Department.

The Attorney General stated that Senator Long also said he is not going to propose legislation to abolish mail covers as he thought they served a useful purpose but he did think that control should be tightened. I stated I thought there was great laxity in the matter of mail covers and the matter of tapping telephones.

I stated I have always been of the view and recommended back when Tom Clark was Attorney General that no agency of the Government should tap a telephone except with the written approval of the Attorney General. I stated

there would then be in one place a list of all phone taps and the purpose and reason for them. I stated that it is a fact, insofar as I am concerned, that I am the only head of an agency who does not have authority to tap telephones. I stated that I know that subordinates down the line in some agencies will tap phones without the knowledge of the chief of the agency and there is grave suspicion in Washington by some newspapermen that their phones have been tapped by agencies of the Government trying to find out where they are getting their information. I stated I have always been opposed to the law whereby it is necessary to get the authority of a court to tap phones because of the composition of some of our courts and the employees thereof, but I have always felt that the President should issue an Executive Order confidentially to all agencies that all phone tapping be discontinued except when specifically approved by the Attorney General so there would be in one place a list and then if any committee in Congress got on the warpath, the Attorney General would have a list he could vouch for as being the only phones tapped by the Government. The Attorney General stated that made sense. I stated many agencies are opposed because they realize there would be a marked restriction. I stated we only have 45 phone taps, which is a low number for a country the size of ours and the area we have to cover. The Attorney General stated no one has any idea how many phone taps the whole Government has.

I stated there is also a school being conducted in California by a private organization which instructs the Treasury Department and the Internal Revenue Service in the matter of phone tapping and they have sent their own personnel there to be trained. I stated Internal Revenue has also from time to time hired private outside phone tappers to do their tapping. I stated it is that type of thing if there were a real investigation which would come out. The Attorney General commented that he would not guarantee some of it won't come out. I stated I was amazed when I learned of the school in California as I saw a reference to it in the newspaper and wanted to know what it was and what officers attended. I stated we have our own instructors and do it ourselves.

I stated I thought the Attorney General had made good headway with Senator Long. The Attorney General stated he thought it would be helpful, but his

problem is that he thinks the Senator is fine but he does not think that Fensterwald is as straightforward, or to put it another way that Fensterwald is smart and devious and the Senator is straightforward and not very bright and that is the problem. I stated I thought that Fensterwald is trying to get publicity for the Senator. The Attorney General stated the Senator said he did not want to get into this and he would give him, the Attorney General, the names and a summary of the testimony and told Fensterwald to do so, but he, the Attorney General, can't say Fensterwald is going to do it; that he will on some but he did not know that he would on all. I stated I had no faith or confidence in Fensterwald and neither did Senator Eastland. The Attorney General stated that Senator Eastland may have already talked to Senator Long or else the Vice President, but somebody had waked him up. I stated Senator Eastland said he would do it Wednesday, but he may have called him.

The Attorney General stated that is where it stands now and we shall see what happens.

Very truly yours,

J. E. H.

UNITED STATES SENATE SELECT COMMITTEE TO STUDY GOVERNMENTAL OPERATIONS WITH RESPECT TO INTELLIGENCE ACTIVITIES (SSC)

Reference is made to SSC letter dated October 8, 1975, requesting all materials pertaining to the decisional process which preceded and resulted in the Bureau's request to the Central Intelligence Agency to place each of the following names on the Hunter Mail watch list:

1) "National Guardian"
2) Derk Bodde
3) Leonard Bernstein
4) National Mobilization Committee to End the War in Vietnam
5) "Ramparts"

Knowledge of the Hunter Mail watch list was limited within the Bureau to Supervisors at FBI Headquarters. When a Supervisor desired to place a name on the watch list, he would prepare a 3 x 5 card which included:

a) the name and address of the individual or organization,
b) the duration of the request, and
c) the treatment to be given to any mail located.

No date was placed on the card, however, the cards were numbered consecutively. The request was then forwarded through liaison representatives to the Central Intelligence Agency. No other documents were prepared concerning the consideration, recommendation and proposal of these requests.

On October 1, 1975, representatives of the FBI met with John T. Elliff of the SSC concerning a similar request. As a result, Elliff requested the following information concerning each of these requests:

United States Senate Select Committee

Respect to Intelligence Activities (SSC)

a) a copy of the request and any other document in the Hunter Mail file in which the FBI mentions or shows results obtained from the specific request,

b) the approximate date of the request, and

c) the apparent basis for the request, or in the case of an investigation instituted after the effective date of the Hunter Mail project, the basis for the investigation.

The following summaries and enclosures constitute the Bureau's response to this request.

United States Senate Select Committee
to Study Governmental Operations with
Respect to Intelligence Activities (SSC)

1) "National Guardian"

a) documents - The "National Guardian" was the subject of Hunter Mail request number 117 (Exhibit A-1). On April 20, 1962, a list of names to remain on the watch list was prepared and the "National Guardian" was included (Exhibit A-2). On October 25, 1966, a similar list was prepared (Exhibit A-3). The "National Guardian" was mentioned in a memorandum dated August 21, 1964, concerning data obtained from the Hunter Mail project during the past year (Exhibit A-4).

b) date - Request number 117 was made between August 18, 1961, and April 20, 1962. As indicated above, the "National Guardian" was included on a list of names to remain on the watch list on April 20, 1962. It was not on a similar list of names as of August 18, 1961.

c) basis - The first item in the Bureau file on the "National Guardian" is dated August 13, 1948, and reports the publication on August 1, 1948, of the "National Gazette Weekly," forerunner of the "National Guardian." During 1961 and 1962, the "National Guardian" sponsored tours of Eastern Europe, including Russia (Exhibits A-5 and 6).

United States Senate Select Committee
to Study Governmental Operations with
Respect to Intelligence Activities (SSC)

2) Derk Bodde

a) documents - No Hunter Mail request was located for Bodde. He was, however, included in a list of names to remain on the watch list which was prepared on April 20, 1962 (Exhibit A-2).

b) date - Bodde was most likely placed on the watch list in 1960. As indicated above, Bodde was included on a list of names to remain on the watch list on April 20, 1962; however, there are no documents in the file dated in 1961 and 1962. He did travel to Russia during 1960.

c) basis - The first item in the Bureau file on Bodde is dated February 5, 1952. A review of the documents for the period after the Hunter program was instituted failed to locate any document recommending him for inclusion on the watch list. The investigation had been placed in a closed status until information was received that Bodde was scheduled to attend the International Orientalist Congress in Moscow during August, 1960 (Exhibits B-1 and 2).

United States Senate Select Committee
to Study Governmental Operations with
Respect to Intelligence Activities (SSC)

3) Leonard Bernstein

a) documents - No Hunter Mail request was located for Bernstein. He was, however, included in a list of names to be removed from the watch list which was prepared on April 20, 1962 (Exhibit A-2).

b) date - Bernstein was most likely placed on the watch list in 1959, since he went to Russia during that year. On April 20, 1962, he was included on a list of names to be removed from the watch list.

c) basis - Since no Hunter Mail request was located, there is no background information available concerning the Leonard Bernstein who was placed on the watch list. A review of Bureau files for individuals named Leonard Bernstein does indicate, however, that the only Leonard Bernstein who travelled to Russia or had any Soviet contacts was Leonard Bernstein, born August 25, 1918 (the prominent conductor and composer). The first item in the Bureau file concerning Bernstein is dated March 2, 1949. A review of documents in this file from the beginning of the Hunter program in 1958 until April 20, 1962, the date on which his name was removed from the watch list, failed to locate a request that he be included in the Hunter program. However, information concerning him, compiled in response to a request from another government agency in December, 1958, did indicate that Bernstein planned to visit Russia during March, 1959 (Exhibits C-1 and 2).

United States Senate Select Committee
to Study Governmental Operations with
Respect to Intelligence Activities (SSC)

4) National Mobilization Committee to End the War in Vietnam (NMC)

a) documents - The NMC was the subject of Hunter Mail request number 193 (Exhibit D-1). The NMC was mentioned in a memorandum dated August 28, 1969, concerning data obtained from the Hunter Mail project during the past year (Exhibit D-2).

b) date - This request was most likely made between January 16, 1969, and August 28, 1969. No investigation was conducted concerning the NMC until September, 1966 (Exhibit D-3). The request, however, was probably not made until after January 15, 1969, the date that a CIA representative suggested the Bureau use the Hunter project for development of leads in the New Left field (Exhibit D-4). Request number 233 was mentioned in a memorandum concerning results from the Hunter Mail program which was dated August 28, 1969.

c) basis - The first item in the Bureau file concerning the NMC is a communication dated September 14, 1966, which indicates that a group known as the November 8th Ad Hoc Committee had been formed at Cleveland, Ohio. By communication dated September 20, 1966, FBI Headquarters instructed the New York and Cleveland Division to keep abreast of the plans of this Committee to sponsor demonstrations during November, 1966 (Exhibit D-3). By communication dated July 28, 1967, FBI Headquarters instructed the New York Division to prepare a report concerning the same organization which had become known as the NMC (Exhibit D-5). The name NMC was used until approximately August, 1969, when an allegedly new organization known as the New Mobilization Committee to End the War in Vietnam was formed.

United States Senate Select Committee
to Study Governmental Operations with
Respect to Intelligence Activities (SSC)

5) "Ramparts"

a) documents - "Ramparts" was the subject of Hunter Mail request number 105 (Exhibit E-1).

b) date - This request was also most likely made between January 16, 1969, and August 28, 1969.

c) basis - The first item in the Bureau file concerning "Ramparts" is dated October 22, 1964; however, no active investigation was authorized at that time. Investigation was authorized in May, 1967, based on a request received from the Department of Justice (Exhibits E-2 and 3). No request to include "Ramparts" on the Hunter Mail watch list was located; however, a document dated October 17, 1968, does indicate that "Ramparts" furnished a list of names, probably their mailing list, to the Soviets (Exhibit E-4).

In order to insure that Project Hunter will continue to operate under maximum economy and efficiency, we have advised CIA at a recent conference we would review Bureau Informant 200 material received and advise CIA whether or not we desired to continue to receive material on persons whose names appear on the attached list.

The interested Supervisor should, accordingly, indicate by writing "yes" or "no" to the right of his subject's name whether or not he desires Bureau Informant 200 to discontinue furnishing data on each of his respective subjects.

The attached lists were compiled from a review of the Project Hunter card box indices maintained by Supervisor W. D. Stewart as an administrative aid for routing purposes. The names of subjects on whom we have received no material for the past year do not appear on the attached lists. They have been weeded out separately along with other subjects who have been relatively inactive.

The results of this survey will be forwarded via Liaison to CIA for appropriate action.

RECOMMENDATION:

That this memo and its attachment be routed to the interested Supervisor for a determination as to the continuation of receiving Bureau Informant 200 material on his respective subject.

LEONARD BERNSTEIN - Security
Born: August 25, 1918
Lawrence, Massachusetts

You are referred to information previously furnished to your agency on January 28 and November 10, 1955, concerning Leonard Bernstein. For your additional information, there is enclosed a copy of a memorandum dated May 27, 1958, concerning the captioned individual. (100-360261-41,49,55)

In August, 1958, a confidential informant who has furnished reliable information in the past advised that Leonard Bernstein had been in contact with Tamara Yurevna Mamedova. The August, 1958, "Diplomatic List" reflects Tamara Y. Mamedova to be a second secretary at the Embassy of the Union of Soviet Socialist Republics, (USSR). In June, 1958, a confidential informant who has furnished reliable information in the past advised that Tamara Mamedova was employed in the Cultural Division of the Soviet Embassy. As part of her duties the informant stated that Mamedova handled inquiries from the public concerning the Cultural Exchange Program between the USSR and the United States and assisted in arrangements for appearances of groups from both countries under the auspices of that program.

In his contact with Mamedova, the confidential informant stated that Leonard Bernstein indicated that he would accept an invitation to visit the USSR and stated that he would be able to go during the first two weeks of March, 1959. He expressed a desire to conduct some orchestras while in the USSR. (105-53022-328)

Re: Leonard Bernstein, with aliases

On June 30, 1950, a source who has furnished reliable information in the past, advised that in 1945 when the committee to aid Ben Davis was being considered, both Ben Davis and Jack Stachel described Leonard Bernstein to the source as an adherent of the Communist Party. This source stated that other Communist Party functionaries had also described Leonard Bernstein as a Communist. The source advised that in 1945 Jack Stachel informed him that Bernstein had agreed to submit to Communist discipline. This source advised on December 9, 1954 that he has no direct personal knowledge of Bernstein's willingness to submit to Communist discipline.

Ben Davis and Jack Stachel were members of the National Board of the Communist Party who were tried and convicted in 1949 for violation of the Smith Act of 1940.

Leonard Bernstein, by notarized affidavit dated August 3, 1953, submitted in connection with his application for passport, stated "...although I have never, to my knowledge, been accused of being a member of the Communist Party, I wish to take advantage of this opportunity to affirm under oath that I am not now or at any time ever been a member of the Communist Party or the Communist Political Association. I have never knowingly engaged in activities which supported the Communist movement under circumstances which would warrant the conclusion that I engaged in such activities as a result of direction, domination or control exercised over me by the Communist movement..."

In February, 1958, a source of unknown reliability, but who is acquainted with the subject, advised that he believed Leonard Bernstein to be a Communist. This source based this belief on the way Bernstein talks, that is, that he has continually made anti-American and pro-Russian statements. Source was unable to furnish any specific details pertaining thereto.

All organizations mentioned hereafter have been designated by the Attorney General of the United States pursuant to Executive Order 10450, unless otherwise described.

The House Committee on Un-American Activities review of the Scientific and Cultural Conference for World Peace held March 25,26,27,1949, which conference was arranged by the National Council of Arts, Sciences and Professions, reflected Leonard Bernstein was affiliated with the following organizations:

American Council for a Democratic Greece
American Youth for Democracy
Committee For a Democratic Far Eastern Policy
Civil Rights Congress
Joint Anti-Fascist Refugee Committee
National Negro Congress

The National Council of Arts, Sciences and Professions was cited in the aforementioned review as a Communist front.

Records of the Bureau of Special Services, New York City Police Department, reflect that Bernstein was a member of the Council on African Affairs, Incorporated, as of February 3, 1948.

The "New York Times", issue of March 3, 1945, contained an advertisment by the Veterans of the Abraham Lincoln Brigade entitled "For America's Sake-Break With Franco Spain" wherein Bernstein was listed as a sponsor.

A source, who has furnished reliable information in the past, advised during 1946 that Leonard Bernstein was identified on a letterhead of the American Committee for Spanish Freedom dated January 21, 1946, as being one of the sponsors of this organization.

The "Daily Worker" issue of May 16, 1946, page four column three, lists Leonard Bernstein as a conductor and composer and one of the endorsers of the Three Day Tag Drive of the American Committee for Yugoslav Relief.

INFORMATION RECEIVED FROM BUREAU INFORMANT 200

Items are received on repatriates, deportees, defectors, U.S. citizens who went to USSR for permanent residence because of marriage or family and individuals born in U.S. who were taken there when children. Most of this material is of limited value but all individuals are included on CIA's "defector list." However, items are of value when they pertain to individuals known to have been espionage agents or to have subversive relatives in U.S. For example, items on Harry Eisman, deported from U.S. over 30 years ago, have contained little information of interest until recently. Friends asked Eisman to see the Glass family when they visited the USSR. When he entertained the family, the daughter was greatly influenced by his colorful description of his radical activities in New York schools. (Identifies confidential source)

Prudence Glass has been maintaining contact with Eisman since her return and recently informed him of her plans to marry Bob (evidently Robert Steven Greenblatt, key activist), leader and organizer of one of the largest marches sponsored by National Mobilization Committee to End War in Vietnam. She informed him of their plans to move to Georgia where she hoped to work "in the underground." We had no previous information indicating that she had any connection whatsoever with any organization or Greenblatt or of Greenblatt's plans to leave New York. Additional information has revealed that Eisman, who had reportedly fallen from graces of Soviets, appears to have regained their confidence, sees numerous U.S. travelers and communists and lectures at an unidentified special school on youth activities in U.S.,

UTILIZATION OF SOURCE IN THE
NEW LEFT AND BLACK NATIONALIST FIELDS

C.D.B.

On January 15, 1969, Richard Ober, Central Intelligence Agency (CIA), suggested to the Liaison Agent that the Bureau should not overlook the utilization of the Agency's Hunter project for the development of leads in the New Left and Black Nationalist fields. Ober admitted the traffic involving individuals in these areas might be light but that the Bureau might wish to give consideration to placing stops on certain key personalities.

The Hunter project for which we have given the designation of Bureau Informant 200 essentially consists of specialized coverage of mail between the United States and Russia. If we have some reason to believe that one of our subject's is communicating with anybody in the Soviet Union, it might be worthwhile to place a stop.

We should bear in mind that this coverage is extremely sensitive and the handling of any matters involving Bureau Informant 200 should conform with the ground rules which have been established. (See Mary Triplett, extension 631, Soviet Section.)

Inasmuch as the Department has authorized an investigation of "Ramparts," you are to follow the instructions set out in Bulet 5-5-67. The investigation of "Ramparts" is to be conducted separately from the investigation of Robert Scheer.

Of particular interest in your investigation is the extent of Communist Party or other subversive influence in "Ramparts."

"Ramparts" is a leftist publication which has been highly critical of U.S. foreign policy. It is self-described by one of its editors as an "intellectual muckraker." Robert Scheer, one of its editors, is presently under investigation on a Registration Act matter. By letter dated 4-26-67 the Department requested further investigation concerning Scheer and "Ramparts." The Attorney General October 20, 1975

Director, FBI 62-116395-970X

U. S. SENATE SELECT COMMITTEE
ON INTELLIGENCE ACTIVITIES (SSC)

#MDR16
10-13-00 SP2ALM/JG

Reference is made to memorandum from Mr. Michael E. Shaheen, Jr., Special Counsel for Intelligence Coordination, Department of Justice, to Mr. John A. Mintz, Assistant Director, Legal Counsel Division, Federal Bureau of Investigation, dated October 17, 1975, and captioned "Senate Select Committee Request." This communication enclosed a letter to the Attorney General from Senator Frank Church, Chairman, SSC, dated October 15, 1975.

In Senator Church's letter he advised of the intention of the SSC Staff to interview some nine FBI sources who had cooperated with this Bureau in the course of certain COINTELPRO operations. The Senator stated that he hoped there would be no objection to conducting these interviews but that, if such objections were raised, he be contacted by Tuesday, October 21, 1975.

It is noted that the issue raised in Senator Church's letter is not new. During August, 1975, SSC Staff Member John T. Elliff proposed interviews of this type and, at that time, this Bureau objected on the principle of the FBI's obligation to protect the confidentiality of relationship with our sources. As a result of this objection, a conference was held between yourself and Senator Church on the evening of August 14, 1975. It is our understanding that an agreement was reached whereby the Committee would attempt a limited number of interviews of individuals whose identities and/or

relationship with the FBI has been protected. However, as a condition precedent to such interviews, the FBI was to be allowed to contact such individuals to inform them of the proposed interview and to determine whether they would be receptive to such an interview. Senator Church concurred in this arrangement; however, subsequently on August 18, 1975, Mr. Elliff advised that Senator Church had reconsidered his agreement to the aforementioned procedures as a result of persuasion by the SSC Staff. Elliff, at that time, indicated a letter recording Senator Church's change of attitude had been drafted. To date, no such formal acknowledgement has been received by this Bureau and no interviews have been attempted in the interim.

In his October 15, 1975, communication, Senator Church again raises this issue. Although he does note that the matter was originally discussed with you "some weeks ago," he makes no mention of the agreement reached at that time. Apparently, as some sort of precedent, he does cite the fact that the FBI did make available for use and interview the names of Internal Revenue Service (IRS) personnel who cooperated with the FBI in certain COINTELPRO activities. We do not consider release of these identities on our part to be a concession with respect to confidentiality of sources in general since we specifically stipulated that we considered IRS personnel to be U. S. Government officials acting in their capacity as such.

It is clear that the merits of this issue have not changed since the agreement reached between yourself and Senator Church on August 14, 1975. I feel very strongly that the issue of confidentiality of sources is vital to the continuing effectiveness and integrity of the FBI in its investigative operations. I, therefore, strongly urge that should you concur in the need on the part of the Committee to conduct the interviews which they propose, that the agreement of prior

contact by the FBI with these individuals be insisted upon as a condition to such interviews to insure their amenability and uphold the obligation of confidentiality which the FBI has assumed.

The Honorable Edward H. Levi
Attorney General
U.S. Department of Justice
Washington, D.C. 20530

Dear Mr. Attorney General:

The Select Committee is presently investigating the activities of the Federal Bureau of Investigation carried on as part of the COINTELPRO program. We appreciate the cooperation of the FBI and the Justice Department in making materials available to us in this area. However, one problem remains to be resolved. The Committee believes its staff must contact and interview certain persons who received information from the FBI in the course of COINTELPRO operations. The FBI has withheld the names of such persons from the Committee's use on the grounds that they were FBI "sources".

The Committee wishes to stress that it is not interested in questioning these persons about any role as a "source", but rather as a recipient of information from the FBI. Indeed, in many instances we would not have been aware that the individual was a "source" had not the FBI excised the name from the materials delivered to us. Nevertheless, to minimize any incidental deleterious effects on legitimate FBI operations, the Committee has selected a very limited number of persons whom we desire to contact and interview. (See attached list and materials.)

As you will recall, we originally discussed this matter with you some weeks ago. Since then the Committee has had an opportunity to consider the issue more fully in the light of our experience with other investigations. For example, our inquiry into the relationships between the FBI and the Internal Revenue Service clearly showed the

62-116395-970X

ENCLOSURE

need to use the names of IRS personnel who cooperated with the FBI in certain COINTELPRO activities. Those names were made available to us for our use.

As I am sure you can appreciate, what is at stake here is the investigation of serious breaches of the security and confidentiality of information obtained by the FBI. Such information was apparently disclosed or "leaked" for the purpose of disruption. The full extent of such disclosures in many of the cases, such as the efforts to discredit Dr. Martin Luther King, Jr., is still unknown. Surely, it would be incongruous for an inquiry into these matters to be impaired on the grounds of the FBI's interest in preserving confidentiality.

The Committee has a clear mandate and a firm commitment to investigate allegations that the FBI attempted to harass and discredit individuals. The integrity of this investigation depends upon our ability to conduct interviews without the appearance of outside interference. Therefore, we hope you have no objection to our conducting the interviews of the persons on the attached list, but if you do, please contact me by Tuesday, October 21.

Sincerely,

Frank Church

COMMUNIST INFILTRATION OF THE FIRST UNITARIAN CHURCH OF LOS ANGELES

A source advised on May 8, 1968, that the premises of the First Unitarian Church of Los Angeles, 2936 West 8th Street, Los Angeles, California, have been utilized for meetings by Communist Party members and sympathizers over a period of years. Speakers and lecturers at the church frequently espouse Communist causes or follow the Communist Party line. Communist front group literature is distributed at the church. The church is used by some Communist Party members for "mass concentration" work.

This same infiltration extends to adjuncts of the church such as the Unitarian Public Forum and the Fellowship for Social Justice, formerly known as the Unitarian-Universalist Fellowship for Social Justice.

STEPHEN H. FRITCHMAN has been minister of the church since 1948.

Reverend STEPHEN H. FRITCHMAN is described in the Fourth Report, Un-American Activities Committee in California, 1948, Page 115, as a very active "Communist fronter" and connected with numerous "Communist front organizations and activities".

Membership in the First Unitarian Church does not, of itself, connote membership in or sympathy with the Communist Party.

LOS ANGELES STUDENT NON-VIOLENT COORDINATING COMMITTEE

A source advised in July, 1968, that the Los Angeles Student Non-Violent Coordinating Committee (LA-SNCC), headquartered at 7406 South Western Avenue, Los Angeles, California, is not a membership organization but a loose-knit agency composed of young militant, black nationalists from South Los Angeles who have eliminated all Caucasians from their ranks and have initiated a program against the draft, the war in Vietnam and discrimination and have proposed a revolutionary program utilizing armed force, political and economic action to obtain their goals. LA-SNCC is an arm of the National Student Non-Violent Coordinating Committee organization headquartered at Atlanta, Georgia, and with the naming of LA-SNCC Director RONALD LEROY WILKINS as Deputy Director of SNCC for the West Coast, the affinity between the National and Local organization will be more harmonious.

The above source advised that at a meeting of LA-SNCC leaders on March 22, 1968, the group indicated it was necessary for all SNCC personnel to be armed in order to shoot "pig cops" when they are stopped in South Los Angeles.

A source, in May, 1968, indicated that LA-SNCC leadership has encouraged all associates of LA-SNCC to obtain arms and to be armed at all times.

On April 5, 1968, four LA-SNCC officers were arrested by the Los Angeles Police Department at LA-SNCC headquarters in possession of two fully loaded .30 caliber M-1 carbines and one .12 gauge shotgun, pump action, with four rounds of 00 gauge buckshot. On May 4, 1968, five LA-SNCC officers were arrested by the Los Angeles Police Department for possession of loaded firearms.

On May 14, 1968, then Director JOHN FLOYD and three Security Officers, LA-SNCC, were arrested by the New Orleans Police Department for possession of stolen property. New Orleans Police Department found four automatic weapons in attache cases carried by the above persons. They also obtained material concerning instructions in the making of Molotov cocktails, bombs and booby traps for sabotage in guerilla-type warfare. This literature was published in Communist China.

During this meeting a discussion ensued concerning the desirability of SCLC's retaining the services of HOSEA WILLIAMS, because of current publicity suggesting involvement of WILLIAMS with one HAROLD BELTON ANDREWS, who was convicted in July, 1966 in the United States District Court, Northern District of Georgia, on a charge of Interstate Transportation of a Stolen Motor Vehicle. In response to this discussion, ABERNATHY said he and Rev. KING were of the opinion that SCLC was sorely in need of the continued services of an individual possessing the energy and resourcefulness of WILLIAMS,

and therefore felt SCLC should retain WILLIAMS.

At the aforementioned meeting of the SCLC Executive Board, ABERNATHY explained that in the early part of 1967, SCLC would engage in a fund raising activity which would involve Rev. The YCL has been designated by the U. S. Attorney General pursuant to Executive Order 10450.

JAMES BEVEL

BEVEL, in early March, 1966 was observed to be present at the offices of the West Side W.E.B. DuBois Club in Chicago (DCC). Discussion took place at this time centering around reaction to a recent notification that the Attorney General of the United States intended to label the DuBois Clubs as a Communist front. BEVEL, in conversation, stated that he would have ignored this notification, and kept about the work in which he was engaged. He felt that if the DuBois Clubs have a real program of help for the people, then people would answer for the clubs despite any labels applied to them.

Most present agreed that the attack on the DuBois Clubs was a part of the plan by the "establishment" to undermine the civil rights movement. They felt that the recent hearings into Klan activities in this country was only a beginning which would lead to a full attack on the Southern Christian Leadership Conference (SCLC), the real target. One of those present stated during the course of this discussion that he was not a Communist, and to this BEVEL was overheard to reply that every thinking American should be. He stated that Negroes have not begun to read yet, but when they do, they will all be socialists.

The Courier - Journal, Louisville, Kentucky, a newspaper of general circulation, on February 3, 1959, reported that CARL BRADEN had been sentenced to one year in prison on a charge of contempt of Congress on February 2, 1959, in Atlanta, Georgia. The story noted that he had been convicted under this charge on January 21, 1959, and that the charge arose from his refusal to answer questions before the House Committee on Un-American Activities.

The Louisville Times, Louisville, Kentucky, a newspaper of general circulation, on February 27, 1961, reported that the United States Supreme Court had, on that date, affirmed the contempt of Congress conviction of BRADEN.

The Courier - Journal on May 2, 1961, reported that CARL BRADEN had surrendered to the United States Marshal at Atlanta, Georgia, on May 1, 1961, to begin serving a one-year prison sentence for contempt of Congress.

In late 1963, and early 1964, he criticized the CP for not being sufficiently militant in the civil rights struggle. LEVISON was described by certain CP leaders as being to the "left" of the CP in his position in civil rights. LEVISON's differences with the CP, however, are merely tactical and he continues his ideological adherence to Communism.

HUNTER PITTS O'DELL

In July, 1962, HUNTER PITTS O'DELL, also known as JACK H. O'DELL, was considered by the Communist Party, USA, as a member of its National Committee.

HUNTER PITTS O'DELL told EDWINA SMITH December 27, 1963, he would not go back to the Southern Christian Leadership Conference on the same basis because he is now a "left person" and if they cannot accept him the way he is then they will have to forget about him.

During conversation between REDDICK and DAVIS, it was mentioned that they had attended school together in Georgia and REDDICK commented that if he had stayed with DAVIS, he would have also joined the CP.

The delegates were told that it would be reasonable to assume that the young socialists attracted into this new organization would eventually pass into the CP itself.

A second source has advised that the founding convention for the new youth organization was held from June 19-21, 1964, at 150 Golden Gate Avenue, San Francisco, California, at which time the name W.E.B. On the late afternoon of October 11, 1975, Douglas Marvin, Special Assistant to the Attorney General, called me and requested that the Attorney General be furnished a brief statement concerning FBI relationships with the Senate Select Committee and the House Select Committee for inclusion in a statement being prepared for submission to the White House. Mr. Marvin said that the Attorney General's intention was to bring together anticipated problems concerning the two committees in the hope that a means for resolving these matters might be found.

I discussed this request with Mr. Jenkins in the absence of Mr. Callahan and I returned Mr. Marvin's call and dictated to the Attorney General's secretary. I requested her to furnish me with a copy of the dictation. Attached is the page furnished by the Attorney General's secretary which I received on October 15, 1975.

This matter was brought to the attention of the Executives Conference on October 14, 1975.

FBI Relationships with the Senate and House Select Committees

Senate Select Committee

FBI relationships with the Senate Select Committee generally have been harmonious with responses to the Committee requests delivered promptly. When difficulties have occurred they have been overcome by negotiation and tolerance on both sides. Future difficulties that may be confronted and require similar resolution include the scope of any public hearing regarding electronic surveillance of foreign nationals or their agents and establishments.

House Select Committee

In the past the FBI has experienced the following difficulties with the House Select Committee:

(1) It has held public hearings which were orchestrated to present adverse views without an opportunity for prepared rebuttal, such as occurred on October 9, 1975, regarding electronic surveillance matters;

(2) It has demanded delivery of documents on unreasonably short notice considering the time necessary to locate and prepare for delivery the enormous quantity of documents called for;

(3) It has interviewed employees, former employees and confidential sources of the FBI without first advising the FBI of the proposed interview and has demanded the appearance of agents below the policy-making level.

A large number of documents dealing with electronic surveillance conducted without a warrant between 1970 and July 30, 1975, were furnished to the Committee on Friday, October 10, 1975. Certain excisions in these documents were made and it remains to be seen whether the Committee will accept the determinations made as to what types of information, e.g., identities of subjects who were monitored, should have been excised.

The overriding concern for the future is the need to establish an understanding on both sides of the policies to be followed by each in responding to the Committee's mandate. General agreement to specified operating procedures would alleviate the suspicion on the part of the Committee and the fear of Committee ~~re~~esponsibility on the part of the FBI.

During the discussion on 10/20/75 concerning the forthcoming testimony of Assistant Director W. Raymond Wannall, Mr. Wannall mentioned to the Senate Select Committee Staff Members present (John T. Elliff, Domestic Task Force Director, Michael Epstein, and Mark Gitenstein) that in view of the fact these hearings would be open to the public the Committee would not be fully briefed concerning the background involved in the Bureau mail opening programs because of the sensitivity involved. Elliff indicated that he was in agreement and that he would contact F. A. O. Schwartz, Chief Counsel of the Committee, to see if executive session testimony could be arranged. Elliff subsequently telephonically contacted SA Paul V. Daly of this Division and advised him that Mr. Wannall could testify in executive session on mail openings in the late afternoon on 10/21/75 at approximately 4:30 p.m. subject to the approval of the Senators.

After consultation with Assistant Director Wannall, Elliff was advised that this would be acceptable and that Mr. Wannall would appear for executive session testimony concerning mail openings if the Senators agree to accept executive session testimony.*

Michael E. Shaheen, Jr., Special Counsel for Intelligence Coordination in the Department, was advised of the possible executive session testimony and interposed no objection to the Bureau giving such testimony.

On 10-20-75 James Dick, staff member for captioned Committee, who is in charge of the hearings on mail openings, advised the public session is to be held on 10-24-75 and furnished a copy of what that Committee considers to be the issues raised by the Bureau's mail opening programs. (Copy is attached.) Additionally, he advised that the Committee plans to refer to the eight Bureau mail opening programs by numerical code names in their public hearing. He furnished the following code numbers with the Bureau code name:

Code name #1 - Z-Coverage
Code name #2 - Sam Survey
Code name #3 - Gus Survey
Code name #4 - Sun Survey
Code name #5 - Joe Survey
Code name #6 - Chiprop Survey
Code name #7 - Chiclet Survey

Dick advised that this will be used by the Senators during the hearing and that Mr. Wannall and Mr. Branigan, who will tesitfy, should be familiar with these numerical definitions.

Issues

The following issues are among those which are raised by the FBI mail opening programs and the FBI's cooperation in CIA's New York intercept project:

(1) Whether mail opening as an investigative technique should ever, under carefully circumscribed regulations and with proper authorization, be sanctioned in the counter-espionage field. The FBI mail opening programs raise this issue with more force than the CIA programs since, in general, the FBI programs were more circumscribed, more tightly controlled, and more focused than the CIA programs. The FBI programs were also very successful in achieving their counter-espionage goals. Mail opening does represent an extremely valuable ~~menas~~ means of intercepting the communications link in espionage communications. On the other hand, the sanctity of the mails is an established tradition in the United States, and it is doubtful that any selection criteria could be sufficiently precise to allow for the opening of only mail to or from illegal agents.

(2) Whether the mail openings that did occur were properly authorized. It is clear that FBI Director Hoover personally approved the majority of the mail opening programs. The one which was implemented without Headquarters approval was terminated shortly after it came to the attention of Headquarters. It does not appear, however, that any Attorney General ever authorized these programs or that the exact nature and full scope of the programs was even brought to the attention of any Attorney General, even though opportunities existed to do so. Similarly, despite frequent contacts with the Postal Inspection Service regarding the implementation of these programs, no Chief Postal Inspector was ever informed that the FBI contemplated the actual opening of mail.

(3) Whether the legal implications of the mail openings were adequately considered. There is no evidence that legal considerations were discussed after 1951, and there is evidence that Headquarters personnel who ran the programs either considered them illegal or ignored the legal implications entirely.

(4) Whether the mail opening programs were adequately controlled to ensure that they remained focused on counter-espionage matters. As noted above, the programs did generate some information regarding domestic organizations and criminal activity, although the primary purpose always remained in the counter-espionage field. The fact

ENCLOSURE

62

that these programs did generate such information apparently came as a surprise to the Headquarters officials who ran the programs and the obvious questions are whether this was permitted or encouraged, and, if neither, how it could have happened.

(5) Whether the selection of names for inclusion on the CIA's Watch List in the Hunter Project was sufficiently controlled and limited. Because the FBI requested the CIA for information on categories such as peace organizations and on specific individuals and groups involved in the peace and women's movement, a serious question is raised whether there was sufficient restraint on the use of this source.

NOTE: As discussed in the FBI MAIL OPENING PROGRAMS summary, several of the FBI mail opening programs utilized, as selection criteria, various "indicators" which, with some accuracy, identified letters sent by or addressed to foreign illegal agents. The fact of these indicators has been made public by FBI officials in recent weeks. But: these indicators are still felt to be valid and the FBI has no reason to believe that they are not still being used. It is recommended, therefore, that the Committee avoid questions which would require in response an elaboration of the nature of these indicators.

STAFF MEMORANDUM

EXECUTIVE SESSION ON FBI MAIL OPENING PROGRAMS

FBI Assistant Director W. Raymond Wannall and William Branigan, Chief of the Soviet Section of the FBI Counterintelligence Branch, have requested an opportunity to appear before the Select Committee in executive session to discuss classified aspects of the FBI mail opening programs. Both of them will be witnesses at the public hearing on FBI mail openings on Friday.

The Committee staff has agreed that the public hearing will not disclose the following aspects of FBI mail openings:

1. The identity of the foreign nations involved, including the Soviet Union, Communist China, Cuba, Mexico, Hong Kong, Japan, most Western European countries, and several Central and Latin American countries.

2. The fact the mail to and from the Soviet Embassy and the Soviet United Nations Mission, the Cuban United Nations Mission, other Soviet-bloc Embassies was selectively opened. (S)

3. The "indicators" used as criteria for selective opening of mail screened in several other programs designed to detect illegal foreign intelligence agents in the United States. (The fact that there were "indicators," but not their nature, may be disclosed publicly.)

4. The identities of specific individuals and groups whose mail was opened either by the FBI or by the CIA at the request of the FBI. (FBI officials will state publicly that some of these, especially in the category "peace and protest groups," were not adequately justified.) Some of these included:

   Leonard Bernstein
   Clergy and Laymen Concerned About Vietnam
   Jeremy Stone
   Cambridge Center for Study of Public Policy

DOWNGRADED TO
~~SECRET~~
Per 60324 UCBAW/SBS
Date 8-7-11

The following are questions which cannot be discussed in public hearings because of this agreement. They should be raised at this executive session:

1. What was the actual intelligence value of FBI mail openings aimed at mail to and from the [Soviet and Soviet-bloc embassies?] (X)

2. What was the actual intelligence value of FBI mail opening programs using "indicators" and designed to detect illegal foreign intelligence agents in the United States? [(Soviet and Cuban)] (X)

3. What was the actual intelligence value of the material supplied to the FBI by the CIA from its mail opening operation?

4. How good are the "indicators" in selecting mail of foreign intelligence agents only and not mail of American citizens or others who are not foreign agents?

5. What standards were used for opening mail to and from Communist China, and what was the intelligence value of these programs?

6. Do FBI counterespionage officials desire to resume any mail opening programs, with proper authorization from Congress and the Attorney General?

7. How do the benefits of mail opening compare with the benefits of warrantless electronic surveillance currently used by the FBI for foreign intelligence and counterintelligence purposes?

NATHANIEL WALTER JUNIOR

Nathaniel Walter Junior has been identified as a member of the Black Panther Party (BPP).

> The BPP is a black extremist organization started in Oakland, California, in December, 1966. It advocates the use of guns and guerrilla tactics to bring about the overthrow of the United States Government.

Junior appeared in United States District Court, Chicago, Illinois, on January 18, 1971, and entered a plea of guilty on Federal Firearms charges against him, as well as on a bail jumping charge. On February 5, 1971, United States District Judge Sam J. Perry, Chicago, Illinois, sentenced Junior to three years probation on the above charges.

On September 28, 1971, Junior was interviewed by a Special Agent of the Federal Bureau of Investigation (FBI).

Junior advised that he was no longer a member of the BPP, having resigned as a result of a dispute with Bobby Rush, Deputy Minister of Defense of the Illinois BPP, regarding the unauthorized use of Panther funds by Rush. He further alienated himself with the BPP when, in January, 1971, he refused to repay the BPP $1,500.00 that had been paid as bail to secure his release from jail on the aforementioned charges.

Junior furnished the following information concerning his activities with the BPP:

He originally joined the BPP at the invitation of Fred Hampton, in the Fall of 1968. Hampton at the time was the Chairman of the Illinois BPP and was subsequently

slain by Cook County States Attorney Officers, December 4, 1969, who at the time were executing a search warrant in Chicago, Illinois.

While in the party, Junior held the title of Field Secretary and was privy to administrative matters relating to the BPP. On two occasions he traveled out of the state on party business, once to BPP National Headquarters for the purpose of meeting the National Staff, and to Washington, D. C., to attend the Revolutionary People's Constitutional Convention (RPCC).

The RPCC, held August 7, 1970, at Howard University, Washington, D. C., was organized by the BPP to structure "a constitution that will guarantee us the right to life, liberty, and the pursuit of happiness; a constitution that serves the people instead of a constitution that serves the ruling class".

In early 1969, Junior negotiated to purchase a quantity of weapons from an undercover United States Treasury Agent, for the BPP and as a result was arrested on a Federal Firearms charge. While out of jail on this charge, Junior learned that he had been indicted and decided to jump bond and leave the country.

Junior left the country for Canada, through the aid of persons connected with the draft resistence movement, and who did not know of his pending criminal charges or his affiliation with the BPP. He declined to identify these persons who aided in his leaving the country or those who aided him in Canada.

The BPP in no way aided him in leaving the country, nor did they provide him any financial assistance while he was a fugitive and for this he is bitter.

Junior decided to leave Canada and return to Chicago for the purpose of surrendering to face trial on the Federal Firearms Act charge, because of his parents' poor health.

Upon his return, he learned the BPP was no longer functioning on a democratic basis but was now being dominated by Bobby Rush, Illinois Minister of Defense. Junior sought to bring the party back to its former state, by calling for reforms and reorganization, which was resisted by Rush and he was subsequently removed from the Central Staff and he resigned from the party in September, 1970.

He is in no way involved with the BPP, or other extremist activities, at this time nor does he have any plans to resume his association with the BPP, as he feels "The BPP and other organizations are being duped by white intellectual revolutionary hobbyists, who are taking advantage of the hopelessness and frustrations of the Black community to exercise their theories on political and social democracy."

Junior claims to have no knowledge of any BPP underground, now or in the past, but admits that preliminary discussion regarding an underground cell of the BPP was had in the early development of the Illinois BPP, but that plan like most others never got off the ground.

The BPP was, and is, a big disappointment to Junior in that they departed from their original concept of neighborhood protection against police brutality, to one of international identification with communism. He maintained his association with the BPP in spite of this change in philosophy because of his respect and confidence in Fred Hampton, who rationalized that in order to further the cause of neighborhood control they'd need the financing and good will of governments oppose to people oppression, no matter where these people were.

Junior feels that the BPP is dead in Illinois and blames its demise to its identification with communism and coalitions with white revolutionary groups.

He has three things to show for his membership in the BPP; (1) probation on the Federal Firearms charge, (2) three years probation on State narcotics case (which he claims was a frame by police, but to which he entered a plea, "as part of a deal", at the urgency of his BPP attorney); and (3) an outstanding

indictment with the State of Illinois charging he and fourteen others with kidnaping and related crimes. Junior advised that this was another case of police harassment of the BPP, and another example of how the BPP has lost its attractiveness to people in Chicago. Of the sixteen people who were originally charged in the kidnapping case, including the deceased Hampton, only two of those, Yvonne King, and Billy Brooks, continue as members of the BPP.

Junior claims to have no contact with any members or former members of the BPP, except when the persons charged with the kidnaping report for trial every month. Junior cites the numerous continuances of the kidnaping case as an example of white hobbyists playing with young black revolutionary hopefuls. To him the continuances represent a conspiracy on the part of the BPP attorneys and the States Attorney's Office, as on alternate months they ask that the case be continued and neither ever objects. If he could afford it he would not avail himself of the BPP attorney's services.

Junior is required to report to his probation officer twice per month and is not allowed to travel outside the State of Illinois, without prior permission.

Logical sources, in positions to know, advise that Junior is not now active with the BPP, and has not been so in more than a year.

On October 29, 1971, the FBI recontacted Junior and learned that his pending kidnaping case was continued from October 26, 1971, until November 30, 1971.

NATHANIEL WALTER JUNIOR

Nathaniel Walter Junior has been identified as a former member of the Black Panther Party (BPP), who during the time he was a BPP member was indicted on state charges of kidnaping and related crimes, with other BPP members, on June 8, 1969, by the Illinois Cook County Grand Jury.

The BPP is a black extremist organization started in Oakland, California, in December, 1966. It advocates the use of guns and guerrilla tactics to bring about the overthrow of the United States Government.

The case against Junior, and the other BPP members indicte with him, has never come to trial having been continued numerous times.

On May 10, 1972, a Special Agent of the Federal Bureau of Investigation (FBI) observed Junior as he appeared in State Court, and the case was continued until June 15, 1972.

Reliable confidential sources advise that Junior is not a BPP member, nor does he associate with the membership of this organization.

COINTELPROS

This is to identify two serials, copies of which were furnished to Barbara Banoff of the staff of the Senate Select Committee (SSC) for retention in the Committee's files.

Banoff on 10/10/75 requested copies of a memorandum from Mr. Baumgardner to Mr. Belmont dated 3/30/60 and a letter to the New York Office and 15 other offices dated 3/31/60, both captioned "Communist Party, USA, Counterintelligence Program," be furnished to the Committee. Banoff stated she believed these documents had previously been requested but she was unable to locate them in the Committee files. She said she desired to have these documents because they set forth a logical program by which the FBI made an effort to prevent the Communist Party from infiltrating legitimate mass organizations. As an aside, she stated she thought the FBI was successful in this effort, indicating she felt the technique was worthy and proper.

Copies of the above two documents were made available to a SSC representative on 10/22/75. Copies of the documents together with a cover page indicating their receipt are attached. No excisions were required in these documents.

This memorandum advises that the Senate Select Committee (SSC) intends to release to the press copies of eight FBI documents (attached). The release of these documents is scheduled for 10/24/75, following the appearance of Assistant Directors Wannall and Mintz and Section Chief Branigan before the SSC.

These documents were made available to the SSC responsive to specific requests. They have been excised and declassified where necessary. With regard to dissemination of FBI documents to the Select Committees of Congress, both the White House and the Department have held that, once a document has been excised, declassified and furnished to either Select Committee of Congress, it is that Committee's property to do with whatever that Committee deems appropriate. However, we do have an understanding with the Committee that allows for more extensive excisions once the Committee decides to make documents available to the press. Personnel in the Senstudy Project have reviewed the attached eight documents and have made additional excisions which are acceptable to the SSC. These excisions are designed to protect Bureau sources, targets and, where possible, the identity of Bureau personnel.

REC-114 62-116395-956

The contents of the documents that will be made available generally portray the Bureau in a favorable light. They highlight: (1) tight supervision and control of the mail intercept programs; (2) general objectives of the program; (3) accomplishments; and (4) Departmental officials' knowledge of the existence of some of these programs.

Of course, it would be desirable if no documents were released by the SSC; however, Mr. Elliff advises that the senators are desirous of furnishing some documents to the press. If, in fact, Bureau documents have to be released, it appears that the ones the SSC plans to use are favorable to the Bureau.

For the information of Bureau officials reviewing the attached documents, no excisions have been made; however, the brackets in red ink show what information will be obliterated from the documents prior to their release to the press.

The Attorney General called on the morning of February 27, 1965, to advise he wanted to consult with the Bureau on certain problems raised by the Long Committee, which is exploring the use of mail covers, et cetera. He noted there was a possible problem concerning Chief Inspector Montague's testimony and whether it was necessary for Montague to change his testimony. Also, he felt that Internal Revenue Service had been using investigative techniques which they should not use and this could pose a problem. He said that the President had asked him to coordinate with all executive agencies concerning the problems raised by the Long Committee.

Inspector Moore and I met with the Attorney General i his office this afternoon. Mr. Courtney Evans was present. I told the Attorney General that in Montague's testimony he was told by Attorney Fensterwald that if any of the questions had national security implications Montague should not answer them. Consequently, Montague was estopped from doing other than answe in the negative when asked questions touching on national security. With this interpretation, it was questionable whethe an attempt should be made to change or explain Montague's testimony, particularly in view of the obvious lack of judgment on the part of Fensterwald and the desire of Long for publicity I made it clear to the Attorney General that from our dealings with Montague, he was a man of integrity and sacrificed his personal desires for the welfare of the country and had coopera fully with us. The Attorney General said he had no intention of changing one word of Montague's testimony, but he was considering advising Long and Fensterwald that there were extreme delicate national security matters touching on the area being covered by the committee and there could be exceptions to the answers given in the testimony when they touched on such sensitive security matters. He said further that he contemplat seeing Senator Long and impressing on him that the committee would not want to stumble by mistake into an area of extreme interest to the national security as they nearly did in a matte

affecting CIA. (Apparently CIA got wind of some inquiries by the committee relative to their secret operation and went to the committee and warned them off.) Katzenbach contemplates asking for a list of the witnesses who will appear before the committee together with a brief summary of the expected testimon
On the basis of this, he will be able to advise Senator Long when he should steer clear of a sensitive area.

I told Mr. Katzenbach that I certainly agree that this matter should be controlled at the committee level but that I felt pressure would have to be applied so that the personal interest of Senator Long became involved rather than on any ideological basis. Mr. Katzenbach said that he had already talked to Vice President Humphrey about Fensterwald, who he considered a wild man, and that Humphrey had promised to talk to Long concerning Fensterwald. Katzenbach said that in addition to the Vice President he might have to resort to pressure from the President himself, although he would prefer to work it out without resorting to the President. He indicated there was no one on the committee itself who could be helpful and that he did not expect any help from Senator Eastland.

Mr. Katzenbach said that he expected troublefrom the possible activities of IRS and the military in the investigative field; that if some of these matters are uncovered before the committee they will tend to undermine the restricted and tightly controlled operations of the Bureau. I told him that our operations are tightly controlled and particularly in the delicate areas of concern, we restrict ourselves to important security matters.

Mr. Katzenbach said he was going to see Senator Long on Monday and wanted to know if the Bureau would like someone to go along with him. I told him no.

Mr. Katzenbach said he would advise us of the results of his conversation with Long. He also asked that I advise the Director of our discussion and I told him I would.

Sen. Comm. Judiciary

The Attorney General called and advised that he had talked to Senator Long last night. Senator Long's committee is looking into mail covers et cetera. The Attorney General stated he thought somebody had already spoken to Senator Long as he said he did not want to get into any national security area and was willing to take steps not to do this. The Attorney General stated that Mr. Fensterwald was present for part of the meeting and Fensterwald had said that he had some possible witnesses who are former Bureau Agents and if they were asked if mail was opened, they would take the Fifth Amendment. The Attorney General stated that before they are called, he would like to know who they are and whether they were ever involved in any program touching on national security and if not, it is their own business, but if they were, we would want to know. The Attorney General stated the Senator promised that he would have a chance to look at the names if he wanted to, personally and confidentially, and the list would have any names involving national security deleted and he would tell the Senator how many but no more.

The Attorney General stated that the Postmaster General is going down there this morning himself which he, the Attorney General, thought would be helpful to Chief Inspector Montague of the Post Office Department.

The Attorney General stated that Senator Long also said he is not going to propose legislation to abolish mail covers as he thought they served a useful purpose but he did think that control should be tightened. I stated I thought there was great laxity in the matter of mail covers and the matter of tapping telephones.

I stated I have always been of the view and recommended back when Tom Clark was Attorney General that no agency of the Government should tap a telephone except with the written approval of the Attorney General. I stated

there would then be in one place a list of all phone taps and the purpose and reason for them. I stated that it is a fact, insofar as I am concerned, that I am the only head of an agency who does not have authority to tap telephones. I stated that I know that subordinates down the line in some agencies will tap phones without the knowledge of the chief of the agency and there is grave suspicion in Washington by some newspapermen that their phones have been tapped by agencies of the Government trying to find out where they are getting their information. I stated I have always been opposed to the law whereby it is necessary to get the authority of a court to tap phones because of the composition of some of our courts and the employees thereof, but I have always felt that the President should issue an Executive Order confidentially to all agencies that all phone tapping be discontinued except when specifically approved by the Attorney General so there would be in one place a list and then if any committee in Congress got on the warpath, the Attorney General would have a list he could vouch for as being the only phones tapped by the Government. The Attorney General stated that made sense. I stated many agencies are opposed because they realize there would be a marked restriction. I stated we only have 45 phone taps, which is a low number for a country the size of ours and the area we have to cover. The Attorney General stated no one has any idea how many phone taps the whole Government has.

I stated there is also a school being conducted in California by a private organization which instructs the Treasury Department and the Internal Revenue Service in the matter of phone tapping and they have sent their own personnel there to be trained. I stated Internal Revenue has also from time to time hired private outside phone tappers to do their tapping. I stated it is that type of thing if there were a real investigation which would come out. The Attorney General commented that he would not guarantee some of it won't come out. I stated I was amazed when I learned of the school in California as I saw a reference to it in the newspaper and wanted to know what it was and what officers attended. I stated we have our own instructors and do it ourselves.

I stated I thought the Attorney General had made good headway with Senator Long. The Attorney General stated he thought it would be helpful, but his

problem is that he thinks the Senator is fine but he does not think that Fensterwald is as straightforward, or to put it another way that Fensterwald is smart and devious and the Senator is straightforward and not very bright and that is the problem. I stated I thought that Fensterwald is trying to get publicity for the Senator. The Attorney General stated the Senator said he did not want to get into this and he would give him, the Attorney General, the names and a summary of the testimony and told Fensterwald to do so, but he, the Attorney General, can't say Fensterwald is going to do it; that he will on some but he did not know that he would on all. I stated I had no faith or confidence in Fensterwald and neither did Senator Eastland. The Attorney General stated that Senator Eastland may have already talked to Senator Long or else the Vice President, but somebody had waked him up. I stated Senator Eastland said he would do it Wednesday, but he may have called him.

The Attorney General stated that is where it stands now and we shall see what happens.

Very truly yours,

Prior memoranda have advised of the starting of the trial of the Soviet illegal agents in this case, Mr. and Mrs. Robert K. Baltch, in the Eastern District of New York and motions by defense counsel regarding the nature of evidence to be submitted in this case.

The Judge originally denied the motions, but Assistant Attorney General Yeagley has advised that USA Hoey in answering questions by the Judge gave answers which were too broad and which the Government cannot support and therefore it is necessary for the Government to make additional statements to Judge Dooling who is sitting in this case in the Eastern District of New York. My memorandum of September 30, 1964, advised that while we were not aware of the contents of the conversations between USA Hoey and Judge Dooling, we had no objections to Yeagley's proposed amending statement as it was correct.

Subsequently on the afternoon of 10-1-64, Departmental Attorneys Thomas K. Hall and Kevin Maroney advised Supervisor Litrento and myself that USA Hoey's statement to Judge Dooling was unfortunate because it was too broad. They believe that the Judge's query pertained to any tainted source at the Baltch residence and was confined to eavesdropping devices, but that Hoey in his answer had not confined the answer to the residence or to eavesdropping, either of which would perhaps have prevented the current problem. (No information obtained from wiretaps or microphones is contemplated to be used in this case and the only tainted source is a mail intercept which did not take place anywhere near the residence).

Subsequently on the evening of 10-1-64, Mr. Hall advised that he had just learned that apparently Hoey in his discussions with the court had stated, or at least indicated, there was no microphone involved in this case and, of course, this was incorrect and the Department felt the record had to be corrected. asked if the Bureau had any objection and was advised in the negative. This morning Mr. Hall called to advise that USA Hoey had now requested advice as to what answer could be given the court should he be asked (1) if there was a wiretap involved in this case and (2) if there was a mail intercept in this case. After checking, I called Hall back and said that we would leave the answer to #1 up to the Department, but that if the Department saw necessary, the Bureau would not object. However, with regard to #2, under no circumstances is the Bureau willing to admit that a mail intercept was utilized and Hall said he would pass this information on to Hoey and Assistant Attorney General Yeagley who is in New York. [illegible]

Hall advised that he had discussed this case with Acting Attorney General Katzenbach this morning and Katzenbach was of the opinion that the Department must be candid with the Judge. He said Katzenbach recognized the problems, but felt that in view of the value of the case, an effort should be made to go ahead with the trial even if it might be necessary drop the overt act where our tainted source is involved, and proceed on a general conspiracy basis with the recognition that the verdict might be against us, but we would have revealed the Soviet espionage activities to the people. Hall said he was passing on the Acting Attorney General's comments to Assistant Attorney General Yeagley. Hall said that the motions of defense counsel and the complications with regard to the answers may eventually force the Government to drop the prosecution. He said in view of the many facets involved, he did not feel there was any reason to agree to a pre-trial hearing on the issue of tainted source if this should be required by the court, and rather than do this, they are prepared to drop the espionage charges and attempt to proceed on lesser grounds.

ACTION

SAC Schmit, NYO, was advised of the above developments and requested to keep in close touch with Yeagley in New York and you will be kept advised of developments.

The captioned code word covers our investigation of the unknown subject at San Diego, California who offered to sell information concerning Sonar to the Soviets for $60,000.

BACKGROUND:

Information concerning this first came to our attention on 7-17-64 when our highly confidential coverage detected a letter addressed to Soviet Ambassador Dobrynin, postmarked 7-16-64 at San Diego, California. We followed up on this by inserting a message in a San Diego newspaper indicating that we were interested in the offer. The unsub then telephonically contacted an Agent of the Washington Field Office at the telephone number furnished him in the message in the personal column of the San Diego newspaper. Thereafter, we intercepted a telephone call that the subject made to the Soviet Embassy during which he attempted to verify that he was dealing with Soviet citizens. Acting on the subject's instructions, a package containing a camera suitable for document photography and $500 was dispatched by United Airlines air freight from Washington to San Diego during the early morning of 8-13-64.

In the meantime, another resident of San Diego, one R. Tobin, advised our office there that he had been engaged by an unidentified individual to pick up a package at United Airlines Freight Terminal which he was to subsequently turn over and for which he would be paid $20.

CURRENT DEVELOPMENTS:

According to SAC C. Williams, an Agent of the San Diego Office posing as R. Tobin in the latter's automobile picked up the package at 8 p.m., PDT, and, thereafter, proceeded as he had been instructed to a drive-in in the San Diego area. SAC Williams advised that the coverage by San Diego Agents at the Air Freight Terminal uncovered a suspect who appeared to be closely observing

Tobin's automobile and who, thereafter, surveilled the automobile to the area of the drive-in.

After waiting the agreed time, our Agent proceeded to a parking lot adjacent to a church about one mile further down the highway. Shortly after the Agent arrived, he was approached by the suspect who inquired "Are you Tobin?" Thereafter, the suspect claimed to be a messenger who had been engaged to pick up the package. He did deliver an envelope to our Agent which contained the $20 agreed to. At this point, the Agent, posing as Tobin, identified himself and requested that the suspect identify himself and voluntarily accompany him to the San Diego Office.

The suspect, who has now been identified as the subject, is Perry A. Chandelaine, 3231 Par Drive, La Mesa, California. He is a Grade 13 engineer at the Navy Electronics Laboratory, San Diego. This laboratory does all the training and electronics work and research, including Sonar, for the Navy in the San Diego area. In this connection, the subject claimed that he had access to information classified "Confidential." He has been a Government employee in excess of ten years and is the father of ten children.

In May, 1952, subject was an applicant for the position of Special Agent with this Bureau. Apparently during the interview it was determined the applicant's father was killed by the police in Chicago in 1932 when caught stealing butter from a boxcar. He had been arrested for selling whiskey prior to that in Wisconsin. Applicant was considered very nervous and had a vagotomy operation for a nervous disorder performed in 1947. Applicant had an ulcer which caused his discharge from the service and which still, at that time, gave him trouble. He was unfavorably recommended for employment.

According to SAC Williams, the subject readily acknowledged that he was in real deep trouble and claimed that his wife was also knowledgeable concerning his activities. Subject freely admitted contacting the Soviets and offering to sell information to them. However, the subject steadfastly maintained that he was a patriotic American, a Catholic and one who hated the Russians and that he was endeavoring to get all out of them that he could and he then intended to turn whatever he obtained over to ONI.

Subject's wife was invited to the office and she confirmed that earlier in the evening the subject had apprised her of his activities and gave her a letter which was addressed to ONI and which she was to mail upon receipt of a phone call from him. This

CONTINUED - OVER

letter was mailed by her when she was contacted by the subject who was at that time in the San Diego Office. Subject and his wife both furnished signed statements.

Thereafter, the facts in this case were presented to Mr. Thomas K. Hall of the Internal Security Division of the Department who advised that in view of the illegal source of the original information and all that flowed from it, he could not authorize the filing of a complaint charging the subject with an attempt to commit espionage. ONI was immediately advised both at San Diego and at Washington concerning the identity of the subject and the facts admitted by him. This was done in the event the Navy could institute some action. Upon completion of the signing of the statements, subject and his wife were permitted to return to their residence since no prosecutive action could be taken.

ACTION:

The investigation at San Diego is continuing, the completed results of which will be furnished to the Navy so it can institute administrative proceedings against him. The facts will, likewise, be furnished to the Internal Security Division of the Department which has requested them.

ESPIONAGE - RUSSIA

This is to consider recommendation of the New York Office that the Sam Survey Program be reinstituted.

BACKGROUND:

Sam Survey was a successful program operated between 1959 and 1966, which involved screening of air mail destined for selected European countries and cities by our Agent personnel in an effort to detect Soviet illegal agent mail. This program was made possible through the confidential cooperation of highly placed postal officials. In 1961 we identified, through this program, the [redacted] in New York City [redacted]. In addition, [redacted], we uncovered [redacted] which had operated in the [redacted] for a certain period and then shifted its activities to the [redacted]. [redacted] In July, 1966, this program was discontinued.

Foreign Intelligence Project

RECOMMENDATION OF NEW YORK:

New York points out that although ample evidence indicates the presence of a substantial number of Soviet illegals, the Bureau has been unsuccessful in locating any in recent years; that various programs and projects put into operation have been unsuccessful. Further, it is its contention that the illegal's most vulnerable area is still his letter writing and that this is the area we have the best chance by far to locate and identify illegals. Therefore, New York wishes to submit for the Bureau's consideration the reinstitution of Sam Survey. If this is not possible, it recommends that the Bureau consider requesting CIA or postal authorities to take over this program.

OBSERVATIONS:

It is agreed that the problem to locate Soviet illegals has assumed serious proportions and that the resumption of this program could be of inestimable value to the Bureau in meeting its responsibilities in that regard. However, present Bureau policy precludes the use of this technique. For this reason, it is not believed that we consider reinstitution of this program directly or through CIA or postal authorities.

ACTION:

New York is being advised that the reinstitution of Sam Survey Program either directly or through CIA or postal authorities is not advisable at this time.

On January 15, 1969, Richard Ober, Central Intelligence Agency (CIA), suggested to the Liaison Agent that the Bureau should not overlook the utilization of the Agency's Hunter project for the development of leads in the New Left and Black Nationalist fields. Ober admitted the traffic involving individuals in these areas might be light but that the Bureau might wish to give consideration to placing stops on certain key personalities.

The Hunter project for which we have given the designation of Bureau Informant 200 essentially consists of specialized coverage of mail between the United States and Russia. If we have some reason to believe that one of our subject's is communicating with anybody in the Soviet Union it might be worthwhile to place a stop.

We should bear in mind that this coverage is extremely sensitive and the handling of any matters involving Bureau Informant 200 should conform with the ground rules which have been established. (See Mary Triplett, extension 631, Soviet Section.)

As of 1/28/62, a total of about 1,764,440 letters has been surveyed in 46 days.

Fifty-one cases have been opened to determine whether recipient might be Soviet illegal agent. Thirty-two cases have been closed when subjects appeared to be legitimate residents.

San Francisco does not at this time recommend continuance of this survey beyond February 9, 1962. Upon completion of authorized period and evaluation of investigations resulting therefrom, a further recommendation will be made as to reinstituting this program.

SUBJECT: BUREAU INFORMANT 200 - POLICY

This is to advise you that on 10/31/62 representatives of this Bureau conferred with CIA representatives James Hunt, John Mertz and Thomas Chalmers at CIA concerning "Project Hunter." At this conference our observations concerning Hunter material furnished since our last conference on 2/13/62 were given CIA. In addition, we advised CIA specifically of certain Hunter items which were of no interest to us and of certain Hunter items which were of interest to us. These items were set forth in memorandum form and furnished to CIA; a copy of same is attached.

5

CIA advised that its "Hunter-Don" coverage was being operated seven days a week until November 15. This concentrated coverage is for the purpose of determining if there is any illegal agent traffic. After November 15 all Hunter coverage can be expected to be reduced until after the Christmas mail rush has subsided.

The CIA representatives were very pleased with our analysis of the Hunter material received and with the attention afforded it by us. They are very cooperative in that they are willing to focus their attention on any particular phase of coverage we suggest for our own benefit. For CIA's interest we furnished them a copy of the attached memorandum of our analysis of typical information furnished by Bureau Informant 200 of interest to us.

ACTION:

None. Above data furnished for your information.

RE: PROJECT HUNTER

After an extensive review of 2500 Hunter Reports since our last memo captioned as above and dated 8/21/62, we have made the following observations in the interest of economy in regard to Project Hunter as it related to our Bureau and your Agency to insure time will not be unnecessarily expended by our Bureau processing unwanted material and to save your Agency the expense involved in the preparation of such material.

I Traffic Which Holds No Interest:

1. Soviet-bloc immigrants desiring to repatriate to USSR. These people are interviewed by INS and INS refers anything of interest to us.

2. Americans traveling to the USSR as such travel is permissible and several hundred people a year visit the USSR while on tour abroad as well as Soviets returning to visit relatives. We, of course, have an interest in such travel involving people on the CIA Watch List, known Communist Party members, and suspected intelligence agents.

3. U. S. professors in Academic Research corresponding with each other. It is not likely if U. S. professor is passing any data he would identify himself at the same time.

II Traffic of Specific Interest:

1. All data re Cuba. This serves to identify pro-Castro followers in the U. S.

2. All data re U. S. Cubans in contact with Cubans attending Friendship University in Moscow.

3. All material emanating from Puerto Rico of an Anti-U. S. nature and pro-Soviet.

4. Data re U. S. peace groups going to Russia and while in Russia.

5. Data indicating death of any U. S. Communist abroad.

6. Data re Maurice Hyman Halperin(now in Cuba); Helen Kagen Pozner; Miriam Zeitlin Seborer, Oscar and Stuart Seborer(All in Russia); Max, Celia and Rose Seborer(New York); Noah and Anna Sparer Seborer (Mexico).

7. Any data on Alfred Slesinger operator Modern Photo Shop, 865 3rd Avenue, New York City(wife Kitty), residence 1860 Grand Concourse, Bronx, New York.

RE: PROJECT HUNTER

8. Any traffic from or to U. S. Students in Moscow or to U. S. persons who were former students in Moscow.

9. Any traffic between U. S. persons who are with a current exposition or a previous exposition in the USSR.

MEMORANDUM FOR THE SPECIAL ASSISTANT TO THE SECRETARY AND DEPUTY
SECRETARY OF DEFENSE

SUBJECT: Watch List Correspondence

1. As a part of the recent request by the Senate Select Committee, we reviewed our files to see if there were any responses to General Allen's letter of September 17, 1973 which requested recertification of "Watch Lists." At that time we did not find any responses. We recently checked with the FBI and Secret Service and discovered that there were in fact responses. The Secret Service, by letter dated 21 September 1973, did in fact recertify a "Watch List" containing U.S. names, however, NSA has not accepted the U.S. names.

2. Inclosed are copies of the FBI and Secret Service letters. Request you forward these to the Senate Select Committee with the above comments.

Lieutenant General Lew Allen, Jr.
Director

Fort George G. Meade, Maryland

Dear General Allen:

I am in receipt of your letter of September 17, 1973, concerning the necessity for a mutual review of our policies with respect to the compilation and maintenance of the Watch List. I share your concern and fully agree that we should review our procedures to assure that our authorities, particularly in light of recent court decisions, are not exceeded.

As you are aware, however, the Department of Justice in filing affidavits with the United States District Court, Eastern District of Michigan, in the case of United States versus William Ayers, et al., which case involved the Students for a Democratic Society, an organization included on the Watch List, took the position that the intercepts obtained by your agency were lawful and not within the disclosure requirements of the court.

We are instituting a review of our procedures but feel that any decision reached respecting the Watch List should await the final ruling of the court.

On October 21, 1975, from approximately 2:15 p.m. to 3:35 p.m., Section Chief William A. Branigan, CI-1 Section, Intelligence Division; Assistant Director John A. Mintz, Legal Counsel Division; and myself appeared at an Executive Session of the Senate Select Committee on Intelligence Activities to discuss classified aspects of the Bureau's various mail intercept programs. Present were Senator Church, Chairman of the Select Committee; Senators Mondale, Goldwater, P. A. Hart, Huddleston, and Schweiker; as well as various members of the staff of the Select Committee.

Generally speaking, the reception by the Chairman and the various Senators, as well as members of the staff, was a friendly one. No antagonism was shown to the Bureau representatives, and the Senators by their questions indicated a desire to help the Bureau in our foreign counterintelligence operations.

At the request of the Chairman, the eight separate mail intercept surveys were explained to the Committee, including the length of time that these surveys were in operation and the value that was derived from them.

During the hearing we were supplied with a copy of a Staff Memorandum which outlined various aspects of our operations which would not be disclosed during a public hearing. The Staff Memorandum also outlined certain questions which could not be discussed at a public hearing and suggested that these questions be raised at the Executive Session. ADDENDUM BY LEGAL COUNSEL 10/23/75, JAM:mfd

I answered the Committee's questions described in the last paragraph of this memorandum by explaining to them that in a security case we would find it most difficult to meet the 4th Amendment standard of probable cause in order to obtain a search warrant. for mail. If we are to be required to obtain warrants prior to obtaining mail and if we are to be successful, a lower standard of probable cause such as is permissible in administrative searches such as those conducted by Health Inspectors would be necessary. In answer to a specific question I explained that the Supreme Court has ruled that mail is protected absolutely by the 4th Amendment.

EXECUTIVE SESSION ON FBI MAIL OPENING PROGRAMS

FBI Assistant Director W. Raymond Wannall and William Branigan, Chief of the Soviet Section of the FBI Counterintelligence Branch, have requested an opportunity to appear before the Select Committee in executive session to discuss classified aspects of the FBI mail opening programs. Both of them will be witnesses at the public hearing on FBI mail openings on Friday.

The Committee staff has agreed that the public hearing will not disclose the following aspects of FBI mail openings:

1. The identity of the foreign nations involved, including the Soviet Union, Communist China, Cuba, Mexico, Hong Kong, Japan, most Western European countries, and several Central and Latin American countries.

2. The fact the mail to and from the Soviet Embassy and the Soviet United Nations Mission, the Cuban United Nations Mission, other Soviet-bloc Embassies was selectively opened. (S)

3. The "indicators" used as criteria for selective opening of mail screened in several other programs designed to detect illegal foreign intelligence agents in the United States. (The fact that there were "indicators," but not their nature, may be disclosed publicly.)

4. The identities of specific individuals and groups whose mail was opened either by the FBI or by the CIA at the request of the FBI. (FBI officials will state publicly that some of these, especially in the category "peace and protest groups," were not adequately justified.) Some of these included:

   Leonard Bernstein
   Clergy and Laymen Concerned About Vietnam
   Jeremy Stone
   Cambridge Center for Study of Public Policy

~~TOP SECRET~~

The following are questions which cannot be discussed in public hearings because of this agreement. They should be raised at this executive session:

1. What was the actual intelligence value of FBI mail openings aimed at mail to and from the [Soviet and Soviet-bloc embassies?] ~~(S)~~
2. What was the actual intelligence value of FBI mail opening programs using "indicators" and designed to detect illegal foreign intelligence agents in the United States? [(Soviet and Cuban)] ~~(S)~~
3. What was the actual intelligence value of the material supplied to the FBI by the CIA from its mail opening operation?
4. How good are the "indicators" in selecting mail of foreign intelligence agents only and not mail of American citizens or others who are not foreign agents?
5. What standards were used for opening mail to and from Communist China, and what was the intelligence value of these programs?
6. Do FBI counterespionage officials desire to resume any mail opening programs, with proper authorization from Congress and the Attorney General?
7. How do the benefits of mail opening compare with the benefits of warrantless electronic surveillance currently used by the FBI for foreign intelligence and counterintelligence purposes?

NOTE:

Materials furnished in response to this request were obtained by review of all abstracts regarding communications to the Postal Service requesting mail covers. Since 1971, all national security mail covers have been requested by means of a letter to the Chief Postal Inspector, Postal Service. The materials being furnished only encompass investigative matters involving domestic security cases wherein the mail cover has been terminated whether the investigation is pending or closed. The materials are comprised of copies of the letters to the Postal Service and supportive memoranda where used in lieu of notes. These materials were reviewed and, where necessary, excisions made. By memorandum 9/24/75, the SSC was furnished the bulk of such documents located at that time. The documents being furnished now are those which could not be immediately located. All domestic mail cover requests which were located by means of the abstract review have now been furnished to the SSC.

By oral agreement with the SSC staff, only domestic security mail covers were required to be furnished.

The Bureau is requested to consider securing copies of income tax returns for the UNITED KLANS OF AMERICA, INC., KNIGHTS OF THE KU KLUX KLAN; ROBERT MARVIN SHELTON, 1708 - 15th Street, East, Tuscaloosa, Ala., or the ALABAMA RESCUE SERVICE, a name by which the UKA is sometimes known.

Inquiry at the banks in Tuscaloosa has failed to reveal any accounts in the name of the UKA or ROBERT M. SHELTON, except a small personal account of SHELTON at the First National Bank of Tuscaloosa. Informants have advised that SHELTON is paid probably $8,000 per year for his work as Imperial Wizard. This money is sent in monthly to UKA headquarters in Tuscaloosa by the individual Klaverns and presumably put in some bank.

An examination of pertinent income tax returns might furnish information concerning the financial standing of SHELTON and UKA which could be used in this program.

COUNTERINTELLIGENCE PROGRAM
INTERNAL SECURITY
DISRUPTION OF HATE GROUPS
(ROBERT M. SHELTON)
(UNITED KLANS OF AMERICA, INC.)

Robert Marvin Shelton is a full-time paid employee of the United Klans of America, Incorporated (UKA), Knights of the Ku Klux Klan with the title Imperial Wizard. He is probably the most influential and well-known Klansman in the United States. We are endeavoring as a counterintelligence technique to develop information discrediting Shelton or embarrassing to the UKA.

Through analysis of the income tax returns we may be able to determine secret sources of Shelton's income or depository used by him for the Klan organization. There is a possibility that he is misappropriating funds. We also have information Shelton has been on the payroll of a Mobile, Alabama, engineering firm as a public relations man.

In the event we determine such information we will consider exposing Shelton within the Klan organization, publicly or by furnishing information to the Internal Revenue Service.

RECOMMENDATION:

It is recommended the Liaison Section obtain from the Internal Revenue Service two uncertified copies each of the Federal tax returns filed by Shelton and the UKA for the past five years. Attached is a memorandum for the use of the Liaison Section.

ReBHlet 11/7/64.

Attached are Xerox copies of Federal income tax returns filed by Robert M. and Betty Lou Shelton for the years 1959-63 inclusive. Also attached are Xerox copies of United States corporation tax returns filed by Robert M. Shelton as a corporate officer of the United Klans of America, Inc. (UKA), for the years 1961 (year ending 6/30/62) and 1963 (year ending 6/30/64) as well as a statement of no tax liability for the year ending 6/30/63. Information set forth in these tax returns is for lead purposes only and should not be set forth in the details of any investigative report.

The following comments and investigative instructions are noted in connection with these tax returns:

1. The individual returns filed jointly by Shelton and his wife during the period 1959 through 1963 indicate Shelton's occupation to be "salesman" and "manager" and in no instance do they indicate any employment or association with the Klan. This is in conflict with the corporate returns filed by Shelton for the UKA where he indicates his position as "Imperial Wizard" or "President."

2. Shelton's return for 1959 indicates it was prepared by Ed F. Allen, Jr., Certified Public Accountant, Post Office Box 3[illegible], Tuscaloosa, Alabama. The form and typing on the other tax returns, both corporate and individual, indicate a strong likelihood these too were prepared by Allen. You should review your files and conduct necessary investigation to determine if Allen is active in connection with financial matters relating to the Klan.

This document is prepared in response to your request and is not for dissemination outside your Committee. Its use is limited to official proceedings by your Committee and the content may not be disclosed to unauthorized personnel without the express approval of the FBI.

3. In no instance in his individual tax returns does Shelton indicate the receipt of income for his position of Imperial Wizard or President of the UKA. However, his returns do indicate he has received some salary payments from such sources as "Tex Harris," "J.H. Mason," "Alabama Tire Company," "J & H Equipment Co.," and "Vann & Johnson Misc. Sgr." Inasmuch as your informants have advised Shelton spends almost all his time on Klan business and is paid almost $10,000 annually by the Klan, it would appear these salary sources are covers for payments made to him to compensate for his Klan employment. Necessary investigation should be conducted to resolve the true source of Shelton's income.

4. Shelton's return for 1960 shows other income received from a wrestling enterprise in Nashville, Tennessee. This source of income should also be checked to determine its legitimacy. It is possible Shelton's relationship with this enterprise also represents a cover for Klan activity or that the payments made to him were for efforts in behalf of the Klan.

5. In no instance does Shelton indicate any interest or dividend income. It is known he has a bank account at the First National Bank of Tuscaloosa. An attempt should be made to determine if he has failed to report interest actually earned. It is also noted the corporate returns filed by the UKA do not in any instance indicate interest received.

6. Shelton's return for 1963 lists other income of $500 as received from "Commissions - Dixie Engineering Co." Your attention is directed to an editorial that appeared in the Tuscaloosa "News," edition of 6/12/64, wherein it is indicated Shelton had been listed on the payroll of a Mobile engineering firm as a public relations man. Investigation should be conducted to determine Shelton's relationship with the Dixie Engineering Co. and also whether this company had a contract involving the use of Federal and/or state funds.

7. The corporate returns of the UKA, as filed by Shelton, in no instance indicate salary payments although both Shelton and his wife have been reported by your informants as full-time employees.

8. The gross income of Shelton and his wife for the year 1963 totals $1,075. This amount does not appear to be sufficient to support a family of five. All possible efforts should be made to develop evidence indicating Shelton is withholding or concealing income.

This investigation should be afforded prompt and continuing attention and the Bureau must be advised of all pertinent developments.

When all possible leads have been developed a blind memorandum should be prepared setting forth Shelton's background and current position with the Klan and all data probative of a possible violation of Internal Revenue laws. The Bureau will make this information available to appropriate Internal Revenue Service officials at the Seat of Government.

INTERNAL SECURITY - X

At the request of the Internal Security Section, Mr. William Parker, Internal Revenue Service (IRS), was contacted on 6/23/67 to determine the status of the IRS case on Robert Shelton, Imperial Wizard of the United Klans of America.

Parker advised that IRS had initiated investigation of Shelton for possible tax evasion for the years 1963 through 1965. This case is still under investigation but indications are that Shelton owes no income taxes for 1963 and 1965 and owes $100 in taxes for the year 1964. According to Parker, it appears that the criminal tax investigation of Shelton will be closed and the case will be referred to the Audit Division of IRS for civil disposition.

REC- 61

This report relates to the alleged evasion of income taxes for the years 1963 and 1964 by ROBERT M. SHELTON and the alleged wilful failure to file 1961 and 1963 corporate returns by the UNITED KLANS OF AMERICA, K.K.K., INC. It was also alleged that SHELTON diverted KLAN funds to his personal use. SHELTON has been Imperial Wizard of the UNITED KLANS OF AMERICA, K.K.K., INC. since 1961. He maintains an office for himself and the KLAN in his residence at 18 Lake Sherwood, Northport, Alabama 35476. He received mail for himself, the KLAN, and ALABAMA RESCUE SERVICE at P. O. Box 2369, Tuscaloosa, Alabama 35401. ALABAMA RESCUE SERVICE is a cover name for the KLAN organization in Alabama. He filed his individual income tax returns involved with the District Director, Birmingham, Alabama.

AUG 9 1967

Revenue Agent Wade Hutchinson, Tuscaloosa, Alabama, cooperated in the joint investigation. This case has been classified as sensitive.

This document is prepared in response to your request and is not for dissemination outside your Committee. Its use is limited to official proceedings by your Committee and the content may not be disclosed to unauthorized personnel without the express approval of the FBI.

BASIS FOR INVESTIGATION:

The investigation originated as a referral from Audit Division. It was alleged that SHELTON received $4,000.00 from DIXIE ENGINEERING COMPANY of Mobile, Alabama, during the years 1963 and 1964 and reported only $2,000.00 from this source during the aforementioned years. It was further alleged that SHELTON travels in a late model Cadillac, dresses well and recently built a new house while reporting very nominal amounts of income on his tax returns.

In respect to the KLAN, it was alleged that no corporate returns were filed for the years 1961 and 1963 and that corporate funds were being diverted to the personal use of corporate officers.

KU KLUX KLAN organizations were the subject of an investigation by the House Un-American Activities Committee during the years 1965 and 1966. SHELTON was tried and convicted on a Contempt of Congress charge for refusing to testify and produce KLAN records before this committee. He was given the maximum sentence, one year in prison and $1,000 fine, on October 14, 1966. SHELTON's conviction is presently on appeal.

Evidence was offered before the House Un-American Activities Committee alleging SHELTON signed checks on the KLAN bank account in Tuscaloosa, payable to cash, aggregating $5,600.00, which were cashed at grocery stores and service stations; and that he allegedly paid for automobiles and a diamond ring with KLAN funds. SHELTON refused to confirm or deny these allegations when testifying before the Congressional Committee.

EXTENT AND RESULTS OF INVESTIGATION:

1. I obtained photostats of INVISIBLE EMPIRE, UNITED KLANS, KNIGHTS KU KLUX KLAN OF AMERICA, INC., incorporation papers from IMPERIAL WIZARD ROBERT SHELTON. They disclose incorporation date of February 20, 1961, in Fulton County, Georgia. The general purpose of the corporation, according to these papers, is: "to teach patriotism, to support the Constitution and Laws of the United States, and to maintain the liberty bequeathed to us by our forefathers, and to preserve the American way of life."

2. I obtained SHELTON's tax returns from the files of the District Director, Birmingham, Alabama. They disclose adjusted gross income as follows:

Year	Adjusted Gross Income
1961	$ 5,600.00
1962	4,200.00
1963	1,875.00
1964	3,576.62
1965	4,663.23
1966	10,031.21

63-64-037-1-1
63-73-022-1-1

Shelton claimed a standard deduction on each of the returns and they were filed timely and the tax paid which was shown to be due thereon.

3. I obtained KLAN tax returns from the files of the District Director, Birmingham, Alabama. They disclose gross receipts and taxable income as follows:

FYR	Gross Receipts	Taxable Income
6/30/62	$ 2,980.05	$ -0-
6/30/64	7,415.63	-0-
6/30/65	13,487.60	741.09
6/30/66	75,168.12	7,135.01

SHELTON gives President JOHNSON credit for increasing gross receipts of the KLAN from $7,415.00 in 1964 to $75,168.12 in 1966. He stated that every time "LBJ" gets on television and condemns the KLAN, he gets a flood of membership applications. He also stated that the publicity he received during the House Un-American Activities Committee hearing in 1965 and 1966 got him many new members.

4. Revenue Agent HUTCHINSON and I interviewed SHELTON on seven different occasions between April 5, 1967 and May 17, 1967. He instructed his wife, BETTY LOU SHELTON, and KLAN BOOKKEEPER, MRS. MELVIN SEXTON, to cooperate with us and make available all records of financial transactions of the KLAN. SHELTON stated that:

a. He did not furnish books and records of the KLAN to the House Un-American Activities Committee because his attorney advised him he could not waive his immunity on part of his records or on part of his testimony. He either had to take the "Fifth Amendment" all the way or disclose confidential records of KLAN membership which he had taken an oath not to disclose.

b. The books and records of the KLAN are audited at least once a year by KLAN EXAMINERS. The results of this examination is reported on the annual corporate income tax return.

c. The KLAN is a tax exempt organization and should not be required to file tax returns. SHELTON exhibited a letter from the State of Alabama Revenue Department which stated that, "The UNITED KLANS OF AMERICA, INC., is exempt from Alabama income tax and as long as it is operated not for profit and not for the gain of any individual it will not be necessary that corporate income tax returns be filed."

SHELTON acknowledged he had never applied for exempt status for the KLAN for Federal tax purposes because he would have to disclose information regarding KLAN membership which he was not at liberty to disclose.

d. SHELTON stated that the KLAN is on a "Form System." Each Clavern (Unit) prepares a Monthly Financial Report in triplicate and sends one copy to the Imperial Office in Tuscaloosa, one copy to the State Klan Office and retains one copy for the local unit file. This form lists the following financial information from each unit, each month:

63-64-037-1-1
63-73-022-1-1

TOTAL INCOME $_____	TOTAL EXPENDITURES $_____

e. SHELTON stated that he was authorized by the KLAN to draw $15,000.00 per year salary but 1966 was the first year the KLAN was financially able to pay him the full $15,000.00. Prior to 1966, his salary was determined at the end of each year by aggregating his withdrawals from the KLAN, reduced by the amount of documentation for travel and other KLAN expenses he had turned in during the year.

f. SHELTON converted his carport into an office and moved the KLAN office from the Alston Building in Tuscaloosa into his space May 1, 1966. The KLAN pays SHELTON $35.00 per month rent and $15.00 per month on his utilities.

g. SHELTON maintains that four of the eight $500.00 checks he received from DIXIE ENGINEERING COMPANY bounced. The reason the four $500.00 items do not show on his bank statements as a debit to the account was the balances at the time the checks were returned were less than $500.00 and he picked up the checks with cash or with another check from DIXIE ENGINEERING.

h. KLAN checks were made payable to "Cash" because just any one would not cash a KLAN check. When he left Tuscaloosa on KLAN business he never knew where he would be able to cash a check so he would make the check payable to cash and cash the check at some grocery store or service station where he was known. The amounts were charged to him on the KLAN books and he brought back gas tickets, motel bills, invoices, etc., to account for the

63-64-037-1-1
63-73-022-1-1

money spent. SHELTON stated that he travels 90,000 to 110,000 miles per year on KLAN business. He traveled 120,000 miles by automobile during the year 1966 on KLAN business.

5. Revenue Agent Hutchinson and I examined the KLAN's bank statements, cancelled checks, deposit tickets and cash receipts and disbursements books for FYE 6/30/62 through FYE 6/30/66. Receipts and expenses per books substantially reconciled with receipts and expenses per returns. For the four year period, net income was overstated on returns by $48.10. The 1963 corporate return filed by the KLAN was never located. We worked with a Profit and Loss Statement located in the KLAN file for that year which showed receipts of $3,879.44, disbursements of $3,634.89 and taxable income of $240.49. SHELTON claims he recalls mailing the 1963 return to the District Director in Birmingham. Mrs. CAROL LONG, KLAN BOOKKEEPER during this period, recalls preparing the return and giving it to SHELTON to sign and mail. Receipts during the period 2/20/61 to 6/30/61, the first four months of operation of the UNITED KLANS OF AMERICA, were negligible and were included in receipts for the FYE 6/30/62.

6. Revenue Agent Hutchinson analyzed all checks written to cash and examined the supporting documents. Checks to cash totaled:

Year	Total	
1961	$ 156.18	
1962	184.92	
1963	1,033.75	
1964	5,104.69	
1965	11,787.45	$18,266.99

Checks written to cash and not supported by documentation were reported by SHELTON as income on his individual income tax return. Numerous checks to cash were signed by SHELTON and cosigned by T.M. MONTGOMERY or JAMES HENDRIX. It was brought out during the House Un-American Activities Committee hearings that T.M. MONTGOMERY was signed by CAROL LONG, KLAN BOOKKEEPER, and JAMES HENDRIX was signed by SHELTON's wife, BETTY LOU. SHELTON acknowledged that the MONTGOMERY and HENDRIX names on the checks were KLAN code names for MRS. LONG and MRS. SHELTON and that the names and signatures were on file at the bank. This information was corroborated by FIRST NATIONAL BANK VICE PRESIDENT J. H. PERDUE.

7. Receipts per monthly reports of various KLAN UNITS were compared with total receipts per return for FYE 6/30/64 and 6/30/65. Total receipts per reports and total receipts per returns were as follows:

Year	Receipts per Reports	Receipts per Returns	Variance
6/30/64	$ 5,557.25	$ 7,415.63	$1,858.38
6/30/65	17,552.40	18,487.60	935.20
	$23,109.65	$25,903.23	$2,793.58

The variance between receipts per reports and receipts per return consisted mainly of monies which came in without a report and anonymous contributions.

8. Monthly reports of various KLAN UNITS were pulled at random from six different states. The reports were traced individually to Cash Receipts Journal, to deposit tickets and to bank statements, without discrepancy.

63-64-037-1-1
63-73-022-1-1

9. Photostats of several thousand checks from various KLAN UNITS, payable to SHELTON or ALABAMA RESCUE SERVICE, were secured from the House Un-American Activities Committee file. I found only one of these checks which was not endorsed "For deposit only" to ALABAMA RESCUE SERVICE account in Tuscaloosa. A check dated 3/28/64 payable to ROBERT M. SHELTON, in amount of $50.00, on the account of WHITE PATRIOTS, P. O. Box 7094, Montgomery, Alabama, was endorsed by SHELTON and THE AUTO-RITE STORE in Tuscaloosa. The amount was entered in receipts on the KLAN books as a donation from WHITE PATRIOTS of Montgomery. SHELTON stated that the $50.00 was for four recaps on his automobile which was used for KLAN business.

10. Transcript of the testimony of ERNEST H. MERRIWETHER, President, DIXIE ENGINEERING CORPORATION, Mobile, Alabama, was secured from the House Un-American Activities Committee file together with photostats of eight $500.00 checks payable to SHELTON during 1963 and 1964. MERRIWETHER was not contacted personally on advice of U. S. Attorney ROBERT JANSEN, Southern Judicial District of Alabama. MERRIWETHER has several tax suits pending in Mobile at present.

MERRIWETHER testified that he paid SHELTON the following checks:

Date	Amount	
7/14/63	$500.00	
9/24/63	500.00	
11/6/63	500.00	
11/13/63	500.00	$2,000.00
1/8/64	$500.00	
2/13/64	500.00	
3/13/64	500.00	
4/22/64	500.00	$2,000.00

SHELTON reported $500.00 from this source on his 1963 return and $1,500.00 on his 1964 return. He contends four of the $500.00 checks "bounced." The ledger sheets on his personal account at the FIRST NATIONAL BANK OF TUSCALOOSA and the deposit tickets to this account disclosed eight $500.00 deposits to the account from DIXIE ENGINEERING and only one debit to the account for $500.00 for a returned DIXIE ENGINEERING check.

D. L. THOMAS, accountant for DIXIE ENGINEERING, stated that all eight checks to SHELTON were posted to their disbursements journal and postings to this journal were made from checks after they cleared the bank.

The eight checks in question were written on six different bank accounts. The banks were contacted and their records indicate all eight checks were eventually paid. However, SHELTON's five exemptions and a standard deduction for the year 1963 will offset his reported income plus the additional $1,500.00 on his 1963 return. The additional $500.00 in 1964 is more than

offset by unclaimed depreciation on his automobile for that year. He will owe a small amount of self-employment tax on the unreported net amounts.

11. Revenue Agent Hutchinson and I examined SHELTON's account at LORCH's DIAMOND SHOP in Tuscaloosa from opening purchase on 6/11/62 to date. The diamond ring alleged to have been purchased with KLAN funds during the years 1964 and 1965 was purchased June 11, 1962 by MRS. SHELTON for $339.60, which amount includes carrying charges. She paid $30.00 per month on this account until November 8, 1963, at which time the account was paid in full. The checks drawn on the KLAN account to LORCH's DIAMOND SHOP during the years 1964 and 1965 were payments on an Invicta Tape Recorder purchased on 5/18/64 for $62.95 and a Webcor Recorder purchased on same date for $167.00. These items were purchased for the KLAN and charged to his account, according to SHELTON, because LORCH's would not extend credit to the KLAN.

12. Sales Invoice from STANSELL PONTIAC-CADILLAC COMPANY, 2115 15th Street, Tuscaloosa, shows the Cadillac purchased by SHELTON to be a used 1961 CADILLAC purchased on November 18, 1964, for $612.00 cash and a trade-in of a 1963 Pontiac Grand Prix. SHELTON said he traded the 1963 Pontiac on a 1961 Cadillac because the Pontiac had over 100,000 miles on it. The KLAN made three payments on the Pontiac for SHELTON but none on the Cadillac. A check was issued on the KLAN account on 6/15/63 to STANSELL PONTIAC-CADILLAC COMPANY for $277.66 and another check to the same company on 9/27/63 for $136.33. SHELTON failed to include these payments in income for the year 1963 and did not claim any depreciation on the Pontiac for that year.

13. SHELTON purchased his residence in Northport, Alabama, in April, 1966. The property was purchased from Lake Real Estate Company in Tuscaloosa for $20,876.47. He paid $11,000.00 down and assumed a $1,000.00 second mortgage held by Lake Real Estate Company. Balance of $8,876.47 was financed at FIRST FEDERAL SAVINGS AND LOAN ASSOCIATION, Tuscaloosa, Alabama.

SHELTON acquired the $11,000.00 down payment by selling his residence at 1703 East 15th Street in Tuscaloosa for $5,000.00 and drew $6,000.00 accrued salary from the KLAN, which was included on his W-2 statement from the KLAN for the year 1966.

In June, 1966, SHELTON purchased the adjoining lot to his home for $1,500.00. This amount was raised by selling various books at KLAN rallys and through the mail. A separate record was kept by MRS. SHELTON of this income and was reported on SHELTON's 1966 income tax return.

CONCLUSIONS AND RECOMMENDATIONS:

The investigation disclosed that: (1) Substantially all checks received by the KLAN are deposited to the KLAN account in Tuscaloosa; (2) Currency received and cash donations are recorded on the KLAN books as receipts; (3) Checks drawn on the KLAN account payable to cash are substantiated by

63-64-037-1-1
63-73-022-1-1

receipts and invoices; (4) there is no indication of income being received by the KLAN and not posted to their books; (5) controversial receipts by SHELTON from DIXIE ENGINEERING are offset by his exemptions and allowable depreciation on his automobile; (6) allegations that SHELTON purchased a diamond ring and a Cadillac automobile with KLAN funds are negated by available evidence, and (7) failure to file 1961 and 1963 returns by the KLAN resulted in no injury to the government.

I recommend that this case be closed in the Intelligence Division files because of lack of criminal prosecution potential and referred back to the Audit Division for such action as they deem appropriate. Audit Group Supervisor G. D. Grim advises he has no objection to this proposed withdrawal.

Dear Sir:

Enclosed is our 1967 income tax return. Salary for which there is no W-2 forms comes from several short or part time jobs which did not withhold.

Just as last year we cannot, of course, voluntarily pay our tax so long as the war in Vietnam continues. Should the government run short of funds in the meantime we suggest repeal of the oil depletion allowance or any other of the tax breaks for the wealthy.

UNITED STATES SENATE SELECT COMMITTEE
TO STUDY GOVERNMENTAL OPERATIONS WITH
RESPECT TO INTELLIGENCE ACTIVITIES (SSC)

Reference is made to the letter from the Director of the Domestic Intelligence Task Force, SSC, to the Deputy Attorney General's Office dated September 9, 1975, requesting delivery of FBI materials pertaining to Martin Luther King, Jr., and/or the Southern Christian Leadership Conference.

The purpose of this memorandum is to effect delivery to the SSC of information and materials relating to the September 8, 1975, SSC requests and specifically to the following Items in those requests: Items 8, 9, 11, 13 and 14.

Relative to Item 8, upon review of the file the only information located which is suggestive of being that to which Mr. Hoover referred in his written statement on the Baumgardner September 16, 1963, memorandum to Mr. Sullivan, is the prior memorandum from Mr. Baumgardner to Mr. Sullivan August 23, 1963. That document was previously furnished under Item 12 of this request.

Although there is no way of knowing just what Mr. Hoover was referring to with his statement, the August 23, 1963, memorandum summarizes a detailed memorandum which was attached to it and advises of Communist Party, USA, efforts being discontinued because of being "ineffective." Mr. Hoover wrote a comment on the August 23, 1963, memorandum to the effect that he could not ignore certain matters as having only "infinitestimal" effect on the efforts to exploit the American Negro by the communists.

This document is prepared in response to your request and is not for dissemination outside your Committee. Its use is limited to official proceedings by your Committee and the content may not be disclosed to unauthorized personnel without the express approval of the FBI.

Item 11 requested all materials reflecting or pertaining to conversations between Courtney Evans and Assistant Attorney General Burke Marshall, and/or between Mr. Evans and the Attorney General, as described in Assistant Attorney General Marshall's September 20, 1963, memorandum to the Director captioned "Hunter Pitts O'Dell." An extensive review has been conducted of all logical files, abstracts and indices in an effort to find documents relating specifically to such conversations described in the request. The attached materials represent the only documents located that appear to be related in any manner to these conversations.

Item 13 requested the "detailed document prepared on Communist Party and the Negro in 1953," and the "analysis in this same field prepared by the Bureau in 1956," which are referred to in the penultimate paragraph of page two of Mr. Sullivan's September 25, 1963, memorandum to Mr. Belmont, subject "Communist Party, USA, Negro Question, Communist Influence in Racial Matters, Internal Security - C."

These two documents have been located. The 1953 document captioned "The Communist Party and the Negro" is a 103-page study of the interest and activities of the Communist Party, USA, in Negro-related causes and covers the years 1919-1952. The October, 1956, study is entitled "The Communist Party and the Negro, 1953--1956" and it supplements the 1953 study, and consists of 57 pages. SA Elmer W. Larson, Jr., discussed this matter with Mr. Michael Epstein of the SSC Staff on October 8, 1975. Mr. Epstein agreed that these documents need not be delivered at this time. It was agreed that the documents will be made available for access. If upon review copies are desired they will be provided. (66-04-1775; 100-3-75-1270)
